INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Lucky Employee 401(k) Retirement Plan

I was engaged to audit the accompanying statements of net assets available for benefits of the Lucky Employee 401k Retirement Plan as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of Lucky Employee 401k Retirement Plan as of December 31, 2010, were audited by other auditors whose report dated July 20, 2011.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. The plan administrator has informed me that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the financial statements that I did not audit, I am unable to, and do not express an opinion on the accompanying financial statements and supplemental schedule as of and for the year ended December 31, 2011. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by Fidelity Management Trust Company, have been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under Employee Retirement Income Security Act of 1974 (ERISA).

1 - DESCRIPTION OF THE PLAN

The following description of the Lucky Employee 401K Retirement Plan provides only general information. Participants should refer to the plan agreement and amendments for a more complete description of the plan provisions.

General - The Plan is a defined contribution plan adopted by Lucky Chances, Inc. and its affiliates: Lucky Money, Inc., Lucky Check Cashing Inc., Lucky Tours Inc., Lucky Payday Advance, Inc., Lucky Group Advertising Inc., and Fil-Am Star Inc., effective April 1, 2002, and amended July 1, 2007 covering all full-time employees who have one year of service and age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent laws.

Plan Administration - The Plan has an administration and investment contract with Fidelity Management Trust Company since July 1, 2007.

Eligibility – An employee who has completed 1,000 hours in his/her first twelve months of service and attained the age of 21 is eligible to participate in the Plan.

Contributions - Participants may elect to defer a portion of their eligible compensation up to the limits imposed by federal tax law. Each year, participants may contribute from 1% to 100% of their pretax eligible compensation, but in no event can the aggregate contribution exceed the maximum annual dollar limit permitted by law. Eligible compensation does not include bonus, tips and cashed paid time offs. Participants may also contribute amounts representing distributions from other retirement plans, provided all legal and Administrator's requirements are met. The respective employers contribute 25% of the first 4% of eligible compensation that a participant contributes to the plan. Additional amounts may be contributed at the option of the Companies' respective Boards of Directors. No additional amounts were contributed for years 2011 and 2010. Maximum employee contribution limit for 2011 is $22,000 including $5,500 catch up contribution for participants aged 50 at the end of the year.

Participant Accounts - Each participant's account is credited with the participant's and Employer's contributions, and Plan earnings, and charged for services the administrator specifically performs for participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments - Participants may direct the investment of their account balance in any combination of various investment options offered by the trustee. Participants may change their investment options at any time.

Notes Receivable from Participants and Deemed Distributions - Participants may borrow against their vested account balance, subject to plan administrator approval. Loans are limited from a minimum of $1,000 to a maximum of 50% of a participant's vested account balance, but not in excess of $50,000. The maximum loan term is five years, unless the loan qualifies as a home loan, in which case the plan administrator may permit a longer repayment term. No more than one (1) loan may be outstanding at any time except in hardship cases approved by Plan Administrator. Effective January 1, 2006, the maximum loan term for any loan qualifying as a home loan will be 15 years. Loans bear interest at rates determined by the plan administrator and based on the prevailing interest rates. Principal and interest are paid ratably through payroll deductions. In case of default, i.e., if any of the scheduled repayments remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due, the loan balance will be deducted from the participant's account, and will be considered deemed distribution for which the participant will be liable for federal and state income taxes.

Payment of Benefits - Upon termination of service due to death, disability or retirement, a participant will be paid the vested interest in his account in lump sum as soon as administratively feasible. If the vested interest exceeds $5,000, participants can defer distribution to a later date, but not beyond his normal retirement age.

Vesting - Participants are fully vested in all deferral contributions and earnings thereon. If a participant's employment with the Company ends for a reason other than retirement, disability, or death, the participant's vesting in the Company's Employers' matching contributions is based on years of continuous service. A vesting schedule is as follows:

Years of Service for Vesting	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeitures - Forfeitures are the non-vested portion of participants' accounts that are lost upon termination of employment. Forfeitures are first used to pay administrative expenses and any remaining balance is used to reduce employer contributions. As of December 31, 2011 and 2010, the forfeitures' balance was $7,663 and $4,082 respectively.

Termination of plan - Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

2 - SIGNIFICANT ACCOUNTING POLICIES

Recent Accounting Pronouncements - In January 2010, the FASB issued guidance which expands the required disclosures about fair value measurements. In particular, this guidance requires (I) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance was effective for periods beginning after December 15, 2009 except for (ii) above which was effective for fiscal years beginning after December 15, 2010.

In September 2010, the FASB issued guidance requiring participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This guidance is effective for fiscal years ending after December 15, 2010.

In May 2011, the FASB issued Accounting Standards Update 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP, (ASU 2011-04). ASU 2011-04 amended ASC 820, to converge the fair value measurement guidance in US generally accepted accounting principles. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures.

Basis of Accounting - The Plan's financial statements are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition - Investments are stated at fair value, as determined by the Plan's trustee, Fidelity Management Trust Company. Notes receivable from participants are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividend income is accrued on the ex-dividend date.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported changes to net assets during the reporting periods. Actual results could differ from those estimates.

Concentrations of Risk - Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is reasonably possible, given the level of risks associated with investment securities that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Administrative Expenses - The sponsor of the plan pays for substantially all plan administrative expenses.

Payment of Benefits - Distributions to participants are recorded when paid.

Subsequent Events - Subsequent events for the Plan have been considered through the date of the Independent Auditor's Report, which represents the date the financial statements were available to be issued.

3 – FAIR VALUE

The Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities

(Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three-tier fair value hierarchy includes the following categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data, such as quoted prices for similar assets or liabilities or model-derived valuations.

- Level 3: Unobservable inputs that are not corroborated by market data. These inputs reflect a company's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following tables set forth by level within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis were as follows as of December 31, 2011:

	December 31, 2011'			
	Fair Value Measurements

Total investments	**$ 8,188,281**	**$ 70,181**	**$ -**	**$ 8,258,463**

The following is a description of the valuation methodologies used for the investments measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Money market securities – Money market securities are valued at quoted market prices in an exchange and active market and are classified as Level 1 investments.

Common collective trust - The stable value fund, held in a common collective trust fund, invests in conventional and synthetic guaranteed investment contracts ("GICs") issued by life insurance companies, banks and other financial institutions with excess cash invested in cash equivalents. The stable value fund allows for earnings stability regardless of the volatility of the financial markets and is recorded in the accompanying financial statements at fair value. The common collective trust is classified as a Level 2 investment. Registered investments companies are stated at fair value as determined by observable Level 1 quoted publicly market prices in an exchange and active market.

4 - INVESTMENTS

Investments that represent 5% or more of net assets available for benefits are as follows:

	2011	2010
Fidelity Advisor Stable Value	$ 1,042,814	$ -
Fidelity Advisor Leveraged Co Stock A	929,755	554,676
Franklin Templeton Moderate Allocation A	738,289	-
Putnam Voyager A	605,503	807,398

Fidelity Retirement Money Market	-	910,096
Fidelity Advisor Balanced I	-	745,957
Heartland Select Value	-	649,320
Investments International Small Company	-	471,597

The Plan's investments bought, sold, and held during the year, (depreciated)/appreciated in value by ($661,111) and $990,074 for the years ended December 31, 2011 and 2010 respectively.

5 - CERTIFICATION

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by Fidelity Management Trust Company:

	2011	2010
Money market securities	$ 242,160	$ 910,096

6 - TAX STATUS

The Plan administrator and trustees believe the Plan as designed is currently in compliance with the applicable requirements of the IRC, and therefore is qualified and the related trust is tax-exempt as of the financial statement date.

7 - PARTY-IN-INTEREST TRANSACTIONS

Plan investments include mutual fund shares managed by Fidelity Management Trust Company who is the trustee of the Plan. Therefore, transactions with Fidelity Management Trust Company qualify as party-in-interest transactions.

A portion of the Plan's administrative expenses are paid for by Lucky Chances, Inc., the principal Plan sponsor. Other than these, the Plan has no agreements or transactions with any other party-in-interest.

8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Changes in Net Assets Available for Benefits.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Lucky Employee 401(k) Retirement Plan

I was engaged to audit the accompanying statements of net assets available for benefits of the Lucky Employee 401k Retirement Plan as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of Lucky Employee 401k Retirement Plan as of December 31, 2010, were audited by other auditors whose report dated July 20, 2011.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. The plan administrator has informed me that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the financial statements that I did not audit, I am unable to, and do not express an opinion on the accompanying financial statements and supplemental schedule as of and for the year ended December 31, 2011. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by Fidelity Management Trust Company, have been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under Employee Retirement Income Security Act of 1974 (ERISA).

1 - DESCRIPTION OF THE PLAN

The following description of the Lucky Employee 401K Retirement Plan provides only general information. Participants should refer to the plan agreement and amendments for a more complete description of the plan provisions.

General - The Plan is a defined contribution plan adopted by Lucky Chances, Inc. and its affiliates: Lucky Money, Inc., Lucky Check Cashing Inc., Lucky Tours Inc., Lucky Payday Advance, Inc., Lucky Group Advertising Inc., and Fil-Am Star Inc., effective April 1, 2002, and amended July 1, 2007 covering all full-time employees who have one year of service and age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent laws.

Plan Administration - The Plan has an administration and investment contract with Fidelity Management Trust Company since July 1, 2007.

Eligibility – An employee who has completed 1,000 hours in his/her first twelve months of service and attained the age of 21 is eligible to participate in the Plan.

Contributions - Participants may elect to defer a portion of their eligible compensation up to the limits imposed by federal tax law. Each year, participants may contribute from 1% to 100% of their pretax eligible compensation, but in no event can the aggregate contribution exceed the maximum annual dollar limit permitted by law. Eligible compensation does not include bonus, tips and cashed paid time offs. Participants may also contribute amounts representing distributions from other retirement plans, provided all legal and Administrator's requirements are met. The respective employers contribute 25% of the first 4% of eligible compensation that a participant contributes to the plan. Additional amounts may be contributed at the option of the Companies' respective Boards of Directors. No additional amounts were contributed for years 2011 and 2010. Maximum employee contribution limit for 2011 is $22,000 including $5,500 catch up contribution for participants aged 50 at the end of the year.

Participant Accounts - Each participant's account is credited with the participant's and Employer's contributions, and Plan earnings, and charged for services the administrator specifically performs for participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments - Participants may direct the investment of their account balance in any combination of various investment options offered by the trustee. Participants may change their investment options at any time.

Notes Receivable from Participants and Deemed Distributions - Participants may borrow against their vested account balance, subject to plan administrator approval. Loans are limited from a minimum of $1,000 to a maximum of 50% of a participant's vested account balance, but not in excess of $50,000. The maximum loan term is five years, unless the loan qualifies as a home loan, in which case the plan administrator may permit a longer repayment term. No more than one (1) loan may be outstanding at any time except in hardship cases approved by Plan Administrator. Effective January 1, 2006, the maximum loan term for any loan qualifying as a home loan will be 15 years. Loans bear interest at rates determined by the plan administrator and based on the prevailing interest rates. Principal and interest are paid ratably through payroll deductions. In case of default, i.e., if any of the scheduled repayments remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due, the loan balance will be deducted from the participant's account, and will be considered deemed distribution for which the participant will be liable for federal and state income taxes.

Payment of Benefits - Upon termination of service due to death, disability or retirement, a participant will be paid the vested interest in his account in lump sum as soon as administratively feasible. If the vested interest exceeds $5,000, participants can defer distribution to a later date, but not beyond his normal retirement age.

Vesting - Participants are fully vested in all deferral contributions and earnings thereon. If a participant's employment with the Company ends for a reason other than retirement, disability, or death, the participant's vesting in the Company's Employers' matching contributions is based on years of continuous service. A vesting schedule is as follows:

Years of Service for Vesting	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeitures - Forfeitures are the non-vested portion of participants' accounts that are lost upon termination of employment. Forfeitures are first used to pay administrative expenses and any remaining balance is used to reduce employer contributions. As of December 31, 2011 and 2010, the forfeitures' balance was $7,663 and $4,082 respectively.

Termination of plan - Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

2 - SIGNIFICANT ACCOUNTING POLICIES

Recent Accounting Pronouncements - In January 2010, the FASB issued guidance which expands the required disclosures about fair value measurements. In particular, this guidance requires (I) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance was effective for periods beginning after December 15, 2009 except for (ii) above which was effective for fiscal years beginning after December 15, 2010.

In September 2010, the FASB issued guidance requiring participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This guidance is effective for fiscal years ending after December 15, 2010.

In May 2011, the FASB issued Accounting Standards Update 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP, (ASU 2011-04). ASU 2011-04 amended ASC 820, to converge the fair value measurement guidance in US generally accepted accounting principles. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures.

Basis of Accounting - The Plan's financial statements are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition - Investments are stated at fair value, as determined by the Plan's trustee, Fidelity Management Trust Company. Notes receivable from participants are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividend income is accrued on the ex-dividend date.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported changes to net assets during the reporting periods. Actual results could differ from those estimates.

Concentrations of Risk - Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is reasonably possible, given the level of risks associated with investment securities that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Administrative Expenses - The sponsor of the plan pays for substantially all plan administrative expenses.

Payment of Benefits - Distributions to participants are recorded when paid.

Subsequent Events - Subsequent events for the Plan have been considered through the date of the Independent Auditor's Report, which represents the date the financial statements were available to be issued.

3 – FAIR VALUE

The Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities

(Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three-tier fair value hierarchy includes the following categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data, such as quoted prices for similar assets or liabilities or model-derived valuations.

- Level 3: Unobservable inputs that are not corroborated by market data. These inputs reflect a company's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following tables set forth by level within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis were as follows as of December 31, 2011:

Total investments	**$ 8,188,281**	**$ 70,181**	**$ -**	**$ 8,258,463**

The following is a description of the valuation methodologies used for the investments measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Money market securities – Money market securities are valued at quoted market prices in an exchange and active market and are classified as Level 1 investments.

Common collective trust - The stable value fund, held in a common collective trust fund, invests in conventional and synthetic guaranteed investment contracts ("GICs") issued by life insurance companies, banks and other financial institutions with excess cash invested in cash equivalents. The stable value fund allows for earnings stability regardless of the volatility of the financial markets and is recorded in the accompanying financial statements at fair value. The common collective trust is classified as a Level 2 investment. Registered investments companies are stated at fair value as determined by observable Level 1 quoted publicly market prices in an exchange and active market.

4 - INVESTMENTS

Investments that represent 5% or more of net assets available for benefits are as follows:

6 - TAX STATUS

The Plan administrator and trustees believe the Plan as designed is currently in compliance with the applicable requirements of the IRC, and therefore is qualified and the related trust is tax-exempt as of the financial statement date.

7 - PARTY-IN-INTEREST TRANSACTIONS

Plan investments include mutual fund shares managed by Fidelity Management Trust Company who is the trustee of the Plan. Therefore, transactions with Fidelity Management Trust Company qualify as party-in-interest transactions.

A portion of the Plan's administrative expenses are paid for by Lucky Chances, Inc., the principal Plan sponsor. Other than these, the Plan has no agreements or transactions with any other party-in-interest.

8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks.
