Plan Administrator

CitationShares – 401(k) Profit Sharing Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the CitationShares – 401(k) Profit Sharing Plan as of March 30, 2012 and December 31, 2011, and the related statement of changes in net assets available for benefits for the period ended March 30, 2012 and the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of March 30, 2012 and December 31, 2011, and for the period ended March 30, 2012 and the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee have been audited by us in accordance with auditing standards generally accepted by the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

1. Description of the Plan

The following description of the CitationShares - 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

The Plan is a defined contribution plan, covering all employees of CitationShares Management, LLC (the “Company”), except for contracted employees, employees covered by a collective bargaining agreement or employees otherwise not eligible, as defined in the Plan. The Plan allows employees of the Company to become eligible for Plan participation on their first day of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974. Effective September 15, 2009, the structure of the Plan was converted from a non-standardized prototype plan to a volume submitter plan. Other than as described in the notes to the financial statements, no changes were made to Plan provisions as a result of this change in structure.

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

The Plan was closed to new contributions as of December 31, 2011 and the Plan assets were transferred to the Textron Savings Plan effective March 30, 2012.

Prior to the Plan closure, participants in any calendar year were able to contribute up to 60% of pre-tax annual compensation, defined as base pay, through payroll deductions subject to Internal Revenue Code limitations. Participants were also able to contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company made a matching contribution on behalf of each participant to an amount equal to 50% of the first 6% of the participant’s eligible compensation contributed to the Plan.

In addition to the non-discretionary employer matching contributions described above, the Company’s Board of Directors may elect to make a discretionary profit sharing contribution to the Plan, allocated in the ratio that each eligible participant’s compensation bears in relation to the total compensation for all eligible participants for the Plan year. Only those participants employed on the last day of the Plan year and who have earned at least 1000 hours of service during the Plan year are qualified to receive the Company’s contribution. No discretionary profit sharing contributions have been made for the periods ended March 30, 2012 or December 31, 2011.

CitationShares - 401(k) Profit-Sharing Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participants hired prior to January 1, 2004 are immediately vested in their contributions and employer matching contributions. Participants hired subsequent to January 1, 2004 are immediately vested in their contributions while employer matching contributions vest according to a graded scale over a four year period. Participants hired on or subsequent to January 1, 2008 will vest in employer contributions according to a graded scale over a five year period.

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance in the respective participant's account during the prior 12 month period. The maximum loan term is 5 years except for loans used for the purchase of a primary residence for which the maximum loan term is 10 years. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest as determined by the Plan's administrator. Principal and interest on outstanding loans is paid ratably through payroll deductions.

On termination of service, a participant may receive a lump-sum amount equal to value of the participant's vested interest in the participant's account or elect to receive annual installments over a specified period of time. Forfeitures of unvested contributions at the time of a participant's termination are retained in the Plan and will be used to reduce future employer contributions payable under the Plan. No forfeitures were used in 2012 and approximately \$39,000 worth of forfeitures were utilized in 2011, to offset employer contributions. As of March 30, 2012 no forfeitures were available and in December 31, 2011, approximately \$3,000 worth of forfeitures were available among Plan assets to reduce future employer contributions.

All of the Plan's investment options are fully participant directed. Upon enrollment in the Plan, a participant may direct Company and employee contributions into any of the Plan's investment options. Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of plan earnings. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements (continued)

2. Summary of Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of March 30, 2012 or December 31, 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Subsequent Events

Management evaluated subsequent events for the Plan through October 9, 2012, the date the financial statements were available to be issued.

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments in mutual funds are stated at fair value as determined by Fidelity Management Trust Company (“Fidelity”), the trustee of the Plan, and are generally based on reference to published market data. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

The Fidelity Managed Income Portfolio Fund invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

New Accounting Pronouncements

Plan management has reviewed all new accounting pronouncements and have determined that none will have a material impact on the financial statements.

Notes to Financial Statements (continued)

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held, notes receivable from participants, the adjustment from fair value to contract value for fully benefit-responsive investment contracts at March 30, 2012 and December 31, 2011, and net appreciation in fair value of investments, interest, and dividends for the periods then ended, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Fidelity, the trustee of the Plan.

Individual investments that represent 5% or more of the fair value of the Plan's assets available for benefits are as follows:

	March 30, 2012	December 31, 2011
Fidelity Puritan Fund	\$ -	\$2,135,929
Fidelity Diversified International Fund	-	2,865,981
Fidelity Dividend Growth Fund	-	1,854,458
Fidelity Mid-Capital Stock Fund	-	2,744,230
Fidelity Contrafund	-	6,052,256
Pimco Total Return ADM	-	1,917,090
Fidelity Managed Income Portfolio	-	3,824,634

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical, unrestricted assets or liabilities.
---------	---

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Level 2 Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active
- observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of any input that is significant to the fair value measure in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value by the Plan. There have been no changes to the methodologies used at March 30, 2012 and December 31, 2011.

Mutual funds – Valued at the net asset value, based on quoted market prices in active markets, of shares held by the Plan at year end.

Common/collective trusts – Valued at net asset value as determined by the Trustee, except for certain investment contracts, which generally are valued at contract value. Contract value is cost plus accrued income, less redemptions.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

6. Income Tax Status

The underlying volume submitter plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008 stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and therefore the related trust is tax-exempt. In accordance with Revenue Procedures 2012-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 30, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Plan Administrator

CitationShares – 401(k) Profit Sharing Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the CitationShares – 401(k) Profit Sharing Plan as of March 30, 2012 and December 31, 2011, and the related statement of changes in net assets available for benefits for the period ended March 30, 2012 and the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of March 30, 2012 and December 31, 2011, and for the period ended March 30, 2012 and the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee have been audited by us in accordance with auditing standards generally accepted by the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

1. Description of the Plan

The following description of the CitationShares - 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

The Plan is a defined contribution plan, covering all employees of CitationShares Management, LLC (the “Company”), except for contracted employees, employees covered by a collective bargaining agreement or employees otherwise not eligible, as defined in the Plan. The Plan allows employees of the Company to become eligible for Plan participation on their first day of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974. Effective September 15, 2009, the structure of the Plan was converted from a non-standardized prototype plan to a volume submitter plan. Other than as described in the notes to the financial statements, no changes were made to Plan provisions as a result of this change in structure.

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

The Plan was closed to new contributions as of December 31, 2011 and the Plan assets were transferred to the Textron Savings Plan effective March 30, 2012.

Prior to the Plan closure, participants in any calendar year were able to contribute up to 60% of pre-tax annual compensation, defined as base pay, through payroll deductions subject to Internal Revenue Code limitations. Participants were also able to contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company made a matching contribution on behalf of each participant to an amount equal to 50% of the first 6% of the participant’s eligible compensation contributed to the Plan.

In addition to the non-discretionary employer matching contributions described above, the Company’s Board of Directors may elect to make a discretionary profit sharing contribution to the Plan, allocated in the ratio that each eligible participant’s compensation bears in relation to the total compensation for all eligible participants for the Plan year. Only those participants employed on the last day of the Plan year and who have earned at least 1000 hours of service during the Plan year are qualified to receive the Company’s contribution. No discretionary profit sharing contributions have been made for the periods ended March 30, 2012 or December 31, 2011.

CitationShares - 401(k) Profit-Sharing Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participants hired prior to January 1, 2004 are immediately vested in their contributions and employer matching contributions. Participants hired subsequent to January 1, 2004 are immediately vested in their contributions while employer matching contributions vest according to a graded scale over a four year period. Participants hired on or subsequent to January 1, 2008 will vest in employer contributions according to a graded scale over a five year period.

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance in the respective participant's account during the prior 12 month period. The maximum loan term is 5 years except for loans used for the purchase of a primary residence for which the maximum loan term is 10 years. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest as determined by the Plan's administrator. Principal and interest on outstanding loans is paid ratably through payroll deductions.

On termination of service, a participant may receive a lump-sum amount equal to value of the participant's vested interest in the participant's account or elect to receive annual installments over a specified period of time. Forfeitures of unvested contributions at the time of a participant's termination are retained in the Plan and will be used to reduce future employer contributions payable under the Plan. No forfeitures were used in 2012 and approximately \$39,000 worth of forfeitures were utilized in 2011, to offset employer contributions. As of March 30, 2012 no forfeitures were available and in December 31, 2011, approximately \$3,000 worth of forfeitures were available among Plan assets to reduce future employer contributions.

All of the Plan's investment options are fully participant directed. Upon enrollment in the Plan, a participant may direct Company and employee contributions into any of the Plan's investment options. Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of plan earnings. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of March 30, 2012 or December 31, 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Subsequent Events

Management evaluated subsequent events for the Plan through October 9, 2012, the date the financial statements were available to be issued.

2. Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments in mutual funds are stated at fair value as determined by Fidelity Management Trust Company (“Fidelity”), the trustee of the Plan, and are generally based on reference to published market data. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

The Fidelity Managed Income Portfolio Fund invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

New Accounting Pronouncements

Plan management has reviewed all new accounting pronouncements and have determined that none will have a material impact on the financial statements.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held, notes receivable from participants, the adjustment from fair value to contract value for fully benefit-responsive investment contracts at March 30, 2012 and December 31, 2011, and net appreciation in fair value of investments, interest, and dividends for the periods then ended, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Fidelity, the trustee of the Plan.

Individual investments that represent 5% or more of the fair value of the Plan's assets available for benefits are as follows:

	March 30, 2012	December 31, 2011
Fidelity Puritan Fund	\$ -	\$2,135,929
Fidelity Diversified International Fund	-	2,865,981
Fidelity Dividend Growth Fund	-	1,854,458
Fidelity Mid-Capital Stock Fund	-	2,744,230
Fidelity Contrafund	-	6,052,256
Pimco Total Return ADM	-	1,917,090
Fidelity Managed Income Portfolio	-	3,824,634

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

4. Fair Value Measurements (continued)

Level 2 Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active
- observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of any input that is significant to the fair value measure in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value by the Plan. There have been no changes to the methodologies used at March 30, 2012 and December 31, 2011.

Mutual funds – Valued at the net asset value, based on quoted market prices in active markets, of shares held by the Plan at year end.

Common/collective trusts – Valued at net asset value as determined by the Trustee, except for certain investment contracts, which generally are valued at contract value. Contract value is cost plus accrued income, less redemptions.
