Report of Independent Auditors

The Plan Administrator
Western Maryland Health System, Inc. Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Western Maryland Health System, Inc. Retirement Plan (the Plan) as of December 31, 2011 and 2010, the related statements of changes in net assets available for plan benefits for the years then ended, and the supplemental schedules of assets (held at end of year) and reportable transactions as of and for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to certain information summarized in *Note B*, which was certified by Prudential Insurance Company (Prudential), the Plan trustee, and Massachusetts Mutual Life Insurance Company (Mass Mutual), a provider of certain investment and administrative services for the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that Prudential and Mass Mutual hold primarily all of the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from Prudential and Mass Mutual as of and for the years ended December 31, 2011 and 2010 that the information provided to the Plan administrator is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by Prudential and Mass Mutual, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A - Plan Description and Summary of Significant Accounting Policies

Plan Description

The Western Maryland Health System, Inc. Retirement Plan (the Plan) was established January 1, 1999. Assets of approximately \$32,600 and \$53,000 were transferred into the Plan to provide for benefits of active and inactive participants from the plan assets of the Memorial Hospital and Medical Center of Cumberland, Inc. Pension Plan and the Medilab of Cumberland Retirement Plan, respectively. Assets of approximately \$18,000 were transferred from the Ascension Health Retirement Plan into the Plan to provide for the benefits of the active participants of Sacred Heart Hospital, St. Vincent DePaul Nursing Center, and Haystack Consolidated Services, Inc.

The Plan is a noncontributory, defined benefit plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all eligible employees of Western Maryland Health System, Inc. (WMHS) and the following participating organizations, each of which is wholly owned or controlled, as applicable, by WMHS:

- Frostburg Nursing and Rehabilitation Center
- Haystack Consolidated Services, Inc.
- Memorial Hospital and Medical Center of Cumberland, Inc.
- Braddock Hospital

Eligibility for participation begins on January 1 or July 1 coinciding with or following a year of eligible service. One year of eligible service is credited to an employee at the end of the 12 months during which 832 or more hours have been completed. The Plan was amended effective January 1, 2010, to offer an Early Retirement Incentive Program (ERIP) to certain employees. The ERIP was offered for a limited time only, beginning May 14, 2010 and ending July 6, 2010. Participation in the ERIP was voluntary. Additional information regarding the ERIP is published in the Plan document and other sources. In 2011, Plan management elected to freeze eligibility to participate in the Plan. Employees hired or re-hired after June 30, 2011 are not eligible to become a participant in the Plan on or after July 1, 2011. Employees re-hired after June 30, 2011 are not eligible to accrue any additional benefit under the Plan based on service or compensation after June 30, 2011. Benefits will continue to accrue in the Plan for current participants, and no changes to the formula used to calculate benefits will be made.

Retirement Benefits

Generally, Plan benefits are based on the benefit formula adopted by WMHS, participant earnings, covered compensation, and credited service. An employee is 100% vested in his or her accrued benefit after completing five years of vesting service. The Plan also provides for full benefits on an early retirement date if certain conditions are met.

Death Benefits

The Plan includes provisions for death benefits to be paid to the surviving spouse or family unit, commencement of which would begin in the first month after the participant's death.

Funding Policy

The funding policy of WMHS is to remit amounts sufficient to provide the Plan with assets with which to pay pension benefits to Plan participants. The Plan has met the minimum funding requirements for 2011 and 2010 under ERISA.

Plan Termination

Although it has not expressed any intention to do so, WMHS has the right under the Plan to discontinue its operations at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Retirement income called for under the Plan for those former participants or beneficiaries who have been receiving monthly payments for three years, or who would have been receiving monthly payments for three years if they had been eligible to and elected to retire three years ago; in both cases based on the terms of the Plan in effect five years preceding the date of termination of the Plan.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, up to the applicable limitations.
- All other vested benefits not insured by the PBGC.
- All nonvested benefits.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated October 24, 2003 stating that the Plan is qualified under Section 401(a) of the Code; therefore, the related trust is exempt from taxation.

Management has also considered the impact of unrelated business activities, and has concluded that the Plan is not subject to unrelated business tax or any other taxes that could be imposed by the Internal Revenue Code or state taxing authorities. As such, no provision is made for income taxes and no asset or liability has been recognized for deferred taxes.

Current accounting standards require the Plan to recognize the impact of an uncertain tax position in its financial statements if that position is more likely than not to be sustained on audit, based on the technical merits of the position. In the opinion of Plan management, there are no uncertain tax positions required to be accrued or disclosed in the Plan's financial statements.

Basis of Accounting

The financial statements are prepared using the accrual method of accounting except for contributions to the Plan, which are recorded in the period paid.

Uses of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The fair value of fixed maturity securities and common stock is determined by Prudential Financial Inc. (Prudential), Massachusetts Mutual Life Insurance Company (Mass Mutual), and CBIZ Financial Solutions (CBIZ) based on the last reported sales price on the last business day of the year. If no sale was reported on that date, they are valued at the average of the bid and asked price on the last business day of the year.

A portion of the Plan's assets are invested in mutual funds managed by Mass Mutual and CBIZ that are valued at the net asset value of shares held by the Plan at year end.

Note A - Plan Description and Summary of Significant Accounting Policies – Continued

Investment Valuation and Income Recognition- Continued

A portion of the Plan's assets is in an unallocated fund account (the immediate participation guarantee fund) held by Prudential at December 31, 2011 and 2010. The unallocated fund account contains assets commingled with other assets of Prudential and is stated at fair value, which is estimated by Prudential discounting cash flows based on current yields of similar instruments with comparable durations. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Actuarial Present Value at Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments and lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered as of the valuation date.

The Plan's consulting actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Based upon the information certified by Prudential or Mass Mutual and provided by CBIZ, the following table summarizes the fair value of those investments representing 5% or more of the Plan's net assets available for benefits at December 31:

	2011	2010
Immediate participation guarantee	\$ 8,108	\$ 8,581
Mass Mutual Inflation Protected Bond	10,183	20,553

Currently applicable standards define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

Western Maryland Health System, Inc. Retirement Plan

Notes to the Financial Statements-Continued
(Dollars in thousands)

Note B - Investments - Continued

The level in the fair value hierarchy within which a fair value measurement is determined is based on the lowest level input that is significant to the fair value measurement in its entirety. The following table presents assets that are measured at fair value on a recurring basis as of December 31, 2011.

	Level 2	Level 3	Total
Money Market Funds	1,735	0	1,735

No significant transfers were made between the fair value level hierarchies shown above during 2011 and 2010.

The change in the fair value of Level 3 assets from the beginning of the Plan year to the end of the Plan year result from credited interest of \$468 less benefits and administrative expenses paid of \$942.

Note C- Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Western Maryland Health System, Inc. Retirement Plan

Notes to the Financial Statements-Continued

(Dollars in thousands)

Note C - Risks and Uncertainties - Continued

During September 2008, certain large U.S. financial institutions failed, primarily as a result of holdings in troubled subprime loans or assets collateralized with such distressed loans. These institutional failures, and the negative economic conditions that contributed to these failures, generated substantial volatility in global financial markets and substantial uncertainty regarding access to capital and the continued viability of many other financial institutions. Despite the federal legislative initiatives to ameliorate these conditions, global credit markets remain volatile and the health of the global economy remains uncertain. These conditions create uncertainty regarding the future valuation of the Plan's invested funds and the resulting impact on the future financial position of the Plan could be material.

Note D - Differences Between Financial Statements and Federal Form 5500

Note E - Parties-In-Interest Transactions

Certain Plan investments are managed by CBIZ, Prudential and Mass Mutual. Fees paid by the Plan to Prudential amounted to \$36 for the years ended December 31, 2011 and 2010. Investment management fees to Mass Mutual and CBIZ are paid from investment income of the Plan. Certain other fees are paid by the Plan Sponsor.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
