Mid-State Machine and Fabricating
Corp. 401(k) Plan
Lakeland, Florida:

We were engaged to audit the accompanying statements of net assets available for benefits of Mid-State Machine and Fabricating Corp. 401(k) Plan (the "Plan") as of December 31, 2011 and 2010 and the related statement of changes in net assets available for benefits for the year ended December 31, 2011 and the supplemental schedule of assets held for investment purposes as of December 31, 2011. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of Plan

The following description of the Mid-State Machine and Fabricating Corp. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all eligible employees of Mid-State Machine and Fabricating Corporation (the "Company") who have completed one year of service and have attained age twenty-one. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Participants may contribute a percentage of their base compensation, as defined, subject to Internal Revenue Code limitations. The employer matches 25% of the first 4% of compensation. The employer may also make additional contributions at its discretion. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocation of Plan earnings (loss). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Forfeitures. Forfeitures are used to reduce future employer contributions or pay Plan expenses. Forfeitures of $1,252 were used to reduce employer contributions and none were used to pay Plan expenses during the year ended December 31, 2011. There were no forfeited nonvested accounts at December 31, 2011 or 2010.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after five years of service.

Investment Options. Upon enrollment in the Plan, a participant may direct employee contributions in 1% increments in any of the Plan's investment options. Participants may change their current or future investment options periodically.

Payment of Benefits. On termination of service for death or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or periodic payments. On termination of service for other reasons, a participant will receive a lump-sum amount equal to the value of his or her account.

(continued)

(1) Description of Plan, Continued

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms can be up to five years. These loans are collateralized by the balance in the participant's account and bear interest at prevailing rates as determined by the plan administrator. Principal and interest are paid by payroll deduction in substantially equal payments over the life of the loan, with payments not less frequently than weekly.

(2) Summary of Accounting Policies

The Plan's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The following is a summary of the significant accounting policies:

Subsequent Events. Management has evaluated all significant events occurring subsequent to the financial statement date through July 11, 2012, which is the date the financial statements were available to be issued, determining no events require additional disclosure in the financial statements.

Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Contributions. Contributions from participants are accrued and credited to participants' accounts as of each pay period.

Benefits. Benefit payments to participants are recorded when paid.

Party-In-Interest. The Plan invests in shares of certain mutual funds managed by Principal Life Insurance Company, who is the custodian of the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Pooled separate accounts	$(44,319)
Guaranteed return investment accounts	958
	$(43,361)

(continued)

(5) Fair Value Measurements

GAAP defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements.

GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. GAAP also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. GAAP describes three levels of inputs that may be used to measure fair value:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and model-driven valuations whose inputs are observable or whose significant value drivers are observable. Valuations may be obtained from, or corroborated by, third-party pricing services.

Level 3: Unobservable inputs to measure fair value of assets and liabilities for which there is little, if any market activity at the measurement date, using reasonable inputs and assumptions based upon the best information at the time, to the extent that inputs are available without undue cost and effort.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts. Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed Return Investment Accounts. Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

(continued)

(5) Fair Value Measurements, Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by Level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis:

	Level 1	Level 2	Level 3	Total
December 31, 2011:				
Pooled separate accounts:				
Large US Equity	$ -	653,387	-	653,387

During the years ended December 31, 2011, no assets were transferred in or out of Level 1, Level 2 or Level 3.

(continued)

(5) Fair Value Measurements, Continued

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2011 and 2010:

	Guaranteed Return Investment Accounts	
	2011	2010
Balance, beginning of year	$ 227,447	204,382
Unrealized gains relating to instruments held at the reporting date	958	771
Purchases, sales, issuances and settlements (net)	14,585	22,294
Balance, end of year	$ 242,990	227,447

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(7) Tax Status

The plan administrator has not received a determination letter from the IRS approving the qualification of the Plan for tax exempt status; however, the plan administrator has obtained a determination letter qualifying the volume submitter document upon which the Plan was adopted. Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is currently operating in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been recorded in the accompanying financial statements.

(8) Related Party Transactions

The Company provides certain accounting and administrative services to the Plan for which no fees are charged. Also, the Company pays certain administrative expenses of the Plan.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
