NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2011 AND 2010, AND FOR THE YEAR ENDED DECEMBER 31, 2011

1. PLAN DESCRIPTION

The following brief description of the Rite Aid Services, L.L.C. 401(k) Plan (the “Plan”) is provided for general informational purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General — The Plan is a defined contribution plan. An individual account is established for each participant and provides benefits that are based on (a) amounts the participant and Rite Aid Corporation (the “Company” or “Plan Sponsor”) contributed to a participant’s account, (b) investment earnings (losses), and (c) any forfeitures allocated to the account, less any administrative expenses charged to participant accounts, if any.

T. Rowe Price Trust Company serves as Plan trustee with respect to all assets. The Employee Benefits Administration Committee is the plan administrator (“Plan Administrator”) and is responsible for the preparation of the Plan’s financial statements.

Plan Merger — Effective December 31, 2011, the Plan was merged into the Rite Aid Corporation 401(k) Plan for Collectively Bargained Associates. Plan investments of \$5,110,077 and notes receivable from participants of \$351,932 were transferred to the Rite Aid Corporation 401(k) plan for Collectively Bargained Associates. The Plan was terminated subsequent to the merger.

Participation — Each employee who is a member of the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, Local 614 becomes eligible to participate in the Plan after attaining age 21 and completing one year of service (a twelve-month period when at least 1,000 hours are credited).

Contributions — Effective January 1, 2008, a participant may elect to contribute up to 70% of the participant’s pretax annual compensation as defined in the Plan. Participants age 50 and over may make additional pretax contributions as defined in the Plan. A participant may also contribute, or roll over, amounts representing distributions from another qualified defined benefit or defined contribution plan. Effective June 16, 2001, the Plan Sponsor ceased making contributions to the Plan pursuant to a collective bargaining agreement dated May 27, 2001. Employees continue to contribute as described above.

Investment Options — The Plan provides participants with the option of investing the participant’s account balances into various investment options offered by the Plan. The Plan offered 16 mutual funds, 5 custom funds, 1 common/collective trust, and a stable value fund.

The Plan’s custom funds are custom investment option created specifically for the Plan by Northern Trust Global Advisors, Inc. The custom fund is an unregistered custom account maintained by the trustee. The performance of the custom fund is based on the performance of the underlying mutual funds which are registered in the market.

Payment of Benefits — Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in the participant's account, or installment payments as determined by the Plan Administrator.

Loans — A participant may elect to borrow against the participant's vested balance at a reasonable rate of interest as defined in the Plan document. A participant may borrow up to 50% of the participant's vested balance, with a maximum loan of \$50,000. A participant may only have one loan outstanding at any one time, with the exception that participants may have up to two outstanding loans which were grandfathered at the time the Plan was amended to no longer allow more than one loan.

Vesting — A participant is vested immediately in the participant's voluntary contributions, plus actual earnings (losses) thereon. Vesting in the Plan Sponsor's contributions made prior to June 16, 2001, is based on years of service, as defined in the Plan document. A participant becomes fully vested in the Plan Sponsor contributions upon the participant's death, disability or attainment of normal retirement age while employed, or the occurrence of a plan termination. If not vested earlier for one of the foregoing reasons, and not subject to other exceptions described in the Plan document, a participant's account becomes fully vested upon the participant's attainment of five years of service. When a participant withdraws from the Plan prior to becoming fully vested, the non-vested portion of the participant's account is forfeited and credited to a suspense account.

Forfeited Accounts — At December 31, 2011 and 2010, forfeited nonvested accounts totaled \$0 and \$15,691, respectively. These forfeited amounts may, among other uses, be used to reduce future employer contributions and pay certain administrative expenses. During the year ended December 31, 2011, certain administrative expenses were paid by the Plan sponsor.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements are prepared on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Risks and Uncertainties — The plan utilizes various investment instruments, including common stock, registered investment companies, and a stable value fund. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Custom funds are stated at fair value which is based on the net asset value of participation units held by the Plan at year-end and is calculated based on the shares held in underlying mutual fund investments and the net asset value of those investments.

Common collective trust funds are stated at fair value as determined by the issuer of the common collective trust funds based on the fair market value of the underlying investments.

The stable value fund (SVF) includes two fully benefit-responsive synthetic guaranteed investment contracts (GIC) whose underlying investments are stated at fair value and then adjusted by the issuer to contract value. Fair value of the underlying investments is determined by the issuer of the synthetic GIC based on market prices and a fair value estimate of the wrapper contract.

In accordance with GAAP, the stable value fund is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis.

The common collective trust funds and the stable value fund may invest in fixed interest insurance investment contracts, money market funds, corporate and government bonds, mortgage-backed securities, bond funds, and other fixed income securities. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

Purchases and sales of securities are recorded on a trade-date basis. Realized gain or loss on investment transactions is determined using the first-in, first-out method; investment transactions are recorded at the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Valuation of Investment(s) Contracts — The Plan offers the SVF as an investment option. On October 1, 2006, the Plan began to offer the T. Rowe Price SVF with the Prudential SVF blended together as a single investment split fifty percent into each of these underlying investments. These are trust products and are comprised of group annuity insurance products issued by The Prudential Insurance Company of America (“Prudential”) and by T. Rowe Price Retirement Plan Services (“T. Rowe Price”) and a portfolio of assets owned by the plan or designee. Interest on the SVF is credited daily. T. Rowe Price calculated a blended rate which was credited and compounded on a daily basis. The blended rate is based upon the Prudential and T. Rowe Price rates and the 50%-50% asset split. The SVF is deemed to be fully benefit responsive; therefore, it is presented at contract value.

Administrative Expenses — Plan fees and expenses related to account maintenance, transaction and investment fund management are allocated to participant accounts. Under the terms of the Plan document, costs relating to Plan administration may be paid by the Plan Sponsor or paid from Plan forfeitures. For the year ended December 31, 2011, the Plan Sponsor has paid all administrative expenses.

Use of Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported changes to the Plan’s net assets available for benefits during the reporting period. Actual results may differ from those estimates and assumptions.

The Plan invests in mutual funds, corporate stocks and the SVF. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Subsequent Events — Subsequent events were evaluated through October 8, 2012, the date the financial statements were available to be issued.

New Accounting Standards — ASU No. 2010-06, Fair Value Measurements and Disclosures — In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, *Fair Value Measurements and Disclosures*, which amends ASC 820, *Fair Value Measurements and Disclosures*, adding a new disclosure requirement to provide Level 3 activity of purchases, sales, and settlements on a gross basis. This requirement is effective for fiscal years beginning after December 15, 2010. The adoption in 2011 did not affect the Plan's financial statements.

3. FAIR VALUE MEASUREMENTS

The Plan utilizes the three-level valuation hierarchy for the recognition and disclosure of fair value measurements. The categorization of assets and liabilities within this hierarchy is based upon the lowest level of input that is significant to the measurement of fair value. The three levels of the hierarchy consist of the following:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 — Inputs to the valuation methodology are quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active or inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the instrument.

Level 3 — Inputs to the valuation methodology are unobservable inputs based upon management's best estimate of inputs market participants could use in pricing the asset or liability at the measurement date, including assumptions about risk.

The following is a description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds — The Plan measures its mutual funds that are exchange-traded using the fund's quoted price, which is in an active market. Therefore, these investments are classified within Level 1 of the valuation hierarchy.

Custom Funds — Custom funds are made up of two mutual funds. The Plan measures its mutual funds that are exchange-traded using the fund's quoted price. They are traded daily based on observable fair value at a net asset value (NAV) that is recalculated daily. Therefore, these investments are classified within Level 1 of the valuation hierarchy.

Common and Collective Trusts — The T. Rowe Price Bond Index Trust is priced at trust NAV per unit, adjusted for trustee fees accrued daily (as applicable). Investments held by the T. Rowe Price Bond Index Trust are stated at fair value in accordance with ASC Topic 820. Therefore, the Plan classifies common and collective trusts as Level 2 securities in the fair value hierarchy.

Stable Value Fund — Stable value funds have underlying investments that consist of cash equivalents, collective trust funds, GICs, and alternative investment contracts. Cash equivalents are short-term investment funds that have a maturity of 90 days or less and are valued at cost. The collective trust funds value is derived by their respective NAV. The collective trust funds consist of bonds and asset-backed securities whose value is derived from observable inputs based on the pricing of similar instruments that are publicly traded. GICs are valued based on their underlying securities, which consist of bonds whose value is derived from observable inputs, including London InterBank Offered Rate (LIBOR) forward interest rate curves. The bonds are valued based on the pricing of similar bonds that are publicly traded. In determining fair value, factors such as the benefit-responsiveness of the investment contracts and the ability of the parties to the investment contracts to perform in accordance with the terms of the contracts, such inputs were not significant to the valuation. Alternative investment contracts are valued based on their underlying securities, which consists of common funds consisting of bonds and asset-backed securities whose value is derived from observable inputs based on the pricing of similar instruments that are publicly traded. Therefore, the Plan classifies stable value funds as Level 2 securities in the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by Level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2011 and 2010. See Note 1 and Note 8 for further information regarding the Plan merger effective December 31, 2011.

For the years ended December 31, 2011 and 2010, there were no significant transfers in or out of Levels 1, 2, or 3. See Note 1 and Note 8 for more information regarding the transfer of assets and Plan merger with the Rite Aid Corporation 401(k) Plan for Collectively Bargained Associates.

Other Financial Instruments — Other financial instruments not detailed above, employer and employee contributions receivable, are recorded at book value, which the Plan believes approximates their fair values due to their short term nature.

4. SYNTHETIC GUARANTEED INVESTMENT CONTRACT

The plan provides a self managed stable value investment option to participants that includes a synthetic guaranteed investment contract which simulates the performance of a guaranteed investment contract through an issuer's guarantee of a specific interest rate (the wrapper contract) and a portfolio of financial instruments that are owned by the plan. The synthetic GIC contract includes underlying assets which are held in trust owned by the plan and utilizes a benefit-responsive wrapper contract. A portion of the master trust's Stable Value Fund is issued by The Prudential Insurance Company of America and a portion is managed by T. Rowe Price Associates, Inc. (TRPA). The TRPA portion of the Fund consists of synthetic investment contracts which are selected by TRPA and issued by banks and other financial institutions. TRPA also manages the fixed income instruments underlying the investment contracts in its portion of the Fund. The contract provides that participants execute plan transactions at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The interest rates are reset quarterly based on market rates of other similar investments, the current yield of the underlying investments and the spread between the market value and contract value. The plan termination did not limit the ability of the Plan to transact the contract value.

Average yields:		
Based on annualized earnings ⁽¹⁾	N/A	1.52 %
Based on interest rate credited to participants ⁽²⁾	N/A	4.05

⁽²⁾ Computed by dividing the annualized one-day earnings credited to participants on the last day of the plan year by the fair value of the investments on the same date.

Rowe Price, the trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that such information is complete and accurate.

7. TAX STATUS

The Plan obtained its latest determination letter dated June 10, 2010, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, including the processes identified for remediation. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. PLAN TERMINATION

As noted in Note 1, Plan Description, the Plan was merged into the 401(k) Plan for Collectively Bargained Associates effective December 31, 2011 and subsequently terminated.

9. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by T. Rowe Price Trust Company, the trustee and custodian of the Plan. The transactions related to such investments qualify as party-in-interest transactions. The Plan Administrator does not consider Plan Sponsor contributions or benefits paid by the Plan to be party-in-interest transactions.

10. CONTINGENCY NOTE

In 2011, the Plan Administrator determined that certain forfeitures were not being used in a timely basis to either reduce employer contributions or pay administrative expenses. Such amounts are held within a suspense account and are zero at December 31, 2011. The Plan Administrator believes that this operational failure will not affect the continuing qualification of the Plan; therefore, no provision for income taxes has been included in the Plan's financial statements. Additionally, any penalties, taxes and remedial payments, if any, will not be material to the Plan and, due to the operational failure, will be paid by the Company.

11. RECONCILIATION OF FINANCIALS TO FORM 5500
