SANDATA, LLC
401(k) SALARY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

Note 1 - Description of Plan

The following description of the Sandata, LLC 401(k) Salary Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on June 1, 1989. The Plan has been amended several times in recent years to comply with recent legislation and to preserve the tax-favored treatment. The Plan is a defined contribution plan covering substantially all employees age 21 and older with at least one month of service. The Plan's sponsor is Sandata Technologies, LLC (the "Sponsor").

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 70% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds for participants.

Each year, the Sponsor can match at its discretion up to 18% of each participant's contribution to the Plan. For the year ended December 31, 2011, the Sponsor matched 10% of each participant's contribution. Additionally, the Sponsor may make profit sharing contributions at its discretion. For the year ended December 31, 2011, the Sponsor elected not to make such a discretionary employer profit sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the employer's contribution and Plan earnings and forfeitures of profit sharing contributions and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants shall have a vested percentage in their employer contribution accounts based on a graded vesting schedule based on years of service. Participants are 100% vested after five years of service.

Note 1 - Description of Plan (cont'd.)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 8.25%, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 59 1/2. On termination of service, a participant may elect to receive a lump sum amount equal to the participant's account. Benefit payments are also permitted for death, disability and hardship.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled $9,128 and $933, respectively. This account will be used to reduce future employer contributions in the succeeding Plan year. In 2011, $1,990 of forfeitures was used to reduce employer contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Administrative Expenses

The Sponsor may, at its discretion, pay all or part of the expenses of maintaining the Plan. For 2011, the Sponsor paid all except $19,025 of the expenses for maintaining the Plan.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS.* This ASU represents the converged guidance of the FASB and the IASB (the "Boards") on fair value measurement. The collective efforts of the Boards and their staffs, reflected in ASU No. 2011-04, have resulted in common requirements for measuring fair value and for disclosing information about fair value measurements, including a consistent meaning of the term "fair value." The Boards have concluded the common requirements will result in greater comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS.

The amendments to the FASB Accounting Standards Codification ("ASC") in this ASU are to be applied prospectively. For nonpublic entities, the amendments are effective for annual periods beginning after December 15, 2011. Nonpublic entities may apply the amendments in ASU No. 2011-04 early, but no earlier than for interim periods beginning after December 15, 2011. The Plan has not yet evaluated the potential impact of this pronouncement.

Note 3 - Information Prepared and Certified By Trustee

* Fund was not greater than 5% of Plan's net assets at December 31, 2010.

Note 5 - Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2011 and 2010.

The Level 1 inputs relate to mutual funds whose underlying assets are valued at the net asset value (NAV) of shares held by the Plan at year end.

The Level 3 inputs relate to an investment in a limited partnership, the value of which was determined using the Plan’s percentage interest in the net asset value of the partnership.

Note 5 - Fair Value Measurements (cont'd.)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value at December 31, 2011 and 2010.

Note 6 - Related Party Transactions

Fees paid to Ascensus, as agent for Frontier Trust Company, the trustee of the Plan, qualify as party-in-interest transactions. Fees paid by the Plan for administration and investment management services amounted to $2,608 for the year ended December 31, 2011.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Tax Status

The Plan is a prototype plan that has received an opinion letter dated November 27, 2001, issued by the National Office of the Internal Revenue Service that states the Plan is qualified under Internal Revenue Code Section 401. The Plan has been amended since receiving the opinion letter; however, the Plan Sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits.

Note 10 - Transfers to the Plan

Transfers to the Plan represent accounts of participants who have changed employment from another company which is related through similar ownership. Transfers to the Plan totaled $68,934 for the year ended December 31, 2011.

Note 11 - Subsequent Events

The Plan administrator has evaluated all events or transactions that occurred after December 31, 2011 through the date of these financial statements, which is the date that the financial statements were available to be issued. During this period, there were no material subsequent events requiring disclosure.
