Associated Physicians' Retirement Savings Plan

Notes to Financial Statements

December 31, 2011 and 2010

1. Description of the Plan

General

The Associated Physicians' Retirement Savings Plan (the Plan) was adopted by Texas EM-I Medical Services, P.A. (the Company or Employer), effective March 1, 1998, to provide retirement benefits to its employees. The Plan is a defined contribution plan consisting of two independent parts: (1) a 401(k) portion and (2) a portion referred to as profit sharing, both of which permit an elective deferral of compensation. All employees of the Company are eligible to participate in the 401(k) portion at any time and the elections will be effective the following pay period. Employees who have attained age 21 are eligible to participate in the profit sharing portion on the first of the second month following completion of 1,000 hours of service, as defined in the Plan document. Once eligible, an employee must elect to participate within 30 days. The employee remains eligible as long as employment status with the Company is maintained. The Plan is intended to constitute a Section 401(a) plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

Contributions

Contributions to the plan are subject to certain IRS limitations, as outlined in the plan document.

Participants may contribute from 1% to 25%, subject to limitations of Section 402(g)(1) of the Code, of their annual compensation on a tax-deferred basis. Rollover contributions are permitted only from qualified retirement plans.

For individuals who so elect, the Employer will contribute, with commensurate compensation adjustment, (1) a fixed percentage of their income from 1% to 20%; or (2) a percentage of their income that adjusts automatically at certain fixed dates in the future. A one time irrevocable election of participation is required for this aspect of the Plan.

For the year ended December 31, 2011 and 2010, the Plan failed the discrimination test. In order to continue as a qualified plan, the Company made additional contributions of \$48,606 for 2011 and \$59,351 for 2010 during the third quarter of 2011 and 2010, respectively. Such amounts are included in the employer contributions receivable on the statement of net assets available for benefits.

Participant Accounts

Each participant's account is credited with contributions plus allocations of Plan earnings. Upon termination, a participant is entitled to 100% of their contributions and the related earnings thereon.

Associated Physicians' Retirement Savings Plan

Notes to Financial Statements

December 31, 2011 and 2010

Vesting

Participants are immediately vested in their 401(k), profit sharing and rollover contributions plus actual earnings thereon. However, if, as the result of an acquisition, a former employer transfers funds from prior plans into this plan, these funds will retain their former vesting schedule.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of the following investment options: mutual funds, common/collective trusts and a self-directed brokerage account option.

Changes to 401(k) contributions can be made monthly. Investment elections can be changed daily.

Withdrawals

Upon termination of service, or upon death, disability, or retirement, a participant may receive a lump-sum payment equal to his or her vested account balance. After attainment of age 59½, participants may withdraw any amount up to their vested account balance. Hardship withdrawals from 401(k) and rollover contributions may be made, subject to certain conditions and restrictions. After 5 years of employment, participants may make withdrawals from profit sharing contributions. Prior to that time, participants may only withdraw profit sharing amounts which have been in the Plan for at least two years.

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or longer for the purchase of a primary residence (as determined by plan administrator). The loans are secured by the balance in the participant's account and bear interest at prime plus 2 percent (ranging from 5.25% to 11.50% as of December 31, 2011 and 2010). Principal and interest are paid ratably through monthly payroll deductions and is reinvested according to current investment elections.

Forfeited Accounts

Amounts that are forfeited under the Plan are first used to restore amounts previously forfeited, and if any amounts remain, are applied to reduce Employers contributions or to pay Plan expenses. At December 31, 2011 and 2010, unallocated forfeited nonvested accounts were \$0 and \$65, respectively.

Administration

The Plan is administered by the Company. The Charles Schwab Trust Company (Schwab) acts as trustee of Plan assets and The Schwab Retirement Plan Services is the Plan's recordkeeper.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Schwab Stable Value Fund holds fully benefit-responsive investments contracts subject to the provisions of Financial Accounting Standards Board Accounting Standards Codification Topic 962, *"Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined-Contribution Pensions Plans"* ("Topic 962"). Topic 962 requires investment contracts held by a defined-contribution plan to be reported at fair value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because the contract value is the amount the participants would receive if they were able to initiate permitted transactions under the terms of the Plan. As required by Topic 962, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as an adjustment from fair value to contract value.

Use of Estimates

The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The fair value of investments in mutual funds is based on quoted market prices which represent the net asset value of shares held by the Plan at year-end. Limited partnerships are valued at book value at year end which approximates fair value. Common stock is valued at quoted market prices.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in fair value of investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan invests in a combination of mutual funds, limited partnerships and common stocks. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Benefit Payments

Benefits are recorded when paid.

3. Information Certified by Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010, respectively, and the adjustments from fair value to contract value for the fully benefit-responsive investment contract
- Notes receivable from participants at December 31, 2011 and 2010 and the related interest income for the year ended December 31, 2011
- Investment loss, net of (\$5,102,865): (\$150,685) for common/collective trusts, (\$2,343,546) for registered investment companies, and (\$2,608,634) for self-directed brokerage accounts) as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2011
- Schedule of Assets (Held at End of Year) at December 31, 2011
- The fair value of individual investments that represent 5% or more of the Plan's net assets at December 31 as follows:

	<u>2011</u>	<u>2010</u>

4. Fair Value Measurements:

Financial Accounting Standards Board Accounting Standards Codification section 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Investments in registered investment companies (mutual funds) common stocks, bonds and unit investment trusts: Valued at quoted market prices which represent the net asset value of shares held by the Plan at year end.

Investments in common/collective trusts (includes stable value fund) and self-directed brokerage accounts: Valued at the quoted market price of the underlying investments held by the Plan at year end.

Investments in limited partnerships: Independently valued by the plan sponsor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation

Associated Physicians' Retirement Savings Plan **Notes to Financial Statements** **December 31, 2011 and 2010**

methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

- (1) During 2011, Schwab decided to liquidate and terminate the Schwab Stable Value Fund by April 30, 2012. In anticipation of this action, at December 31, 2011 Schwab had moved 80.1% of the fund investments to cash equivalents. Therefore, 80.1% of the Plan's balance in this investment has been moved to Level 1 at December 31, 2011. Effective April 1, 2012, the Plan will move participant's amounts in this fund to a money market fund.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances.

Associated Physicians' Retirement Savings Plan **Notes to Financial Statements** **December 31, 2011 and 2010** ---

6. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated February 20, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRS and therefore, is exempt from taxation under Section 501(a) of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The Plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2008.

7. Related Party Transactions

Certain Plan investments are shares of registered investment companies and common/collective trusts managed by Schwab. Schwab is the trustee and recordkeeper as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Schwab for these services amount to \$27,330 for the year ended December 31, 2011.
