Part I Asset and Liability Statement

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Employees' 401(k) Plan

We were engaged to audit the statements of net assets available for benefits of the Samy's Camera, Inc. Employees' 401(k) Plan as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held At End of Year), as of December 31, 2011. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by John Hancock Life Insurance Company (USA), the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Samy's Camera, Inc. Employees' 401(k) Plan
Notes to the Financial Statements
For the Years Ended December 31, 2011 and 2010

1. Description of the Plan

The following description of the Samy's Camera, Inc. Employees' 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established effective July 1, 2000, for the benefit of the employees of Samy's Camera, Inc. (the Company). The Plan, and related trust, are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined contribution plan covering all employees of the Company who have reached age eighteen and have three months of credited service, as defined by the Plan. The Plan provides for dates of entry on January 1 and July 1 of each year.

Contributions

Participant contributions:

Each year, participants may contribute up to 100% of their annual compensation, not to exceed the government-imposed limit, which is $16,500 during the years ended December 31, 2011 and 2010, respectively. The government-imposed limit is increased to $22,000 for participants who reach age 50 by each respective year-end. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer matching contributions:

The Company may make a discretionary matching contribution for Plan participants each year. During the years ended December 31, 2011 and 2010, the employer matching contributions to the Plan were $62,626 and $56,742, respectively.

Employer profit-sharing contributions:

Each plan year, the Company may make an additional discretionary profit sharing contribution on behalf of all participants employed by the Company on the last day of the plan year. During the years ended December 31, 2011 and 2010, there were no employer profit sharing contributions made to the Plan.

Investment options

Participants must direct their salary deferral contributions and their share of the Company's contributions into various investments as made available and determined by the Plan Administrator, which are more fully illustrated in the Plan's literature.

1. Description of the Plan (continued)

Participant accounts

Each participant account is credited with the participant's contribution and allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested (100%) in their voluntary, and Company matching and profit-sharing contributions, plus actual earnings thereon.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest which approximate with the prevailing rates as determined by the Plan administrator. Interest rates range from 4.25% to 9.25%. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of benefits

Upon termination of service due to death, disability, or retirement, a participant or the participant's beneficiary will receive a value of the vested account balance in the form of a joint and survivor single-life annuity. The participant, or the participant's beneficiary, may also elect to either receive a lump-sum amount, or substantially equal installments, equal to the value of his or her account. The participant may also elect partial withdrawals in increments of not less than $1,000. For termination other than death, disability, or retirement, the participant will receive a lump-sum distribution of his or her vested account balance within an administratively reasonable period of time after termination. There is an automatic cash-out provision for participants with balances not exceeding $5,000.

Forfeited accounts

Since participants are immediately vested (100%) in their voluntary, and Company matching and profit-sharing contributions, plus actual earnings thereon, there were no forfeited balances included in Plan net assets available for benefits at December 31, 2011 and 2010.

2. Summary of accounting policies

A summary of the significant accounting policies followed by the Plan in the preparation of the accompanying financial statements is as follows:

Basis of accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

2. Summary of accounting policies (continued)

Basis of accounting (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits, of a defined contribution plan, attributable to benefit-responsive investment contracts; because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of investment contracts, as well as the adjustment of the benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment valuation and income recognition

The Plan's investments, except for its investment contract with an insurance company, are stated at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2011 and 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The guaranteed interest contract accounts are benefit-responsive and are reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued earnings, less distributions. Fair value of the investment in the guaranteed interest contract accounts are estimated using discounted cash flows.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Use of Estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Administrative costs

The significant costs of the plan for accounting and administrative expenses are absorbed by the Plan sponsor.

2. Summary of accounting policies (continued)

Payment of benefits

Benefits are recorded when paid.

Risks and uncertainties

The Plan invests in a variety of investment funds. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through September 13, 2012, the date which the financial statements were available to be issued. There were no subsequent events noted that would require adjustment to or disclosure in these financial statements.

4. Fair value measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level II – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

4. Fair value measurements (continued)

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Common stocks, corporate bonds, unit investment trusts, money market funds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the report date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011:

December 31, 2011	Level 1	Level 2	Level 3	Total

5. Investment contract with John Hancock Life Insurance Company (USA)

The Plan has a benefit-responsive investment contract with John Hancock Life Insurance Company (USA) (John Hancock). John Hancock maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value, and the adjusted to contract value as reported to the Plan by John Hancock. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of such events that would cause the Plan to transact at less than contract value is not probable. John Hancock may not terminate the contract at any amount less than contact value.

John Hancock is contractually obligated to pay the principal and compound interest that is guaranteed to the Plan, provided all contributions remain in the account until the end of the guarantee period. Interest rates, called the "new money" regular rates, are established on the first day of each calendar month and apply to any regular ongoing contributions made to the guaranteed account in that month. During 2011 and 2010, the average "new money" rates are as follows:

	2011	2010
Three year guaranteed account	0.29%	0.44%
Five year guaranteed account	0.90%	1.01%
Ten year guaranteed account	1.56%	1.63%

At the end of each reporting year, a "composite rate" of interest is determined for each participant account, depending on the amount contributed and the rate in effect on the day it is allocated under the participant account. The composite rate is the effective annual rate earned by all contributions to the guaranteed account during the reporting year for a participant. Contributions continue to earn the calculated composite interest rate for the duration of the guarantee term.

John Hancock does not reset interest rates. At the end of the guarantee period, contributions and interest earned from guaranteed account may be invested into any of the investment options available under the group annuity contract.

During 2011 and 2010, the average yields for the guaranteed accounts are as follows:

	2011	2010
Three year guaranteed account	0.17%	0.00%
Five year guaranteed account	2.07%	2.92%
Ten year guaranteed account	2.96%	3.39%

6. Plan termination

Although it has not expressed any intent to do so, the Company has the right under provisions of the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

7. Tax status

The Plan received a determination letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and/or Department of Labor. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of appreciation in fair value per the financial statements as December 31, 2011 and 2010 to Schedule H of Form 5500:

	2011	2010
Appreciation (depreciation) in fair value per financial statements	$ (130,806)	$ 464,024
Fair market value adjustment of guaranteed interest fund options	(477)	(123)
