ROSEBUD RESTAURANTS, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of Rosebud Restaurants, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan with a 401(k) salary reduction arrangement covering all eligible employees of Rosebud Restaurants, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Eligibility – All employees, except nonresident aliens, lease employees and those governed by a collective bargaining agreement, are eligible to enter the Plan after completing one year of service in which the employee was employed for at least 1,000 hours with the employer and attaining age 21. Eligible employees can enter the Plan on January 1, April 1, July 1 or October 1, following the date the eligibility requirements are met.

Contributions – Participants may contribute an amount of their annual compensation through a salary deferral program and classify them as pre-tax or Roth contributions. Contributions cannot exceed $16,500 in 2011. Age 50 and over participants can contribute an additional $5,500 in 2011.

The Company may make a discretionary contribution on behalf of a participant who is employed on the last day of the plan year and has completed 1,000 hours or more during the plan year. For the year ended December 31, 2011, no employer contributions were made.

Participant Accounts – Each participant's account has been credited with the participant's contributions and allocations of the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances as defined. The benefit to which a participant is entitled is the participant's vested account balance.

Forfeited Accounts – Forfeited nonvested accounts related to unvested employer discretionary contributions are used to reduce future employer contributions. At December 31, 2011 and 2010, the available forfeiture balance was $4,551 and $1,550, respectively.

Vesting – Participants are immediately 100% vested in their participant contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings thereon is based on years of continuous service. The vesting schedule begins after one year of service becoming 100% vested after five years of service. Participants will become 100% vested in the Company's matching contribution upon attaining normal retirement age as defined by the Plan, on the date of becoming totally disabled, or on the date of death.

Investment Options – Participants direct the investment of their account balances into various investment options offered by the Plan.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant or their beneficiary will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

1. Description of the Plan (Cont.)

Withdrawals – Participants may request hardship withdrawals for extreme hardships, pursuant to Plan requirements, not to exceed the total amount of employee contributions to date.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to the maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years unless the loan is for the purchase of a principal residence, in which case the loan term may be longer. Principal and interest payments are generally made through payroll withholding. The loans bear interest at prevailing market rates.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Pooled separate accounts are presented at fair value which is based on the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan provides for investments that, in general, are exposed to various risks such as interest rates, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amount reported in the statement of net assets available for benefits.

Fair Value Measurements – In January 2010, the Financial Accounting Standards Board (FASB) issued guidance in Accounting Standards Update No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements* (ASU No. 2010-06). ASU No. 2010-06 amended disclosure requirements related to recurring and nonrecurring fair value measurements. For fiscal years beginning after December 15, 2010, ASU No. 2010-06 requires separate presentation of purchases, sales, issuances and settlements in the Level 3 reconciliation table. The Plan adopted these disclosure requirements in 2011.

In May 2011, the FASB issued guidance in Accounting Standards Update No. 2011-04, *Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU No. 2011-04). ASU No. 2011-04 was issued to improve comparability of fair value application, measurements and disclosures between U.S. GAAP reporting

2. Summary of Significant Accounting Policies (Cont.)

Fair Value Measurements (cont.) –

and IFRS reporting. ASU No. 2011-04 clarifies fair value definitions and enhances fair value measurement guidance with respect to highest and best use measurements, equity instrument measurements, and measurement of financial instruments that are managed within a portfolio. Additionally, ASU No. 2011-04 expands disclosures for unobservable inputs used in Level 3 fair value measurements. ASU No. 2011-04 is effective for annual periods beginning after December 15, 2011. The Plan is currently evaluating the impact of ASU No. 2011-04 on its fair value measurements and disclosures and intends on adopting the guidance in 2012.

Payment of Benefits – Benefits are recorded when paid.

Administrative Costs – All administrative costs, charges and expenses are paid by the Plan to the extent not paid by the Company. Certain investment management fees are netted against the net depreciation in fair value of investments.

3. Information Prepared and Certified by Custodian

The plan administrator has elected the method of annual reporting compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the financial statements and supplemental schedule was provided and certified by Principal Life Insurance Company, the custodian of the Plan, as complete and accurate:

- Investments, at fair value and participant notes receivable, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010.

- Net depreciation in fair value of investments and interest from participant notes receivable as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2011.

- The information included in the supplemental schedule of assets (held at end of year) as of December 31, 2011.

4. Investments

The following presents investments, at fair value, that represent 5% or more of the Plan's net assets as of December 31:

	2011	2010
Pooled separate accounts:		
Principal Money Market Fund	$ 265,571	$ 268,638
Principal International Emerging Markets Fund	64,166	75,993
Principal LIFETIME 2020 Fund	*	66,833
Principal LIFETIME 2030 Fund	50,268	*
Principal LIFETIME 2050 Fund	64,129	60,802
Principal LIFETIME Strategic Income Fund	49,024	*
Principal Partners Mid Cap Value Fund	63,058	72,557
Principal Partners Large Company Growth Fund	48,103	*

*Investment does not exceed 5%.

The Plan's investments during 2011, (including gains and losses on investments bought and sold as well as held during the year) depreciated in value as follows:

Pooled separate accounts	$ (33,917)
Registered investment companies	(1,916)
	$ (35,833)

5. Fair Value Measurement

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

5. Fair Value Measurement (Cont.)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. Except as noted below, there have been no changes in the methodologies used at December 31, 2011 and 2010.

The fair value of participation units held by the Plan in pooled separate accounts is based on their net asset values, as reported by Principal Life Insurance Company, and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (Level 2 inputs).

The fair value of registered investment companies and publicly traded equities is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

		Fair Value Measurements at Report Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(e) This pooled separate account invests in common stocks of large capitalization companies with strong earnings growth potential.

(f) This pooled separate account is comprised of short-term fixed income investment options that are largely liquid investments designed to maintain principal value.

Each pooled separate account can be redeemed daily with no notice period required.

6. Tax Status

The Plan has adopted a prototype plan created by Principal Financial Group. Principal Financial Group had received a determination letter dated March 31, 2008, from the Internal Revenue Service and has represented to the Company that, as then designed, the Plan was in compliance with the applicable requirements of the Internal Revenue Code. The Company is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan under the provisions of ERISA. In the event of termination, participants will become 100% vested in their accounts.

8. Related-Party Transactions

Plan investments are managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions.

9. Late Deposits

During the plan year ended December 31, 2008, the Plan engaged in a prohibited transaction related to late deposits of an employee's deferral of $34. The Plan has chosen to self-correct this transaction and remitted lost earnings to the participant during the year ended December 31, 2011.

10. Subsequent Events

Management has evaluated subsequent events through October 2, 2012, the date which the financial statements were available to be issued.
