Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Participants and Administrator of the
Masco Corporation Pension Plan

We were engaged to audit the financial statements of the Masco Corporation Pension Plan (the "Plan") at December 31, 2011 and 2010 and for the years then ended, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note I, which was certified by The Northern Trust Company, the trustee of the Plans, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As explained in Note A, the Plan was frozen effective January 1, 2010.

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan:

The following description of the Masco Corporation ("Company") Pension Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined benefit pension plan covering eligible employees at various divisions and subsidiaries of the Company. Eligible employees participate in the Plan on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

2. *Pension Benefits.* Generally, employees with five or more years of credited service or who have attained normal retirement age (65) are entitled to vested annual pension benefits beginning at normal retirement age. Generally, this benefit is equal to 1.1 percent of their final average compensation for each year of credited service (up to a maximum of 30 years). The Plan permits early retirement after completion of five years of service and attainment of age 55. Generally, employees may elect to receive their pension benefits in the form of a joint and survivor annuity, lifetime annuity or period certain annuity. If employees terminate before becoming vested, they forfeit their right to receive their accumulated plan benefits.

3. *Death and Disability Benefits.* If a vested participant dies before retirement, a pre-retirement survivor annuity is paid to the employee's spouse. This survivor annuity is payable on the earliest date on which the participant could have elected to receive retirement benefits if the participant had survived. Active employees with ten or more years of service who become totally and permanently disabled and eligible for disability retirement benefits shall receive annual disability benefits that are equal to their normal retirement benefit accumulated as of the date they become disabled. Disability retirement benefits are subject to offsets as described in the Plan agreement.

4. *Funding Policy.* The contributions of the Company are designed to fund an amount which falls between the minimum contribution requirements and the maximum deductible allowance, as determined annually under the provisions of the Internal Revenue Code. The yield on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The Company's contributions for 2011 and 2010 met or exceeded the minimum funding requirements of ERISA. No participant in the Plan is required to make a contribution under the Plan.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Effective January 1, 2010, all future benefit accruals under the Plan were frozen. There will be no increases in benefits under the Plan and no new participants will be added to the Plan from and after January 1, 2010.

Effective July 22, 2011, Masco Support Services, Inc. - Cumberland, IA was deleted as a currently participating employer and added as a formerly participating employer.

B. Accounting Policies:

The following is a summary of significant accounting policies (in accordance with accounting principles generally accepted in the United States of America) followed in the preparation of these financial statements.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of additions and deductions during the reporting period. Actual results could differ from these estimates and assumptions.

Risks and Uncertainties

The Plan's invested assets ultimately consist of common and preferred stocks, private equity funds, corporate debt securities, government and other debt securities, common collective trust fund and short-term and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in values of investment securities in the near term could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

The Plan invests in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

PENSION PLAN**

NOTES TO FINANCIAL STATEMENTS, Continued

B. Accounting Policies, concluded:

Investment Valuation and Income Recognition

Investments represent the Plan's pro rata interest in the fair value of the net assets of the Masco Corporation Retirement Master Trust ("Master Trust") as determined by The Northern Trust Company ("Trustee"), using closing quoted market prices with the exception of the Private Equity Funds, Corporate Debt Securities and Government and Other Debt Securities, which are based on estimated fair value, and the Common Collective Trust Fund, which is based on amortized cost, as of December 31, 2011 and 2010.

Investment transactions are reflected on a trade-date basis. Realized gains and losses on investments are based on average cost. Interest income is recognized on the accrual basis of accounting. Dividend income is recorded on the ex-dividend date. Income from other securities is recorded as earned on an accrual basis.

The Plan presents in the statements of changes in net assets available for benefits the investment income from its interest in the Master Trust. The investment income is comprised of the net (depreciation) appreciation in the fair value of its investments which consists of the Plan's pro rata interest in the realized gains or losses and the unrealized (depreciation) appreciation of the investments of the Master Trust. Also included are the Plan's pro rata share of the interest and dividend income of the Master Trust. Such pro rata allocations are made monthly based on the Plan's weighted average interest in the fair value of the Master Trust net assets.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Other

Certain administrative expenses incurred by the Plan are paid by the Company.

Subsequent Event

The Company has evaluated subsequent events through September 17, 2012, the date the Masco Corporation Pension Plan financial statements were available to be issued.

New Accounting Pronouncements

In May 2011, the FASB issued *Accounting Standards Update 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS")*. This update is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The update is effective for annual periods beginning after December 15, 2011. Plan management anticipates the adoption of this guidance will not have a material impact on the Plan's financial statements.

With respect to the Master Trust's investments in private equity funds, the Master Trust had, at December 31, 2011 and 2010, commitments to contribute up to \$18 million and \$16 million, respectively of additional capital to such funds representing the Master Trust's aggregate capital commitment to such funds less capital contributions made to date. The Master Trust is contractually obligated to make additional capital contributions to certain of its private equity funds upon receipt of a capital call from the private equity fund. The Master Trust has no control over when or if the capital calls will occur. Capital calls are funded in cash and generally result in an increase in the carrying value of the Master Trust's investment in the private equity fund when paid.

Securities Lending:

During 2006, Masco Corporation entered into an agreement with The Northern Trust Company authorizing the Trustee to lend securities held in the Master Trust to third parties. The Trustee must obtain collateral from the borrower in the form of U.S. Government securities, irrevocable bank letters of credit, or cash. The cash collateral is invested in interest bearing accounts with The Northern Trust Company. The total collateral for the securities loaned as of December 31, 2011 and 2010 was \$46,733,539 and \$91,942,304, respectively, of which \$387,001 and \$520,024 was non-cash for the years ended December 31, 2011 and 2010, respectively. Both the collateral and the securities loaned are marked-to-market on a daily basis so that all loaned securities are fully collateralized at all times. The Master Trust has a corresponding liability (equal to the collateral) to repay the collateral upon return of the securities. In the event that the loaned securities are not returned by the borrower, the Trustee will purchase equivalent securities by applying the collateral to the payment of the purchase price and demand from the borrower any remaining amounts due and owing. All recoveries will be credited to the Master Trust when received.

The fair value of securities loaned by the Master Trust as of December 31, 2011 and 2010 is \$45,177,813 and \$89,743,155, respectively, as shown below by type of securities:

	<u>2011</u>	<u>2010</u>
Common stocks	\$ 42,255,481	\$ 84,978,037
Corporate debt securities	\$ 2,011,346	\$ 4,362,359
U.S. Government debt securities	\$ 910,986	\$ 402,759

The Master Trust and the Trustee each receive a percentage of the net income derived from securities lending activities based on the type of securities. Income earned by the Master Trust related to securities lending activities during 2011 and 2010 was \$238,662 and \$252,953, respectively, net of bank fees of \$102,163 and \$108,318 for the years ended December 31, 2011 and 2010, respectively.

Although the securities lending activities are collateralized as described above, they involve both market and credit risk. In this context, market risk refers to the possibility that the borrowed securities will not be fully collateralized upon a sudden material change in the fair value of the loaned securities or the collateral. In 2011 and 2010, based on improving market conditions, the Master Trust did not incur any liability related to the securities lending activities.

Security lending in the Master Trust is handled via an electronic platform provided by Equilend, a joint venture of various securities lending agents and security borrowers, in which the Northern Trust Company, the Trustee, has an equity interest. Fees are not charged to the Master Trust for use of the services but are paid by the Trustee.

C. Investments, concluded:

Since Northern Trust has a financial interest in the successful operation of Equilend, Equilend has obtained a Prohibited Transaction Exemption from the U.S. Department of Labor. The exemption (a) enables Northern Trust to use Equilend's platform for lending the securities of plans and (b) permits Equilend to sell or license ancillary products to Northern Trust or to a plan to which Equilend is a party-in-interest.

D. Fair Value Measurements:

The Plan follows fair value guidance (ASC 820) that defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The guidance defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Further, it defines a fair value hierarchy, as follows: Level 1 inputs as quoted prices in active markets for identical assets or liabilities; Level 2 inputs as observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities or other inputs that are observable or can be corroborated by market data; and Level 3 inputs as unobservable inputs that are supported by little or no market activity and that are financial instruments whose value is determined using pricing models or instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Common and Preferred Stocks and Short-Term and Other Investments: Valued at the closing price reported on the active market on which the individual securities are traded, or based on the active market for similar securities.

Private Equity Funds: Valued based on an estimated fair value using either a market approach or an income approach, each of which requires a significant degree of judgment. There is no active trading market for these investments and they are for the most part illiquid. Due to the significant unobservable inputs, the fair value measurements used to evaluate impairment are a Level 3 input.

Corporate Debt Securities: Valued based on the active market for similar securities or on estimated fair value. For a portion of Corporate Debt Securities there is no active trading market and they are for the most part illiquid. Due to the significant unobservable inputs for these securities, the fair value measurements used to evaluate impairment are a Level 3 input.

Government and Other Debt Securities: Valued based on either the closing price reported on the active market on which the individual securities are traded, the market for similar securities or on estimated fair value. For a portion of Government and Other Debt Securities there is no active trading market and they are for the most part illiquid. Due to the significant unobservable inputs for these securities, the fair value measurements used to evaluate impairment are a Level 3 input.

D. Fair Value Measurements, continued:

Common Collective Trust Fund and Securities Lending Collateral Pool: Valued based on a unit value basis, which approximates fair value as of December 31, 2011 and 2010, respectively. Such basis is determined by reference to the respective fund's underlying assets, which are primarily marketable equity and fixed income securities. There are no unfunded commitments or other restrictions associated with these funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2011 and 2010.

E. Income Tax Status:

The Internal Revenue Service determined and informed the Company by letter dated September 9, 2002 that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code ("Code"). The Plan has since been amended; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. The Company has applied for a new determination letter and currently awaits approval. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

F. Related Parties:

Certain plan investments are investments managed by The Northern Trust Company as the Plan Trustee. Therefore, the purchases and sales qualify as party-in-interest transactions. Additionally, the Master Trust participates in Securities Lending programs of the Trustee.

The Plan has an interest in the Master Trust which invests in Masco Corporation Common Stock. As of December 31, 2011 and 2010, the value of Masco Corporation Common Stock in the Master Trust was \$11,741,100 and \$14,183,428, respectively.

G. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' credited years of service. The accumulated benefits for active employees are based on their accumulated credited years of service ending on the date as of which the benefit information is presented. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an actuary from Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

**MASCO CORPORATION
PENSION PLAN**

NOTES TO FINANCIAL STATEMENTS, Concluded

G. Actuarial Present Value of Accumulated Plan Benefits, concluded:

The significant actuarial assumptions used in the valuation as of January 1, 2011 were (a) life expectancy of participants - the prescribed mortality assumption under Internal Revenue Code 430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants was used, (b) retirement age assumption (the average retirement age was 63.5), (c) investment return (the assumed rate of return of 7.25 percent and 8.0 percent in 2011 and 2010, respectively) and (d) withdrawal assumptions. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

H. Plan Termination:

Although there is no present intent to terminate the Plan, if the Plan were to terminate at some future time, the net assets of the Plan will be allocated to provide benefits for participants as prescribed by ERISA and its related regulations. To the extent unfunded vested benefits exist, such benefits will be paid by the Pension Benefit Guaranty Corporation, up to applicable limitations. Plan termination priorities are available from the Pension Benefit Guaranty Corporation.

I. Summary of Financial Data Provided by the Trustee:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Trustee as complete and accurate and was not subjected to any auditing procedures performed by the independent auditors.

- a. Total investments, excluding private equity funds, as shown on the accompanying statements of net assets available for benefits of \$152,626,962 and \$156,928,914 as of December 31, 2011 and December 31, 2010, respectively.
- b. Total investment (loss) income, excluding private equity funds, as shown in the accompanying statements of changes in net assets available for benefits of \$(6,001,589) and \$16,424,103 for the years ended December 31, 2011 and December 31, 2010, respectively.
- c. Total Master Trust assets, interest, dividends and net appreciation, excluding private equity funds, as shown in the accompanying Note C.

Mortality

For all participants: The prescribed mortality assumption under IRC §430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Age	Percentage retiring during the year
55	3.25
56	3.25
57	3.25

The weighted average retirement age is 63.5, determined by weighting each potential retirement age by the number of current active employees expected to retire at such age, as determined by the above retirement rates.

Participants with deferred benefits are assumed to retire at age 62.

Disability Rates (per 100 employees)

None.

Compensation Increases

No further increases are assumed after January 1, 2010 due to the plan freeze on that date.

Form of Payment

Participants are assumed to elect the normal form.

At-Risk Form of Payment

The at-risk assumption for assumed form of payment is the same as the not-at-risk assumptions, since that meets the at-risk requirement. The assumed form of payment for a married participant is the 50% Qualified Joint and Survivor Annuity. Single participants are assumed to elect the 5 Year Certain and Life Annuity.

Marriage

80% of males and 70% of females are married. The male spouse is assumed 3 years older than the female spouse.

Employees

It was assumed there will be no new or rehired employees.

Plan Compensation

Compensation assumed paid in the current year beginning on the valuation date is the current annual rate of pay.

Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.76%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.76%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.69%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.69%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are truncated to be consistent with the instructions for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Credited Service

Credited Service is equal to the Employee's service from date of hire or date of retirement or termination measured in whole years and fractions thereof to the nearest one-twelfth year. No credited service is earned prior to the date shown for the following companies:

• Alsons Corporation	–	7 January 1, 1997
• American Metal Products - California	–	January 1, 1975
• American Metal Products - Tennessee & Mississippi	–	January 1, 1975
• Corona Products Corp.	–	January 1, 1975
• American Shower & Bath - MI	–	January 1, 1982
• BrassCraft	–	January 1, 1984
• Marvel Metal Products	–	January 1, 1983
• Masco Building Products Corporation - Corporate	–	January 1, 1991
• American Metal Products - California (Waste King Employees)	–	January 1, 1993
• American Shower & Bath - NJ	–	June 1, 1994
• Contractor Services	–	January 1, 2001
• Masterchem Industries, Inc.	–	January 1, 1991

Credited Service will be frozen as of the date of the plan freeze at January 1, 2010. No additional Credited Service will be accrued after this date.

Vesting Service

A Participant earns Years of Service based on elapsed time from date of hire, where 12 months or 365 days equal one year, except at the BrassCraft location, where years of service for vesting is calculated from January 1, 1984.

Vesting Service will continue to accrue after the plan freeze at January 1, 2010.

Final Average Compensation

This term refers to the Employee's total Compensation for 5 consecutive Plan Years during which the Employee received the greatest amount of compensation, divided by 5.

Final Average Compensation will be frozen as of January 1, 2010.

Normal Retirement Benefit

Normal Retirement Date: Age 65

Accrued Benefit: Based on the following formula, payable one-twelfth monthly:

1.1% of Final Average Compensation times years of Credited Service (maximum 30 years), after July 1, 1971 contained in the initial 30 years of all Credited Service under the Plan, plus

1.1% of the first \$9,000 of Final Average Compensation plus 1.3% of Final Average Compensation in excess of \$9,000 times the years of Credited Service prior to July 1, 1971 contained in the initial 30 years of Credited Service prior to retirement.

Normal Form of Benefit: 5 year certain and life annuity, if unmarried, and 50% Joint & Survivor annuity, if married, actuarially equivalent to the 5 year certain and life annuity.

Early Retirement Benefit

Eligibility: Age 55 with 5 or more Years of Service.

Benefit: Accrued Benefit as of Early Retirement Date reduced for commencement before age 65 to reflect the increased payment period. The reduction is 5/9ths of 1% for each of the first 60 months plus 5/18ths of 1% for each of the next 60 months that retirement precedes age 65.

For Masterchem Industries, Inc., the accrued normal benefit is reduced for immediate commencement by 1/3 of 1% for each of the first 60 months prior to Normal Retirement Date plus ½ of 1% for each of the next 60 months.

Disability Benefit

Eligibility: A Participant determined to be permanently and totally disabled who has 10 or more Years of Service.

Benefit: The accrued benefit at time of disability, subject to reductions by reason of any Workers' Compensation benefits payable and by reason of any disability or sickness and accident benefit payable under other Company financed programs.

Vested Benefits Upon Termination of Service

Vesting: Participants are 100% vested upon completion of 5 Years of Service.

For Melard Manufacturing participants hired prior to January 1, 1995, the vesting schedule equals 20% for 3 Years of Service, 40% for 4 Years of Service, and 60% for 5 Years of Service.

Termination Benefit: The accrued normal benefit becomes payable at age 65; or reduced at age 55 as per Early Retirement.

Surviving Spouse Benefit

Eligibility: All Participants eligible for a Vested Benefit (whether or not actively employed) who are married at date of death automatically receive coverage under the Option.

Benefit: In the event of a Vested Participant's death prior to benefit commencement, a 50% Survivor Annuity will be paid to the Participant's spouse. Benefits to the Spouse are payable on the first day of the month following the Participant's death, or if later, the first day of the month following the Participant's 55th birthday. Benefit payable is the Participant's accrued benefit at date of death, reduced actuarially for survivor annuity and reduced for early commencement (if applicable) by the Early Retirement factors described in the Plan. Cost of this protection is fully subsidized by the Company.

Benefits Resulting from Previous Plans

Coverage Under Other Masco Corporation Retirement Plans

Salaried Plan participants who were previously covered under other Masco Corporation financed Pension Plans will receive Credited Service under this Plan from the later of their original date of hire or the applicable Credited Service Date. The resulting benefit will be offset by any benefits payable from the other Plan(s).

Under Superseded Profit Sharing Plan

Employees covered under previous Profit Sharing Plans shall receive a benefit equal to the greater of the amount provided under (B) of the Normal Formula indicated above or the amount provided by the Employer portion of the prior Profit Sharing Account with interest. The employee may elect to receive the prior Profit Sharing Account with interest in a lump sum in which event his retirement benefit is actuarially reduced to reflect this. Employees with prior Profit Sharing Accounts who terminated and are not eligible for any other benefit under the Plan receive a refund of their prior Profit Sharing Account with interest. The employee portion of the prior Profit Sharing Account with interest is paid to the employee in such manner as the employee requests.

Merillat Industries Supplemental Retirement Income Plan

Salaried Employees of Merillat Industries who were covered under the prior Merillat Industries Supplemental Retirement Income Plan receive the following benefit in five equal annual installments in addition to the above described benefit. Benefit is determined by the amount of service accrued by the Participant as of July 24, 1985, (which was the date of acquisition of the prior plan by Masco Corporation.)

Service at Date of Acquisition	Benefit Payable in Five Equal Installments
Less than 2 years	\$5,000
At least 2 Years but less than 5 Years	10,000
At least 5 Years but less than 5 Years	15,000
At least 10 Years but less than 5 Years	20,000
At least 15 Years but less than 5 Years	25,000
20 or More Years	30,000

The annual benefit based on the above schedule is payable at age 65, or immediately if termination of employment is due to death or disability.

Under Superseded Baldwin Hardware Manufacturing Corporation Profit Sharing Plan

Employees who have Profit Sharing Accounts transferred from this Plan may elect to receive

- (i) a lump sum benefit equal to the value of the account with earnings up to the date of termination, or
- (ii) a monthly benefit based on service earned prior to July 1, 1984, and guaranteed at least equal to the account's value.

Employees who have Rollover Accounts transferred from this Plan will receive an additional lump sum benefit on retirement, death, or termination, equal to the account balance, updated with earnings or losses experienced after July 1, 1984.

Merillat Industries, Inc. Pension Plan

Employees covered under the Plan are guaranteed a benefit at least equal to their accrued benefit as of December 31, 1993 under the Plan based on the early retirement reduction factors of the prior Plan and converted from a ten year certain and life annuity to a five year certain and life annuity.

The following assumptions were changed since last year's valuation:

- The mortality assumption was changed to the 2011 prescribed mortality assumption under IRC §430(h)(3)(A) using static tables with separate rates for annuitants and non-annuitants, consistent with sponsor elections.
- The assumed rate of return on assets after 2010 was reduced from 8.00% to 7.25%.

Change in Methods

- The method used to select the discount rate was changed from the three-segment rate for the month containing the valuation date (January), to the three-segment rate for the month of September, consistent with sponsor elections.
- The valuation software used to produce the actuarial information submitted on this schedule has been refined to reflect evolving understanding of the PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under the IRS Announcement 2010-3.
