BALL AUTOMOTIVE GROUP 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

A. Description of Plan

The following description of the Ball Automotive Group 401(k) Plan (the Plan) provides only general information. The Plan was restated effective November 1, 2010. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the company who have at least six months of service and are at least 21 years old. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 15 percent of their compensation, not to exceed the limits of Internal Revenue Code Sections 401(k), 404 and 415, which for both years 2011 and 2010, the dollar limit is $16,500. Participants who are at least 50 years of age by December 31, 2011 or 2010 may contribute catch-up contributions up to an additional $5,500. The company may provide a discretionary matching contribution determined on an annual basis. There were no discretionary matching contributions for the years ended December 31, 2011 and 2010. All contributions under the Plan are to be invested in shares of investment companies for which Sentry Life Insurance Company acts as transfer agent and which are selected by the employer as investment options under the Plan. The Plan allows participants to self direct their account balances among certain investments. At December 31, 2011 and 2010, all funds, except for common stock (see Note G), were self directed by the participants.

Participant Accounts

Each participant's account is credited with the participant's contributions and Plan investment earnings or losses of the trust fund. Participants will only realize the gain or loss of their individual investment selections. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately and always 100 percent vested in their 401(k) contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balances. Note terms range from one to five years or up to fifteen years for the purchase of a primary residence. The notes are secured by the participant's vested account balance. Each note bears an interest rate equal to the prime rate in effect at the time of the loan plus 2.00 percent. The current interest rates range from 5.25 percent to 9.75 percent. Principal and interest are paid ratably through payroll deductions on a level amortization basis.

A. Description of Plan (Concluded)

Payment of Benefits

On termination of employment, a participant will receive benefits equal to the value of the participant's contributions to the Plan and all related earnings thereon. The participant has the option to receive the benefits in the form of deferred annuities, to continue the account until retirement, a cash payment, installment payments or a direct rollover. Upon retirement, a participant will receive 100 percent of the value of the participant's account balance. The participant has the option to receive the benefits in the form of a cash payment, installment payments, joint survivor annuity, life annuity or continuation of account until the age of 70½. Upon death prior to retirement, the full value of a participant's account will be paid to a spouse or another beneficiary. The account balance will be paid in the form of an annuity, installments or a one-sum cash payment.

Forfeited Accounts

Forfeitures do not exist in the Plan as participants are immediately, and always, 100 percent vested in their 401(k) contributions plus actual earnings thereon.

Withdrawals from Account

At age 59½ or older, participants may withdraw all or any part of their accounts resulting from savings contributions. Withdrawals may be made at any time. If a financial hardship exists, participants may be able to withdraw all or any part of their vested accounts resulting from savings contributions (but none of the income earned from such contributions). A penalty or charge may apply when withdrawals are made.

Plan Administrator Fees

All routine plan administrative expenses including, but not limited to, fees of accountants, counsel, and other specialists and their agents, and other costs of administering the plan may be paid out of the trust fund unless paid by the employer. For the plan year ended December 31, 2011, administrative fees paid by the Plan totaled $1,190.

B. Summary of Accounting Policies

Date of Management's Review

For the plan year ended December 31, 2011, the Plan has evaluated subsequent events for potential recognition and disclosure through October 8, 2012, the date on which the financial statements were available to be issued. It has been determined that no subsequent events or transactions need to be recognized or disclosed in these financial statements.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

B. Summary of Accounting Policies (Concluded)

Investment Valuation and Income Recognition

The Plan's investments, except for the investment in the guaranteed interest account and notes receivable from participants, are presented at fair value. Fair value of the funds is determined based on the underlying investments of the related funds as reported by Sentry Life Insurance Company, based on quoted market prices. Such investments are credited with earnings of the underlying investments and charged for Plan withdrawals and administrative expenses incurred.

Investment contracts held by a defined-contribution plan are required to be reported at fair value; however, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan offers a guaranteed interest account which is a type of investment contract. The statement of net assets available for benefits presents the fair value of the guaranteed interest account investment, as well as the adjustment of the fully benefit-responsive guaranteed interest account investment from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Outstanding notes receivable are valued at the outstanding balance which approximates fair value.

Purchases and sales of these investments are reflected on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investments

The following presents investments at December 31, 2011 and 2010 that represent 5 percent or more of the Plan's net assets:

	2011		2010	
	Shares	Value	Shares	Value

Notes receivable from participants	n/a	$ 96,277	n/a	$ 94,432

During the plan year, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $32,839 as follows:

Mutual funds	$ (8,482)
Common stock	(3,240)
Interest	44,400
Other gains	161
Total appreciation	$ 32,839

D. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of their future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lower priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair value of guaranteed portfolio fund is based on the underlying assets of the contracts. The fair value is expressed in units.

D. Fair Value Measurements (Concluded)

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010.

E. Information Prepared and Certified by Custodian (Unaudited)

At December 31, 2011 and 2010, the Plan's investments were held by the Custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2011 and 2010, as reported by the Custodian, is summarized as follows:

	2011	2010
Investments at fair value, exclusive of common stock	$ 999,316	$ 923,111
Investment losses	$ (8,482)	
Interest income	$ 35,839	

F. Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Sentry Life Insurance Company (Sentry). Sentry maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Sentry. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable. Sentry may not terminate the contract at any amount less than contract value.

Sentry is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on at least an annual basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

	2011	2010
Average yields	3.00%	1.42%

G. Nonparticipant-directed Investments

During 2002, the Plan received 407 shares of common stock as a result of the demutualization of a holding company. Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	2011	2010
Net Assets:		
Common stock	$ 10,012	$ 13,252

	Year Ended December 31, 2011
Change in Net Assets:	
Unrealized depreciation of common stock	(3,240)
	$ (3,240)

H. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

I. Tax Status

The Plan obtained its latest determination letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2009.

J. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

K. Excess Contributions

At December 31, 2011 and 2010, liabilities of $10,828 and $2,846, respectively, are recorded as excess contributions payable for refunds issued by the Plan to certain active participants. The 2011 refunds were processed before the two and one-half month deadline as required to satisfy the relevant nondiscrimination provisions of the Plan. The 2010 refunds were not processed until March 2011. All appropriate forms were submitted and excise taxes paid.

Current year participant contributions have been reduced to reflect the liability.

L. Late Participant Contributions

Late remittance of participant contributions, including loan payments, totaled $82,849 for the year ended December 31, 2010. Lost earnings were calculated and remitted to affected participants. All appropriate forms were filed.

Previous late contributions that were corrected during the year ended December 31, 2010 totaled $48,497.

M. Related Party Transactions

Certain Plan investments are units of pooled separate accounts managed by Sentry Life insurance Company. Sentry is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services amounted to $1,190 for the year ended December 31, 2011.

N. Reconciliation of Form 5500 to Financial Statements
