RENAL CAREPARTNERS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Renal CarePartners, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan which was sponsored by Renal CarePartners, Inc. ("Renal") through November 30, 2011, and by Ambulatory Services of America, Inc. ("Ambulatory") (collectively, the "Company") effective December 1, 2011 at which time Renal was acquired by Ambulatory (the "Acquisition") (see Note 12). The Plan was originally established for the benefit of employees of Renal (and employees of various participating employers, all of whom were related entities under common ownership to Renal) who have one year of service, are at least twenty-one years of age, and are not excluded by certain provisions outlined in the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan amendments - Effective January 1, 2010, the Plan was amended and restated upon the adoption of an updated volume-submitter plan document to comply with the provisions of the Pension Protection Act of 2006 and other Internal Revenue Service ("IRS") guidance. Participants' benefits under the Plan were not significantly affected by this amendment and restatement.

At certain dates during 2010, the Plan was amended to add various related entities under common ownership to Renal as participating employers in the Plan.

Effective January 1, 2011, the Plan was amended and restated to provide that the Company's discretionary matching contributions, if the Company elects to make such contributions, will be made on an annual basis.

Effective December 1, 2011, the Plan was amended and restated to replace Renal as the plan sponsor with Ambulatory, and to amend the trustees of the Plan. Participants' benefits under the Plan were not affected by this amendment.

Contributions - Participants may contribute up to 100% of pretax annual compensation, as defined in the plan document, subject to limitations established by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions, as defined in the plan document.

Each year, the Company may make discretionary matching contributions to the Plan. During the years ended December 31, 2011 and 2010, the Company made matching contributions equal to 25% of the first 4% of participants' compensation that was contributed to the Plan. The Company's matching contributions aggregated \$44,971 and \$32,731, for the years ended December 31, 2011 and 2010, respectively. The Company's matching contributions are invested within each participant's account in accordance with the participant's own investment elections.

RENAL CAREPARTNERS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Contributions (continued) -

Additionally, the Company may make profit sharing and/or qualified non-elective contributions ("QNEC") to the Plan. During the years ended December 31, 2011 and 2010, the Company did not make any profit sharing or QNEC contributions to the Plan.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan offered various pooled separate accounts and other funds as investment options for participants as of December 31, 2011 and 2010.

Participant accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and, (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their own contributions and QNEC contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions, plus actual earnings thereon, is subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of benefits - On termination of service due to death, disability, retirement, attainment of 59 ½ years of age, or other reasons, or qualifying under certain "hardship" rules as prescribed by the IRS, a participant may elect to receive distributions from the Plan. Effective January 1, 2010, all distributions from the Plan were required to be made in the form of a lump sum payment.

Forfeited accounts - Forfeitures are retained in the Plan and may be used to reduce future Company contributions or to pay the Plan's administrative expenses. Forfeitures during 2011 and 2010, and unapplied forfeitures at December 31, 2011 and 2010 were not significant.

RENAL CAREPARTNERS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable, as of December 31, 2011 and 2010. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New accounting pronouncement - The following new accounting pronouncement was adopted during the year ended December 31, 2011:

Fair Value Disclosures - In January 2010, the Financial Accounting Standards Board ("FASB") issued guidance which expanded the required disclosures about fair value measurements. This guidance requires information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements and is effective for fiscal years beginning after December 15, 2010. Net assets available for benefits and changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Unit values - Individual participant accounts for the pooled separate accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

RENAL CAREPARTNERS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

(4) Information prepared and certified by the custodian (continued)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) Fair value measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts: Valued at fair value. The fair value of shares of an underlying fund equals the number of shares of the respective underlying fund multiplied by the net asset value per share quoted by the fund.

Other funds: Represents the value at which shares of these funds may be purchased or redeemed.

(5) Fair value measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the plan sponsor's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

Investments at Fair Value as of December 31, 2011

NOTES TO FINANCIAL STATEMENTS

(6) Net asset value ("NAV") per share

In accordance with Accounting Standards Update ("ASU") No. 2009-12, the Plan expanded its disclosures to include the category, fair value, unfunded commitments, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of December 31, 2011 and 2010.

The following table for December 31, 2011 and 2010 sets forth a summary of the Plan's investments with a reported NAV:

	Fair Value * 12/31/2011	Fair Value * 12/31/2010	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 1,403,319	\$ 1,194,486	\$ -	Daily	None

* Fair value has been estimated using the net asset value of the investments.

(7) Excess contributions payable

Excess deferral contributions are refundable to active participants to satisfy the relevant nondiscrimination provisions of the Plan and the Internal Revenue Code (the "Code"). Excess deferral contributions applicable to the year ended December 31, 2010 totaled \$16,088 and have been reported in the statement of net assets available for plan benefits at December 31, 2010 as excess contributions payable. This amount was fully refunded to various participants in 2011.

(8) Party-in-interest transactions

The Plan's investments are in pooled separate accounts and other funds managed by John Hancock. John Hancock is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Administrative expenses paid by the Plan to John Hancock and another service provider aggregated \$14,764 and \$11,544 during the years ended December 31, 2011 and 2010, respectively.

(9) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in all Company contributions.

(10) Tax status

The IRS has determined and issued an opinion letter dated March 31, 2008 that the prototype plan adopted by the Company is designed in accordance with the applicable sections of the Code. Although the Plan has been amended since receipt of this letter, the plan administrator believes that the Plan, as amended, continues to qualify and operate in compliance with the applicable requirements of the Code.

RENAL CAREPARTNERS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

(10) Tax status (continued)

U.S. generally accepted accounting principles require the plan sponsor's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(11) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(12) Subsequent events

The Plan has evaluated subsequent events through October 2, 2012 which is the date the financial statements were available to be issued, and noted the following item for disclosure:

As a result of the Acquisition (see Note 1), in March 2012, the Plan was merged into Ambulatory's defined contribution plan, which is the successor plan. In connection with the merger, participants were credited with prior service time with Renal for purposes of the vesting schedule and eligibility under the successor plan.
