We were engaged to audit the financial statements of Becker's Profit Sharing Savings Plan (the "Plan") as of December 31, 2011 and 2010, and for the years then ended and the supplemental schedule as of December 31, 2011 as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's administrator.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by ING National Trust, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Reporting and Disclosures under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN:

The following brief description of Becker's Profit Sharing Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) savings plan covering all eligible employees of The John A. Becker Company (the "Sponsor"). Employees who are at least 21 years of age are eligible to participate in the Plan upon completion of 12 consecutive months of employment with at least 1,000 hours of service. Participants may enroll on the next January 1 or July 1 after meeting eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the plan document and may make changes in their deferral percentage at the beginning of each calendar quarter. The Sponsor may also make discretionary matching and profit sharing contributions. Effective August 1, 2011, the Sponsor made discretionary matching contributions equal to 25% of the first 4% of the compensation deferred by each participant. Prior to such date, discretionary matching contributions were suspended by the Sponsor. No profit sharing contributions were made by the Sponsor for the years ended December 31, 2011 and 2010. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions and employer matching contributions into various investment options offered by the Plan and may change their options at any time.

The Internal Revenue Code ("IRC") establishes a limit on the percent of compensation deferred by participants. The Sponsor determines that the salary deferral percentage, the employer matching percentage and the total defined contribution percentage comply with several tests prescribed by law. If the tests are not met, the Sponsor reduces the contribution percentage of those individuals that exceed the limits and refunds the excess contributions to the individual.

Participant accounts

Each participant's account is credited with the participant contributions and allocations of Sponsor contributions and Plan earnings. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Sponsor's matching and profit sharing contributions plus actual earnings thereon. Therefore, there are no forfeitures should participants terminate employment.

Notes receivable from participants

Participants and beneficiaries may obtain a loan through the Plan up to a maximum of 50% of their vested balance, but not to exceed \$50,000. The minimum loan amount is \$1,000. All loans must be repaid within three years, except loans for qualified residential home purchases, which can have up to a 10-year repayment period. Such loans are secured by the balance in the participant's account and will bear interest at a rate comparable to market rates at the date of the loan. Principal and interest are paid through payroll deductions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted withdrawal transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Withdrawals and payment of benefits

Withdrawals and benefit payments are recorded upon distribution. Certain deemed distributions of notes receivable from participants are included in benefits paid.

Administrative expenses

Certain administrative functions are performed by officers and employees of the Sponsor. No such officer or employee receives compensation by the Plan. Administrative expenses are paid by the Sponsor, except for participant loan fees, which are charged to accounts of the participants benefited.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through October 4, 2012, the date on which the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE TRUSTEE:

All financial data related to investments used in the preparation of the statements of net assets available for benefits, statements of changes in net assets available for benefits and the supplemental schedule has been certified as to accuracy and completeness by the Plan's trustee, ING National Trust, except for the December 31, 2010 fair value of the insurance company general account and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts shown on the statements of net assets available for benefits, which was computed by management utilizing formulas provided by the trustee.

The Plan's net investment earnings (losses) were as follows:

	2011	2010
Net investment gain from insurance company general account	\$ 82,206	72,440
Net investment gain (loss) from registered investment companies	(126,832)	705,236
	<u>\$ (44,626)</u>	<u>777,676</u>

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2011	2010
Insurance company general account:		
ING Fixed Account	\$ 3,283,378	2,232,354
Registered investment companies:		
American Funds Balanced Fund - Class R2	659,406	689,888
American Funds Growth Fund of America - Class R2	610,536	759,797
Capital World Growth and Income Fund - Class R2	904,671	1,187,771

4. FAIR VALUE MEASUREMENTS:

Generally accepted accounting principles provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair

value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies: Valued at the published net asset value of the shares held by the Plan at year end.

Insurance company general account: Valued using a discounted cash flow analysis that compares the crediting rate per the contract to current rates for investments of similar risks.

There have been no changes in the methodologies used at December 31, 2011 and 2010.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

Description	Total	Level 1	Level 2	Level 3

5. CONTRACT WITH INSURANCE COMPANY:

The Plan has an unallocated investment contract with ING Life Insurance & Annuity Company (ILIAC). ILIAC maintains the contributions in their general assets. Interest is credited to participant accounts on a daily basis. Once credited, the interest becomes a part of principal. ILIAC, the general account issuer, is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the general account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The general account is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by ILIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$3,283,378 and \$2,265,616, respectively. The crediting rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Under the terms of the ING Group Annuity Contract, the market value adjustment is the lesser of the calculated fair value or the contract value. Based on these terms, ING reported that fair value approximated contract value at December 31, 2011. At December 31, 2010, management estimated fair value based on formulas provided by ING.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial termination merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity was provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The investment contract does not permit the insurance company to terminate the general account agreement prior to the scheduled maturity date.

	2011	2010
Average yields:		
Based on actual earnings	3.00%	3.25%
Based on interest rate credited to participants	3.00%	3.25%

6. TAX STATUS:

The Sponsor has adopted an ING Life Insurance and Annuity Company Non-Standardized Prototype Plan, for which a letter has been received from the IRS indicating that an employer who adopts this prototype plan will be considered to have a qualified plan under applicable sections of the IRC. The Sponsor has elected not to request a separate determination letter for the Plan. The Sponsor and the Plan's administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe the Plan was qualified as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years ended prior to December 31, 2008.

7. PLAN TERMINATION:

Although it has not expressed any intention to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, all benefits will be distributed to participants and beneficiaries in proportion to their respective account balances.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various registered investment companies and an insurance company general account. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

9. RECONCILIATION TO FORM 5500:

The trustee prepares the Form 5500 on utilizing contract value for investments in fully benefit-responsive investment contracts. Therefore, there is no reconciliation between the Form 5500 and the financial statements for such investments. Following is a reconciliation of changes in net assets available for benefits per the financial statements to Schedule H of Form 5500 for the year ending December 31, 2010:

Increase in net assets available for benefits per financial statements	\$ 309,815
Plus: Change in corrective distributions payable per financial statements, recognized on cash basis on Form 5500	<u>(14,460)</u>
Increase in net assets available for benefits per Schedule H of Form 5500	<u><u>\$ 295,355</u></u>
