INDEPENDENT AUDITORS' REPORT

To the Trustees of the

Physicians Oncology Services 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of

PHYSICIANS ONCOLOGY SERVICES 401(k) PLAN

as of December 31, 2011 and 2010, the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule, Schedule H, Line 4(i) Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2011. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by SunTrust Bank, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PHYSICIANS ONCOLOGY SERVICES 401 (k) PLAN

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2011 and 2010

(1) Description of the Plan

The following description of the Physicians Oncology Services (the "Company") 401(k) Plan (the "Plan"), is provided for general information purposes only. Participants should refer to the Plan document for a more complete description on the provisions of the Plan.

General - The Plan is a defined contribution plan. All employees of the Company who are not excluded employees, as defined in the plan document, are eligible to participate in salary deferrals after completing 90 days of service and attaining the age of twenty-one. Eligible employees who have one year of service and 1,000 hours of service during each 12-month period are eligible to participate in the profit sharing contributions, matching contributions, and Qualified Non-Elective contributions ("QNECs"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments. The original effective date of the plan was January 1, 1998. The amended and restated provisions of the Plan became effective November 2008.

Employee contributions - Participants may elect to defer at least 1% up to 100% of their annual compensation on a pre-tax basis as defined in the Plan document. Pre-tax contributions cannot exceed federal limits. The Plan allows participants to "roll over" assets from other qualified savings plans into the Plan.

Employer contributions - Each year the Company may contribute a profit sharing contribution, matching contribution, or QNEC to the Plan. The profit sharing contribution is discretionary with the amount being determined by the Company each year. Profit sharing contributions are allocated to eligible participants based upon the percentage of the participant's compensation to the total compensation of all eligible participants. The Company did not make a profit sharing contribution in 2011 or 2010. The matching contribution is a discretionary percentage of each participant's salary deferral determined by the Company each year but will not exceed 6.25% of the participant's compensation. The matching contribution, net of applied forfeitures, was \$159,543 for 2011 and \$228,783 for 2010. The QNEC may be made in order to help pass various nondiscrimination tests for the 401(k) portion of the Plan. The QNEC are allocated to eligible employees based upon the percentage of the employee's compensation to the total compensation of all eligible employees, as defined in the Plan document. The Company did not make a QNEC in 2011 or 2010.

Participant accounts - Each participant has an account that is credited with the participant's voluntary contribution and allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeited balances of terminated participants' non-vested accounts and charged with an allocation of administrative expenses which are allocated proportionately among all participants based on their investment in each fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions, rollover contributions, and QNEC contributions plus actual earnings thereon. Vesting in the Company matching contributions and profit sharing contributions plus actual earnings thereon is based on years of service. A participant is 100% vested after six years of credited service for discretionary matching contributions and profit sharing contributions.

PHYSICIANS ONCOLOGY SERVICES 401 (k) PLAN

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2011 and 2010

(1) Description on the Plan (continued)

Investment options - The Plan offers several investment options and participants may instruct the trustees in how they want to invest their funds without regard to their vested interest.

Forfeitures - Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. Forfeited participant accounts used to reduce the Company's contributions totaled \$6,776 during 2011 and \$12,023 during 2010. Forfeited invested accounts that have not yet been applied to reduce the Company's contributions totaled \$29,653 at December 31, 2011 and \$6,776 at December 31, 2010.

Payments of benefits - On termination of service due to disability or retirement, a participant's distribution will be in the form of a lump-sum distribution equal to the value of the participant's vested interest in their account. For termination of service due to other reasons, a participant may receive the value of their vested interest in their account as a lump-sum distribution.

(2) Summary of significant accounting policies

Recently issued accounting standards - In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update (ASU) No. 2010-06, *Fair Value Measurements and Disclosures*, which amends Accounting Standards Codification (ASC) 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 was effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which became effective for fiscal years beginning after December 15, 2010.

In September 2010, the FASB issued ASU No. 2010-25, *Plan Accounting - Defined Contribution Pension Plans*. ASU No. 2010-25 primarily amended ASC Topic 962, to require that loans to participants be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. ASU 2010-25 was effective for fiscal years ending after December 15, 2010 and must be applied retrospectively.

In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* which requires additional disclosures about fair value measurements categorized within Level 3 of fair value hierarchy. The additional disclosures include quantitative information about the significant unobservable inputs used in Level 3 fair value measurements, the valuation processes used by the Plan, and the Plan's policy of determining when transfers into or out of the Level 3 are deemed to have occurred. ASU No. 2011-04, was effective for years beginning after December 15, 2011. Early application is generally prohibited.

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

(2) Summary of significant accounting policies (continued)

Guaranteed investment contracts ("GIC") - Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The GIC is presented at fair value which approximates contract value.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The guaranteed investment contract is presented at fair value which approximates contract value. Contract value represents contributions made under the contract, plus earnings, less benefit payments and administrative expenses. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The market value of mutual funds is determined by the net asset value of the shares plus the value of any dividends and capital gain distributions.

Purchases and sales of securities are recorded on the trade date. Dividends are recorded on the ex-dividend date. Investment income (loss) consists of interest, dividends, gains on sales of securities and the unrealized increase (decrease) in fair market value of assets.

Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect certain reported amounts of Plan assets, liabilities, and disclosures at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Risk and uncertainties - Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the valuation of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Payment of benefits - Benefits are recorded when paid.

Plan expenses - Substantially all administrative and accounting fees of the Plan are paid by the Company.

(3) Fair value measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Interest bearing cash and mutual funds: These investments consist of various publicly traded money market funds, mutual funds and common stock. The fair values are based on quoted market prices.

Guaranteed Investment Contract ("GIC") defined on page 6: Valued at fair value which is equal to all benefits owed to participants in the fund. Contract value approximates fair value (see Note 8).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(4) Plan termination

The Company intends to continue the Plan indefinitely for the benefit of its employees, but reserves the right to amend, modify, or terminate the Plan at any time or for any reason subject to the terms of ERISA. In the event the Plan terminates, the rights of all participants to amounts credited to each participant's account will be 100% vested and nonforfeitable.

(5) Tax status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code and accordingly, the trust's net investment income is exempt from income taxes. The Plan received a favorable tax determination letter from the Internal Revenue Service on October 18, 2011. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and is therefore qualified and tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

(6) Financial information certified by the Plan's trustees

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting Disclosures under ERISA. Accordingly, the trustee has certified that the data included in the accompanying financial statements and supplemental schedule H Line 4(i) – Schedule of Assets (Held at End of Year) are complete and accurate.

The Plan's independent accountant did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule H Line 4(i) – Schedule of Assets (Held at End of Year).

Total investments, at fair value	<u>\$ 7,491,999</u>

(8) Guaranteed investment contract

The SunTrust retirement stable asset funds are common/collective trust funds that invest in GICs and synthetic GICs and are presented at contract value. The fair value of fully benefit-responsive investment contracts is equal to the sum of the market value of all the GICs investments. Contract value is equal to the sum of all the benefits owed to participants in that fund. As of December 31, 2011 and 2010, contract value approximated fair value.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note (2), because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract and fair value approximates contract value.

(8) Guaranteed investment contract (continued)

Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the termination of the agreement prior to the scheduled maturity date.

Average yields are as follows for the years ended December 31:

	<u>2011</u>	<u>2010</u>
Based on underlying investment return	1.19%	1.66%
Based on interest rate credited to participants	1.70%	2.83%

(9) Related party transactions

Certain Plan investments are shares of mutual funds as well as a stable asset fund managed by SunTrust Retirement. SunTrust Retirement is the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$7,723 and \$8,307 for the years ended December 31, 2011 and 2010, respectively.

(10) Reconciliation of financial statements to Schedule H of Form 5500

(11) Fidelity bond

ERISA Code section 412 requires the Plan to maintain fidelity bond coverage in an amount equal to the lesser of 10% of the total plan assets as of the proceeding plan year or \$500,000. The Plan has sufficient bond coverage as of December 31, 2011 and 2010.

(12) Subsequent events

Management plans to de-convert the Plan to a plan with Principal in 2012. The de-conversion has not occurred as of the date the financial statements were available to be issued.

The Company has evaluated subsequent events through September 17, 2012, the date in which the financial statements were available to be issued, and has been determined that there were no additional subsequent event matters that require recognition or disclosure in the financial statements.
