Pre-Tax Savings Plan - Bowling Green-Seal

We were engaged to audit the accompanying statements of net assets available for benefits of the Cooper-Standard Automotive Inc. Pre-Tax Savings Plan - Bowling Green-Seal (the Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year). These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by PNC Bank, N.A., the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2011, and as of December 31, 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PRE-TAX SAVINGS PLAN - BOWLING GREEN-SEAL
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

Note 1-Description of plan

The following description of the Cooper-Standard Automotive Inc. Pre-Tax Savings Plan - Bowling Green-Seal (the "Plan"), provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, as amended and restated effective January 1, 2010, is a defined contribution plan covering all hourly employees who have completed 30 days of continuous credited service and are covered by the collective bargaining agreement between the United Steelworkers of America Local #1042 and Cooper-Standard Automotive, Inc. ("Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 15% of their pretax compensation. Participants may direct their contributions to any of the Plan's investment fund options.

Participants whose initial employment date is prior to January 1, 2009 receive a "fixed matching contribution" of 33-1/3% on the first 6% of a participant's compensation. Participants whose initial employment date is on or after January 1, 2009 receive a "fixed matching contribution" equal to 100% of all pre-tax contributions up to 2% of participant's compensation.

The Plan Sponsor may also make an annual discretionary contribution at the discretion of the Plan Sponsor's Board of Directors, with respect to up to 6% of each participant's compensation. For 2011, the Plan Sponsor made an annual discretionary contribution equal to 10% of the participant's contributions up to 5% of the participant's compensation (max of 0.5% of compensation).

Participant accounts

Individual accounts are maintained for each participant in the Plan. Each participant's account is credited with the participant's contributions, their allocation of the Plan Sponsor's contributions and Plan earnings. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

The participants are immediately vested in their contributions plus actual earnings thereon. The participants are vested in the Plan Sponsor's contributions after three years of continuous credited service.

Forfeitures

At December 31, 2011, forfeited non-vested accounts totaled $264. These accounts will be used to reduce future employer contributions.

Note 1-Description of plan–continued

Participant withdrawals
In the event of retirement, attainment of age 59 ½, death, termination, total and permanent disability or other severance from employment, participants are entitled to receive an amount equal to the value of the vested interest in their accounts. Payment of benefits may be taken in a lump sum distribution or in installments.

In the event of hardship, as defined, participants may take a distribution from their accounts, in an amount necessary to satisfy the financial need, subject to certain tax withholdings.

Notes receivable from participants
Participants may borrow the lesser of 50% of the vested value of their entire account or $50,000. Only one outstanding note receivable is permitted at any time and the note receivable repayment schedule can be no longer than 59 months or for less than $500. The interest rate is established based on the Prime Rate. Principal and interest is paid ratably through payroll deductions. Notes receivable from participants are valued at their unpaid principal balance plus accrued but unpaid interest. The notes receivable are secured by the balance in the participant's account.

Termination of the plan
Although it has not expressed any intent to do so, the Plan Sponsor has the right, under the Plan, to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2-Summary of significant accounting policies

Basis of accounting
The accompanying financial statements are prepared on the accrual basis of accounting. Participant withdrawals are recorded upon distribution.

Valuation of investments and income recognition
Investments held by the Plan are stated at fair value with the exception of the BNP Paribas Income Plus Fund (a common/collective trust fund), which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion and disclosures related to fair value measurements.

Note 2- Summary of significant accounting policies –continued

Valuation of investments and income recognition –continued

The BNP Paribas Income Plus Fund invests in fully benefit-responsive investment contracts. In accordance with Financial Accounting Standards Board (FASB) guidance, "Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide" and "Defined-Contribution Health and Welfare and Pension Plans", investment contracts held by a defined-contribution plan are to be reported at fair value. However, contract value is the relevant measurement of attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by FASB guidance, the statement of Net Assets Available for Benefits presents the fair value of the investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Administrative expenses

The Plan Sponsor pays the administrative expenses of the Plan, unless the expenses relate to specific investment directions of the participant.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

New accounting pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-06, Improving Disclosures about Fair Value Measurements, (ASU 2010-06). ASU 2010-06 amended FASB Accounting Standards Codification (ASC) Topic, Fair Value Measurement, to clarify certain existing fair value disclosures and require a number of additional disclosures. The requirement to present changes in Level 3 measurements on a gross basis is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Note 2- Summary of significant accounting policies –continued

New accounting pronouncements–continued

In May 2011, the FASB issued Accounting Standards Update 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs, (ASU 2011-04). ASU 2011-04 amended FASB ASC Topic, Fair Value Measurement, to converge the fair value measurement guidance in US generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in FASB ASC Topic, Fair Value Measurement. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events

The Plan Sponsor has evaluated subsequent events through September 24, 2012, the date the financial statements were available to be issued.

Note 3-Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2011 and 2010, and net realized and unrealized appreciation (depreciation) in fair value of investments, interest, dividends and other for the year ended December 31, 2011, were obtained or derived from information supplied to the Plan Sponsor and certified by PNC Bank, N.A., as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by independent auditors.

Investments that exceed 5% of the Plan's net assets available for benefits at December 31, 2011 and 2010 are as follows:

*** *During 2011, the ABN AMRO Investment Trust Company changed its name to BNP Paribas Investment Partners Trust Company. The investment's name was ABN AMRO Income Advantage at December 31, 2010.*

Note 3-Investments-continued

During 2011, the Plan's investments (including investments purchased, sold as well as held during the year) appreciated (depreciation) in fair value as follows:

Mutual funds	$	(213,902)
Common/collective trust fund		5,877
	$	(208,025)

FASB ASC Topic, Fair Value Measurement, defines fair value, establishes a framework on measuring fair value, establishes a fair value hierarchy on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements. The Plan accounts for certain financial assets at fair value under various accounting literature.

In accordance with the standard, the Plan has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into the three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within the different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded on the statement of net assets available for benefits are categorized based on the inputs to the valuation techniques as follows:

Level 1. Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access.

Level 2. Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in non-active markets;

c. Pricing models whose inputs are observable for substantially the full term of the asset or liability; and

d. Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation of other means for substantially the full term of the asset or liability.

Note 3-Investments-continued

Level 3. Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the plan. There have been no changes in the methodologies used at December 31, 2011.

Mutual Funds – valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end.

Common/Collective Trust Fund – valued based on the contracted terms of the underlying investments.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets carried at fair value:

Note 4-Fully benefit-responsive investment contracts

The Plan invests in the Income Plus Fund, a sub-fund of the BNP PARIBAS Pooled Trust Fund for Employee Benefit Plans (BNP PARIBAS Fund), formerly known as ABN AMRO Pooled Trust Fund, which is a fully benefit-responsive investment offered by the Plan. The BNP PARIBAS Fund has separately audited financial statements which provide additional information on this fully benefit-responsive investment fund. The BNP PARIBAS Fund invests primarily in investment contracts such as guaranteed investment contracts (GICs), money market instruments, repurchase agreements, private placements, bank investment contracts and enters into wrapper contracts with underlying securities to create synthetic GICs. The BNP PARIBAS Fund is presented as the common/collective trust fund on the accompanying financial statements.

In a traditional GIC, the BNP PARIBAS Fund enters into a contract with an issuer (typically a bank or life insurance company), which provides for a stated rate of interest and a fixed maturity. In a synthetic GIC structure, the Fund owns fixed-income investment and enters into a wrap contract from high-quality insurance companies, banks or other financial services companies that serve to substantially offset the price fluctuations in the underlying investments caused by movements in interest rates.

Each wrap contract obligates the wrap provider to maintain the "contract value" of the underlying investments. The contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals (as specified in the wrap agreement).

Note 4-Fully benefit-responsive investment contracts-continued

Calculating the Interest Crediting Rate in Wrapper Contracts

The key factors that influence future interest crediting rates for a wrapper contract include:

- The level of market interest rates
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract
- The investment returns generated by the fixed income investments that back the wrapper contract
- The duration of the underlying investments backing the wrapper contract

Wrapper contracts' interest crediting rates are typically reset on a monthly or quarterly basis. While there may be slight variations from one contract to another, most wrapper contracts use a formula that is based on the characteristics of the underlying fixed income portfolio.

Over time, the crediting rate formula amortizes the Fund's realized and unrealized market value gains and losses over the duration of the underlying investments.

Because changes in market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting gains and losses in the market value of the underlying investments relative to the wrapper contract value are represented on the Fund's Statement of Assets and Liabilities as the "Adjustment from Fair Value to Contract Value". If the Adjustment from Fair Value to Contract Value is positive for a given contract, this indicates that the wrapper contract value is greater than the market value of the underlying investments. The embedded market value losses will be amortized in the future through a lower interest crediting rate than would otherwise be the case. And if the Adjustment from Fair Value to Contract Value figure is negative, this indicates that the wrapper contract value is less than the market value of the underlying investments. The amortization of the embedded market value gains will cause the future interest crediting rate to be higher than it otherwise would have been.

All wrapper contracts provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall to zero and the requirements of the wrapper contract are satisfied, the wrapper issuers will pay to the plan the shortfall needed to maintain the interest crediting rate at zero. This helps to ensure that participants' principal and accrued interest will be protected.

Note 4-Fully benefit-responsive investment contracts-continued

Events That Limit the Ability of the Fund to Transact at Contract Value

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These events include termination of the plan, a material adverse change to the provisions of the plan, if the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract.

The events described above that could result in the payment of benefits at market value rather than contract value are not probable of occurring in the foreseeable future.

Issuer-Initiated Contract Termination

Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the plan's loss of its qualified status, un-cured material breaches of responsibilities, or material and adverse changes to the provisions of the plan. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

Rate Information

The average yield for the BNP PARIBAS Fund was approximately 1.26% for 2011. The BNP PARIBAS Fund crediting interest rate was approximately 1.40% and 2.19% at December 31, 2011 and 2010, respectively. The crediting interest rate reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets.

Note 5-Federal income tax status

The Plan has received a determination letter from the Internal Revenue Service dated May 26, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 6-Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7-Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to the Form 5500:

	2011	2010
Net assets available for benefits per the financial statements	$ 6,174,670	$ 6,316,488
