Cardo USA 401(k) Plan
Notes to Financial Statements

1. **Description of the Plan**:

The following description of the Cardo USA 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all employees of Cardo USA, Inc. (the "Company"), and its wholly-owned subsidiaries, who have completed six months of service and have attained age twenty and one-half. All eligible employees shall become a participant effective as of the first day of the month of the plan year coinciding with or following the date the employee meets the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

Each year participants may contribute not less than 1%, nor more than 50%, of pretax annual compensation, as defined in the plan agreement. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. For the years ended December 31, 2011 and 2010, participant deferrals are limited to $16,500 and $16,500, respectively. Additionally, participants who have attained age 50 may defer additional amounts, called catch-up contributions, in the amount of $5,500 and $5,500 for the years ended December 31, 2011 and 2010, respectively. Participants direct the investment of their contribution into various investment options offered by the Plan. The Company contributes 50% of participant elective deferrals up to 6% of the participant's base compensation. Additional amounts may be contributed at the option of the Company's board of directors. The Company added a safe harbor non-elective contribution of 4% of compensation. The Plan has been amended for the cross-tested contributions for designated participants to an additional 8% of compensation.

Investment Options:

Upon enrollment in the Plan, a participant may direct employer and participant contributions among any of the investment options included in the Plan. At December 31, 2011 and 2010, there were 24 and 23 different investment options to choose from, respectively.

Participant Accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is at the rate of 20% per year starting in the second year, and a participant is 100% vested after six years of credited service.

1. **Description of the Plan**: (continued)

Vesting: (continued)

Safe Harbor and discretionary contributions are immediately vested at 100%.

Participants automatically become fully vested, regardless of the vesting table, upon attainment of normal retirement age, early retirement age, retirement due to disability, upon death, or upon plan termination.

Effective with the sale of the Cardo Flow business to Sulzer Pump Solutions (US), Inc. on August 1, 2011, sixty-five employees of the Cardo Flow business were terminated from Cardo USA, Inc. and automatically 100% vested in their 401(k) balances.

Participant Loans:

Plan participants may take loans from the Plan. Loan periods cannot exceed 5 years, unless the loan is to acquire or construct a personal residence, and the minimum loan amount is $500. At December 31, 2011 and 2010, there were $90,374 and $351,349, respectively, in loans outstanding. Principal and interest is paid ratably through weekly payroll deductions.

Payments of Benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount, equal to the value of the participant's vested interest in his or her account, or installment payments or a joint and 50% survivor annuity. Payments may be paid directly to participants when they become due or rolled over to another qualified plan or an IRA. The Plan was amended and restated, effective January 1, 2007, and the annuity form of distribution was eliminated.

Forfeited Accounts:

Forfeited accounts are used to reduce future employer contributions.

At December 31, 2011 and 2010, forfeited balances of terminated participants' non-vested accounts amounted to $26,875 and $15,697, respectively.

2. **Summary of Significant Accounting Policies**:

Date of Management Review:

Subsequent events were evaluated through September 17, 2012, which is the date the financial statements were available to be issued.

Estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

2. **Summary of Significant Accounting Policies**: (continued)

Basis of Accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant loans are valued at their outstanding balances, which approximate fair value.

Payments of Benefits:

Benefits are recorded when paid.

Notes Receivable from Participants:

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

3. **Investment Contract with Insurance Company:**

The Plan entered into a fully benefit-responsive investment contract with MetLife. MetLife maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and adjusted for the difference between the fair value and contract value as reported to the Plan by MetLife. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

3. **Investment Contract with Insurance Company:** (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield interest rates were approximately 5.76% in 2011 and 6.55% in 2010, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3.00%. The average yield credited to participants for the years ended December 31, 2011 and 2010 were approximately 2.68% and 2.64%, respectively.

Such interest rates are reviewed on a quarterly basis for resetting.

	Major Credit Ratings	Investments at Fair Value	Wrapper Contracts at Fair Value	Adjustment to Contract Value
December 31, 2010				
MET Managed GIC	Aa3	$1,279,485	$8,617	$(82,744)
December 31, 2011				
MET Managed GIC	Aa3	$ 562,666	$5,119	$(40,183)

Certain events limit the Plan's ability to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

4. **Cost of Plan Administration**:

Certain administrative expenses of the Plan are paid directly by the sponsor of the Plan.

5. **Plan Termination**:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

6. **Tax Status:**

The Plan has received an opinion letter from the Internal Revenue Service dated July 7, 2008, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and that any employer adopting this form of plan will be considered to have a plan qualified under Section 401(a) of the Code. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt. As of the date of these financial statements the prototype plan document has been restated for GUST and EGTRRA.

6. **Tax Status:** (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes that the Plan has no uncertain income tax positions. The Plan's tax returns for the last three years are subject to examination by the taxing authorities.

7. **Reconciliation of Financial Statements to Form 5500:**

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

Net assets available for plan benefits per the Form 5500	$4,505,251	$11,014,494

8. **Information Prepared and Certified by Plan Custodian:**

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodians of the Plan:

9. **Other Assets:**

Notes receivable from participants	$ 90,374	$ 351,349

10. **Fair Value Measurements**:

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Quoted market prices in active markets for identical assets or liabilities

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data

Level 3 - Includes significant inputs to the valuation methodology that are unobservable and may include assumptions about market participant assumptions

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair value of interest bearing money market accounts is also based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The investment contract held with Met Life is not actively traded and significant other observable inputs are not available. Thus, the fair value of the investment contract is determined as the present value of future guaranteed account values and participant benefit withdrawals. Benefit withdrawals are assumed to occur on the contract anniversary date. Present values are derived by discounting future guaranteed account values and benefit withdrawals by the appropriate market interest rates. Market interest rates are deemed to be the same rates to be credited to new issues of the same contract with like guarantees issued as of the date of the fair value determination. The market interest rates used have interest guarantee periods that match the guarantee periods remaining as of the valuation date of the contract.

12. **Risks and Uncertainties:**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

13. **Amendments:**

The Plan was amended on December 3, 2010 to redefine subsection 4.13 "Qualified Military Service".

Effective July 31, 2011, certain divisions of Cardo USA were sold to Sulzer, Ltd. If an individual was severed from service due to this transaction, the participant became 100% vested in their account.

Also effective on the date of this transaction, the Plan sponsor of record was changed to Assa Abloy AB and administrator and trustee responsibilities changed and updated accordingly.

14. **Subsequent Events:**

Effective January 1, 2012 Megadoor USA, Inc. consented to adopt the Assa Abloy, Inc. Retirement Savings Plan.
