INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
BA Holdings, Inc. Savings Plan
Riverside, California

We were engaged to audit the financial statements and supplemental schedule of BA Holdings, Inc. Savings Plan (the "Plan") as of December 31, 2011, and for the year then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2010, were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by T. Rowe Price Trust Company ("T. Rowe Price"), the trustee of the Plan. Their report, dated September 27, 2011, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by T. Rowe Price, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's 2011 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The form and content of the information included in the 2011 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

BA HOLDINGS, INC. SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE A: **Description Of The Plan** - The following description of the BA Holdings, Inc. Savings Plan (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan established in March 1, 1996, under the provisions of Section 401(k) of the Internal Revenue Code. The Plan covers substantially all eligible employees of BA Holdings, Inc. and its participating subsidiaries (Luxfer, Inc. Superform USA, Inc., Magnesium Elektron North America, Inc., Hart Metals, Inc., Magnesium Elektron, Inc., and Reade Manufacturing Company) (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986, as amended.

(1) Eligibility - The purpose of the Plan is to provide retirement benefits for substantially all employees who have attained age 21 or older. Part time employees as defined in the Plan document will be eligible to participate in the Plan after completing one year of service, equivalent to 1,000 hours of service. Eligible employees are automatically enrolled in the Plan after their first 30 days of employment. Eligible employees who do not want to participate in the Plan are required to explicitly decline to participate.

(2) Contributions - Participants may elect to contribute between 1 and 25 percent of their pre-tax or after-tax annual compensation, not to exceed the maximum deferral limitation as defined in the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. In accordance with the Plan document, the Company matches 100 percent of pre-tax and after-tax contributions including catch-up contributions, subject to a limit of 6 percent of eligible compensation for any eligible employee. The first 4 percent are "safe harbor" matching contributions, and the additional 2 percent are non-safe harbor matching contributions. For the year ended December 31, 2011, the Company matching contributions totaled $1,612,160.

(3) Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A: **Description Of The Plan** - (Continued)

(4) Vesting - Participants are immediately vested in their voluntary, rollover, and safe harbor matching contributions plus actual earnings thereon. Participants become fully vested in non-safe harbor matching contributions plus actual earnings thereon after the completion of two years of credited service.

(5) Notes Receivable From Participants - Participants may borrow against their Plan account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years.

Loans used to acquire principal residence are not to exceed a term of fifteen years. The loan amount can be a minimum of $1,000 but cannot exceed the lesser of (a) one-half of the participant's non-forfeitable interest under the Plan, or (b) $50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest is paid ratably through payroll deductions. The loans are secured by the vested account balance in the participant's account, and a participant can only have one loan outstanding at any time.

(6) Benefit Payments - If a participant's employment ceases as a result of death, the entire account becomes fully vested and the participant's beneficiaries are entitled to receive the contents of the account. If a participant is terminated for any other reason, the participant is entitled to receive only the vested percentage of the account. Participants or their beneficiaries may elect to receive benefits in a single lump sum, or in installments. If the value of the participant's account is less than $5,000 but greater than $1,000, the entire amount will be rolled into an IRA on behalf of the participant or the participant's beneficiaries. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59 ½, participants are allowed to withdraw their funds from the Plan.

(7) Forfeitures - Forfeitures of the employee's non-vested portion of the Company's contributions are used to reduce future Company contributions, pay Plan expenses, or restore previously forfeited accounts. There were no forfeited non-vested accounts at December 31, 2011. At December 31, 2010, forfeited non-vested accounts totaled $2,965. During the year ended December 31, 2011, employer contributions were reduced by $4,728 from forfeited non-vested accounts.

(8) Administrative Expenses - Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company, except for fees related to administration of participant loans, which are deducted from the applicable participants' accounts.

NOTE A: **Description Of The Plan** - (Continued)

(8) Administrative Expenses - (Continued)

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair values of investments.

NOTE B: **Summary of Significant Accounting Policies** - The following are the significant accounting policies followed by the Plan:

(1) Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

(2) Investment Valuation and Income Recognition - The Plan's investments are stated at fair value at December 31, 2011 and 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note K for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net realized and unrealized gains (losses) on investments in registered investment companies.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

NOTE B: **Summary of Significant Accounting Policies** - (Continued)

(3) Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

(4) Payment of Benefits - Benefits are recorded when paid.

(5) Use of Estimates - The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

(6) New Accounting Pronouncement - In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, "*Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS's*", (ASU 2011-04). ASU 2011-04 represents clarifications of Topic 820 provisions, but also expands the disclosure requirements for assets measured using Level 3 inputs. This update will be effective in the year ending December 31, 2012, and the Plan is currently evaluating the impact of the pending adoption of ASU 2011-04 on the Plan's financial statements.

NOTE C: **Concentrations, Risks And Uncertainties** - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan holds all of its investments at one institution. The institution is insured by the Securities Investor Protection Corporation. In the event of the institution's failure, the Plan is at risk of loss in any of its registered investment companies which could fail to the extent of the dollars invested in the funds.

NOTE D: **Information Prepared And Certified By T. Rowe Price** - The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee:

	December 31, 2011	December 31, 2010
Investments, At Fair Value:		
Registered Investment Companies	$ 31,507,270	$ 30,782,523
Stable Value Fund	8,280,430	7,291,809
Total Investments, At Fair Value	$ 39,787,700	$ 38,074,332
Notes Receivable From Participants	$ 1,399,113	$ 1,501,634

T. Rowe Price certified the completeness and accuracy of $796,261 of interest and dividend income from registered investment companies, $1,125,078 of net depreciation in fair value of investments in registered investment companies, $230,419 of interest income from the stable value fund, and $54,154 of interest income related to notes receivable from participants for the year ended December 31, 2011.

NOTE E: **Investments** - The following table presents investments that represent 5 percent or more of the Plan's net assets:

	2011	2010
Registered Investment Companies:		
Equity Income Fund	$ 4,228,801	$ 4,281,359
Small-Cap Value Fund	4,128,224	4,259,865
Mid-Cap Growth Fund	2,065,261	Under 5%
Blue Chip Growth Fund	2,693,153	2,534,758
Retirement 2020 Fund	3,565,439	3,638,179
Retirement 2030 Fund	4,244,897	3,845,291
Retirement 2040 Fund	2,124,723	1,980,812
Stable Value Fund	8,280,430	7,291,809

NOTE F: **Investment Contract With Insurance Company** - The Stable Value Fund is a group of benefit-responsive investment contracts issued by T. Rowe Price. The investment objectives of the trust are to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant initiated transactions under a retirement plan without penalty or adjustment. The trust will attempt to achieve these objectives by investing principally in guaranteed investment contracts (GICs) issued by insurance companies; investment contracts issued by banks (BICs); structured or synthetic investment contracts (SICs) issued by banks, insurance companies, and other issuers, as well as the securities supporting such SICs (underlying assets); separate account contracts (SACs); and other similar instruments that are intended to maintain a constant net asset value while permitting participant initiated, benefit-responsive withdrawals for certain events (collectively, investment contracts).

Income from investment contracts is recorded at the contract rate, which in the case of SICs and SACs, is referred to as the crediting rate. SICs and SACs provide for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero.

Crediting rates are determined in accordance with contract terms and are net of investment-related costs permitted by the contract, generally issuer fees and, for SICS, custody charges for underlying assets. Under the terms of fully benefit-responsive SICs and SACs, earnings on the underlying assets, including interest income, dividends, and realized and unrealized gains and losses, as well as dividends and capital gain distributions received from investments in other trusts, if any, are factored into the next computation of the crediting rate. At times, the crediting rate may be more or less than prevailing rates or the actual income earned on the underlying assets.

In most synthetic structures, realized and unrealized gains and losses on the underlying investments typically are not reflected immediately in the net assets of the trust but rather are amortized either over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate. The degree of any increase or decrease in the crediting rate will depend in part on the amount of the contract/market value difference as well as the duration and yield of the trust's portfolio. The crediting rate may also be affected by increases and decreases in the amount of assets underlying a wrap contract resulting from participant-initiated unit holder contributions to and withdrawals from the trust. To the extent a SIC's crediting rate exceeds current market interest rates, the trust has a deferred benefit that withdrawing unit holders will not receive. Similarly, to the extent a SIC's crediting rate is below prevailing interest rates, the trust has deferred recognition of losses that incoming unit holders will bear through reduced future credit rates.

NOTE F: **Investment Contract With Insurance Company** - (Continued)

The average yield earned by the Stable Value Fund for the year ended December 31, 2011 was 2.69 percent, and the crediting interest rate paid to participants was 2.97 percent.

The existence of certain conditions can limit the trust's ability to transact at contract value with the issuers of its investment contracts. Specifically, any event outside the normal operation of the trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to such withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unit holder, tax disqualification of the trust or a unit holder, and certain trust amendments if the issuers' consent is not obtained. No such events existed at December 31, 2011.

Issuers of investment contracts have certain rights to terminate a contract and settle at an amount that differs from contract value. For example, certain breaches by the trust of its obligations, representations, or warranties under the terms of an investment contract can result in its termination at market value, which may differ from contract value. Investment contracts also may provide for termination with no payment obligation from the issuer if the performance of the contract constitutes a prohibited transaction under ERISA or other applicable law, if the trust suffers an insolvency, or if there is a change in law or accounting standards that makes it impermissible to account for an investment contract on a contract-value basis.

NOTE G: **Plan Termination** - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

NOTE H: **Party-In Interest** - The investments in mutual funds and the stable value fund are managed by T. Rowe Price which is the trustee, as defined by the Plan, and therefore, these investments qualify as party-in interest transactions. Notes receivable from participants represent loans to employees, and therefore, also qualify as party-in-interest transactions.

NOTE I: **Withdrawn Participants** - At December 31, 2011 and 2010, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

NOTE J: **Tax Status** - The Internal Revenue Service has determined and informed the Company by a letter dated June 8, 2012, that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE K: **Fair Value Measurements** - FASB ASC 820, *"Fair Value Measurements and Disclosures"*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE K: **Fair Value Measurements** - (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered Investment Companies: The registered investment funds invest primarily in mutual funds. The value of mutual funds is determined by fair market value for each fund and is based upon quotations obtained from national securities exchanges and over-the-counter associations for the underlying investments in the funds.

Stable Value Fund: The value of the fund is recorded at fair value as more fully described in Note F.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Registered Investment Companies:				
Bonds	$ 1,730,796	$ -	$ -	$ 1,730,796

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2011:

	Stable Value Fund
Balance, Beginning Of Year	$ 7,291,809
Purchases	643,136
Dividend Income	230,419
Realized And Unrealized Gains	25,220
Transfers, Net	636,058
Issuances And Settlements	(546,212)
Balance, End Of Year	$ 8,280,430

The amount of realized and unrealized gains or losses for the stable value fund included in the statement of changes in net assets available for benefits was $25,220.

NOTE L: **Reclassifications** - Certain reclassifications have been made to the 2010 financial statements in order to conform with the current year presentation.

NOTE M: **Differences On Form 5500** - The financial statements have been prepared on the accrual basis as required by generally accepted accounting principles. However, for the years ended December 31, 2011 and 2010, the Form 5500 to be filed with the Internal Revenue Service has been prepared on the cash basis.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2011	2010
Net Assets Available For Benefits Per The Financial Statements	$ 40,874,142	$ 39,312,409
Deemed Distributions Of Participant Loans Not Recorded On The Financial Statements	-	(2,989)
Adjustment From Contract Value For Fully Benefit-Responsive Investment Contracts	288,777	263,557
Net Assets Available For Benefits Per The Form 5500	$ 41,162,919	$ 39,572,977

The following is a reconciliation of earnings (losses) per the financial statements to the Form 5500:

Increase In Net Assets Available For Benefits Per the Financial Statements	$ 1,561,733
Add: Adjustment For Prior Year Deemed Distribution	2,989
Add: Current Year Adjustment From Fair Value To Contract Value For Fully Benefit-Responsive Stable Value Fund	25,220
Net Increase In Net Assets Available For Benefits Per The Form 5500	$ 1,589,942

NOTE N: **Subsequent Event** - The Plan has evaluated subsequent events through October 8, 2012, the date the financial statements were available to be issued.

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
BA Holdings, Inc. Savings Plan
Riverside, California

We were engaged to audit the financial statements and supplemental schedule of BA Holdings, Inc. Savings Plan (the "Plan") as of December 31, 2011, and for the year then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2010, were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by T. Rowe Price Trust Company ("T. Rowe Price"), the trustee of the Plan. Their report, dated September 27, 2011, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by T. Rowe Price, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's 2011 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The form and content of the information included in the 2011 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

BA HOLDINGS, INC. SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE A: **Description Of The Plan** - The following description of the BA Holdings, Inc. Savings Plan (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan established in March 1, 1996, under the provisions of Section 401(k) of the Internal Revenue Code. The Plan covers substantially all eligible employees of BA Holdings, Inc. and its participating subsidiaries (Luxfer, Inc. Superform USA, Inc., Magnesium Elektron North America, Inc., Hart Metals, Inc., Magnesium Elektron, Inc., and Reade Manufacturing Company) (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986, as amended.

(1) Eligibility - The purpose of the Plan is to provide retirement benefits for substantially all employees who have attained age 21 or older. Part time employees as defined in the Plan document will be eligible to participate in the Plan after completing one year of service, equivalent to 1,000 hours of service. Eligible employees are automatically enrolled in the Plan after their first 30 days of employment. Eligible employees who do not want to participate in the Plan are required to explicitly decline to participate.

(2) Contributions - Participants may elect to contribute between 1 and 25 percent of their pre-tax or after-tax annual compensation, not to exceed the maximum deferral limitation as defined in the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. In accordance with the Plan document, the Company matches 100 percent of pre-tax and after-tax contributions including catch-up contributions, subject to a limit of 6 percent of eligible compensation for any eligible employee. The first 4 percent are "safe harbor" matching contributions, and the additional 2 percent are non-safe harbor matching contributions. For the year ended December 31, 2011, the Company matching contributions totaled $1,612,160.

(3) Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A: **Description Of The Plan** - (Continued)

(4) Vesting - Participants are immediately vested in their voluntary, rollover, and safe harbor matching contributions plus actual earnings thereon. Participants become fully vested in non-safe harbor matching contributions plus actual earnings thereon after the completion of two years of credited service.

(5) Notes Receivable From Participants - Participants may borrow against their Plan account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years.

Loans used to acquire principal residence are not to exceed a term of fifteen years. The loan amount can be a minimum of $1,000 but cannot exceed the lesser of (a) one-half of the participant's non-forfeitable interest under the Plan, or (b) $50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest is paid ratably through payroll deductions. The loans are secured by the vested account balance in the participant's account, and a participant can only have one loan outstanding at any time.

(6) Benefit Payments - If a participant's employment ceases as a result of death, the entire account becomes fully vested and the participant's beneficiaries are entitled to receive the contents of the account. If a participant is terminated for any other reason, the participant is entitled to receive only the vested percentage of the account. Participants or their beneficiaries may elect to receive benefits in a single lump sum, or in installments. If the value of the participant's account is less than $5,000 but greater than $1,000, the entire amount will be rolled into an IRA on behalf of the participant or the participant's beneficiaries. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59 ½, participants are allowed to withdraw their funds from the Plan.

(7) Forfeitures - Forfeitures of the employee's non-vested portion of the Company's contributions are used to reduce future Company contributions, pay Plan expenses, or restore previously forfeited accounts. There were no forfeited non-vested accounts at December 31, 2011. At December 31, 2010, forfeited non-vested accounts totaled $2,965. During the year ended December 31, 2011, employer contributions were reduced by $4,728 from forfeited non-vested accounts.

(8) Administrative Expenses - Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company, except for fees related to administration of participant loans, which are deducted from the applicable participants' accounts.

NOTE A: **Description Of The Plan** - (Continued)

(8) Administrative Expenses - (Continued)

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair values of investments.

NOTE B: **Summary of Significant Accounting Policies** - The following are the significant accounting policies followed by the Plan:

(1) Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

(2) Investment Valuation and Income Recognition - The Plan's investments are stated at fair value at December 31, 2011 and 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note K for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net realized and unrealized gains (losses) on investments in registered investment companies.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

NOTE B: **Summary of Significant Accounting Policies** - (Continued)

(3) Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

(4) Payment of Benefits - Benefits are recorded when paid.

(5) Use of Estimates - The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

(6) New Accounting Pronouncement - In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, "*Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS's*", (ASU 2011-04). ASU 2011-04 represents clarifications of Topic 820 provisions, but also expands the disclosure requirements for assets measured using Level 3 inputs. This update will be effective in the year ending December 31, 2012, and the Plan is currently evaluating the impact of the pending adoption of ASU 2011-04 on the Plan's financial statements.

NOTE C: **Concentrations, Risks And Uncertainties** - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan holds all of its investments at one institution. The institution is insured by the Securities Investor Protection Corporation. In the event of the institution's failure, the Plan is at risk of loss in any of its registered investment companies which could fail to the extent of the dollars invested in the funds.

NOTE D: **Information Prepared And Certified By T. Rowe Price** - The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee:

	December 31, 2011	December 31, 2010
Investments, At Fair Value:		
Registered Investment Companies	$ 31,507,270	$ 30,782,523
Stable Value Fund	8,280,430	7,291,809
Total Investments, At Fair Value	$ 39,787,700	$ 38,074,332
Notes Receivable From Participants	$ 1,399,113	$ 1,501,634

T. Rowe Price certified the completeness and accuracy of $796,261 of interest and dividend income from registered investment companies, $1,125,078 of net depreciation in fair value of investments in registered investment companies, $230,419 of interest income from the stable value fund, and $54,154 of interest income related to notes receivable from participants for the year ended December 31, 2011.

NOTE E: **Investments** - The following table presents investments that represent 5 percent or more of the Plan's net assets:

	2011	2010
Registered Investment Companies:		
Equity Income Fund	$ 4,228,801	$ 4,281,359
Small-Cap Value Fund	4,128,224	4,259,865
Mid-Cap Growth Fund	2,065,261	Under 5%
Blue Chip Growth Fund	2,693,153	2,534,758
Retirement 2020 Fund	3,565,439	3,638,179
Retirement 2030 Fund	4,244,897	3,845,291
Retirement 2040 Fund	2,124,723	1,980,812
Stable Value Fund	8,280,430	7,291,809

NOTE F: **Investment Contract With Insurance Company** - The Stable Value Fund is a group of benefit-responsive investment contracts issued by T. Rowe Price. The investment objectives of the trust are to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant initiated transactions under a retirement plan without penalty or adjustment. The trust will attempt to achieve these objectives by investing principally in guaranteed investment contracts (GICs) issued by insurance companies; investment contracts issued by banks (BICs); structured or synthetic investment contracts (SICs) issued by banks, insurance companies, and other issuers, as well as the securities supporting such SICs (underlying assets); separate account contracts (SACs); and other similar instruments that are intended to maintain a constant net asset value while permitting participant initiated, benefit-responsive withdrawals for certain events (collectively, investment contracts).

Income from investment contracts is recorded at the contract rate, which in the case of SICs and SACs, is referred to as the crediting rate. SICs and SACs provide for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero.

Crediting rates are determined in accordance with contract terms and are net of investment-related costs permitted by the contract, generally issuer fees and, for SICS, custody charges for underlying assets. Under the terms of fully benefit-responsive SICs and SACs, earnings on the underlying assets, including interest income, dividends, and realized and unrealized gains and losses, as well as dividends and capital gain distributions received from investments in other trusts, if any, are factored into the next computation of the crediting rate. At times, the crediting rate may be more or less than prevailing rates or the actual income earned on the underlying assets.

In most synthetic structures, realized and unrealized gains and losses on the underlying investments typically are not reflected immediately in the net assets of the trust but rather are amortized either over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate. The degree of any increase or decrease in the crediting rate will depend in part on the amount of the contract/market value difference as well as the duration and yield of the trust's portfolio. The crediting rate may also be affected by increases and decreases in the amount of assets underlying a wrap contract resulting from participant-initiated unit holder contributions to and withdrawals from the trust. To the extent a SIC's crediting rate exceeds current market interest rates, the trust has a deferred benefit that withdrawing unit holders will not receive. Similarly, to the extent a SIC's crediting rate is below prevailing interest rates, the trust has deferred recognition of losses that incoming unit holders will bear through reduced future credit rates.

NOTE F: **Investment Contract With Insurance Company** - (Continued)

The average yield earned by the Stable Value Fund for the year ended December 31, 2011 was 2.69 percent, and the crediting interest rate paid to participants was 2.97 percent.

The existence of certain conditions can limit the trust's ability to transact at contract value with the issuers of its investment contracts. Specifically, any event outside the normal operation of the trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to such withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unit holder, tax disqualification of the trust or a unit holder, and certain trust amendments if the issuers' consent is not obtained. No such events existed at December 31, 2011.

Issuers of investment contracts have certain rights to terminate a contract and settle at an amount that differs from contract value. For example, certain breaches by the trust of its obligations, representations, or warranties under the terms of an investment contract can result in its termination at market value, which may differ from contract value. Investment contracts also may provide for termination with no payment obligation from the issuer if the performance of the contract constitutes a prohibited transaction under ERISA or other applicable law, if the trust suffers an insolvency, or if there is a change in law or accounting standards that makes it impermissible to account for an investment contract on a contract-value basis.

NOTE G: **Plan Termination** - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

NOTE H: **Party-In Interest** - The investments in mutual funds and the stable value fund are managed by T. Rowe Price which is the trustee, as defined by the Plan, and therefore, these investments qualify as party-in interest transactions. Notes receivable from participants represent loans to employees, and therefore, also qualify as party-in-interest transactions.

NOTE I: **Withdrawn Participants** - At December 31, 2011 and 2010, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

NOTE J: **Tax Status** - The Internal Revenue Service has determined and informed the Company by a letter dated June 8, 2012, that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE K: **Fair Value Measurements** - FASB ASC 820, *"Fair Value Measurements and Disclosures"*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE K: **Fair Value Measurements** - (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered Investment Companies: The registered investment funds invest primarily in mutual funds. The value of mutual funds is determined by fair market value for each fund and is based upon quotations obtained from national securities exchanges and over-the-counter associations for the underlying investments in the funds.

Stable Value Fund: The value of the fund is recorded at fair value as more fully described in Note F.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Registered Investment Companies:				
Bonds	$ 1,730,796	$ -	$ -	$ 1,730,796

Total Assets At Fair Value	$ 30,782,523	$ -	$7,291,809	$ 38,074,332

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2011:

	Stable Value Fund
Balance, Beginning Of Year	$ 7,291,809
Purchases	643,136
Dividend Income	230,419
Realized And Unrealized Gains	25,220
Transfers, Net	636,058
Issuances And Settlements	(546,212)
Balance, End Of Year	$ 8,280,430

The amount of realized and unrealized gains or losses for the stable value fund included in the statement of changes in net assets available for benefits was $25,220.

NOTE L: **Reclassifications** - Certain reclassifications have been made to the 2010 financial statements in order to conform with the current year presentation.

NOTE M: **Differences On Form 5500** - The financial statements have been prepared on the accrual basis as required by generally accepted accounting principles. However, for the years ended December 31, 2011 and 2010, the Form 5500 to be filed with the Internal Revenue Service has been prepared on the cash basis.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2011	2010
Net Assets Available For Benefits Per The Financial Statements	$ 40,874,142	$ 39,312,409
Deemed Distributions Of Participant Loans Not Recorded On The Financial Statements	-	(2,989)
Adjustment From Contract Value For Fully Benefit-Responsive Investment Contracts	288,777	263,557
Net Assets Available For Benefits Per The Form 5500	$ 41,162,919	$ 39,572,977

The following is a reconciliation of earnings (losses) per the financial statements to the Form 5500:

Increase In Net Assets Available For Benefits Per the Financial Statements	$ 1,561,733
Add: Adjustment For Prior Year Deemed Distribution	2,989
Add: Current Year Adjustment From Fair Value To Contract Value For Fully Benefit-Responsive Stable Value Fund	25,220
Net Increase In Net Assets Available For Benefits Per The Form 5500	$ 1,589,942

NOTE N: **Subsequent Event** - The Plan has evaluated subsequent events through October 8, 2012, the date the financial statements were available to be issued.
