NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE A - DESCRIPTION OF THE PLAN

The following brief description of the Strata Marketing, Inc. 401(k) Plan & Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document or summary Plan description for more complete information.

General

The Plan is a defined contribution plan covering all non-union and non-leased employees of Strata Marketing, Inc. (the Company). Employees become eligible to participate in the 401(k) savings portion of the Plan and begin receiving matching contributions on the entry dates of either January 1 or July 1 coinciding with or following the date the employee reaches the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may contribute between 1% and 80% of pretax annual compensation, up to the Internal Revenue Service (IRS) limit. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations. The Company may make discretionary pretax matching contributions. The amount would be equal to a percentage determined annually by Plan management. In 2011, the Company made a matching contribution equal to 83.34% of a participant's contribution up to 6% of his or her eligible compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (1) Company match and (2) Plan earnings. Allocations of the Company's discretionary profit-sharing contribution are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

Upon attaining normal retirement age or becoming disabled, or in the event of termination of employment or of the Plan for any reason, participants shall be eligible to receive a distribution of all amounts credited to their accounts. In general, an eligible participant's account distribution can be deferred until a later date unless the vested balance is \$5,000 or less, in which case the balance will be distributed by the trustee as a lump-sum distribution.

At any time prior to retirement or other separation from service, it may be possible for a participant, in the event of a financial hardship, with the approval of the Plan administrator, to receive a hardship distribution. The Plan administrator will allow a hardship distribution only to enable a participant to meet immediate and material financial needs resulting from a hardship when those needs cannot be readily met by the participant's other financial resources.

Notes Receivable from Participants

Participants are allowed to borrow the lesser of 50% of his or her vested account balance or \$50,000, with a minimum amount of \$1,000. Personal loans have terms of up to five years. Principal residence loans may not extend beyond 30 years from the date of the loan. A fixed rate of interest is determined based on

December 31, 2011 and 2010

prevailing commercial rates for loans of similar types at the time new loans are requested. A participant may not have more than one loan outstanding at any time.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are 100% vested if they are employed on or after the normal retirement age.

Participants vest in the Company's contributions as follows:

<u>Years of service for vesting</u>	<u>Percentage</u>
1	33.33%
2	66.66
3	100.00

Investment Options

Participants may direct the allocation of their contributions and Company match to 22 investment options. Participants may change their investment options at any time.

Forfeitures

At December 31, 2011 and 2010, forfeited non-vested accounts totaled approximately \$5,000. Portions of the employer contributions that are not vested at the time of termination of employment are forfeited, and are used to reduce future employer contributions. In 2011, approximately \$5,000 was used to reduce employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in the BMO Employee Benefit Stable Principal Fund, which is a collective trust fund that invests in guaranteed investment contracts (GICs) and synthetic GICs. Accordingly, the statements of net assets available for benefits present the fair value of the investment in the collective trust, as well as the adjustment of this investment from fair value to contract value as of December 31, 2011 and 2010. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Adoption of New Accounting Guidance

In January 2010, the Financial Accounting Standards Board (FASB) amended the fair value measurements and disclosures guidance by adding new disclosure requirements for Level 1 and Level 2; separate disclosures of purchases, sales, issuances and settlements relating to Level 3 measurements; and clarification of existing fair value disclosures. This amended guidance is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The guidance does not have a material impact on the financial statements.

In May 2011, the FASB issued guidance clarifying how to measure and disclose fair value. This guidance amends the application of the “highest and best use” concept to be used only in the measurement of fair value of nonfinancial assets, clarifies that the measurement of the fair value of equity-classified financial instruments should be performed from the perspective of a market participant who holds the instruments as an asset, clarifies that an entity that manages a group of financial assets and liabilities on the basis of its net risk exposure can measure those financial instruments on the basis of its net exposure to those risks, and clarifies when premiums and discounts should be taken into account when measuring fair value. The fair value disclosure requirements also were amended. The Company does not believe that the adoption of the amended guidance will have a significant effect on the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan’s investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains or losses on investments bought and sold, as well as held during the year.

Administrative Expenses

Administrative expenses are paid by the Company. However, certain administrative costs related to the administration of loans to participants are paid by those participants.

Payment of Benefits

Benefit payments are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE C - INVESTMENTS

As of December 31, 2011 and 2010, investments that represent 5% or more of net assets at the end of the Plan year were as follows:

	2011	2010
T. Rowe Price International Funds Inc. Emerging Markets Fund	\$ 729,772	\$ 987,211
T. Rowe Price Retirement 2020 Fund	1,257,563	1,339,484
T. Rowe Price Retirement 2030 Fund	2,850,923	2,617,787
T. Rowe Price Retirement 2040 Fund	2,333,816	2,113,061
PIMCO Total Return Fund	1,163,805	812,817
BMO Employee Benefit Stable Principal Fund*	892,112	N/A

*The fair market value for the BMO Stable Principal Fund was \$909,954 as of December 31, 2011.

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the values of investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE D - FAIR VALUE MEASUREMENTS

The FASB has issued guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB guidance are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology, including the following:

- Quoted prices for similar assets or liabilities in active markets.

Strata Marketing, Inc. 401(k) Plan & Trust
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2011 and 2010

- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

However, the determination of what constitutes observable requires judgment by the Plan's management. Plan management considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by multiple, independent sources that are actively involved in the relevant market. The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds - Valued at the quoted net asset value of shares held by the Plan at year-end based on the active market on which the individual securities are traded.

Collective trust - Valued at the net asset value provided by the administrator of the fund. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participants in their accounts and distributed in such a manner as the Company may determine.

NOTE F - INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated September 7, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal, state and local taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2008.

NOTE G - RELATED-PARTY TRANSACTIONS

Certain Plan investments are managed by Marshall & Ilsley Trust Company N.A. (M&I). M&I is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE H - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, M&I, the Plan's trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, notes receivable from participants, accrued income and investments due to brokers, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010, except for the adjustment from fair value to contract value for interest in collective trust relating to fully benefit-responsive investment contracts as of December 31, 2011 and 2010.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE I - SUBSEQUENT EVENTS

Plan management evaluated its December 31, 2011, financial statements for subsequent events through October 3, 2012, the date the financial statements were available to be issued. Plan management is not aware of any additional subsequent events that would require recognition or disclosure in the financial statements.
