Carolina Container Company 401(k) Retirement Plan
High Point, North Carolina

We were engaged to audit the accompanying statements of net assets available for benefits of the Carolina Container Company 401(k) Retirement Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedules of Schedule H, line 4i-Schedule of Assets (Held At End of Year), and Schedule H, line 4j-Schedule of Reportable Transactions as of or for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified by TD Ameritrade Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CAROLINA CONTAINER COMPANY
401(k) RETIREMENT PLAN
Summary of Accounting Policies

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective investment trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

ADMINISTRATIVE EXPENSES

Expenses of maintaining the Plan are partially absorbed by the Company.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

MANAGEMENT ESTIMATES

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

EVENTS OCCURRING AFTER REPORTING DATE

The Plan has evaluated events and transactions that occurred between December 31, 2011 and October 10, 2012, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Carolina Container Company 401(k) Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. *General*. The Plan is a defined contribution plan covering all employees who have completed six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions. Each year, participants may make salary deferral contributions from 1% to 50% of their compensation, up to the maximum dollar amount permitted by law. The Company will make discretionary matching contributions as determined by the Company for participants employed on the last day of the Plan year and have completed 1,000 hours of service during the plan year. For the year ending December 31, 2011 the matching contribution was 50% of the first 4% of eligible compensation. The Company will make a profit sharing contribution at the discretion of the Board of Directors annually to all employees that meet the age and service eligibility requirements, are employed on the last day of the Plan year, and have completed 1,000 hours of service during the Plan year. Contributions are allocated in proportion based on total compensation in the employee's participant group. There are seven different participant groups. There was a profit sharing contribution of $394,763 for the year ended December 31, 2011. The annual additions to a participant's account are limited to the amount permissible under the Internal Revenue Code.

C. *Participant Accounts*. Each participant's account is credited with the participant's contribution and the allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. *Investment Options*. Upon enrollment in the Plan, a participant may direct contributions in various investment options offered by the Plan. Participants may change their investment options at any time. All investments are participant directed.

E. *Vesting*. Participants are vested immediately in their contributions plus the actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. Employer matching and profit sharing contributions vest as follows:

Years of Service	% Vested
Less than 2	0
2	20
3	40
4	60
5	80
6 or more	100

F. Payment of Benefits. On termination of service due to death, disability, financial hardship or retirement, participants may elect to receive the vested portion of their participant account in a lump sum or in installments. In-service financial hardship withdrawals are also allowed of the vested portion of the participant account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

G. Forfeited Accounts. At December 31, 2011 forfeited nonvested accounts totaled $21,186. Of this amount, $7,082 was attributed to matching contributions and $14,103 was attributed to profit sharing contributions. The total amount of forfeited nonvested accounts was used to reduce employer matching contributions at December 31, 2011.

NOTE 2 - SUMMARY OF INFORMATION CERTIFIED BY PLAN TRUSTEE

The Plan's funds are maintained by the trustee, TD Ameritrade Trust Company. The plan administrator has instructed the independent public accountants not to examine the information certified as complete and accurate by the trustee. The trustee's certification applies to all Plan assets and transactions for the dates presented.

NOTE 3 - INVESTMENTS

The following table presents investments that are 5% or more of the Plan's net assets.

	December 31, 2011	
	Number of Shares or Principal Amount	Asset Value
Mutual Funds and CCT:		
MetLife Stable Value Fund, at contract value	328,902	$ 5,269,015

Invesco Van Kampen Small Cap Value	38,995	702,693
Income Fund of America	40,505	669,554

During 2011, the Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in value by $396,500 as follows:

	Year ended December 31, 2011
Mutual Funds	$ (512,865)
Common Collective Trust	116,365
	$ (396,500)

NOTE 4 - FAIR VALUE MEASUREMENTS

Professional standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value of shares held at year end.

Common/collective trusts: Valued at unit values provided by the investment managers/bank/insurance company, which are based on the fair value of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its use of valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan is invested in a common/collective trust account which has as its underlying investment a fully benefit-responsive investment contract with MetLife. The accounts are credited with earnings on underlying investments and charged for participant withdrawals and administrative expenses charged by MetLife. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

As discussed in the Summary of Accounting Policies, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the investment contract. Contract value, as reported by MetLife, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $5,498,704 and $4,910,410, respectively. The crediting interest rate is based on a formula agreed upon by the issuer, but it may not be less than 0%. Such interest rates were reviewed on a quarterly basis for resetting.

Any event that results in the Plan ending its participation in the MetLife guaranteed investment contract will limit the ability of the plan to transact at contract value with the issuer. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are likely to occur.

The average yield and crediting interest rates were 6.45% and 2.96%, respectively, for the year ended December 31, 2011. The average yield and crediting interest rates were 5.42% and 3.13%, respectively, for the year ended December 31, 2010.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 18, 2011, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, no examinations by taxing authorities are in progress. Information returns for the years after December 31, 2007 remain subject to examination.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of money market funds managed by TD Ameritrade Trust Company. TD Ameritrade Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 9 - ALLOCATED LIFE INSURANCE POLICIES

Prior to April 2000, Plan participants could use up to 25% of the yearly contribution to purchase whole life policies. The Plan is the named beneficiary. Premiums are recorded when paid. Proceeds represent the cash value of the policy upon surrender.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Carolina Container Company 401(k) Retirement Plan
High Point, North Carolina

We were engaged to audit the accompanying statements of net assets available for benefits of the Carolina Container Company 401(k) Retirement Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedules of Schedule H, line 4i-Schedule of Assets (Held At End of Year), and Schedule H, line 4j-Schedule of Reportable Transactions as of or for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified by TD Ameritrade Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CAROLINA CONTAINER COMPANY
401(k) RETIREMENT PLAN
Summary of Accounting Policies

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective investment trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

ADMINISTRATIVE EXPENSES

Expenses of maintaining the Plan are partially absorbed by the Company.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

MANAGEMENT ESTIMATES

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

EVENTS OCCURRING AFTER REPORTING DATE

The Plan has evaluated events and transactions that occurred between December 31, 2011 and October 10, 2012, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Carolina Container Company 401(k) Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. *General*. The Plan is a defined contribution plan covering all employees who have completed six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions. Each year, participants may make salary deferral contributions from 1% to 50% of their compensation, up to the maximum dollar amount permitted by law. The Company will make discretionary matching contributions as determined by the Company for participants employed on the last day of the Plan year and have completed 1,000 hours of service during the plan year. For the year ending December 31, 2011 the matching contribution was 50% of the first 4% of eligible compensation. The Company will make a profit sharing contribution at the discretion of the Board of Directors annually to all employees that meet the age and service eligibility requirements, are employed on the last day of the Plan year, and have completed 1,000 hours of service during the Plan year. Contributions are allocated in proportion based on total compensation in the employee's participant group. There are seven different participant groups. There was a profit sharing contribution of $394,763 for the year ended December 31, 2011. The annual additions to a participant's account are limited to the amount permissible under the Internal Revenue Code.

C. *Participant Accounts*. Each participant's account is credited with the participant's contribution and the allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. *Investment Options*. Upon enrollment in the Plan, a participant may direct contributions in various investment options offered by the Plan. Participants may change their investment options at any time. All investments are participant directed.

E. *Vesting*. Participants are vested immediately in their contributions plus the actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. Employer matching and profit sharing contributions vest as follows:

Years of Service	% Vested
Less than 2	0
2	20
3	40
4	60
5	80
6 or more	100

F. Payment of Benefits. On termination of service due to death, disability, financial hardship or retirement, participants may elect to receive the vested portion of their participant account in a lump sum or in installments. In-service financial hardship withdrawals are also allowed of the vested portion of the participant account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

G. Forfeited Accounts. At December 31, 2011 forfeited nonvested accounts totaled $21,186. Of this amount, $7,082 was attributed to matching contributions and $14,103 was attributed to profit sharing contributions. The total amount of forfeited nonvested accounts was used to reduce employer matching contributions at December 31, 2011.

NOTE 2 - SUMMARY OF INFORMATION CERTIFIED BY PLAN TRUSTEE

The Plan's funds are maintained by the trustee, TD Ameritrade Trust Company. The plan administrator has instructed the independent public accountants not to examine the information certified as complete and accurate by the trustee. The trustee's certification applies to all Plan assets and transactions for the dates presented.

NOTE 3 - INVESTMENTS

The following table presents investments that are 5% or more of the Plan's net assets.

	December 31, 2011

Invesco Van Kampen Small Cap Value	38,995	702,693
Income Fund of America	40,505	669,554

During 2011, the Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in value by $396,500 as follows:

	Year ended December 31, 2011
Mutual Funds	$ (512,865)
Common Collective Trust	116,365
	$ (396,500)

NOTE 4 - FAIR VALUE MEASUREMENTS

Professional standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value of shares held at year end.

Common/collective trusts: Valued at unit values provided by the investment managers/bank/insurance company, which are based on the fair value of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its use of valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan is invested in a common/collective trust account which has as its underlying investment a fully benefit-responsive investment contract with MetLife. The accounts are credited with earnings on underlying investments and charged for participant withdrawals and administrative expenses charged by MetLife. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

As discussed in the Summary of Accounting Policies, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the investment contract. Contract value, as reported by MetLife, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $5,498,704 and $4,910,410, respectively. The crediting interest rate is based on a formula agreed upon by the issuer, but it may not be less than 0%. Such interest rates were reviewed on a quarterly basis for resetting.

Any event that results in the Plan ending its participation in the MetLife guaranteed investment contract will limit the ability of the plan to transact at contract value with the issuer. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are likely to occur.

The average yield and crediting interest rates were 6.45% and 2.96%, respectively, for the year ended December 31, 2011. The average yield and crediting interest rates were 5.42% and 3.13%, respectively, for the year ended December 31, 2010.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 18, 2011, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, no examinations by taxing authorities are in progress. Information returns for the years after December 31, 2007 remain subject to examination.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of money market funds managed by TD Ameritrade Trust Company. TD Ameritrade Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 9 - ALLOCATED LIFE INSURANCE POLICIES

Prior to April 2000, Plan participants could use up to 25% of the yearly contribution to purchase whole life policies. The Plan is the named beneficiary. Premiums are recorded when paid. Proceeds represent the cash value of the policy upon surrender.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
