AD ART COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
For the year ended December 31, 2011

NOTE 1: DESCRIPTION OF PLAN

The Ad Art Company 401(k) Plan (the "Plan") is a defined contribution plan sponsored by R.J. Acquisition Corp. dba The Ad Art Company (the "Company"). The following description of the Plan provides only general plan information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all non-union employees of the Company employed for three months and who have attained age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participants may contribute their pretax earnings up to the maximum allowed by law. However, participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Effective January 1, 2011, the Company started making matching contributions of 100% of each participant's contributions not to exceed 3% of the participant's compensation plus 50% of the participant's contributions between 3% and 5% of the participant's compensation.

Participant accounts:

Each participant's account is credited with the participant's contribution, the Company's matching contributions, and an allocation of Plan earnings within the designated investment funds. Each participant's account is charged with an allocation of management fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Until March 31, 2009 participants were immediately vested in all contributions plus actual earnings thereon. For the period April 1, 2009 through December 31, 2010, vesting in the Company's contribution portion of each participant's account, if any, plus actual earnings thereon was based on years of service. A participant was 100 percent vested after five years of credited service or after attaining the age of 65, whichever occurred first. Active employees who became totally disabled or died before normal retirement age became fully vested in their accrued benefits. Effective January 1, 2011 participants are immediately vested in all contributions plus actual earnings thereon.

AD ART COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
For the year ended December 31, 2011

NOTE 1: DESCRIPTION OF PLAN (Continued)

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest equal to the prime rate as printed in the Wall Street Journal on the loan date. Interest rates range from 3.25% to 5% per annum. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of benefits:

On termination of service due to retirement, death, disability, or other reasons, a participant with an account balance that exceeds $5,000 may elect to 1) receive a lump-sum distribution, 2) transfer the vested balance to a qualified plan, or 3) leave the vested balance in the Plan. If a participant's account balance does not exceed $5,000, and an election to receive a distribution from the Plan in either a lump sum or direct rollover into a qualified plan is not made at the time of termination, the participant will automatically receive a lump-sum distribution. The Plan also provides for in-service distributions for participants after attaining age requirements or other requirements as defined in the Plan agreement. Benefits are recorded when paid.

Hardship withdrawals:

A participant may be permitted to withdraw a portion or all of the balance of their account that is attributable to the participant's deferred compensation (without earnings) for the reasons specified by and to the extent permitted under regulations issued by the Internal Revenue Service.

Administration of the plan:

The Plan is being administered by a committee appointed by the board of directors of the Company. The committee has the general authority and responsibility to control the operation and administration of the Plan. Administrative expenses incurred on behalf of the Plan are paid by the Company.

Forfeited accounts:

Forfeited non-vested accounts can be used to reduce the Company's matching contributions, if any, or to pay administrative expenses of the Plan. As of December 31, 2011, forfeited non-vested accounts were zero.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents:

The Plan considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

(Continued)

AD ART COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
For the year ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value as certified by OFI Trust Company (the "Trustee"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Net realized and unrealized depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as, held during the year. Purchases and sales of investments are recorded as reported by the Trustee.

Appreciation or depreciation in fair value:

Differences between the fair value of investments at the beginning of the year, or cost if acquired subsequently, and fair values at the end of the year are recorded as appreciation or depreciation in fair value of investments.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

New accounting pronouncement:

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, Amendments to Achieve Common Fair Value Measures and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS"), ("ASU 2011-04"). ASU 2011-04 amended Accounting Standards Codification ("ASC"), Fair Value Measurements and Disclosures, to converge the fair value measurement guidance in U.S. GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC, Fair Value Measurements and Disclosures. In addition, ASU 2011-04 requires additional fair value disclosures (although certain of these new disclosures will not be required for nonpublic entities). The amendments are to be applied prospectively and are effective for the Plan year beginning January 1, 2012. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

NOTE 4: FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). All of the Plan's investments were in level one at December 31, 2011 and 2010. Under level one, inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investments in mutual funds are valued at the net asset value of shares held by the Plan at year end. There have been no changes in the methodologies used at December 31, 2011 and 2010.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5: RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Trustee and affiliates of the Trustee. Therefore, transactions in these mutual funds qualify as party-in-interest transactions. The fair value of investments managed by the Trustee and its affiliates amounted to $1,003,433 and $990,012 as of December 31, 2011 and 2010, respectively.

Fees paid by the Plan for investment management services provided by the Trustee for the year ended December 31, 2011 amounted to $2,881.

NOTE 6: INVESTMENTS

NOTE 8: TAX STATUS

The Plan has adopted a prototype plan prepared by the Trustee. This prototype plan obtained its latest determination letter on April 22, 2005, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Trustee believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and accordingly is exempt from income tax.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The Plan invests in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.

NOTE 10: RECONCILIATION OF SCHEDULE H (FORM 5500) TO FINANCIAL STATEMENTS

The following is a reconciliation of net assets available for benefits, per the financial statements at December 31, 2011 and 2010, and the related net increase in assets available for benefits for the year ended December 31, 2011 to the Schedule H of Form 5500 which has been prepared on a cash basis:
