Kinetek Industries, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Kinetek Industries, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Kinetek Industries, Inc. and its subsidiaries (Participating Employers), which have elected to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The following is a listing of Participating Employers (collectively the Company):

Kinetek Industries, Inc.
Merkle-Korff Industries, Inc.
Motion Control Engineering, Inc.
The Imperial Electric Company (including Scott Motors Company at Alamogordo, NM & Euclid Universal at Solon, OH)
Advanced Motors & Drives, Inc. (formerly known as Advanced DC Motors, Inc.)
Valmark Industries, Inc.

Eligibility: Employees are eligible to become participants in the Plan the earlier of the first day of the Plan year or the first day of the fourth, seventh, or tenth month of the Plan year after completing six months of service and are at least 21 years of age.

Contributions: Participants may contribute a percentage of their pretax compensation, as defined in the Plan, up to the maximum allowed under the Internal Revenue Code. Participants are also permitted to make Roth after tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan provides for a discretionary matching contribution as stated in the Plan document or determined each year by each Participating Employer. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Company contributions were re-instated effective April 1, 2010. All contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions, Company matching contributions, if any and an allocation of (a) Company profit sharing contributions, if any, (b) the Plan's earnings, and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions and earnings thereon is based on years of service. A participant is 100 percent vested after five years of credited service. Participants are also 100 percent vested upon retirement age 65, termination of employment due to death or becoming disabled.

Other liabilities: In 2009, the recordkeeping agreement with Diversified Investment Advisors (DIA) (see Note 6) was amended to provide the Plan with an annual Plan Service Credit based on the participants' account balances in each of the investment options, excluding the Cash Reserve Account. Plan Service Credits were discontinued effective December 28, 2010. The Plan received Plan Service Credits from December 16, 2009 through June 30, 2010, in excess of the stated rate. The erroneous Plan Service Credit funds were refunded to DIA during 2011.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow an amount not less than \$1,000 up to a maximum of the lesser of \$50,000 or 50 percent of their vested balance. The terms range from one to five years or up to ten years if used for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at the prime rate of interest plus one percent at the time the note receivable is issued. At December 31, 2011, the rates ranged from 4.25 percent to 9.27 percent. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or partial payments. If the vested account balance is \$5,000 or less, the participant will receive a lump-sum payment. In-service withdrawals are permitted based on the terms of the Plan. Withdrawals are also allowed at any time for hardship reasons, as defined by the Plan.

Investment options: Upon enrollment in the Plan, participants may direct their contributions plus actual earnings thereon into a variety of investment options as more fully described in the Plan's literature. Participants may change their investment options at any time.

Forfeited accounts: At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$23,054 and \$20,617, respectively. These accounts will be used to reduce future Company contributions or pay the Plan's administrative expenses. During 2011, Company contributions were reduced by \$7,606 and Plan administrative expenses of \$11,000 were paid from forfeited non-vested accounts.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are classified as distributions based upon the terms of the plan document.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

Note 2. Significant Accounting Policies (Continued)

Recent accounting pronouncement: In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*, which requires new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. This update also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters related to reconciliation of Level 3 measurements, the amendment was effective for periods beginning on or after December 15, 2010. See Note 4 for impact of adoption.

Pending accounting pronouncement: In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Management is currently evaluating the impact this update will have on the Plan's financial statements.

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Shares of registered investment companies: Valued at the quoted market price of shares held by the Plan at year-end.

Shares of collective investment trust: Valued at the net asset value of the underlying investments.

Cash: Valued at the account balance.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table below sets forth the fair value of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2011 and 2010:

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	December 31, 2011	December 31, 2010			
Shares of collective investment trust (a)	\$ 3,858,273	\$ 4,070,541	\$ -	Daily	12 months

(a) This fund invests in the Wells Fargo Stable Return Fund, which invests in stable value investment vehicles such as guaranteed investment contracts, bank investment contracts and synthetic guaranteed investment contracts issued by highly rated financial institutions and corporations as well as obligations of the U.S. Government or its agencies. The minimum credit quality of the total portfolio will be "AA" (Standard & Poors) and no book value contract with a weighted average quality rating below "A" (Standard & Poors) or its equivalent may be acquired. The Stable Return Fund's investment objectives are safety of principal, adequate liquidity and investment returns superior to shorter maturity alternatives.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2011, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 5. Investments

Notes to Financial Statements

Note 5. Investments (Continued)

During 2011, the Plan's investments (including investments bought, sold and held during each period) appreciated (depreciated) in value by \$875,652 as follows:

Shares of registered investment companies	\$ (930,571)
Shares of collective investment trust	54,919
	<u>\$ (875,652)</u>

Note 6. Related Party Transactions

The Plan's investments are held by State Street Bank and Trust Company, the trustee, and Massachusetts Fidelity Trust Company, the custodian. The investments are managed by Diversified Investment Advisors. These transactions, therefore, qualify as party-in-interest. Diversified Investment Advisors also performs recordkeeping and administrative services. Expenses paid by the Plan to Diversified Investment Advisors were \$4,575 for the year ended December 31, 2011.

Certain employees of the Company provide administrative services to the Plan. These employees do not receive compensation from the Plan for their services. Certain other expenses of the Plan are paid by the Plan or by the Company.

Note 7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 20, 2012, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of Internal Revenue Code. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Late Deposits

During the year ended December 31, 2011, the Plan engaged in prohibited transactions related to late deposits of employee deferrals and loan repayments totaling \$755. The Company is choosing to self-correct these transactions.

Lost earnings for the year ended December 31, 2011, will be deposited to the trust in 2012. The Plan sponsor will file Form 5330 and pay the applicable excise tax to the IRS in 2012. The excise tax payment will be made from the Plan sponsor's assets and not from assets of the Plan.
