Any forfeitures resulting from termination of employment of any participant, or for any other reason, do not serve to increase the benefits of remaining participants, but reduce future employer contributions.

(g) Notes Receivable From Participants

Participant's may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. All loans must generally be repaid over a period no longer than five years or up to fifteen years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.75%. Principal and interest is paid ratably through payroll deductions.

(h) Forfeitures

At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$39,922 and \$63,629, respectively. These accounts will be used to reduce future employer contributions and administrative expenses.

(2) Summary of Significant Accounting Policies

(a) *Basis of Accounting*

The financial statements of the Plan are prepared on the accrual basis of accounting.

As described in ASC 962, *Defined Contribution Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract in the common collective trust as well as the adjustment of the fully benefit responsive contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

(b) *Investment Valuation and Income Recognition*

Investments, as shown in the accompanying financial statements, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The incorporation of investment data in the accompanying financial statements is based solely on the certified statements provided by Reliance Trust Company. Such information has not been examined by the Plan's independent auditors.

(c) *Notes Receivable From Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

(d) *Payment of Benefits*

Benefits are recorded when paid.

(e) *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) *Recently Adopted Accounting Standards*

In September 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-25, *Plan Accounting - Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balances plus any accrued but unpaid interest. ASU No. 2010-25 was effective for year ending December 31, 2010 and was applied retrospectively.

(g) *Subsequent Events*

The Plan has evaluated subsequent events for potential recognition and disclosure through June 8, 2012, the date the financial statements were available to be issued.

(3) Tax Status

The Internal Revenue Service issued a determination letter to the trustee on March 31, 2008, which stated that the Plan and its underlying trust qualify under Section 401(a) of the Internal Revenue Code (IRC) and, as a result, are exempt from federal income taxes under Section 501(a) of the Code. The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken uncertain tax positions that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(10) Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end.

Common / Collective Trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(c) Employer Contributions

The Company may, at the discretion of its board of directors, make discretionary matching contributions. The Company may also, at the discretion of its board of directors, make additional discretionary contributions to the Plan, which are allocated to participants based on each participant’s compensation in relation to total compensation of all participants. The Company made matching contributions of \$.50 on each \$1 contributed to the Plan by the participant, up to 6% of the participant’s compensation. In addition, the Company also contributes an additional 3% for all employees hired on or after January 1, 2010 in lieu of participation in the Company’s defined benefit plan. No additional discretionary contributions were made by the Company in 2011 and 2010.

(d) Participant Accounts

(e) Benefit Payments

Upon termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive the vested value of the participant's account in a lump sum distribution or installment payments.

Participants are vested immediately in their contributions plus actual earnings thereon. All employer contributions and related investment earnings become vested as set forth in the following table:

<u>Completed years of service</u>	<u>Percentage</u>
1	20%
2	40%
3	60%
4	80%

Any forfeitures resulting from termination of employment of any participant, or for any other reason, do not serve to increase the benefits of remaining participants, but reduce future employer contributions.

(g) Notes Receivable From Participants

The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.75%. Principal and interest is paid ratably through payroll deductions.

(h) Forfeitures

At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$39,922 and \$63,629, respectively. These accounts will be used to reduce future employer contributions and administrative expenses.

(2) Summary of Significant Accounting Policies

(a) *Basis of Accounting*

The financial statements of the Plan are prepared on the accrual basis of accounting.

As described in ASC 962, *Defined Contribution Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract in the common collective trust as well as the adjustment of the fully benefit responsive contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

(b) *Investment Valuation and Income Recognition*

Investments, as shown in the accompanying financial statements, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The incorporation of investment data in the accompanying financial statements is based solely on the certified statements provided by Reliance Trust Company. Such information has not been examined by the Plan's independent auditors.

(c) *Notes Receivable From Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

(d) *Payment of Benefits*

Benefits are recorded when paid.

December 31, 2011 and 2010

(e) *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) *Recently Adopted Accounting Standards*

In September 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-25, *Plan Accounting - Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balances plus any accrued but unpaid interest. ASU No. 2010-25 was effective for year ending December 31, 2010 and was applied retrospectively.

(g) *Subsequent Events*

The Plan has evaluated subsequent events for potential recognition and disclosure through June 8, 2012, the date the financial statements were available to be issued.

(3) Tax Status

The Internal Revenue Service issued a determination letter to the trustee on March 31, 2008, which stated that the Plan and its underlying trust qualify under Section 401(a) of the Internal Revenue Code (IRC) and, as a result, are exempt from federal income taxes under Section 501(a) of the Code. The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken uncertain tax positions that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(10) Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end.

Common / Collective Trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(a) General

The Plan is a defined contribution plan, established January 1, 1996, covering all employees of Kollsman, Inc. (the “Company”) who have met age requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a common / collective trust as investment options for participants.

(c) Employer Contributions

The Company may, at the discretion of its board of directors, make discretionary matching contributions. The Company may also, at the discretion of its board of directors, make additional discretionary contributions to the Plan, which are allocated to participants based on each participant’s compensation in relation to total compensation of all participants. The Company made matching contributions of \$.50 on each \$1 contributed to the Plan by the participant, up to 6% of the participant’s compensation. In addition, the Company also contributes an additional 3% for all employees hired on or after January 1, 2010 in lieu of participation in the Company’s defined benefit plan. No additional discretionary contributions were made by the Company in 2011 and 2010.

(d) Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Notes to Financial Statements

December 31, 2011 and 2010

(e) Benefit Payments

Upon termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive the vested value of the participant's account in a lump sum distribution or installment payments.

(f) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. All employer contributions and related investment earnings become vested as set forth in the following table:

<u>Completed years of service</u>	<u>Percentage</u>
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Any forfeitures resulting from termination of employment of any participant, or for any other reason, do not serve to increase the benefits of remaining participants, but reduce future employer contributions.

(g) Notes Receivable From Participants

Participant's may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. All loans must generally be repaid over a period no longer than five years or up to fifteen years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.75%. Principal and interest is paid ratably through payroll deductions.

(h) Forfeitures

At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$39,922 and \$63,629, respectively. These accounts will be used to reduce future employer contributions and administrative expenses.

(2) Summary of Significant Accounting Policies

(a) *Basis of Accounting*

The financial statements of the Plan are prepared on the accrual basis of accounting.

As described in ASC 962, *Defined Contribution Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract in the common collective trust as well as the adjustment of the fully benefit responsive contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

(b) *Investment Valuation and Income Recognition*

Investments, as shown in the accompanying financial statements, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The incorporation of investment data in the accompanying financial statements is based solely on the certified statements provided by Reliance Trust Company. Such information has not been examined by the Plan's independent auditors.

(c) *Notes Receivable From Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

(d) *Payment of Benefits*

Benefits are recorded when paid.

KOLLSMAN, INC.
401(k) Savings Plan

Notes to Financial Statements

December 31, 2011 and 2010

(e) *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) *Recently Adopted Accounting Standards*

In September 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-25, *Plan Accounting - Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balances plus any accrued but unpaid interest. ASU No. 2010-25 was effective for year ending December 31, 2010 and was applied retrospectively.

(g) *Subsequent Events*

The Plan has evaluated subsequent events for potential recognition and disclosure through June 8, 2012, the date the financial statements were available to be issued.

(3) Tax Status

The Internal Revenue Service issued a determination letter to the trustee on March 31, 2008, which stated that the Plan and its underlying trust qualify under Section 401(a) of the Internal Revenue Code (IRC) and, as a result, are exempt from federal income taxes under Section 501(a) of the Code. The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken uncertain tax positions that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(10) Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end.

Common / Collective Trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator (“you”) in completing the Form 5500 Schedule C¹ by identifying different types of compensation paid with respect to the Hartford product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2011 - 12/31/2011 and indirect compensation is presented on a calendar year basis ending 12/31/2011.

This report includes compensation actually paid to or by the Hartford within the indicated plan year as part of your Hartford product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your Hartford customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than Hartford). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our Hartford product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your Hartford Service Team should you require additional information regarding the compensation paid to or by Hartford with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan’s service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

¹ Please refer to the Schedule C of the Form 5500 and its instructions (available at: <http://www.dol.gov/ebsa/5500main.html>), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.
