Jarden Consolidated Pension Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 1: Description of the Plan

The following description of the Jarden Consolidated Pension Plan (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator.

General

The Plan is a non-contributory defined-benefit plan. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Northern Trust Company is the trustee of the majority of Plan assets.

Effective December 31, 1988, the Hammon Precision Equipment Company Pension Plan and the Retirement Plan for Salaried Employees of Gomco Surgical Manufacturing Co., two defined-benefit plans maintained by Chemetron Corporation (Chemetron), were merged into the Carbonic Engineering Company Employees' Pension Plan (CEC Plan).

Concurrent with the merger, sponsorship of the CEC Plan was transferred from Chemetron to Allegheny International, Inc. (Allegheny). Allegheny assumed all assets and liabilities of the CEC Plan, which merged with the Allegheny International, Inc. Consolidated Retirement Plan. At the time of the merger, the CEC Plan's name was changed to the Allegheny International, Inc. Salaried and Hourly Consolidated Retirement Plan and was subsequently renamed the Sunbeam-Oster Company, Inc. Consolidated Retirement Plan. No changes in benefits occurred as a result of the mergers.

Prior to the mergers of the plans, benefits to participants were frozen at various dates and the last freeze date was September 3, 1987. Active participants who were not fully vested in their benefits at the freeze date have continued to be credited with service for vesting purposes only. The Plan Sponsor intends to continue the Plan as a "frozen" plan, thus participants will no longer accrue benefits, but the Plan will remain in existence as long as necessary to pay existing accrued benefits.

As of January 1, 1999, the Sunbeam-Oster Company, Inc. Consolidated Retirement Plan was renamed the Sunbeam Products, Inc. Consolidated Retirement Plan.

Effective December 31, 2002, the Pension Plan for Employees of Sunbeam Products, Inc., the Pension Plan for Hourly Employees of Sunbeam Products, Inc. at the Portland, Tennessee Plant, the Thermco Systems, Inc. Employees' Pension Plan, a cash balance plan, and the Pension Plan for Hourly Employees of Sunbeam Products, Inc. at the Nacogdoches, Texas; Waynesboro, Georgia; and Linton, Indiana Plants (collectively, the Merged Plans) were merged into the Plan. Benefits to participants of the Merged Plans were frozen (excluding interest credits on cash balance accounts, which will continue) at various dates prior to the Plan merger, except for the benefits of certain participants of the Pension Plan for Employees of Sunbeam Products, Inc. that were frozen effective January 1, 2004. The merger had no effect on the amounts of benefits payable or the timing and forming of benefits payable to any participant.

Jarden Consolidated Pension Plan

Notes to Financial Statements December 31, 2011 and 2010

Prior to September 28, 1990, the Plan was administered by Allegheny. Effective September 28, 1990, in conjunction with Sunbeam Corporation's (formerly Sunbeam-Oster Company, Inc. and now known as American Household, Inc.) (AHI) acquisition of Allegheny (through a reorganization) and pursuant to the Purchase and Assumption Agreement between Sunbeam Americas Holdings, Ltd. (SAHL) and Sunbeam Corporation, SAHL became the Plan Sponsor and successor company for all tax-qualified pension plans formerly sponsored by Allegheny or any of its subsidiaries or affiliates. In January 2005, Jarden Corporation (Jarden) acquired all outstanding common shares of AHI. The Plan is administered by Jarden.

Effective December 31, 2005, the Forster, Inc. Employees' Pension Plan, the Diamond Brands, Inc. Retirement Plan for Hourly Paid Employees, the BRK Brands, Inc. Retirement Plan, the Coleman Company, Inc. Pension Plan for Weekly Salaried and Hourly Paid Employees, and the Coleman Company, Inc. Retirement Plan for Salaried Employees merged with and into the Plan. These plans were all frozen prior to the December 31, 2005 merging.

Effective December 31, 2009, the Jarden Corporation Consolidated Hourly Pension Plan (Jarden Hourly Plan), The United States Playing Card Company Pension Plan for Non-Union Employees (USPC Plan), and Pension Plan of K2 Inc. (K2 Plan) merged with and into the Plan (2009 Merger). In conjunction with the 2009 Merger, the Plan name changed from the Sunbeam Products, Inc. Consolidated Retirement Plan to the Jarden Consolidated Pension Plan. The trustee of the assets held by the K2 Plan at the beginning of 2010 was New York Life Trust Company.

Effective January 1, 2012, the Penn Fishing Tackle Manufacturing Company Amended and Restated Pension Plan (Penn Pension) was transferred into the Plan. The assets are transferred in the Plan as of December 31, 2011 and were recorded as cash.

Contributions

Except as prevented by any contractual obligation or obligations between SAHL and Plan participants, SAHL may reduce, discontinue or suspend contributions to the Plan at any time. SAHL currently intends to continue to make contributions in amounts sufficient to comply with the minimum funding requirements of the *Employee Retirement Income Security Act of 1974* (ERISA). The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits

The Plan is a defined-benefit plan covering deferred vesting and retired participants and consists of a number of subplans. Each participant's benefit is determined in accordance with the provisions of the subplan under which the participant was covered at the time of retirement or termination of employment. Under the Plan's provisions, a participant is eligible for a normal retirement benefit upon reaching 65. Each subplan also provides other retirement options based upon a combination of factors, including age and years of service.

Jarden Consolidated Pension Plan

Notes to Financial Statements December 31, 2011 and 2010

Death Benefits

Except as otherwise provided in the appendix applicable to the subplan in which the employee is a participant, the spouse of a vested participant will receive a 50% survivor annuity, as defined in the Plan, upon the death of a participant. The surviving spouse annuity is equal to 50% of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

Vesting

Except as otherwise provided in the appendix applicable to the subplan in which the employee is a participant, each participant with five or more years of vested service shall have a 100% vested right to his accrued benefit.

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (A) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- (B) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- (C) Vested benefits not insured by the PBGC.
- (D) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Method of Accounting

The accompanying financial statements are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Common stocks are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. The Plan's interest in the common collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end. Hedge funds are valued at the net asset value of shares held by the Plan at year end. The investments in limited partnerships, for which quoted market prices are not available, are valued by applicable managers. Money market funds are valued at costs, which approximate fair value.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The unallocated insurance contract is stated at contract value, as the contract was entered into by the K2 Plan with AXA Equitable Life Insurance Company prior to December 31, 1993. The contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to pay retirement benefits and administrative expenses.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Jarden Consolidated Pension Plan

Notes to Financial Statements December 31, 2011 and 2010

Administrative Expenses

All administrative fees and other expenses are either charged directly to the Plan.

Accumulated Plan Benefits

Accumulated plan benefits (see Note 6) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- (A) Retired or terminated employees or their beneficiaries
- (B) Present employees or their beneficiaries

Benefits under the Plan are based on employees' compensation and length of service, as defined in each subplan, during their credited service. The accumulated plan benefits for active employees are based on their compensation or length of service preceding the valuation date. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

Plan Tax Status

The Plan obtained its latest determination letter on October 16, 2002, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2008.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Accountants' Report, which is the date the financial statements were available to be issued.

Interest and dividends realized on the Plan's investments for the years ended December 31, 2011 and 2010 was \$5,035,348 and \$7,239,289, respectively.

Alternative Investments

Except as described below, the fair value of alternative investments has been estimated using the net asset value per share of the investments. Alternative investments held at December 31 consist of the following:

		2011			
		Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective trust fund (A)	\$	23,055,026	\$ -	Monthly	N/A
Hedge fund (B)		19,766,837	-	Quarterly	60 days
		2010

Collective trust fund (A)	\$	34,913,816	\$ -	Monthly	N/A
Hedge fund (B)		11,057,229	-	Quarterly	60 days

Jarden Consolidated Pension Plan

Notes to Financial Statements December 31, 2011 and 2010

- (A) This category includes investments in collective trust funds that pursue multiple strategies to exceed the performance of certain industrial averages. The funds may invest in securities, a combination of other collective funds, or swap and option contracts. The net asset value of the funds are determined as of the end of each month utilizing the values of the underlying assets.
- (B) This category includes investments in hedge funds that primarily invest in limited partnerships and other entities that invest in financial instruments. Management of the funds has the ability to shift investments among differing investment strategies. The funds have the ability to liquidate their investments periodically, ranging from monthly to annually.

Note 4: Fair Value of Plan Assets

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Jarden Consolidated Pension Plan

Notes to Financial Statements December 31, 2011 and 2010

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. When quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows and are classified as Level 2 investments. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The unallocated investment contract was entered into before December 31, 1993 and is carried at contract value. Therefore, this investment is excluded from ASC Topic 820.

Level 1 securities are comprised of the following:

- Equities: Consisting of mutual funds and common collective trust
- Fixed Income: Consisting of mutual funds
- Alternatives: Consisting of mutual funds
- Cash and Other: Consisting of money market funds and common collective trusts

Level 2 securities are comprised of the following:

- Equities: Consisting of common collective trusts
- Fixed Income: Consisting of partnerships
- Alternatives: Consisting of common collective trusts

Level 3 securities are comprised of the following:

- Alternatives: Consisting of partnerships, hedge funds, common and preferred stocks of nonpublic (private) companies and miscellaneous other investments

Note 5: Contract With Insurance Company

The Plan has an unallocated insurance contract with AXA Equitable Life Insurance Company (AXA), whereby AXA maintains the deposits for a former plan, which merged into the K2 Plan effective January 1, 1993. The deposits are maintained in a fund to which interest is added at varying rates, which are determined annually at December 31. At the direction of the Plan Administrator, a portion of the fund can be transferred to pooled separate accounts of the insurance company or to a bank-administered trust fund. However, amounts withdrawn from the insurance contract in excess of calendar year additions to the contract are subject to a “market value adjustment” by AXA, as defined. There were no contributions to the insurance contract during 2011 and 2010. AXA does not guarantee the funds invested in the pooled separate accounts as to principal or income. The value of the insurance contract is \$1,196,030 and \$1,267,905 at December 31, 2011 and 2010, respectively.

Jarden Consolidated Pension Plan

Notes to Financial Statements December 31, 2011 and 2010

Benefit payments to the participants or their beneficiaries are made directly by AXA from the funds accumulated under the Contract. At December 31, 2011 and 2010, \$761,084 and \$823,903, respectively, of the contract value was committed to provide benefits for participants receiving benefit payments. AXA makes no representation and assumes no liability as to the sufficiency of the funds for the benefits to be provided by the Plan.

There are no reserves against contract value for credit risk of AXA. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 2.5%. Such interest rates are reviewed on a quarterly basis for resetting.

Note 6: Accumulated Plan Benefits

An actuary from Mercer Human Resource Consulting determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of January 1, 2012 and 2011, are as follows:

	2012	2011
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 146,214,594	\$ 144,877,385
Other participants	84,494,363	85,999,252
	<u>230,708,957</u>	<u>230,876,637</u>
Nonvested benefits	1,484,764	1,265,131
	<u>1,484,764</u>	<u>1,265,131</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 232,193,721</u>	<u>\$ 232,141,768</u>

Jarden Consolidated Pension Plan

Notes to Financial Statements December 31, 2011 and 2010

Changes in the actuarial present value of accumulated plan benefits were as follows:

	<u>2012</u>	<u>2011</u>
Actuarial present value of accumulated plan benefits, beginning balance	\$ 232,141,768	\$ 230,154,400
Increase (decrease) during the year attributable to		
Change in actuarial assumptions (2011 - Rate of Return and Mortality, 2012 - Mortality)	594,329	5,484,970
Increase in interest due to the decrease in discount period	17,754,601	18,094,722
Other (primarily actuarial gains and losses)	-	56,554
Plan Merger of Penn Fishing Tackle Manufacturing Company Amended and Restated Pension Plan	2,121,524	-
Benefits paid	(20,418,501)	(21,648,878)
Net increase	<u>51,953</u>	<u>1,987,368</u>
Actuarial present value of accumulated plan benefits, ending balance	<u>\$ 232,193,721</u>	<u>\$ 232,141,768</u>

Significant assumptions underlying the actuarial computations are:

- Assumed rate of return on investments: 8.00% for 2012 and 2011
- Mortality basis: 2012 PPA unisex mortality for 2012 and 2011 PPA static separate annuitant/nonannuitant tables for 2011
- Retirement: Average retirement age of 65 (Forster participants age 63)
- Asset valuation: Market

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Jarden Consolidated Pension Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 7: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The following administrative fees to parties-in-interest are charged directly to the Plan:

	2011	2010
Actuarial services	\$ 232,632	\$ 405,501
Recordkeeping	454,654	701,674
PBGC premiums	688,275	884,054
Investment manager fees	1,301,161	960,204
Trust fees	223,041	306,514
Other professional services	93,041	305,792
	<u>\$ 2,992,804</u>	<u>\$ 3,563,739</u>

The Company provides certain administrative services at no cost to the Plan.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The current protracted economic decline continues to present pension plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Annuity contracts:** The plan has an Immediate Participation Guarantee contract covering a small group of annuitants in the plan. We value the annuity payable under this contract as a plan obligation and the current value of the contract as an asset to the plan.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for retired participants.
- **Transferred participants:** The liabilities for participants who have transferred into another plan of the plan sponsor have been included with the liabilities for active participants.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Each employee is assumed to retire in accordance with the table of retirement rates. The proportion of employees expected to retire each potential retirement age is shown below. The average retirement age is 62.

Forster Participants - 3% of the Active Participants

The weighted average retirement age is the total for column E divided by the total for column D. It should be noted that while only integral values are shown in the table, the full content of each cell, including decimal portions, is used in the calculations.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through December 31, 2009 are included in this valuation.

- **Most recent plan amendments included:** There have been no new amendments since December 31, 2009.
- **Plan amendments excluded:** None
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* N/A
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

The reduction in subsection (a) above for Pilots is one-half of one percent for each month that the date of his benefit commencement precedes the last day of the month in which his 60th birthday occurs.</p>

Schedule SB, Part V — Summary of Plan Provisions

Supplement

Benefit payments will be reduced, instead of the reduction described above, for Employees other than Pilots, by one-half of one percent for each month that the date of his benefit commencement precedes the earlier of (a) the month in which occurs the Participant's 62nd birthday; or (b) the month in which he becomes eligible, or upon application would become eligible, to receive old age benefits or disability insurance payments under the Social Security Act. The reduction above for pilots is one-half of one percent for each month that the date of his benefit commencement precedes the last day of the month in which his 60th birthday occurs. Further, for employees who meet the eligibility criteria on the Freeze Date \$225 per month payable from the later of his early retirement date or the month his early retirement payments begin until the earlier of (a) his death; (b) his 62nd birthday; or (c) the date on which he becomes eligible, or upon application would become eligible, to receive old age benefits or disability insurance payments under Title II of the Social Security Act.

70/80

Benefit is computed from his retirement date and ending with the month in which his 62nd birthday occurs based on his Earnings, service and Social Security Benefit on his retirement date, and reduced by one-half of one percent for each month that his retirement date precedes the last day of the month in which his 62nd birthday occurs, except that if he attains his 62nd birthday on the first day of a month, the reduction will apply for each month that his retirement date precedes the last day of the month prior to the month in which his 62nd birthday occurs. Employees who are less than age 55 at the date payments commence will be assumed to be age 55 for purposes of calculating this reduction. Beginning with the month in which he attains age 62, his early retirement income will be recomputed as a normal retirement income benefit. For employees who are eligible to retire on the Freeze Date under the 70/80 pension entitlement and who have not attained their 62nd birthday will also be entitled to a supplemental monthly pension of \$225 payable until the earlier of (a) his death; (b) his 62 birthday; or (c) the date on which he becomes eligible, or upon application would become eligible, to receive old age benefits or disability insurance payments under Title II of the Social Security Act.

Schedule SB, Part V — Summary of Plan Provisions

60/10 (Pilots only)

Benefit commences at Early Retirement Date based on the Participant's Earnings and Social Security Benefit on the earlier of the Freeze Date or such date, and on the Eligible Service that he would have accumulated had he remained an Employee until age 65. In addition, he will also be entitled to a supplemental monthly pension of \$225 payable beginning with the month in which he retires until the month in which occurs his 62nd birthday, except that if he attains his 62nd birthday on the first day of a month, the supplemental payments will end with the month prior to the month in which his 62nd birthday occurs.

<i>Deferred Vested Retirement Benefit</i>	Normal retirement benefit as described above based on Earnings, service and Social Security Benefit on the earlier of the Freeze Date or participant's termination date but reduced by one-half of one percent for each month that the date of his benefit commencement (which may not be before age 55) precedes his Normal Retirement Date.
<i>Death Benefit</i>	The benefit payable to the surviving spouse is the benefit that would be payable if the participant had terminated employment on the date of death, survived to earliest retirement age, elected the 50% joint and survivor annuity and then died. The spousal death benefit is payable only to a spouse to whom the Participant has been continuously married throughout the one year period ending on the Participant's death, unless the Participant dies (1) while employed by the Employer after having attained his Normal Retirement Date or (2) after terminating service on or after his Normal Retirement Date, but before commencing to receive pension payments from the plan.
<i>Forms of Payment</i>	<p><u>Normal Form</u> – Qualified joint and 50% survivor annuity (QJSA) for married Participants, single life annuity for unmarried Participants.</p> <p><u>Optional Forms</u> –</p> <ul style="list-style-type: none"> (a) Single life annuity. (b) Joint and survivor annuity with survivor portion at either 25%, 50%, 75% or 100% of amount payable to Participant.

Coleman Company, Inc. Retirement Plan for Salaried Employees

<i>Effective date</i>	On June 30, 1989, the prior Coleman plan underwent a termination, which involved the settlement of accrued benefits and the recapture of excess assets. Plans were restarted effective July 1, 1989. Effective March 31, 2003, assets and liabilities attributable to current and former employees of Powermate were spun-off to a new pension plan. Effective January 1, 2004, the plan was frozen to future accruals.
<i>Plan Year</i>	January 1 through December 31
<i>Most recent amendment</i>	November, 2005
<i>History</i>	This plan was merged into and became part of the Sunbeam Products, Inc. Consolidated Retirement Plan on December 31, 2005.
<i>Eligibility</i>	Only Plan participants on December 31, 1998, are eligible. Participation excludes leased employees.

Service considered

Credited Service will not include service for an employer who has not adopted the plan or service while a member of the Pension Plan for Weekly Salaried and Hourly Paid Employees. Credited Service will not include service before the following dates:

Employer	Credited Service Date
Powermate	January 1, 1990
Coleman Spas, Inc.	January 1, 1992
Sanborn	July 1, 1994

Vesting Service shall be determined in completed full years of service.

For employment before July 1, 1989, an Employee shall be credited with Vesting Service equal to the "Vested Service" he had under the terms of the Prior Plan as of June 30, 1989. (For employment on and after July 1, 1989, an Employee shall receive credit for one full year of Vesting Service for each Plan Year in which he completes at least 500 Hours of Service during the 12-month period which begins on January 1, 1989 and ends on December 31, 1989).

If an Employee has less than 500 Hours of Service in the Plan Year in which he was hired (or rehired following a Break in Service), or the Plan Year in which he incurred a Termination of Service, he shall receive credit for one month of Vesting Service for each completed month of employment during such Plan Year.

If an Employee who has had a Break in Service is subsequently reemployed as an Employee, he shall be considered a new Employee for purposes of the Plan, except:

- (1) if at such Break in Service he became eligible for a benefit under Article V, the Vesting Service he had at such Break in Service shall be reinstated upon the completion of one year of Vesting Service following his reemployment;

Schedule SB, Part V — Summary of Plan Provisions

- (2) if he is reemployed before he has incurred a One-Year Break in Service, his prior Vesting Service shall be reinstated upon his reemployment: or
- (3) if neither paragraph (1) nor (2) above is applicable and if the number of consecutive One-Year Breaks in Service ending after a Break in Service does not equal or exceed the greater of (A) five or (B) the number of years of Vesting Service he had prior to such Break in Service, his prior Vesting Service shall be reinstated upon the completion of one year of Vesting Service following his reemployment. Notwithstanding the above, any service before January 1, 1985 that was properly disregarded on account of an earlier absence under the Prior Plan shall not be reinstated under this Plan.
