SWANER HARDWOOD CO., INC.
PROFIT SHARING/401(K) PLAN
Notes to Financial Statements
December 31, 2011

1. DESCRIPTION OF THE PLAN

The Swaner Hardwood Profit Sharing/401(K) Plan (the Plan) is a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC.) The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974. A general description of the Plan follows. For a more complete description, participants should refer to the Plan Provision Summary or the Plan Document, which are available from the Plan administrator.

The Plan is a defined contribution plan covering employees of Swaner Hardwood Company, Inc., Mt. Baker Products, Inc., and Goodyear Nelson Hardwood Lumber Co., Inc. (the Company) who have completed twelve months of service with one thousand hours of service within that year and are age twenty-one or older. The Plan provides for quarterly entry dates on January 1st, April 1st, July 1st, and October 1st for those employees having satisfied the eligibility requirements.

Participants may defer tax free, 1% to 100% of their qualified annual compensation to the Plan, limited to a maximum annual amount as set by the Internal Revenue Code. The Plan provides for a discretionary matching contribution. Although this contribution is at the discretion of the Board of Directors, it is company policy to match 25% of the participants' deferral subject to a maximum of 5% of the participant's compensation. The Company's matching contributions to the Plan totaled $44,915 for the year ended December 31, 2011.

In addition, the Plan provides for discretionary profit sharing contributions as determined by the board of directors. Such contributions to the Plan are allocated among eligible participants in the proportion of their compensation to total compensation of all participants. No profit sharing contributions were made for the year ended December 31, 2011.

Each participant's account is credited with the participant's contribution, allocations of the Company's contribution, plan earnings and is charged with actual expenses incurred by the participant such as loan fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants immediately vest in their tax deferred contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contributions plus actual earnings thereon is based on years of service. Participants become 100% vested over a six-year period of time except in the case of retirement, death or disability in which case, participants will immediately vest in their entire account balance. Participants can receive distributions from their accounts at retirement (age 65), after reaching the age of 59 ½, upon termination of employment, or upon death or disability.

Forfeitures may be used to offset administrative expenses and offset the Company's future matching contributions. During the year ended December 31, 2011, $52 in forfeitures were used to offset employer matching contributions. At December 31, 2011 there were no

1. DESCRIPTION OF THE PLAN (CONTINUED)

forfeited non-vested accounts. There were no forfeited non-vested accounts at December 31, 2010. The Company paid all of the Plan's investment fees except for $18,000 for the year ended December 31, 2011, which were paid by the Plan.

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2. SIGNIFICANT ACCOUNTING POLICIES

The accounting records of the Plan are maintained on the accrual basis of accounting except as noted below regarding benefit payments. The accuracy of these financial statements, notes to financial statements, supplemental schedule of assets (held at end of year), and supplemental schedule of delinquent participant contributions are the responsibility of the Plan's management.

Investments

Guaranteed Investment Contract. The Plan holds a guaranteed investment contract in common/collective trusts. The plan reports this investment at fair value as determined by the net asset value (NAV) of shares held by the plan at year end and adjusts it to contract value. This investment represents more than 5% of net assets. See Notes 6 and 9 for further fair value disclosures.

Registered Investment Companies. The Plan has invested in registered investment companies. These investments consist of mutual funds and are recorded at fair market value as published in market listings and represent more than 5% of net assets. See Note 9 for further fair value disclosures.

Pooled Separate Accounts. The Plan has invested in pooled separate accounts. These investments are similar to mutual funds, and some of the investments may be in individual stocks or bonds. They are valued at the net asset value (NAV) of shares held by the plan at year end and represent more than 5% of net assets. See Note 9 for further fair value disclosures.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable From Participants

The Plan allows for participants to borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The trustee of the Plan notifies the Company of past due or delinquent loans. If a note receivable becomes uncollectible, it is Plan policy to deem the defaulted loan a distribution, which according to the Plan document may be taxable to the participant. The Plan's management expects that all outstanding loans will be collected by the Plan. There is no allowance for doubtful accounts as of December 31, 2011. The loans bear interest rates ranging from 4.25% up to 9.25%.

Contributions Receivable

Contributions receivable are the amounts due, as of the financial statements date, to the Plan from the employee or the employer. The amount has been properly recognized as of the Company's financial statement date as a payable.

Benefits Paid to Participants

Benefits paid to participants are recorded when paid as required by U.S. generally accepted accounting principles for qualified retirement plans.

Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. Significant estimates include the fair market value of investments.

3. INCOME TAX STATUS

This Plan obtained its latest determination letter on July 22, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or

3. INCOME TAX STATUS (CONTINUED)

asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that for the year ended December 31, 2011, and for all previous tax years subject to investigation by the relevant taxing authorities, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is no longer subject to investigation by the relevant taxing authorities for tax years before 2008.

4. INVESTMENT INFORMATION CERTIFIED BY THE DELAWARE CHARTER GUARANTEE & TRUST COMPANY AND THE PRINCIPAL LIFE INSURANCE COMPANY

During the year ended December 31, 2011, participants of the Plan directed the investment allocation of their individual accounts. Total investments allocated to participant accounts were $7,596,189, at December 31, 2011 and $8,213,701at December 31, 2010. Principal certified the following information included in these financial statements:

Description	Value at 12/31/11	Value at 12/31/10	Net Change In Value
Guaranteed investment contract	$ 2,404,528	$ 2,569,970	$ (165,442)
Pooled separate accounts	2,150,951	2,435,571	(284,620)
Registered investment companies	3,040,710	3,208,211	(167,501)
Total	$ 7,596,189	$ 8,213,752	$ (617,563)

The net decrease in investment value of $617,563 was the result of Plan activity. Increases in value include participant and employer contributions, interest earnings, realized and unrealized gains on investments, rollovers of participant account balances into the Plan, and participant directed transfers between investment options. Decreases in value include benefit payments, administrative expenses, realized and unrealized losses on investments, and participant directed transfers between investment options. More information and detail on the above increases and decreases can be obtained from management of the Plan.

5. PROSPECTIVE BENEFIT PAYMENTS

As of December 31, 2011, there were no participants who had elected to withdraw from the plan but had not yet been paid.

6. INVESTMENT IN FULLY BENEFIT RESPONSIVE CONTRACT

As of December 31, 2011 and 2010, the Plan held assets of $2,342,884 and $2,533,846 (contract value), respectively, in a fully benefit-responsive guaranteed investment contract with Principal Financial Group. The contracts are maintained in a collective trust and the account is credited with contributions and earnings on the underlying investment and charged or participant withdrawals and administrative expense. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributed to the guaranteed investment contract. Contract value, as reported to the Plan by Principal Financial Group, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan, (2) changes to the Plan's prohibition on competing investment options or deletion of equity, (3) bankruptcy of the Company or the Company events that cause a significant withdrawal from the Plan, or (4) failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exempt from ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields during the years ended December 31, are as follows:

As of December 31, 2011:

- Based on actual earnings 1.78%
- Based on interest rate credited to participants 1.78%

As of December 31, 2010:

- Based on actual earnings 2.08%
- Based on interest rate credited to participants 1.89%

7. DIFFERENCES BETWEEN THE AUDITED FINANCIAL STATEMENTS AND THE FORM 5500

The accompanying financial statements include an adjustment for the common/collective trusts to be reported at contract value as required by U.S. GAAP. Per instructions to Form 5500, this adjustment should not be reported on the 5500. This adjustment decreased both net assets available for benefits and gain on common/collective trusts by the difference between fair value and contract value. Therefore, there is a difference between the net assets available for benefits between the financial statements and Form 5500 of $61,644 for December 31, 2011 and $36,124 for December 31, 2010. Additionally, there is also a difference in the net gain on common/collective trusts of $25,520 as of December 31, 2011.

8. SUBSEQUENT EVENT

The Company has evaluated subsequent events through October 1, 2012, the date in which these financial statements were available to be issued. As of this date, there have been no significant events that occurred for which the Company has deemed such disclosure necessary.

9. FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term the level 2 input must be observable for substantially the full term of the asset or liability.

9. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies: Valued at fair value as published in market listings

Guaranteed Investment Contracts: Reported at fair value as determined by the net asset value (NAV) of shares held by the plan at year end and adjusted to contract value (see Note 6) and held in a common/collective trust.

Pooled Separate Accounts: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan uses fair value measurements to record fair value adjustments to certain assets to determine fair value disclosures. The valuation technique used in measuring fair value of investments is determined by the Plan administrator and this appears to be consistent with valuation techniques used in the industry.

Assets Recorded at Fair Value on a Recurring Basis

The following table presents by level, within the fair value hierarchy, the plans assets measured at fair value on a recurring basis as of December 31, 2011.

9. FAIR VALUE MEASUREMENTS (CONTINUED)

	Investment Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total

Level 3 assets were 1.73% of total investment assets at fair value.

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the year ended December 31, 2011.

Balance, beginning of year	$ 142,396
Total gains or losses included in changes in net assets available for benefits	4,004
Purchases	2,428
Sales	(84)
Transfer out	(148,744)
Balance, end of year	$ -

The amount of total gains or losses for the year included in changes in net assets available for benefits attributable to the changes in unrealized gains or losses relating to assets held during the reporting period were $4,035. Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2011, are reported in net loss on pooled separate accounts.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2011, there were no significant transfers into or out of Level 3.
