Independent Auditors' Report

To the Plan Administrator of the
Marketon, Inc. 401(k) Plan

We were engaged to audit the statements of net assets available for benefits of the Marketon, Inc. 401(k) Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by John Hancock Life Insurance Company (U.S.A.), the custodian, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and execute investment transactions. The plan administrator has obtained certification from the custodian as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of Plan

The following description of the Marketon, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1998 to qualify as a defined contribution plan for eligible employees of Marketon, Inc. (the "Company"). The Plan has a pre-tax salary reduction provision as defined under Section 401(k) and an employer matching contribution under 401(m) of the Internal Revenue Code (the "IRC"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective February 10, 2011, the Plan changed its name from King Ranch Market 401(k) Plan to Marketon, Inc. 401(k) Plan.

Participant Eligibility

Each of the Company's employees is eligible to participate in the Plan upon the later date of attaining the age of 21 or completion of one year of with a minimum of 1,000 hours of service. An eligible participant may enter the Plan on January 1 or July 1 immediately following satisfaction of eligibility requirements.

Contributions

The Company's eligible employees may contribute up to the limitations as defined by the IRC each year on a pre-tax basis by salary reduction. In addition, the Company may make matching contributions equal to a discretionary percentage, to be determined by the Company, of the participant's elective deferrals.

Participants direct the investment of all contributions to their accounts into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings less an allocation of investment and operating expenses charged to the Plan. Allocations are based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Note 1. Description of Plan (continued)

Allocation of Investment Activity

Each investment fund is valued by John Hancock Life Insurance Company (U.S.A.). The net increase or decrease in such values resulting from fund income and allocated expenses, if any, are apportioned to each participant's account in proportion to the value of the participant's account as compared to the investment fund as a whole.

Vesting

Participants are 100% vested in their salary deferral contributions plus actual earnings thereon. Effective January 1, 2006, the Plan elected to be a Safe Harbor Plan according to IRC regulations. As a result, participants became 100% vested in their Company safe harbor matching contribution account for any contributions made from January 1, 2006 through December, 2009. Effective December 11, 2009, the Company discontinued its safe harbor matching contributions to all participants. For Company contributions made prior to January 1, 2006 and Company contributions made subsequent to December 11, 2009, each participant's interest in their Company contribution and related earnings are vested as follows:

Years of Vesting Service	Vested Percentage
Less than two	0%
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more	100%

Payment of Benefits

Upon termination of service due to death, disability, retirement or any other reason, a participant will receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account as soon as administratively feasible following termination of employment.

Forfeited Accounts

Amounts forfeited from terminating participants' non-vested portion of their employer matching contribution account and employer discretionary contribution and earnings on Company contributions are used to pay administrative expenses and to reduce future employer contributions. During the year ended December 31, 2011, there was $1,712 of forfeitures used to off-set contributions. At December 31, 2011 and 2010, there were approximately $640 and $1,700, respectively, of forfeited non-vested accounts that were invested in the Plan.

Contribution Funding

The Company funds its participant contributions and Company matching contributions, if any, to the Plan on a weekly basis.

Note 1. Description of Plan (continued)

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Valuation of Investments

All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned.

Note 2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Subsequent Events

Subsequent events have been evaluated through October 9, 2012, the date the financial statements were available for issuance.

Note 3. Insurance Contracts

Guaranteed Interest Account

The Plan participates in a contract with John Hancock Life Insurance Company (U.S.A.) ("John Hancock") whereby the assets of the Plan are part of the general assets of John Hancock. This contract is identified and accounted for as a guaranteed interest account. The guaranteed interest account provides a guaranteed interest rate for a specified period of time as determined or allowed by the Plan. The rate credited is the rate in effect on the day when each deposit is directed to the accounts.

The guarantees made with regard to the guaranteed interest account are supported by John Hancock's general account. The general account is invested mostly in private placement bonds and other fixed income financial instruments. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement), however, there are possible market value adjustments when funds are withdrawn prior to their maturity. There may be withdrawal restrictions associated with these contracts based on Plan level initiated transactions.

Note 3. Insurance Contracts (continued)

Pooled Separate Accounts

The Plan has entered into a contract with John Hancock Life Insurance Company (U.S.A.) ("John Hancock") whereby the assets under the contract are pooled with those of other investors in separate accounts. The Plan owns units of participation in the fair value of the account's underlying assets. John Hancock does not own the underlying assets, but only holds them in trust for the participating plans.

Note 4. Investments

At December 31, 2011 and 2010, the following investments represent 5% or more of the Plan's net assets:

	December 31,	
	2011	**2010**
Pooled separate accounts		
John Hancock Lifestyle Growth	$ 176,169	$ 219,938
John Hancock Lifestyle Balanced	$ 84,402	$ 98,675
John Hancock Lifestyle Conservative	$ 153,952	$ 222,409
John Hancock Lifestyle Aggressive	$ 103,273	$ 111,510
John Hancock Lifecycle 2030	$ 66,209	$ 80,089
John Hancock Lifecycle 2040	$ 87,355	$ 100,971
John Hancock Money Market Fund	$ 65,209	$ 53,568*

**Investment does not represent 5% or more of the Plan's net assets at the respective year end.*

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by investment type, as follows:

	Year Ended December 31, 2011
Net depreciation in fair value of investments	
Pooled separate accounts	$ (33,395)

Note 5. Information Certified by the Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule:

a) Investments

	December 31,	
	2011	**2010**
Guaranteed interest account	$ 523	$ 525
Pooled separate accounts	$ 1,111,364	$ 1,284,740
b) Notes receivable from participants*	$ 63,893	$ 89,328

**Notes receivable from participants are participant loans allowed under the related regulations. The participant loans are certified by the custodian, and are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

c) Investment income (loss) and other additions

	Year Ended December 31, 2011
Interest income	$ 4
Interest income from notes receivable from participants	$ 3,237
Net depreciation in fair value of investments	$ (33,395)

d) Supplemental Schedule:
Schedule H, Line 4i – Schedule of Assets (Held at End of Year)

Note 6. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2011 and 2010.

Guaranteed interest account: This investment is part of the general assets of an insurance company. This investment is valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by the investment custodian. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Fair Value Measurements (continued)

The following are the Plan's financial instruments carried at fair value categorized by the fair value hierarchy as of December 31, 2011 and 2010:

The following additional information presents the fund strategy relative to Plan investments reported on net asset value at December 31, 2011 and 2010:

(a) Under normal market conditions, the Retirement Living Funds (2010, 2015, 2020, 2025, 2030, 2035, 2040, 2045) primarily invest its assets in underlying funds using an allocation strategy designed for investors based on the expected year of retirement. The expected year in which participants plan to retire and no longer make contributions is referred to as the target date. The Portfolio is managed to provide potential growth and income opportunity even in the years after retirement. The most conservative mix occurs about 20 years after the target date when the Portfolio has a 75% fixed income and 25% equity allocation. The principal value of an investment in this Portfolio is not guaranteed at any time, including at or after the target retirement date.

(b) The Lifestyle Conservative Fund seeks to achieve a high level of current income with some consideration given to growth of capital by investing approximately 80% of the portfolio's assets in underlying portfolios that invest primarily in fixed-income securities and 20% of its assets in underlying portfolios that invest primarily in equity securities.

(c) The Lifestyle Moderate Fund seeks to achieve a balance between a high level of current income and growth of capital, with a greater emphasis on income by investing approximately 60% of the portfolio's assets in underlying portfolios that invest primarily in fixed-income securities and 40% of its assets in portfolios that invest primarily in equity securities.

Note 6. Fair Value Measurements (continued)

(d) The Lifestyle Balanced Fund seeks to achieve a balance between a high level of current income and growth of capital, with a greater emphasis on growth of capital, by investing approximately 40% of the portfolio's assets in underlying portfolios that invest primarily in fixed-income securities and approximately 60% of its assets in underlying portfolios that invest primarily in equity securities.

(e) The Lifestyle Growth Fund seeks to achieve long-term growth of capital by investing approximately 80% of the portfolio's assets in underlying portfolios that invest primarily in equity securities and approximately 20% of its assets in portfolio's that invest primarily in fixed-income securities. Current income is also a consideration.

(f) The Lifestyle Aggressive Fund seeks to achieve long-term growth of capital by investing 100% of the portfolio's assets in underlying portfolios that invest primarily in equity securities. Current income is not a consideration.

(g) The Money Markey Fund seeks to achieve maximum current income consistent with preservation of principal and liquidity by investing in high-quality, U.S. dollar-denominated money market.

(h) The Short-Term Federal Fund seeks to provide current income while maintaining limited price volatility. The fund invests at least 80% of its assets in short-term bonds issued by the U.S. government and its agencies and instrumentalities, many of which are not backed by the full faith and credit of the U.S. government. The fund is expected to maintain a dollar-weighted average maturity of 1 to 4 years.

(i) The PIMCO Total Return Fund normally invests at least 65% of assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. It invests primarily in investment grade debt securities, but may invest up to 10% of total assets in high yield securities ("junk bonds"). The fund may invest all assets in derivative instruments, such as options, futures contracts or swap agreements, or in mortgage- or asset-backed securities.

(j) The Strategic Income Oppenheimer Fund seeks to maximize total return consisting of current income and capital appreciation through investing, under normal market conditions, at least 80% of its assets in the following types of securities, which may be denominated in U.S. dollars or non-U.S. currencies: foreign government and corporate debt securities from developed and emerging markets, U.S. government and agency securities, domestic high-yield bonds and investment grade corporate bonds, and currency instruments. The Fund may also invest in preferred stock and other types of debt securities.

(k) The T. Rowe Price Spectrum Inc. Fund seeks a high level of current income with moderate share price fluctuation. Invests in a diversified group of underlying T. Rowe Price domestic bond funds, foreign bond funds, a money market fund and an income-oriented stock fund.

(l) The PIMCO Real Return Fund seeks to achieve maximum real return (total return after inflation) consistent with preservation of real capital and prudent investment management. The portfolio seeks to achieve its objective by investing under normal circumstances, at least 80% of its net assets in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and corporations.

Note 6. Fair Value Measurements (continued)

(m) The PIMCO Global Bond Fund seeks to achieve maximum total return, investing for both current income (bond coupons and dividends) and capital appreciation (bond price movements), consistent with preservation of capital and prudent investment management, by investing primarily in U.S. and non-U.S. intermediate maturity fixed income securities. The Fund will normally hold these securities on a currency unhedged basis.

(n) The Mutual Global Discovery Fund seeks to achieve capital appreciation by focusing primarily on undervalued equity securities and, to a lesser extent, distressed securities and merger arbitrage opportunities of companies from around the world.

(o) The investment objective of the BlackRock Global Allocation Fund is to provide high total investment return through a fully managed investment policy utilizing United States and foreign equity securities, debt and money market securities, the combination of which will be varied from time to time both with respect to types of securities and markets in response to changing market and economic trends.

(p) The Investment Company of America Fund seeks to achieve long-term growth of capital and income, by investing in solid companies with the greatest potential for future dividends, rather than current income. The portfolio principally invests in common stocks, but may also hold securities convertible into common stocks, as well as bonds, U.S. government securities, nonconvertible preferred stocks, and cash and equivalents. The portfolio may also invest in securities of issuers domiciled outside the United States typically not exceeding 15% of assets.

(q) The Washington Mutual Investors Fund portfolio, under normal circumstances, will invest at least 95% of its assets in equity securities. The Fund invests in stocks that meet strict standards evolving from requirements originally established by the U.S. District Court for the District of Columbia for the investment of trust funds. The portfolio may invest a portion of its assets in securities of issuers domiciled outside the U.S. and not included in the Standard & Poor's 500 Composite Index.

(r) The Mutual Beacon Fund seeks capital appreciation with income as a secondary goal by focusing primarily on undervalued equity securities and, to a lesser extent, distressed securities and arbitrage opportunities.

(s) The 500 Index Fund seeks to achieve the approximate aggregate total return of a broad U.S. domestic equity market index.

(t) The T. Rowe Price Equity Inc Fund seeks to provide substantial dividend income and long-term capital appreciation by investing primarily in common stocks of well-established companies. T. Rowe Price will normally invest at least 80% of the fund's net assets in common stocks, with 65% in the common stocks of well-established companies paying above-average dividends.

(u) The Davis New York Venture Fund seeks to achieve long-term growth of capital by investing primarily in common stocks of U.S. companies with market capitalizations of at least $10 billion. The fund may invest a significant portion of its assets in companies operating, incorporated, or principally traded in foreign countries. The fund typically invests a significant portion of its assets in the financial services sector.

Note 6. Fair Value Measurements (continued)

(v) The Fidelity Contra Fund seeks to achieve capital appreciation by investing primarily in common stocks. The portfolio seeks to invest in growth as well as value stocks of both U.S. and foreign companies.

(w) The Growth Fund of America seeks to achieve growth of capital by investing primarily in common stocks of companies that appear to offer superior opportunities for growth. The Growth portfolio may also invest up to 15% of its assets in equity securities of issuers domiciled outside the U.S. and Canada and not included in the S&P 500 Composite Index.

(x) The MFS Utilities Fund investment objective is to seek total return. The fund's objective may be changed without shareholder approval.

(y) The investment objective of the JPM MidCap Value Fund is to seek capital appreciation by investing in equity securities that are believed to be undervalued and therefore represent an investment value.

(z) The All Cap Value Fund will invest primarily in equity securities of U.S. and multinational companies that Lord Abbett & Co. LLC believes are under-valued in all market capitalization ranges. Under normal circumstances, the portfolio will invest at least 50% of its net assets in equity securities of large, seasoned companies with market capitalizations that fall within the market capitalization range of the Russell 1000 Index at the time of purchase.

(aa) The Capital Appreciation Fund seeks to achieve long-term growth of capital by investing primarily in equity-related securities of companies that exceed $1 billion in market capitalization and that Jennison Associates LLC believes have above-average growth prospects.

(bb) The Mid Value Fund portfolio invests, under normal market conditions, primarily in a diversified mix of common stocks of mid-size U.S. companies that are believed to be undervalued by various measures and offer good prospects for capital appreciation. Under normal market conditions, the fund invests at least 80% of its net assets in companies with market capitalizations that are within the S&P Mid Cap 400 Index ($42 million to $4.6 billion as of February 28, 2009) or the Russell MidCap Value Index ($41 million to $13.8 billion as of February 28, 2009).

(cc) The Oppenheimer Global Fund seeks to achieve capital appreciation, by investing mainly in common stocks of companies in the U.S. and foreign countries.

(dd) The T. Rowe Price Sml Cap Value Fund seeks to achieve long-term growth of capital by investing primarily in small companies whose common stocks are believed to be undervalued. Reflecting a value approach to investing, the fund will seek the stocks of companies whose current stock prices do not appear to adequately reflect their underlying value as measured by assets, earnings, cash flow, or business franchises. Normally, the fund will invest at least 80% of its net assets in companies with a market capitalization that is within or below the range of companies in the Russell 2000 Index.

Note 6. Fair Value Measurements (continued)

(ee) Under normal market conditions, the Mid Cap Index Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) at the time of investment in (a) the common stocks that are included in the S&P 400 Mid Cap Index and (b) securities (which may or may not be included in the S&P Mid Cap 400 Index) that the subadviser believes as a group will behave in a manner similar to the index.

(ff) The EuroPacific Growth Fund seeks to achieve long-term growth of capital by investing in securities of growing companies based primarily in Europe and the Pacific Basin. Holdings may range from small firms to large corporations. Under normal market conditions, the portfolio will invest almost all its assets in securities of issuers based outside the United States. The portfolio may invest in securities of issuers based in developing countries.

(gg) The American Century Heritage Fund seeks long term growth of capital by investing in companies the manager believes will increase in value over time, using a growth investment strategy developed by American Century.

(hh) Under normal market conditions, the Science & Technology Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in the common stocks of companies expected to benefit from the development, advancement, and/or use of science and technology. For purposes of satisfying this requirement, common stock may include equity linked notes and derivatives relating to common stocks, such as options on equity linked notes. Current income is incidental to the portfolio's objective.

(ii) Under normal market conditions, the International Equity Index Fund invests at least 80% of its assets in securities listed in the Morgan Stanley Capital International All Country World Excluding U.S. Index or American Depository Receipts or Global Depository Receipts representing such securities.

(jj) The T. Rowe Price Science & Technology Fund seeks to achieve long-term growth of capital by investing primarily in the common stocks of companies expected to benefit from the development, advancement and use of science and technology.

(kk) Under normal market conditions, the Mid Cap Stock Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of medium-sized companies with significant capital appreciation potential.

(ll) The International Value Fund seeks to achieve long-term growth of capital by investing primarily in equity securities of companies located outside the United States, including those in emerging markets.

(mm) The Energy Fund seeks to achieve long-term capital appreciation by investing at least 80% of its assets in the common stocks of companies engaged in energy-related activities.

(nn) The Oppenheimer Developing Market Fund seeks to achieve capital appreciation by investing primarily in the common stock of issuers in emerging and developing markets throughout the world.

Note 6. Fair Value Measurements (continued)

(oo) The BlackRock Large Value Fund seeks long-term capital growth. The fund is a fund that invests all of its assets in Master Value Portfolio, which has the same investment objective and strategies as the fund. It invests at least 80% of its assets in equity securities, primarily common stock, of large cap companies located in the United States that BlackRock selects from among those that are, at the time of purchase, included in the fund&, the Russell 1000 ValueÂ(R) Index.

(pp) The T. Rowe Price Health Science Fund invests at least 80% of net assets in common stocks of companies engaged in the research, development, production, or distribution of products or services related to health care, medicine, or the life sciences. While the fund can invest in companies of any size, the majority of fund assets are expected to be invested in large- and mid-capitalization companies.

(qq) The American Century Vista Fund seeks long-term capital growth. The fund normally invests in stocks of medium-sized and smaller companies that the adviser believes will increase in value over time, using an investment strategy developed by American Century Investments. In implementing this strategy, the portfolio managers make their investment decisions based primarily on their analysis of individual companies, rather than on broad economic forecasts. Management of the fund is based on the belief that, over the long term, stock price movements follow growth in earnings and revenues.

Note 7. Excess Contributions

Contributions received from participants for the plan years ended December 31, 2011 and 2010 include $4,204 and $8,148, respectively, of excess contributions (net of corresponding gains and losses) that were distributed in March 2012 and October 2011, respectively, to certain active participants. The excess deferral contributions, originally contributed during the years ended December 31, 2011 and 2010, were returned to comply with the participants' applicable maximum annual contributions permitted under the Internal Revenue Code. The amounts are included in the Plan's statements of net assets available for benefits as excess contributions payable at December 31, 2011 and 2010.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all unvested account balances, if any, would become fully vested.

Note 10. Party-In-Interest Transactions

Certain Plan investments are units in pooled separate accounts which are managed by John Hancock Life Insurance Company (U.S.A.) ("John Hancock"). The Plan also has an investment in a guaranteed interest account which is part of the general assets of John Hancock. John Hancock is the custodian as defined by the Plan. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations. These transactions also qualify as party-in-interest transactions for which there is a statutory exemption.

Note 11. Tax Status

The Company has adopted a standardized prototype plan which received a favorable opinion letter dated March 31, 2008 from the Internal Revenue Service qualifying the Plan under Section 401(a) of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter, however, the Company and the plan administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.
