1. Description of the Plan

The following description of the Emkay, Inc. Voluntary Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. This plan was adopted March 1, 1984, with subsequent amendments on January 1, 2006 and June 12, 2006.

General

The Plan is a contributory, defined-contribution plan providing retirement benefits to all employees of Emkay, Inc. (The Company) who have attained age 21. There is no minimum service requirement for participation. An employee is eligible for the Company matching once they complete one year of service. A year of service shall exceed 1,000 hours. An employee must complete more than 500 hours of service to avoid a break in service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974. (ERISA).

Contributions

The Company has elected to not make a profit-sharing contribution. Participants may contribute up to Internal Revenue Code (IRC) limitations. The Company will make a matching contribution equal to 75% of each participant's contribution. In determining the discretionary matching contributions, only participant contributions up to 6% of a participant's compensation are considered.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of: (1) the Company's contributions; (2) Plan earnings; and (3) forfeitures of terminated participant's nonvested accounts. Company contributions and forfeitures are allocated based upon the participant's contributions. Plan earnings are allocated based upon participant account balances.

Vesting

Participants are immediately vested in their contributions and employee-rollover contributions. Participants vest in the Company's matching contribution and related investment earnings according to the following schedule:

1. Description of the Plan (continued)

Participants Full Years of Service	Vesting Percentage
1	0%
2	20
3	40
4	60
5	80
6 or more	100

Payment of Benefits

In the event of retirement, death, disability, or termination of service, the vested balance of the participant's account is paid to the participant in a lump sum as directed by the participant. The Plan's provisions also provide for withdrawals in the event of financial hardship, as defined by the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Note receivable transactions are treated as a transfer from (to) the investment fund to (from) the note receivable fund. The notes receivable are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. Principal and interest are paid ratably through monthly payroll deductions.

Forfeited Accounts

The forfeited non-vested account is available to reduce future employer contributions. It was not used for the year ended December 31, 2011.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Contributions

Contributions from the Company are accrued in the period in which they become an obligation of the Company. Participant contributions are recorded by the Plan when the Company withholds them from the participant's pay.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses

Administrative expenses of the plan are charged against earnings, except to the extent the expenses are paid by the employer.

Date of Management's Review

Subsequent events were evaluated through September 28, 2012, which is the date the financial statements were available to be issued.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

December 31, 2010	Fair Value	Level 1	Level 2	Level 3
Mutual Funds	$5,169,916	$5,169,916	$0	$0
Total assets at fair value	$5,169,916	$5,169,916	$0	$0

December 31, 2011	Fair Value	Level 1	Level 2	Level 3
Mutual Funds	$5,802,513	$5,802,513	$0	$0
Total assets at fair value	$5,802,513	$5,802,513	$0	$0

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

3. Fair Value Measurements (continued)

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access. The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. The Plan has no assets or liabilities to be measured under level 2.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The Plan has no assets or liabilities to be measured under level 3.

5. Related-Party and Party-In-Interest Transactions

The Company pays certain administrative expenses of the Plan. Plan investments are shares of registered investment companies managed and held in trust by Fidelity Investments, which is the trustee as defined by the Plan for December 31, 2011. Therefore, these investment transactions qualify as party-in-interest transactions. In addition, certain administrative functions are performed by trustees or employees of the Company for which no compensation is received from the Plan.

7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 1, 1984, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt and no provision for income taxes has been included in the plan's financial statements.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan's Provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
