General

The Plan covers salaried, hourly union and non-union employees of Tegrant Corporation, formerly, SCA North America-Packaging Division, Inc. (the “Company”). Employees who are at least age eighteen are eligible to participate in the Plan on the first day of the first payroll period after completing ninety days. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

In late December 2010, the Company acquired the Createc Corporation. Prior to December 31, 2011, American United Life Insurance Company was custodian of the Createc Corporation 401(k) Profit Sharing Plan. As a result of the acquisition, assets of the Createc Corporation 401(k) Profit Sharing Plan were transferred to the Plan. The assets were transferred into funds comparable to those offered by the previous custodian. The conversion initiated a “Black Out” period beginning on December 30, 2011 and continued through January 22, 2012. During this period, participants’ accounts were not available for investment fund exchanges and distribution requests, including loans. The total amount transferred to the Plan was \$6,746,187. Effective January 6, 2012, participants of the Createc Corporation 401(k) Profit Sharing Plan became participants of the Tegrant Investment and Retirement Plan (see Note 9). However, due to all participant directed activity ceasing to occur after December 30, 2011, the transfer of assets from the Createc Corporation 401(k) Profit Sharing Plan to the Tegrant Investment and Retirement Plan was effective as of December 31, 2011 for financial reporting and Form 5500 purposes and is reflected as such in the accompanying financial statements.

Additionally, during 2010, total assets of \$48 were transferred into the Plan from the SCA North America, Inc. Investment and Retirement Plan.

Contributions

Each year participants in the Plan may generally contribute 1% to 25% of pretax compensation, with the allowable contribution amount based on location and classification, as defined in the Plan document. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

If a participant is at least 50 years of age by the end of the calendar year and their pretax compensation is limited by Plan or IRS imposed limits, they may make additional pretax contributions from 1% to 75% of their pay to the Plan for each payroll period as catch-up contributions. These catch-up contributions are limited to \$5,500 for 2011 and 2010, and are not eligible for the Company match contribution. Union participants at New Brighton, PA and Pardeeville, WI are subject to automatic enrollment in the Plan at 1% and 2% of eligible employee compensation, respectively.

Prior to the change in sponsorship to Tegrant Corporation, the Plan provided for discretionary matching and other additional contributions by the Company, which varied for differing employee locations.

Effective March 8, 2007, after the change in sponsorship to Tegrant Corporation, the Plan provided a matching contribution of 100% of the first 5% of compensation that a participant contributes to the Plan. Effective as of March 29, 2009, the Plan was amended to suspend the matching contribution. The matching contribution of 100% of the first 5% of compensation that a participant contributes to the Plan was reinstated as of January 1, 2010.

Participants direct contributions into various investment options offered by the Plan. For participants who do not make an affirmative election, the Company designates the age-appropriate "Target Fund" as the default investment fund. A Target Fund is an investment fund that provides a mixture of fixed income and equity investments that are matched to an individual's age and presumed retirement age. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant, at all times, has a fully vested (100%) interest in their contribution accounts, matching contribution accounts, and rollover accounts, plus actual earnings thereon. A participant is 100% vested after 3 years of credited service in his or her Employer Contribution account.

Notwithstanding the above vesting for the Employer Contribution, a participant will become 100% vested in these accounts upon their attainment of normal retirement age while an employee, death while an employee, or becoming disabled while an employee.

Notes Receivable from Participants

The Plan allows for participants to take loans against their account balances. The plan allows for only one loan (including a loan transferred in from a predecessor plan) at any one time.

Participants may borrow from their fund accounts up to a maximum amount equal to the lesser of \$50,000 or 50 percent of their vested account balances. Loan terms range from 1 to 5 years or up to 15 years to purchase a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate as reported by Reuters. Interest rates vary from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

In the event of a participant's death, retirement, disability or termination of employment for other reasons, the participant or his beneficiary may elect to receive the entire account balance in a lump sum. Account balances which do not exceed \$1,000 will automatically be paid in a lump sum as soon as administratively feasible. Mandatory distributions that are greater than \$1,000 and less than \$5,000 may be paid in a direct rollover to an individual retirement account designated by the Plan Administrator, unless the participant previously elected to have such distribution paid directly to an eligible retirement plan in a direct rollover or to receive the distribution directly.

A participant may also withdraw all or a portion of his entire account balance upon attainment of age 59½ or in the case of financial hardship, as defined.

Forfeited Accounts

When certain terminations of participants in the Plan occur, the non-vested portion of the participant's employer contribution account represents forfeitures. Total unallocated forfeitures, which will be used to reduce future employer contributions, were \$6,191 and \$6,410 at December 31, 2011 and 2010, respectively. Forfeitures used to offset employer contributions totaled \$0 and \$203,392 for the years ended December 31, 2011 and 2010, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits include changes in net assets attributable to fully benefit-responsive investment contracts on a contract value basis.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America, requires the Plan management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period, and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Notes Receivable from Participants

Notes receivable from participants (participant loans for Form 5500 reporting purposes) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Loan fees and other participant-specific fees are deducted from participant accounts. The Company pays other administrative expenses of the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2012, the date the financial statements were available to be issued.

Recently Issued Accounting Guidance

In January 2010, the Financial Accounting Standards Board ("FASB") updated the guidance in FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurement*. The updated guidance (i) requires separate disclosure of activity in transfers in and out of Levels 1 and 2 fair value measurements, (ii) requires disclosure of Level 3 fair value measurements activity on a gross basis, (iii) clarifies existing disaggregation requirements, and (iv) clarifies existing input and valuation technique disclosure requirements. The updated guidance was effective for periods beginning after December 15, 2009, except for the rollforward of activity in Level 3 fair value measurement disclosure requirements, which was effective for fiscal years beginning after December 15, 2010. Retrospective adoption was not required. The adoption of the guidance had no effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued Accounting Standards Update No. 2011-4, *Fair Value Measurement (Topic 820), Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. The amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. Some of the amendments clarify the FASB's intent about the application of existing fair value measurement requirements. Other amendments change a particular principle requirement for measuring fair value or for disclosing information about fair value measurements. Some of the disclosures required by the amendments are not required for nonpublic entities. The amendments are to be applied prospectively and are effective for nonpublic entities for annual periods beginning after December 15, 2011. The Plan does not expect the amendments to have any effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

3. Unaudited Information Certified by the Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and supplemental schedule was certified by the Vanguard Fiduciary Trust Company, the trustee, as complete and accurate:

- Registered investment companies, the retirement savings trust and notes receivable from participants as shown in the statements of net assets available for benefits at December 31, 2011 and 2010.
- Net appreciation (depreciation) in fair value of registered investment companies for the years ended December 31, 2011 and 2010, as follows:

	For the Year Ended December 31	
	<u>2011</u>	<u>2010</u>
Net appreciation (depreciation)		
Registered investment companies	\$ (977,246)	\$ 5,801,221

- Interest and dividend income and interest income on notes receivable from participants for the years ended December 31, 2011 and 2010, as follows:

	For the Year Ended December 31

- The information for all registered investment companies, the retirement savings trust and participant loans listed in the schedule of assets (held at end of year) at December 31, 2011 as shown in the supplemental schedule.

Investments of the Plan that exceed 5 percent of net assets available for benefits at December 31, 2011 are summarized as follows:

	<u>2011</u>
Vanguard 500 Index Fund	\$ 7,309,644
Vanguard Retirement Savings Trust*	12,255,952
Vanguard Extended Market Index Fund Investor Shares	4,374,989
Vanguard Total Bond Market Index Fund Investor Shares	4,436,103
Vanguard Windsor II Fund Investor Shares	4,085,209

* Amount is at fair value. Contract value is \$11,688,423 for this investment.

Investments of the Plan that exceed 5 percent of net assets available for benefits at December 31, 2010 are summarized as follows:

	<u>2011</u>
Vanguard 500 Index Fund	\$ 7,615,792
Vanguard Retirement Savings Trust*	11,229,688
Vanguard Extended Market Index Fund Investor Shares	5,084,121
Vanguard Target Retirement 2025 Fund	4,139,827
Vanguard Target Retirement 2030 Fund	3,669,526
Vanguard Total Bond Market Index Fund Investor Shares	4,213,086
Vanguard Windsor II Fund Investor Shares	4,655,951
American Funds Euro Pacific Growth Fund, R-4 Shares	4,963,092

* Amount is at fair value. Contract value is \$10,787,484 for this investment.

The Vanguard Retirement Savings Trust invests in high-quality fixed income securities with financial backing from insurance companies and banks. As described in Note 2, the Vanguard Retirement Savings Trust is fully benefit-responsive and therefore contract value is the relevant measurement attribute for that portion of net assets available for benefits. Contract value represents contributions made plus interest accrued at the contract rate less withdrawals and administrative expenses. Participants who invest in the Vanguard Retirement Savings Trust agree to limitations imposed by issuers of investment contracts. These limitations include restrictions on the timing and amounts which can be transferred from the Vanguard Retirement Savings Trust to short-term bond funds. Additionally, once money is transferred from the Vanguard Retirement Savings Trust into stock, balanced or bond funds with an average duration of more than four years, the money must remain in the fund for at least 90 days before it can be transferred into a shorter-term bond fund. Money, however, can always be transferred back into the Vanguard Retirement Savings Trust. The average annual yield earned was 3.09% and 3.36% for the years ended December 31, 2011 and 2010, respectively. The average annual yield paid to participants was 2.68% and 3.01% for the years ended December 31, 2011 and 2010, respectively.

4. Fair Value Measurement

FASB ASC 820, *Fair Value Measurement* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2011 and 2010.

<i>Registered investment companies:</i>	Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.
<i>Retirement Savings Trust:</i>	Value at the net asset value of units held at year-end. This common/collective trust fund is comprised of traditional contracts issued by insurance companies and banks, alternative investment contracts, and short-term investments. For traditional investment contracts, fair value is determined by calculating the present value of expected future cash flows for each contract. The fair value for alternative investment contracts is determined by aggregating the market value of the underlying investment in Vanguard mutual funds and bond trusts plus the value of the wrap contract, if any. The investments in mutual funds and bond trusts are valued at the net asset value of each fund or trust determined as of the close of the NYSE on the valuation date.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Tax Status

The Internal Revenue Service has determined and informed the company by a letter dated September 23, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

6. Related Party Transactions

The Plan invests in shares of registered investment companies (mutual funds) and a collective trust managed by affiliates of Vanguard, the trustee. Transactions in such investments qualify as party-in-interest, which are exempt from the prohibited transaction rules.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its matching contribution, employer contribution, and supplemental contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Plan Expenses

The Company pays all recordkeeping expenses for the administration of the Plan, with the exception of certain miscellaneous fees. An annual account maintenance fee of \$40 is charged to the accounts of terminated participants who have deferred receipt of distributions and continue to maintain account balances under the Plan.

9. Plan Amendments

During 2011, the Plan was amended to make administrative changes requested by the Internal Revenue Service in connection with its review of the Plan for a favorable letter of determination. Also during 2011, the Plan was amended to reflect the administration of minimum required distributions for 2009, make changes in the Plan loan procedure and authorize the transfer of the assets and liabilities attributable to the participants in the Createc Corporation 401(k) Profit Sharing Plan to the Tegrant Investment and Retirement Plan.

During 2010, the Plan was amended to update the definition of compensation as well as to allow for Roth 401(k) contributions.
