RALLYE MOTORS 401(k) PLAN
Notes to the Financial Statements

1. Description of the Plan

The following description of the Rallye Motors 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions. Rallye Motors LLC (the Company) is the sponsor and Plan Administrator. The Plan Administrator controls and manages the operation and administration of the Plan. Capital Bank and Trust Company serves as the Trustee of the Plan.

a. General - The Plan is a defined contribution plan, covering employees of Rallye Motors, LLC and its affiliates. All full-time employees of the Company who are age twenty or older and have six months of consecutive service are eligible to participate in the Plan as of the first day of the calendar quarter following their meeting eligibility. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Certain employees of the Company administrate the Plan.

b. Employee contributions - Each year, participants may voluntarily contribute up to 40% of pretax annual compensation, as defined by the Plan, to the maximum amount allowable under the Internal Revenue Code.

c. Employer contributions – The Company may contribute additional amounts to the Plan at its discretion, which are allocated based upon participant earnings or account balances, as defined. No such additional contributions were made during the years ending December 31, 2011 and 2010.

d. Participant accounts - Each participant account is credited with the participant's contributions and an allocation of the Company's matching and discretionary contribution, if any. In addition, each participant account is credited (charged) with its proportionate share of each fund's investment earnings and other income (losses). Allocations, other than participants' contributions, are based on participant compensation, as defined by the Plan agreement.

e. Vesting - Participants are immediately vested in their contributions plus actual earnings less losses thereon. Any employer optional contributions plus actual earnings less losses thereon vest after the first two years of service at the rate of 20% for each year of service up to the sixth year. Forfeitures of employer contributions may be used to reduce the amount of contributions to the Plan by the Company or for Plan expenses.

f. Investment options – The Plan provides for contributions to be invested in any of nineteen mutual funds and one collective trust as directed by the participants

g. Notes receivable from participants – The Plan allows participants to borrow against their vested account balance at a reasonable rate of interest with a repayment period not to exceed five years. Such notes are limited to the lesser of $50,000 or 50% of their account balance. Principal

1. Description of the Plan (continued)

and interest is paid ratably through payroll deductions. Repayment of the entire balance is permitted at any time. Interest rates range from 4.25% to 10.00%. Outstanding notes at December 31, 2011 and 2010 were $827,233 and $866,639 respectively.

h. Payment of benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants under the age of 59 1/2 may obtain all or a portion of their vested participant account balance in the event of financial hardship. The basis for determining financial hardship is in accordance with Section 401(k) of the Internal Revenue Code.

i. Payable to terminated participants – The amount of benefits payable to participants whose employment has been terminated at December 31, 2011 and 2010 was $1,494,596 and $1,439,654 respectively.

2. Summary of significant accounting policies

a. Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

b. Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

c. Investment valuation and income recognition - The Plan's investments are stated at market value, (fair value) as reported and certified by Capital Bank and Trust Company, the Plan Trustee. See note 4 for discussion of fair value measurements. The Plan invests in the INVESCO Stable Value Fund (the Contract) that is a fully benefit-responsive investment contract that is reported in the listed investments at fair value in this report in accordance with ASC 962, *Plan Accounting – Defined Contribution Pension Plans.* However, Contract Value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to a fully benefit-responsive investment contract because Contract Value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by ASC 962, the Statements of Net Assets Available for Plan Benefits presents fair value of investments, as well as the adjustment to Contract Value for the Contract. The Statements of Changes in Net Assets Available for Plan Benefits are prepared on a Contract Value basis for the Contract.

(continued)

2. Summary of significant accounting policies (continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. The Plan presents, in the Statements of Changes in Net Assets Available for Plan Benefits, investment income which includes interest and dividend income and the net appreciation or (depreciation) in fair value of its investments, which consist of realized gains or (losses) and unrealized appreciation or (depreciation) on investments.

d. Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

e. Payment of benefits – Benefits are recorded when paid.

f. Risks and uncertainties – The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that, such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of the investments after the date of these financial statements.

g. Reclassifications - Certain reclassifications have been made to the financial statements for prior years to conform to the current year presentation.

h. Administrative expenses - All costs other than investment advisory fees and loan service fees are borne by the Company.

3. Information certified by Trustee

The Plan Administrator has received from the Trustee certification of the financial information and data in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The data certified includes all financial information related to investments, including income, reflected in the Statements of Net Assets Available for Plan Benefits at December 31, 2011 and 2010, and the Statements of Changes in Net Assets Available for Plan Benefits for the years then ended, as well as the investment information included in notes 4 and 7 and the accompanying schedule to these financial statements.

4. Fair value measurements

The Plan reports investments in accordance with ASC 820, *Fair Value Measurements* that establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 or 2010.

Mutual Funds: Valued at quoted market values.

INVESCO Stable Value Fund: Valued at fair value of the underlying investments based on various inputs, such as replacement costs, amortized value, market value, valuations provided by independent pricing and respective net asset values as reported by units held in collective trusts. (see note 2 c).

4. Fair value measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Realized gains and unrealized (losses) are reported in net appreciation (depreciation) in fair value of investments in the Statements of Changes in Net Assets Available for Plan Benefits.

5. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts. Each participant in the employ of the Company at the date of termination shall be entitled to a pro-rata share of any unallocated funds in the Trustee's possession under the Plan.

6. Federal income taxes

The Internal Revenue Service (IRS) has determined and informed the Plan by letter dated May 28, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related Trust is exempt.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

(continued)

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions: however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax for years prior to 2008
