Note 1: Description of Plan

The following description of the Hanlees Chevrolet Geo Toyota 401(k) Plan provides only general information. Participants should refer to the Plan adoption agreement and Summary Plan Description for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the participating Companies except collective bargaining employees and nonresident aliens who do not receive United States source income, who have completed 1000 hours and six months of service, and are age eighteen or older. It is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA). The participating companies are Hanlees Hilltop, Inc. (dba Hanlees Hilltop Toyota), Hanlees Davis, Inc. (dba Hanlees Ford Nissan), Leehan, Inc. (dba Hanlees Hilltop Nissan), Dohan, Inc. (dba Hanlees Chevrolet), DKD, Inc. (dba Hanlees Toyota of Davis), Hanlees Napa, Inc. (dba Hanlees Napa Suburu Volkswagen), and Hanlees Seven, Inc. (dba Hanlees Hiltop Hyundai).

Administration. Under the terms of the Plan, certain corporate officer's of the sponsor are designated as Plan Trustee. The Plan has contracted with Sentry Life Insurance Company to act as custodian, investment advisor, and record keeper for the plan.

Contributions. Each year, participants may contribute 0-100% of their compensation, as defined in the Plan, subject to IRS annual limits. Employees who are age 50 or older may make additional "catch up" contributions. The Company may make discretionary quarterly matching contributions. For the 2011 plan year, the Company contributed $57,900 in matching contributions to the plan.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, if any, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. An employee must work 1,000 hours during the plan year to be credited with a year of service. A participant is one hundred percent vested after six years of service.

Forfeitures. The total non-vested portion of terminated employees account balances are used by the plan sponsor as additional employer matching contributions. There were $91 of forfeitures generated in the current year. During 2011, $9,910 of forfeitures was allocated to participants, and $3,273 was used to pay plan expenses. As of December 31, 2011 there is a balance of $216 remaining in unused forfeitures available to be used as an additional employer matching contribution or be allocated to participants.

Investment Options. Upon enrollment in the Plan, a participant may direct employee contributions in any of a variety of over 20 professionally managed investment accounts of the Sentry Life Insurance Company investment portfolio. Participants may change their investment options on a daily basis.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account as a lump sum distribution or in installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Amendments. During the 2011 plan year, the Plan was amended as follows: a quarterly discretionary match provision was added, the eligibility date for employer matching was set at twelve months, and loan fees are now charged directly to affected participant accounts.

Note 1: Description of Plan (cont'd)

Notes Receivable from Participant. Participants may borrow from their fund accounts, for hardships only, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan balances may be paid over a reasonable period of time not to exceed five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the prevailing interest rate charged on similar commercial loans.

Note 2: Summary of Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation - The Plan's investments primarily consist of pooled separate accounts and are stated at fair value as reported by Sentry Life Insurance Company. The Plan's investment in the Guaranteed Account is stated at contract value which approximates fair value as reported by Sentry Life Insurance Company.

Risks and Uncertainties - The Plan provides for various investment options which are exposed to a variety of risks, including interest rate, market fluctuations, valuation, and credit risks. Due to the level of risk associated with certain investments, it is possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Purchases and sales of securities - Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - Plan management has evaluated subsequent events through October 8, 2012, the date the financial statements were available to be issued.

Note 3: Certified Information

Sentry Life Insurance Company, the trustee of the Plan, has certified as to the completeness and accuracy of all pooled separate account and guaranteed account investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2011, the investment activities reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2011, and all investment information reflected in the supplemental Schedule of Investments Held at December 31, 2011, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. For the year ended December 31, 2011, the Plan's investments (including investments bought, sold, and held during the year) depreciated in value as follows:

Fair value as determined by Sentry Life Insurance:	
Pooled Separate Accounts	$ (13,598)
Net depreciation in fair value of investments	$ (13,598)

Note 5: Fair Value Measurements

Financial Accounting Standards Board ASC 820-10 (formerly FASB Statement No. 157, Fair Value Measurements), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets:

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 5: Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled Separate Accounts: Valued at fair value as determined by Sentry Life Insurance, based on the number of units held and market values of the underlying mutual funds held in each investment account.

Guaranteed Accounts: Valued at fair value which is equal to contract value as determined by Sentry Life Insurance Company based on the number of units held multiplied by the unit price of the underlying Sentry Guaranteed Account.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011

Note 6: Sentry Insurance Guaranteed Account

The Plan has entered into a deposit contract with the Sentry Life Insurance Company (Sentry) to provide participants in the Plan the Guaranteed Account. The Guaranteed Account investment choice is an obligation of Sentry, and invested assets are commingled with the other assets in Sentry's general account. There is no specific portfolio of assets in which the Plan's Guaranteed Account funds are invested. The crediting interest rate is backed by the income received from assets held in the general account and Sentry's guarantee. The average yield for the investment in the Guaranteed Fund was 3.40% and 3.50% for the years ending December 31, 2011 and 2010, respectively. The crediting interest rate for this account was 3.40% and 3.50% at December 31, 2011 and 2010, respectively.

Sentry Life Insurance Company has stated that the contract value approximates fair value, and there is no fair value adjustment reflected in these financial statements. The investment is considered fully benefit responsive and normal participant withdrawals and transfers from the Guaranteed Fund are processed at contract value. If the Plan were to request a liquidation, surrender charges and/or market value adjustments may apply. A significant deterioration in the creditworthiness of Sentry Life Insurance Company may result in participants' receiving less than full contract value.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 8: Administrative and Investment Fees

Participant accounts are charged a wrap fee of .75% which is netted in the investment return of each investment. The Plan Sponsor also pays a portion of the administration costs of the plan consisting of a base annual fee and a per participant charge.

Note 9: Excess Contributions

For the year ended December 31, 2011, the Plan was required to return excess employee contributions of $15,233 to certain active participants as required to satisfy the relevant nondiscrimination provisions of the Plan. The distribution is included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2011.

Note 10: Tax Status and Regulatory Compliance

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has adopted the Sentry Life Insurance Company prototype plan which obtained a favorable tax determination letter from the Internal Revenue Service dated March 31, 2008. The Plan has been amended since receiving the determination letter; however, the Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administration has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 11: Reconciliation of Financial Statements to Schedule H of Form 5500

Participant Contributions:
The following is a reconciliation of participant contributions per Schedule H of Form 5500 and the financial statement at December 31, 2011. The differences relate to timing differences in the recording of contributions on Form 5500 (cash basis), and on the financial statements (accrual basis).

Total contributions received & receivable per schedule H of Form 5500	$ 210,157
Add December 2011 employee and employer contributions received by the plan in January 2012	23,980
Less December 2010 employee and employer contributions received by the plan in January 2011	(4,102)
Total contributions per the financial statement	$ 230,035

Accrual for Excess Contributions:
As discussed in note 10, the Plan is required to refund excess contributions for the plan year ending December 31, 2011. For purposes of these financial statements, this amount was recorded as a payable as of December 31, 2011. The form 5500 is prepared on a cash basis, and these refunds will be shown as corrective distributions on the Schedule H for 2011 tax year.

Corrective distributions per schedule H of Form 5500	$ 5,398
Add accrual for excess participant contributions contributions payable as of December 31, 2011	15,233
Less corrective distributions paid during 2011 that were accrued as payable as of December 31, 2010	(4,804)
Excess contributions per the financial statement	$ 15,827
