INDEPENDENT AUDITOR'S REPORT

The Trustees of the
Chicago Dryer Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Chicago Dryer Company Retirement Plan as of December 31, 2011 and 2010, and related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedules as of December 31, 2011 as listed in the table of contents. These financial statements and supplementary schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by TD Ameritrade Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that TD Ameritrade Trust Company holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplementary schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the Unites States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CHICAGO DRYER COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2011

1. Description of Plan:

The following description of the Chicago Dryer Company Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Chicago Dryer Company (Plan Sponsor) who complete 250 hours of service within three (3) consecutive months of service and have attained the age eighteen (18) are eligible to participate as of the date such employee has satisfied these requirements. An eligible employee shall become a participant effective as of the earlier of the first day of the Plan year or the first day of the seventh month of such Plan year coinciding with or next following the date such employee met the eligibility requirements provided the employee was still employed as of such date.

Contributions

Each year, participants may elect to defer a portion of compensation which would have been received in the Plan year up to the maximum amount which will not cause the Plan to violate current tax laws. Effective January 1, 2010, a participant may elect to have all or a portion of their deferral to be Roth elective deferrals when contributed to the Plan. The Roth elective deferrals are included in the participant's gross income at the time deferred and must be irrevocably designed as Roth elective deferrals by the participant in the Deferral Election Agreement. Participant's who have attained age 50, before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amount representing distributions from other qualified defined benefit or defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan Sponsor makes a safe harbor contribution of 3.5% of participant compensation to the Plan. Additional profit sharing amounts may be contributed at the option of the Plan Sponsor's board of directors.

Participant accounts

Each participant's account is credited with the participant's contribution and an allocation of the (a) the Plan Sponsor's contribution, (b) Plan earnings (losses), and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested in the participant and employer cumulative contribution balances.

Loans receivable from participants

The Plan Sponsor may make plan loans to participants or beneficiaries under the following circumstances: (1) loans shall be made available to participants and beneficiaries on a reasonably equivalent basis; (2) loans shall not be made available to highly compensated employees in an amount greater that the amount that is made available to other participants and beneficiaries; (3) loans shall bear a reasonable

rate of interest; (4) loans shall be adequately secured; and (5) loans shall provide for periodic repayment up to five to ten years depending on the loan type. Furthermore, no Plan loan shall exceed fifty percent of account balance of a participant's vested interest in the Plan.

Administrative expenses
Certain expenses incurred for the administration of the Plan are paid directly by the Plan Sponsor.

Payment of benefits
On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in certain monthly, quarterly, semi-annual or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Hardship withdrawals from a participant's deferral contribution accounts are permitted when applicable criteria are met.

2. Summary of significant accounting policies:

Management's review
Subsequent events were evaluated through the date of the accompanying independent auditor's report, which is the date the financial statements were available to be issued. No material subsequent events were required to be recorded or disclosed.

Basis of accounting
The financial statements of the plan are prepared on the accrual basis of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

2. Summary of significant accounting policies: (continued)

Investment valuation and income recognition
The Plan's collective investment fund is stated at fair value and the Plan's mutual funds are valued at the net asset value of shares held by the Plan at year end. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation included the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits
Benefits are recorded when paid.

3. Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820 Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value focuses on the price that would be received to sell the asset or paid to transfer the liability regardless of whether an observable liquid market price existed (an exit price). An exit price valuation will include margins for risk even if they are not observable. As the Plan is released from risk, the margins for risk will also be released through net realized capital gains (losses) in net income. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the inputs must be observable for substantially to the full term of the asset or liability.

3. Fair Value Measurements: (continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Level 3 assets and liabilities measured at fair value are based on one or more of three valuation techniques:

- Market approach - prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- Cost approach - Amount that would be required to replace the service capacity of an asset (i.e., replacement cost);
- Income approach: Techniques that convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing models, and lattice models).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possibly that changes in the values of investment securities will occur in the near term and such changes could materially affect the Plan's investments and the amounts reported in the statement of financial position.

The credit and liquidity crisis in the United States and throughout the global financial systems has resulted in substantial volatility in financial markets and the banking system. These and other economic events could cause significant volatility to the Plan's investment portfolio subsequent to year-end.

Management reviews for other than temporary decline in accordance with the requirements of fair value measurements. The Plan's investments in mutual funds consist primarily of investments in exchange-traded debt and equity securities.

3. Fair Value Measurements: (continued)

Within the fund balance certain individual investments may have fair values measured below cost. The severity of any impairment and the duration of any impairment correlate with current market conditions. Based upon the near-term prospects of the issuer of any of those securities in relation to the severity and duration of the impairment, and based upon the Plan's ability and intent to hold those investments for a reasonable period of time sufficient for a forecasted recovery of fair value, the Plan does not consider those investment to be other-than-temporary impaired at December 31, 2011.

The following mutual funds are carried at fair value in the Plan's financial statements. These fair value disclosures include information regarding the valuation of the Plan's investments as of December 31, 2011:

	Fair Value on a Recurring Basis		
	Level 1	Level 2	Level 3
Index funds	$ 700,841		
Growth funds	1,969,502		
Growth and income funds	436,852

Vanguard Windsor II Investor	313,211	-
	$4,724,638	$4,367,235

5. Plan termination:

Although it has not expressed any intent to do so, the Plan Sponsor shall have the right at any time to terminate the Plan by delivering to the Trustee and Administrator written notice of such termination. Upon any full or partial termination, all amounts credited to the affected Participants' accounts shall become 100% vested in their accounts and shall not thereafter be subject to forfeiture.

6. Reconciliation of financial statements to Schedule H of Form 5500:

The financial statements and Schedule H of Form 5500 are prepared using the current values as of December 31, 2011. There are no reconciling differences between either net assets available for benefits or benefits paid to participants, as reported herein, to Schedule H of Form 5500 for the year 2011.

7. Tax status:

The Internal Revenue Service has determined and informed the Company by letter dated July, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2008.

During the years 2011 and 2010, the Plan has not recognized penalties and interest on tax deficiencies. Management believes that any penalties or interest assessed would be absorbed by reserves. If income tax deficiencies were incurred they would be recorded under generally accepted accounting principles (GAAP) for uncertainties in income taxes and recognized as interest expense in the first period the relevant tax law requires interest accrual. Similarly for expected deficiencies recorded under (GAAP) for uncertainties in income taxes that are subject to penalties would be recognized as an expense of the statutory penalty in the period in which the entity claims or expects the position in the return.

8. Risks and uncertainties:

The Plan invests in various investments (Note 4). These investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

9. Non-employee participant balances:

As of December 31, 2011, the Plan has 34 participants with accounts amounting to $103,685, who are no longer employed by Chicago Dryer Company.

10. Plan amendments:

There were no amendments made to the Plan for the year ended December 31, 2011. Effective January 1, 2010 provisions were made to adopt a non-elective formula for the safe harbor contributions. Also effective December 1, 2010, the Plan was amended to permit participants to rollover part or all of a Non-Roth account to a Roth account in the Plan. This is an In-plan Roth contribution.

11. Recent accounting pronouncements:

In May, 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. The provisions on ASU 2011-04 are generally applicable in calendar year 2012 and will impact private investment funds most significantly in the following areas:

- Increased disclosure requirements related to fair value measurements
- Application of premiums and discounts in fair value measurements

The Trustees of the
Chicago Dryer Retirement Plan

We have audited the financial statements of Chicago Dryer Retirement Plan for the year ended December 31, 2011, and have issued our report thereon dated August 3, 2012. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated January 23, 2012. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Chicago Dryer Retirement Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2011. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such

misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 3, 2012.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Information in Documents Containing Audited Financial Statements

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of the Trustees of Chicago Dryer Retirement Plan and is not intended to be and should not be used by anyone other than these specified parties.

The Trustees of the
Chicago Dryer Retirement Plan

In planning and performing our audit of the financial statements of Chicago Dryer Company Retirement Plan as of and for the year ended December 31, 2011, in accordance with auditing standards generally accepted in the United States of America, we considered Chicago Dryer Retirement Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the plan's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

This information is intended solely for the use of the Trustees of Chicago Dryer Retirement Plan and is not intended to be and should not be used by anyone other than these specified parties.
