Gastroenterology Center of the MidSouth, P.C. Profit Sharing Plan

Notes to Financial Statements

December 31, 2011 and 2010

1. Description of Plan

The following description of the Gastroenterology Center of the MidSouth, P.C. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Gastroenterology Center of the MidSouth, P.C. (the "Company"), who are age twenty-one and older and have completed one year of service, defined as the completion of 1,000 hours of service within a 12-month period. ING Life Insurance and Annuity Company ("ING") serves as the custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may voluntarily defer between 1% and 100% of pretax compensation as defined in the Plan document, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Plan also allows participants to make Roth 401(k) contributions.

The Company provides a safe harbor matching contribution of 100% on the first 3% of participant deferrals and 50% on the next 2% of participant deferrals. Total matching contributions for 2011 were \$372,290.

Contributions – Profit Sharing Feature

Each year the Company makes a profit sharing contribution to the Plan in an amount decided upon by the Company's board of directors. The profit sharing contribution for 2011 was \$839,968.

1. Description of Plan (continued)

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. Company contributions are invested in the funds selected by the participant. The Plan currently offers pooled separate accounts, mutual funds, and a guaranteed investment contract as investment options for participants. In addition, participants may utilize an individual self-directed brokerage option, through which participants are able to invest in a variety of securities including stocks, bonds, mutual funds and government securities in accordance with the Plan document. At December 31, 2011, no participants were invested in the self-directed brokerage accounts.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's matching and discretionary contributions, Plan earnings, and is charged with an allocation of administrative expenses and Plan losses. Allocations for the Company's profit sharing contribution and non-vested accounts are based upon eligible compensation, as defined, while investment earnings are allocated to each account based upon participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary deferral contributions plus actual earnings thereon and the safe harbor matching contribution portion made by the Company. Participants' vesting in the discretionary profit sharing contribution is based on years of continuous service. A participant's profit sharing contribution is 100% vested after six years of credited service.

Forfeitures

At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$12,906 and \$8,303, respectively. These accounts will be used to reduce future Company contributions. During 2011, forfeitures of \$5,104 were used to reduce Company contributions.

Payment of Benefits

On termination of service, due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Amounts contributed on a before-tax basis may only be withdrawn upon demonstration of financial hardship, disability, or after the participants reach the age of 59.5 years.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein and, disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

In accordance with GAAP, the investment contract held by a defined-contribution plan is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contract as the adjustment to the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by the Plan, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (distributions) are charged directly to the participant's account.

2. Summary of Significant Accounting Policies (continued)

Subsequent Events

The Plan has evaluated subsequent events through October 3, 2012, the date the financial statements were available to be issued.

3. Unaudited Information Certified by the Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2012 and 2011, and for the year ended December 31, 2011, that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian:

	2011	2010
Investments	\$ 15,616,949	\$ 17,125,130
Net depreciation in fair value of investments	\$ (523,558)	-
Interest income	\$ 52,622	-
Other income	\$ 1,525	-

All investments are certified at fair value except the investment contract, which is certified at contract value.

The following table presents investments that represent more than 5% of the Plan's net assets at December 31:

	2011	2010
<i>Pooled Separate Accounts:</i>		
ING VP Intermediate Bond Portfolio	\$ 1,288,838	\$ 1,211,492
ING Solution 2015	1,930,337	1,748,445
ING Solution 2025	1,576,203	1,374,790
ING Solution 2035	1,265,954	1,018,811
Lazard Emerging Markets	834,596	805,140*
<i>Guaranteed Investment Contract:</i>		
ING Fixed Account, at contract value	1,167,970	1,418,547

*Amount represents less than 5% of net assets.

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value as follows:

Self-directed accounts	\$ 1,626
Pooled separate accounts	521,932
	<u>\$ 523,558</u>

4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value.

These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments included a money market mutual fund, stocks, mutual funds and U.S. government securities held in self-directed accounts for the year ended December 31, 2010.

Level 2 investment securities include pooled separate accounts for which quoted prices are not available in active markets for identical instruments. These accounts are valued at the net asset value ("NAV") provided by the administrator of the account. The NAV is based on the value of the underlying assets owned by the account minus its liabilities, and divided by the number of units outstanding. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions on the pooled separate accounts.

Due to significant unobservable inputs included in the valuation model for the guaranteed investment contract, the resulting fair value of this security is classified as Level 3. The fair value of the guaranteed investment contract was estimated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. (See Note 5).

4. Fair Value Measurements (continued)

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2011 and 2010.

	December 31, 2011			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Equity	\$ -	\$ 4,943,797	\$ -	\$ 4,943,797

Money market	-	5,490	-	5,490
Guaranteed investment contract	-	-	1,254,340	1,254,340
Total assets	<u>\$ -</u>	<u>\$ 14,448,979</u>	<u>\$ 1,254,340</u>	<u>\$ 15,703,319</u>

	December 31, 2010			
	Level 1	Level 2	Level 3	Total
Money market mutual fund	\$ 1	\$ -	\$ -	\$ 1
Self-directed accounts	27,694	-	-	27,694
Pooled separate accounts:				
Equity	-	6,085,282	-	6,085,282
Balanced ^(a)	-	5,720,264	-	5,720,264
Fixed income ^(b)	-	3,114,531	-	3,114,531
International	-	750,508	-	750,508
Money market	-	8,303	-	8,303
Guaranteed investment contract	-	-	1,438,784	1,438,784
Total assets	<u>\$ 27,695</u>	<u>\$ 15,678,888</u>	<u>\$ 1,438,784</u>	<u>\$ 17,145,367</u>

(a) These investments seek a total return consisting of long-term growth of capital and current income, designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. The accounts invest in underlying domestic and foreign equity, hybrid, and fixed-income mutual funds.

(b) These pooled separate accounts invest mainly in fixed income securities such as domestic and foreign corporate bonds, asset-backed securities, commercial and residential mortgage-backed securities, and government bonds.

4. Fair Value Measurements (continued)

The following table illustrates the activity of Level 3 assets measured at fair value on a recurring basis from December 31, 2010 to December 31, 2011:

	Guaranteed Investment Contract
Fair value at December 31, 2010	\$ 1,438,784
Realized gains	52,622
Unrealized gains	66,133
Purchases	9,073,900
Sales	<u>(9,377,099)</u>
Fair value at December 31, 2011	<u>\$ 1,254,340</u>

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

All of the gains or losses noted above were attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.

5. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive guaranteed investment contract ("GIC") with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The GIC is included in the financial statements at fair value and then adjusted to contract value. As described in Note 2, because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value, as reported to the Plan by the custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

5. Investment Contract with Insurance Company (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than three percent. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

	<u>December 31, 2011</u>	<u>December 31, 2010</u>
Average yields:		
Based on actual earnings	3.00%	3.25%
Based on interest rate credited to participants	3.00%	3.25%

6. Exempt Party-In-Interest Transactions

Certain Plan investments are managed by an affiliate of the custodian. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service ("IRS") stating that the Plan was in compliance with the applicable requirement of the IRC. The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the Plan Administrator by a letter dated March 31, 2008, that the prototype plan document was designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Non-exempt Party-In-Interest Transaction

During the 2011 Plan year, there were unintentional delays by the Company in submitting participant contributions in the amount of approximately \$174,900 to the Plan. These delinquent contributions constitute prohibited transactions.
