Note 1. Description of the Plan

The following description of the Magnolia Gardens Nursery 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established and became effective on December 1, 1996. On December 3, 2009, the Plan was restated effective January 1, 2009 to incorporate amendments for the Pension Protection Act and Heart Act, Final 415 Regulations, and adopt a specific ADP safe harbor formula. The Plan restatement also incorporates the Plan amendment on February 1, 2009 which allows pre-retirement distributions of all or a portion of the vested amount to a participant.

The Plan is a defined contribution plan, covering all full-time employees of TNM Corporation doing business as Magnolia Gardens Nursery (the Company) who have twelve months of service with a minimum age of twenty-one. Employees of a collective bargaining unit, leased employees, and non-resident aliens are not covered. The Plan is subject to the provisions of the Employee Retirement Act of 1974 (ERISA).

Contributions

Each year, per Internal Revenue Code (IRC) regulations, participants may contribute a certain percentage of their compensation to the Plan, up to a fixed dollar amount. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan allows catch-up contributions for participants that attain the age of 50.

The Company contributes a safe harbor match of 100% of the first 3% of participant's compensation, plus 50% of the elective contribution of the participant to the extent that such elective contributions exceed 3% but do not exceed 5% of the participant's compensation. These amounts are mandatory contributions by the Company. The Company has the option to make additional contributions at the option of the Company's board of directors, which are subject to certain limitations. There were no additional discretionary contributions made during 2011.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited non-vested accounts totaled $3,910 and $33,119, respectively. These forfeitures will be used to reduce future administrative expenses and employer contributions. During 2011, the Company used $29,497 of forfeited non-vested accounts to reduce employer contributions.

Investment Options

The Plan is self-directed and participants can choose from eighteen mutual funds and the ING Fixed Account at their discretion. Participants may change their investment options at any time.

Note 1. Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with a prorated allocation of administrative expenses. Allocations are based on participant earnings, number of participants, or account balances, as defined. The amount to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Notes Receivable from Participants

Participants may borrow up to 50% of their vested account balance. The loans are secured by the balance in the participant's vested account and bear interest rate of 5.25%, which is determined by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions or ACH.

Vesting

Participants are vested immediately in their contributions and safe harbor match contributed by the Company, plus actual earnings thereon. The vesting on any additional contributions by the Company is as follows:

Years of Service	Vesting Percentage
Less than 2 Years	0%
2 Years	20%
3 Years	40%
4 Years	60%
5 Years	80%
6 Years	100%

Payment of Benefits

On termination of service due to death, disability, retirement, or severance, if the vested interest exceeds $5,000, a participant (or its beneficiary) may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the vested interest does not exceed $5,000, then the benefit may be distributed in a single lump sum payment, or as a rollover to an individual retirement account (IRA), as soon as possible without the consent of the participant.

Risk and Uncertainties

The Plan's investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the employer contributions allocated to their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in the ING Fixed Account. Contract value for this account is based on the net asset value of the fund as reported by the investment advisor. The Statement of Net Assets Available for Benefits presents the fair value of the investment in this account as well as the adjustment of the investment in this account from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the Plan Document.

Tax Status

The Plan is an adoption of a standard prototype arrangement designed by Sungard Corbel, LLC. The Company received a determination letter dated March 31, 2008 from the Internal Revenue Service that qualified the Plan as tax-exempt under the appropriate sections of the IRC. Although the Plan has been amended since this letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Administrative Expenses

The Company pays substantially all administrative expenses.

Note 2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 3. Information Certified by Custodian (Unaudited)

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by ING Life Insurance and Annuity Company, the custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2011	2010
Investments, at Fair Value		
Mutual Funds	$ **1,456,462**	$ 1,718,294

Total Investments, at Fair Value	$ **1,607,936**	$ 2,016,526
Notes Receivable from Participants	$ **16,099**	$ 12,642

The custodian also certified to the completeness and accuracy of $82,633, of net depreciation in fair value of investments and $7,729, of interest and dividends related to the aforementioned investments for the year ended December 31, 2011.

Note 3. Information Certified by Custodian (Unaudited) (Continued)

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 Input must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurements (Continued)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds: Valued at quoted market prices, which represent the net asset value (NAV), of shares held by the Plan at year end.

ING Fixed Account: Valued at fair value by adjusting contract value by a calculation using 7-year Treasury Bond rate plus 0.25%, the Fixed Account standard credited rate, and a surrender value percentage dependent upon contract years. As of December 31, 2011, the surrender value percentage is 100%, (see Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

December 31, 2011	Level 1	Level 2	Level 3	Total

Note 5. Insurance Contract with Insurance Company

In 2003, the Plan entered into a benefit-responsive investment contract, ING Fixed Account, with ING Life Insurance and Annuity Company ("ING"). ING maintains the investment in a general account. The contract is included in the accompanying financial statements at contract value as reported to the Plan by ING. The ING Fixed Account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 5. Insurance Contract with Insurance Company (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $151,474 and $298,232, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. The average yield based on actual earnings and based on interest rate credited to participants for the contract was 3.00% for the years ended December 31, 2011 and 2010. Such interest rates are reviewed on an annual basis for resetting ING's determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the Plan administrator.

Certain events limit the ability to the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. ING has the option to payout the current value of the contract only after completion of five contract years. As of December 31, 2011, this criteria has been met.

Note 6. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the financial statements to the Form 5500 for the years ended December 31, 2011 and 2010:

	2011	2010
Net Assets Available for Benefits, per Financial Statements	**$ 1,644,371**	$ 2,029,073
Differences in:		
Investments	**16,099**	12,642
Notes Receivable from Participants	**(16,099)**	(12,642)
Net Assets Available for Benefits, per Form 5500	**$ 1,644,371**	$ 2,029,073

Note 7. Party-in-Interest

Certain Plan investments are shares of mutual funds managed by ING Life Insurance and Annuity Company. ING Life Insurance and Annuity Company is the record keeper and custodian and, therefore, these transactions qualify as party-in-interest transactions. While no direct fees are paid to ING Life Insurance and Annuity Company, certain management expenses are charged to the funds and allocated to all share owners. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the Provision of the party-in-interest transactions under ERISA.

Note 8. Subsequent Events

The Plan Administrator has evaluated subsequent events through the date that the financial statements were available to be issued, October 3, 2012, and determined that no events occurred that require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.
