NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the Plan

The following description of the Malco Products, Inc. Independent Union Employees' Incentive Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Malco Products, Inc. (the Company) who have completed one year of service and are in the collective bargaining unit represented by Malco Employees' Independent Union. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective May 15, 2011, the Plan was amended to include the addition of a Roth Elective Deferral Contribution feature.

Contributions

Participants can elect to have from 1% to 50% of their pre-tax and/or post-tax annual compensation contributed to the Plan, subject to limits set by the Internal Revenue Service (IRS). The Company currently makes a discretionary matching contribution equal to 50% of a participant's contribution, up to 7% of the participant's base compensation, which became effective July 1, 2010. Prior to that date, the Company match was 25% of a participant's contribution, up to 7% of the participant's base compensation. The Company may, at the discretion of its board of directors, make additional voluntary profit-sharing contributions.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. Allocations are based on provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2 years	0%
2 but less than 3 years	20%
3 but less than 4 years	40%
4 but less than 5 years	60%
5 but less than 6 years	80%
6 years or more	100%

NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the Plan, continued

Notes receivable from participants

Participants may borrow from their fund accounts up to the lesser of \$50,000 or 50% of their vested account balance. Note transactions are treated as a transfer between the investment fund and the note account. Note terms range from one to five years or more for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator.

Payment of benefits

Upon death, disability, retirement or termination of services, a participant or beneficiary may receive a lump-sum amount equal to the vested value of the participant's account, or receive installment payments or a series of substantially equal installments.

Every participant may retire on his normal retirement date. However, a participant may postpone his retirement to a later date, in which event the participation of such participant in the Trust, including the right to receive allocations shall continue until his later retirement date.

Upon the death or permanent disability of a participant before his retirement date or other termination of his employment, all amounts credited to such participant's combined account shall become fully vested.

Forfeited accounts

Forfeitures relating to employer matching contributions remain within the Plan and are used to reduce future employer contributions and administrative expenses. During the years ended December 31, 2011 and 2010, forfeitures amounted to \$93 and \$29, respectively. At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$1,655 and \$1,567, respectively.

Plan expenses

Substantially all Plan expenses are paid by the Company.

NOTE B - Summary of significant accounting policies

Basis of presentation

The accompanying financial statements have been prepared using the modified cash basis of accounting. The modified cash basis of accounting reports financial information on a cash basis, except that investments are adjusted to fair value. The modified cash basis of accounting, which is permitted under the Department of Labor's Rules and Regulations, is a comprehensive basis of accounting other than principles generally accepted in the United States.

**MALCO PRODUCTS, INC.
INDEPENDENT UNION EMPLOYEES' INCENTIVE SAVINGS PLAN
AND TRUST**

NOTES TO FINANCIAL STATEMENTS

NOTE B - Summary of significant accounting policies, continued

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

The Plan's investments are stated at fair value. Units of pooled separate accounts are valued at quoted market prices, which represent the net asset value of units of pooled separate accounts held by the Plan at year end. The fair value of the guaranteed investment contract is calculated using a Market Value Formula determined by Massachusetts Mutual Life Insurance Company (MassMutual).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Recent accounting pronouncements

On January 1, 2010, the Plan adopted ASU 2010-06, which amends existing guidance in ASC 820, *Fair Value Measurement*, except for the new disclosure providing disaggregated information related to the activity in Level 3 fair value measurements, which the Plan adopted effective January 1, 2011.

Events occurring after reporting date

The Company has evaluated subsequent events through October 2, 2012, the date the financial statements were available to be issued, and has determined that there were no subsequent events to recognize or disclose in these financial statements.

NOTE C - Investments (unaudited)

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2011 and 2010, net (depreciation) appreciation in fair value of units of pooled separate accounts, and interest and dividend income for the years ended December 31, 2011 and 2010, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by MassMutual, the custodian. As elected by the Plan administrator, no auditing procedures have been performed on this information except to compare such information to the information included in the accompanying financial statements.

The fair value of individual investments that represents 5% or more of the Plan's net assets at either year end was as follows at December 31:

<u>Name</u>	<u>2011</u>	<u>2010</u>
Contrafund (Fidelity) (310 and 337 units, respectively)	\$ 144,659	\$ 157,667

* This amount represents contract value for this investment.

**This amount did not represent 5% or more of the Plan's net assets at December 31, 2011.

There were no nonparticipant-directed investments at December 31, 2011 and 2010.

During 2011 and 2010, the Plan's investments (including investments bought, sold and held during the year) (depreciated) appreciated in value as follows:

	<u>2011</u>	<u>2010</u>
Units of pooled separate accounts	\$ <u>(9,129)</u>	\$ <u>158,561</u>

NOTE D - Fair value measurements

The Plan follows the provisions of *Accounting Standards Codification (ASC) 820 Fair Value Measurement and Disclosures*. ASC 820 defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. ASC 820 does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobserved inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**MALCO PRODUCTS, INC.
INDEPENDENT UNION EMPLOYEES' INCENTIVE SAVINGS PLAN
AND TRUST**

NOTES TO FINANCIAL STATEMENTS

NOTE D - Fair value measurements, continued

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at quoted market prices, which represent the net asset value of units of pooled separate accounts held by the Plan at year end.

Guaranteed interest account: The fair value of the guaranteed investment contract is calculated using a Market Value Formula determined by MassMutual.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E - Investment contract with insurance company

The Plan entered into a benefit-responsive investment contract with MassMutual. MassMutual maintains the contributions in a guaranteed interest account which is backed by MassMutual general assets. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rates were 3.15% and 3.35% for 2011 and 2010, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3.00% during 2011 and 2010, respectively. Such interest rates are reviewed on a semi-annual basis for resetting. During the years ended December 31, 2011 and 2010, the account earned interest income of \$33,272 and \$33,688, respectively.

NOTES TO FINANCIAL STATEMENTS

NOTE E - Investment contract with insurance company, continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include but may not be limited to the following: an employee's (1) temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the Plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; or (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan sponsor's business. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Upon termination of the contract with MassMutual, the Plan can select various options for liquidation of investments. The value of the investment contract received by the Plan is dependent upon the option selected by the Plan.

<i>Average yields:</i>	<u>2011</u>	<u>2010</u>
Based on actual earnings	2.76%	2.99%
Based on interest rate credited to participants	2.76%	2.99%

NOTE F - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE G - Income tax status

The Internal Revenue Service ruled on March 31, 2008, that the Plan, as then designed, qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust was not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE G - Income tax status, continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE H - Transactions with parties-in-interest

Certain Plan investments are shares of pooled separate accounts managed by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the custodian as defined by the Plan and, therefore, transactions therewith qualify as party-in-interest.

NOTE I - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
