Sinclair Broadcast Group Pension Plan

Notes to Financial Statements

December 31, 2011

1. Description of Plan

The Plan (formerly known as the Successor Pension Fund for Former Employees of Guy Gannett) is a contributory defined benefit plan established by Sinclair Broadcast Group, Inc. (the Company) to provide a basic retirement program for employees. During the year ended December 31, 2000 the Plan covered the two television stations, WGME-TV and WGGB-TV (the Stations), acquired by the Company from Guy Gannett during 1999. On December 31, 2000, the KGAN-TV Pension Fund for Former Employees of Guy Gannett and the WLOS-TV, Inc. (WLOS) Retirement Plan (the Predecessor Plans) were merged into the Plan. In conjunction with the merger, all the assets of the Predecessor Plans were transferred into the Plan. It is the Company's position that all participants in the Plan would receive a benefit immediately after the merger that is equal to or greater than the benefit the participant would have been entitled to receive immediately before the merger. The Plan covers all of the purchased stations' employees that were participants in the Guy Gannett Retirement Plans and substantially all other employees of the Stations, provided they are full-time employees over the age of 40 or have completed one year of service and are at least 21 years of age. The Plan is administered by the Company.

The accrued benefits related to former participants in the WLOS, Inc. Retirement Plan were frozen as of January 10, 1994, and employees of WLOS that met the eligibility requirements to participate in the Plan after January 10, 1994, are not eligible to participate in the Plan.

The Plan was amended on June 18, 2008 to freeze all current participants of the Plan except the employees at WGME-TV in the American Federation of Television and Radio Artists Division 11 (AFTRA Division 11) effective June 30, 2008. No new participants are permitted to enter the Plan effective June 30, 2008 and no new benefit accruals are permitted after June 30, 2008.

The Plan was amended on August 22, 2008 to freeze all AFTRA Division 11 participants effective August 31, 2008. No new AFTRA Division 11 employees are permitted to enter into the Plan as of August 31, 2008 and no new benefit accruals are permitted after August 31, 2008.

Funding and Contribution Policy

Employer contributions for each fiscal year of the Plan are accrued based on amounts required to be funded to meet the cost of benefits earned by participants in that year, plus appropriate amounts to amortize unfunded liabilities and experienced gains and losses. Funding calculations were performed by Massachusetts Mutual Life Insurance Company (Mass Mutual), the actuary and trustee, for the years ended December 31, 2011 and 2010. The Company, if required, makes contributions on a quarterly basis; total contributions for the years ended December 31, 2011 and 2010, were $305,688 and $272,192, respectively. The Plan has met or exceeded the minimum funding requirements of the Employee Retirement Income Security Act of 1974 for the years ended December 31, 2011 and 2010.

Certain employees subject to collective bargaining contribute to the Plan based on 1% of earnings up to the Federal Insurance Contributions Act (FICA) taxable wage base, plus 3% of earnings in excess of the FICA taxable wage base.

Pension Benefits

Participants at age 65 are entitled to normal retirement benefits; for unmarried participants, benefits are payable monthly for life; for married participants, a joint marital pension is payable for the life of the participant or spouse, whichever is longer. The Plan permits early retirement for any participant who has attained age 55 and, for WGGB employees, has accumulated 10 years of vested service. The Plan also permits, subject to certain conditions, various other payment options. Benefits are primarily based on accrued benefits through December 31, 1991, under the Predecessor Plan, plus 1% of regular earnings for each year plus the greater of ½% of regular earnings and $78, for WGME and KGAN employees, or $18, for WGGB employees, commencing on January 1, 1992. Regular earnings for commissioned employees of WGGB are considered to be 70% of average annual commissions for the three previous years.

If an employee dies before becoming vested in the Plan, there is no death benefit. If a vested employee who has not begun to receive retirement benefits dies, the employee's spouse will receive a monthly pension benefit, commencing on the date the participant would have turned 65, equal to that which the spouse would have been entitled had retirement occurred on the date of death and the employee had elected to receive benefits in the form of a joint marital pension.

Vesting is determined as follows:

Combined Years of Continuous Services with the Company and Guy Gannett	Percentage Vested
Less than 5	0%
5 or more	100%

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits, subject to specified limitations.

Upon termination of the Plan, all participants become fully vested. Whether all participants would receive their benefits in the event of Plan termination will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Information about the Plan agreement, the vesting and benefit provisions, and the PBGC benefit guarantee is contained in the Summary Plan Description. Copies of this pamphlet are available from the Company's Human Resources Department.

Party-in-Interest

Certain Plan investments are shares of pooled separate accounts managed by Mass Mutual. Transactions involving these instruments are party-in-interest transactions.

Administrative Expenses

The Company pays substantially all administrative expenses of the Plan. Certain investment management fees and other charges paid to the trustee, Mass Mutual, are

offset against fund performance in net realized and unrealized appreciations in fair value of investments and are not, therefore, separately reflected as administrative expenses.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of Investments

Investments are stated at fair value, which includes realized and unrealized gains and losses. Purchases and sales of securities are recorded on a trade-date basis. For further information see Note 7, Fair Value Measurements.

Benefit Payments

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) are estimated future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries. The accumulated plan benefits for active employees are based on the more favorable of average compensation during the five years preceding the valuation date or the average of the highest consecutive five years of the employee's compensation. Benefits payable under all circumstances-retirement, death, disability, and termination of employment-are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

Subsequent Events

The Company has evaluated subsequent events for recognition and disclosure through the date of this report, September 10, 2012.

3. Accumulated Plan Benefits

The Plan's actuary estimates the actuarial present value of accumulated plan benefits. These estimates result from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information is as follows:

	December 31	
	2011	**2010**
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants and beneficiaries currently receiving payments	$ 4,053,430	$ 3,921,294
Other participants	6,069,908	5,901,164

Nonvested benefits	4,090	303,300
	$10,127,428	$10,125,758

The changes in the actuarial present value of accumulated plan benefits were as follows:

	Year ended December 31 2011	2010
Actuarial present value of accumulated plan benefits, beginning of period	$ 10,125,758	$ 9,989,518
Increase (decrease) attributable to:		
Interest, due to the decrease in the discount period	691,710	682,638
Benefits paid to participants	(488,367)	(475,097)
Benefits accumulated and other	(201,673)	(71,301)
Net increase (decrease)	1,670	136,240
Actuarial present value of accumulated plan benefits, end of period	$ 10,127,428	$ 10,125,758

Significant assumptions underlying the actuarial present value of accumulated plan benefits as of December 31, 2011 and 2010 are as follows:

Expected rate of return on plan assets	7.00% compounded annually
Discount rate on benefit obligations	4.58% and 5.34%, respectively
Mortality basis	The adjusted RP-2000 Combined Mortality Table
Assumed retirement age	65
Plan expenses	None

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Accumulated plan benefits include $86,380 and $80,123 of employees' accumulated contributions at December 31, 2011 and 2010, respectively, which included credited interest.

4. Investments

Investments are stated at fair value at December 2011 and 2010. During 2011 and 2010, the Plan's investments (including investments bought, sold, as well as held during the year), as determined by Level 2 inputs (see Note 8 for further information), appreciated in fair value by $15,219 and $1,119,358, respectively.

Investments are held by Mass Mutual, the trustee of the Plan. The investments that are included in the financial statements are based on information certified by the trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employment Retirement Income Security Act of 1974.

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated July 24, 2003, stating that the Plan is qualified under section 401(a) of the Internal Revenue Code (the Code), and therefore, the related trust is exempt from taxation. Once qualified, the trust is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Fair Value Measurements

Accounting guidance provides for valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). The statement utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

- *Level 1*: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities;

- *Level 2*: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active; and

- *Level 3*: Unobservable inputs that reflect the reporting entity's own assumptions.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2011 and 2010, respectively (Level 1, 2 and 3 inputs are defined above):
