Independent Auditor's Report on the Financial Statements

To the Trustees and Participants
Financial Resources Federal Credit Union 401(k) Pension Plan
Bridgewater, New Jersey

We were engaged to audit the financial statements of the Financial Resources Federal Credit Union 401(k) Pension Plan (the "Plan") as of and for the years ended December 31, 2011 and 2010, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified or provided by ING Life Insurance and Annuity Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's assets and executes transactions. The plan administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Note C that was provided to the plan administrator by the custodian as of and for the years ended December 31, 2011 and 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The requirements of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946 have not been applied since the difference between contract value and fair value is not material.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Note A - Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncement

In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Note B - Description of Plan

The following brief description of the Financial Resources Federal Credit Union 401(k) Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the summary plan description for more complete information.

General

The Plan is a defined contribution pension plan covering substantially all employees of Financial Resources Federal Credit Union (the "Credit Union") as of the date of commencement of employment. Participants are eligible to receive employer safe-harbor matching contributions once they are 21 years of age and have obtained one year of service with the Credit Union. Participants are eligible to receive employer nonelective contributions once they have completed one year of service with the Credit Union. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute from 1% up to 35% of pretax annual compensation, as defined in the Plan, up to the maximum allowed by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Credit Union contributes 100% of the first 6% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the discretion of the Credit Union's Board of Directors. The Credit Union made no discretionary contributions for the years ended December 31, 2011 and 2010. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Credit Union's contribution and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note B - Description of Plan (Continued)

Payment of Benefits

On termination of service due to death, disability or retirement or for other reasons, a participant will receive the value of his or her vested interest in his or her account as a lump-sum distribution.

Vesting

Participants are immediately vested in their contributions and the employer safe-harbor contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service, based on the following vesting schedule:

Years of Service	Vesting Percentage
1	0
2	25
3	50
4	75
5	100

Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled $ 2,190 and $ 2,207, respectively. These accounts will be used to reduce future employer safe-harbor matching contributions. Also in 2011 and 2010, none of the forfeited nonvested accounts were used to reduce employer safe-harbor matching contributions.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $ 1,000 up to a maximum equal to the lesser of $ 50,000 or 50% of their account balance. Loan terms range from one-to-five years. Loan terms can exceed five years if the loan is used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a commercially reasonable rate of interest established by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Note C - Information Certified and Provided by ING Life Insurance and Annuity Company

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the years then ended, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that information provided to the plan administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	DECEMBER 31,	
	2011	2010
Insurance company pooled separate accounts	**$ 3,912,812**	$ 4,139,620
Insurance company guaranteed interest account	**646,007**	122,462
Note receivable from participants	**95,985**	113,323
	$ 4,654,804	$ 4,375,405

ING Life Insurance and Annuity Company also certified to the completeness and accuracy of $ (111,392) and $ 530,148 net appreciation (depreciation) in fair value of investments (all from pooled separate accounts) and $ 15,551 and $ 9,126 of interest income related to the aforementioned assets for the years ended December 31, 2011 and 2010, respectively.

Note D - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

"Level 1" inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

"Level 2" inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

"Level 3" inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note D - Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011:

Insurance company pooled separate accounts are reported at the value reported to the Plan by the insurance company, which represents the net asset value of the units held by the Plan at year-end.

Insurance company guaranteed interest account is reported at contract value, which approximates fair value. Contract value, as reported to the Plan by ING Life Insurance and Annuity Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D - Fair Value Measurements (Continued)

The following summary sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010. Investments that represent 5% or more of the Plan's net assets are separately identified:

(1) This class includes investments in equity funds with an investment objective of capital appreciation. The funds invest primarily in common stocks of large-cap companies. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

(2) This class includes investments in equity funds with an investment objective of long-term capital appreciation. The funds invest primarily in common stocks of mid-cap companies. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

(3) This class includes investments in equity funds with an investment objective of seeking growth of capital. The funds invest primarily in common stocks of small-cap companies. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

(4) This class includes investments in equity funds with an investment objective of long-term capital appreciation. The funds invest primarily in foreign equity securities. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

(5) This class includes investments in equity funds with an investment objective of achieving capital appreciation. The funds invest primarily in equity, fixed income securities and money market instruments. Note E - Fair Value of Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent) (Continued)

(6) This class includes investments in equity funds with an investment objective of seeking the highest possible income. The funds invest primarily in income-producing equity instruments (including common stocks, preferred stocks and convertible securities) and investment-grade quality debt securities. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

(7) This class normally invests at least 80% of its net assets in a diversified portfolio of high-yield securities. The remainder of the portfolio's assets may be invested in investment-grade fixed-income instruments. The investment objective seeks maximum total return, consistent with the preservation of capital and prudent investment management. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

(8) This class normally invests in a portfolio of high-quality, U.S. dollar denominated, short-term debt securities that are determined by the sub-adviser to present minimal credit risk. The investment objective seeks to provide high current return, consistent with preservation of capital and liquidity, through investment in high-quality money market instruments while maintaining a stable share price of $ 1.00. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

Note F - Tax Status

The National Office of the Internal Revenue Service has determined and informed the Credit Union by a letter dated July 29, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. The Plan is exempt from federal and state income taxes under current regulations.

Accounting principles generally accepted in the United States of America required Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U. S. Federal, state, or local tax authorities for years before 2008.

Note G - Plan Termination

Although it has not expressed any intent to do so, the Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note H - Administrative Expenses

Certain administrative expenses are paid by the plan sponsor.

Note I - Related Party Transactions

Certain plan investments are units of insurance company pooled separate accounts and a guaranteed interest account managed by ING Life Insurance and Annuity Company. ING Life Insurance and Annuity Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note J - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note K - Subsequent Events

Plan management has evaluated subsequent events through October 2, 2012. This date is the date the financial statements were available to be issued. No material events subsequent to December 31, 2011 were noted.
