INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants of CARSTAR, Inc. 401(k) Plan
Overland Park, Kansas

We were engaged to audit the financial statements and supplemental schedule of CARSTAR, Inc. 401(k) Plan as of December 31, 2011 and 2010, and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and do not, express an opinion on these accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CARSTAR, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2011 AND 2010

1. DESCRIPTION OF THE PLAN

The following description of the CARSTAR, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan which covers substantially all employees of CARSTAR, Inc. ("CARSTAR") and its wholly owned subsidiaries, collectively, the "Company."

State Street Bank and Trust Company ("State Street") is the trustee and custodian of the Plan's assets and the Plan's recordkeeper is Automatic Data Processing ("ADP") Retirement Services.

Eligibility – Employees who are not members of a union, who are at least 18 years of age, and have completed two months of service, are eligible to participate in the Plan. Participants are eligible to enter the plan on the first day of the month after meeting the above requirements.

Contributions – Participants may elect to contribute any amount of their annual compensation subject to certain Internal Revenue Code ("IRC") limitations. Effective April 1, 2010, once participants have met the eligibility requirements, automatic deferrals equal to 2% of compensation will be made to the Plan, unless the participant states in writing to defer more or less than the automatic deferral percentage.

The Company matches participant contributions at an amount equal to 30% of each eligible contribution, not to exceed 10% of compensation. The Company may also make a discretionary contribution. No discretionary contribution was made in 2011.

Participant Accounts – Each participant's account is credited with the participant's contribution, Company contributions, and allocations of Plan earnings, and is charged with the participant's withdrawals and distributions. Allocations are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options – The Plan offers various mutual funds and common/collective trust funds as investment options.

Vesting – Participants' contributions are fully vested at all times. Company contributions vest in 25% increments, with 25% vested after the first year, 50% vested after the second year, etc. Company contributions become fully vested after 4 years. In the event of permanent disability or death of a participant, the Company contributions will become fully vested.

Forfeitures – Forfeitures occur upon termination of employment by a participant who is not fully vested in the Plan. Forfeiture amounts are applied to future Company contributions. During 2011, approximately \$8,800 in forfeitures was used to reduce Company contributions. At December 31, 2011, there is approximately \$20 of forfeitures in the Plan available to reduce future Company contributions.

Payment of Benefits – Upon termination of service, a participant may elect to receive either a lump-sum amount equal to their vested account balance, or monthly, quarterly, or annual

installments over a fixed, reasonable period of time, as defined by the Plan document. If the account balance does not exceed \$5,000, a lump-sum payment is the only form of disbursement available. For distributions greater than \$1,000 but not exceeding \$5,000, the account balance will be rolled over into an individual retirement account, unless otherwise directed by the participant.

Notes Receivable from Participants – Loans are permitted by the Plan. Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 2%. The maximum term for a loan is 5 years, except if the loan is to acquire the participant's principal residence, which has a maximum term of 30 years. Loan repayments are made ratably through payroll deductions.

Administrative Expenses – Administrative expenses may be paid by the Plan or the Company. During the year ended December 31, 2011, the Plan paid \$1,925 in administrative expenses.

Termination of the Plan – Although CARSTAR has not expressed any intent to do so, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the Plan and under ERISA. In the event that the Plan should be terminated, all remaining Plan assets shall be allocated to the participants as described in the full text of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. There is no adjustment to the net assets available for benefits as contract value approximates fair value.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions – Company and employee contributions are reported in the year services are rendered to the Company by the Plan participants.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Stable Value Trust is a stable value fund that is a common/collective trust fund ("CCT") of the Invesco National Trust Company for employee benefit plans. The fund invests primarily in guaranteed investment contracts, bank investment contracts and synthetic investment contracts issued by third-parties. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and CCTs are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for doubtful accounts is considered necessary.

Payment of Benefits – Benefit payments are reported in the year paid.

Date of Management's Review – Subsequent events have been evaluated through October 10, 2012, which is the date the financial statements were available to be issued.

New Accounting Pronouncements – In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update (ASU) No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. This guidance expands the qualitative and quantitative fair value disclosure requirements for Level 3 fair value measurements. The new guidance is effective for reporting periods beginning after December 15, 2011. The Company is currently evaluating the impact of this guidance on the Plan's financial statement disclosures.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies at December 31, 2011 and 2010:

Mutual funds and Money Market Fund – Valued at the net asset value (NAV) of shares held by the plan at year end based on published quoted prices.

Common/collective trust funds – Valued at the trust NAV per unit based on fair value of the underlying investments, adjusted for trustee fees accrued daily. The CCTs are valued daily, and there are no restrictions on redemptions and no unfunded commitments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value as follows at December 31, 2011 and 2010:

		Fair Value		
		Measurements Using:		
	Fair Value	Level 1	Level 2	Level 3
December 31, 2011:

4. INVESTMENTS

The following represents the fair value of investments that represent 5% or more of net assets available for benefits of the Plan at December 31:

	2011	2010
Victory Established Value Fund	\$ 263,724	\$ 393,373
Alger Capital Appreciation	225,284	321,422
Blackrock Global Allocation	242,925	306,306

SSgA Stable Value fund	*	247,298
American Century Livestrong 2025	175,138	*
Invesco Developing Markets	157,517	224,628
Nuveen Small Cap Select	*	189,254

* Investment did not exceed stated threshold on that particular date.

During 2011, the Plan's investments in mutual funds (including gains and losses on investments bought, sold, as well as held during the year) appreciated (depreciated) in value as follows.

Mutual funds	\$ (101,392)
Common/collective trust funds	<u>6,409</u>
	<u>\$ (94,983)</u>

The Plan invests in various investments which hold securities such as U.S. Government securities, corporate debt instruments and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

5. INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments as of December 31, 2011 and 2010, and for the year ended December 31, 2011:

- Investments, at fair value
- Notes receivable from participants and related interest
- Net depreciation in fair value of investments
- Interest and dividend income
- Schedule of Assets (Held at End of Year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are common/collective trust funds managed by State Street Bank and Trust Company. State Street Bank and Trust Company is trustee and custodian of the Plan, and therefore, these transactions qualify as party-in-interest.

7. TAX STATUS

The Company adopted a Prototype Standardized Profit Sharing Plan with a deferral arrangement that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, that stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. SUBSEQUENT EVENTS

In April 2012, the Plan was merged into the Insperity 401(k) Plan.

Forfeitures – Forfeitures occur upon termination of employment by a participant who is not fully vested in the Plan. Forfeiture amounts are applied to future Company contributions. During 2011, approximately \$8,800 in forfeitures was used to reduce Company contributions. At December 31, 2011, there is approximately \$20 of forfeitures in the Plan available to reduce future Company contributions.

Payment of Benefits – Upon termination of service, a participant may elect to receive either a lump-sum amount equal to their vested account balance, or monthly, quarterly, or annual

installments over a fixed, reasonable period of time, as defined by the Plan document. If the account balance does not exceed \$5,000, a lump-sum payment is the only form of disbursement available. For distributions greater than \$1,000 but not exceeding \$5,000, the account balance will be rolled over into an individual retirement account, unless otherwise directed by the participant.

Notes Receivable from Participants – Loans are permitted by the Plan. Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 2%. The maximum term for a loan is 5 years, except if the loan is to acquire the participant's principal residence, which has a maximum term of 30 years. Loan repayments are made ratably through payroll deductions.

Administrative Expenses – Administrative expenses may be paid by the Plan or the Company. During the year ended December 31, 2011, the Plan paid \$1,925 in administrative expenses.

Termination of the Plan – Although CARSTAR has not expressed any intent to do so, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the Plan and under ERISA. In the event that the Plan should be terminated, all remaining Plan assets shall be allocated to the participants as described in the full text of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. There is no adjustment to the net assets available for benefits as contract value approximates fair value.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions – Company and employee contributions are reported in the year services are rendered to the Company by the Plan participants.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Stable Value Trust is a stable value fund that is a common/collective trust fund ("CCT") of the Invesco National Trust Company for employee benefit plans. The fund invests primarily in guaranteed investment contracts, bank investment contracts and synthetic investment contracts issued by third-parties. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and CCTs are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for doubtful accounts is considered necessary.

Payment of Benefits – Benefit payments are reported in the year paid.

Date of Management's Review – Subsequent events have been evaluated through October 10, 2012, which is the date the financial statements were available to be issued.

New Accounting Pronouncements – In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update (ASU) No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. This guidance expands the qualitative and quantitative fair value disclosure requirements for Level 3 fair value measurements. The new guidance is effective for reporting periods beginning after December 15, 2011. The Company is currently evaluating the impact of this guidance on the Plan's financial statement disclosures.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies at December 31, 2011 and 2010:

Mutual funds and Money Market Fund – Valued at the net asset value (NAV) of shares held by the plan at year end based on published quoted prices.

Common/collective trust funds – Valued at the trust NAV per unit based on fair value of the underlying investments, adjusted for trustee fees accrued daily. The CCTs are valued daily, and there are no restrictions on redemptions and no unfunded commitments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value as follows at December 31, 2011 and 2010:

		Fair Value Measurements Using:

4. INVESTMENTS

The following represents the fair value of investments that represent 5% or more of net assets available for benefits of the Plan at December 31:

	2011	2010
Victory Established Value Fund	\$ 263,724	\$ 393,373
Alger Capital Appreciation	225,284	321,422
Blackrock Global Allocation	242,925	306,306

Invesco Stable Value fund	205,116	*
SSgA Stable Value fund	*	247,298
American Century Livestrong 2025	175,138	*
Invesco Developing Markets	157,517	224,628
Nuveen Small Cap Select	*	189,254

* Investment did not exceed stated threshold on that particular date.

During 2011, the Plan's investments in mutual funds (including gains and losses on investments bought, sold, as well as held during the year) appreciated (depreciated) in value as follows.

Mutual funds	\$ (101,392)
Common/collective trust funds	<u>6,409</u>
	<u>\$ (94,983)</u>

The Plan invests in various investments which hold securities such as U.S. Government securities, corporate debt instruments and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

5. INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments as of December 31, 2011 and 2010, and for the year ended December 31, 2011:

- Investments, at fair value
- Notes receivable from participants and related interest
- Net depreciation in fair value of investments
- Interest and dividend income
- Schedule of Assets (Held at End of Year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are common/collective trust funds managed by State Street Bank and Trust Company. State Street Bank and Trust Company is trustee and custodian of the Plan, and therefore, these transactions qualify as party-in-interest.

7. TAX STATUS

The Company adopted a Prototype Standardized Profit Sharing Plan with a deferral arrangement that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, that stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. SUBSEQUENT EVENTS

In April 2012, the Plan was merged into the Insperity 401(k) Plan.
