To the Senior Management and Board of Directors
RISI, Inc. 401(k) Plan

We have conducted a DOL limited-scope audit of the financial statements of RISI, Inc. 401(k) Plan for the year ended December 31, 2011 and have issued our report thereon dated October 2, 2012. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated December 20, 2011. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by RISI, Inc. 401(k) Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2011. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

Management's estimate of the fair value of the investments which is based on the data prepared and certified to as complete by State Street Global Services. We evaluated the key factors and assumptions used to develop the fair value estimate in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

The disclosure of information prepared and certified by custodian in Note 9 to the financial statements. The information in this disclosure is certified by the custodian and as such, we did not perform any auditing procedures with respect to this information, except for comparing the information with the related information included in the financial statements and supplemental schedules.

The financial statement disclosures are neutral, consistent and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 2, 2012.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention. The following are a few items in particular that we noted:

It came to our attention during the testing that the HR Manager was able to go in and change her status from inactive to active. We would recommend that procedures be put in place to ensure that she is not able to change other items in her payroll file (i.e. her salary) without prior approval.

It came to our attention during the new hire testing, that one employee was entered into the on-line system twice. We would recommend that procedures be put in place to ensure that an employee cannot be entered more than once into the on-line system.

It came to our attention during the employee payroll testing, that the Form I-9 was missing for one employee and the signature date was missing for two employees. We continue to stress the importance that these records be maintained by the plan administrator to show that the appropriate procedures were followed when employees are hired.

It came to our attention during the employee payroll testing, that two employees showed a variance in the exemptions requested on the W-4 in the employee file to the exemptions claimed on the payroll report. We continue to stress the importance of maintaining up-to-date records in the employee files to show that the appropriate procedures were followed when administering payroll changes.

It came to our attention during the employee testing, that some of the information on the census was incorrect. This could affect the vesting calculations, and we would recommend that these be reviewed each year prior to submitting to ADP.

This information is intended solely for the use of the Senior Management and Board of Directors of RISI, Inc. 401(k) Plan and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Edward C. David & Company CPAs PLLC
