1. PLAN DESCRIPTION

The following is a brief description of the Benchmark Group 401(k) Plan (the "Plan") provided for general informational purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan as permitted under Section 401(k) of the Internal Revenue Code ("IRC"). The Plan is funded by employee and employer contributions and covers all employees of Benchmark Management Corporation and affiliated entities (the "Company") who have attained 21 years of age. The Plan's service requirement requires that employees achieve at least six months of service in order to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Participants may elect to defer a specified percentage of compensation, not to exceed 100% of pretax annual compensation, or Internal Revenue Code limitations. The Company matches 50% of the first 6% of the employee's elective deferral. In addition, the Company may make discretionary contributions to the Plan. Contributions are subject to certain limitations. No discretionary contribution was made for the year ended December 31, 2010.

Vesting – Participants are immediately vested in their voluntary contributions and earnings thereon. Employer matching and discretionary contributions and earnings thereon fully vest after three years of service. Regardless of years of service, participants are fully vested upon death or disability.

Notes Receivable from Participants – Participants may borrow from their accounts up to a maximum of the lesser of $50,000 or 50% of their vested account balance. Note terms range from one to five years or up to thirty years for the purchase of a primary residence and are secured by the balance in the participant's account and bear interest commensurate with local prevailing rates. Principal and interest are paid ratably through regular payroll deductions. Interest rates ranged from 4.25% to 10.50% at December 31, 2010.

Participant Accounts – Each participant's account is credited with the participant's contribution and an allocation of the employer contributions and Plan earnings. Plan earnings are allocated to the participants' accounts based on the performance of the participants' investment selections.

Forfeitures – Participants not fully vested in employer contributions upon separation from the Company, as defined in the Plan document, forfeit their non-vested balances. Forfeitures are allocated to cover Plan administrative expenses or offset the employer matching contributions. During the year ended December 31, 2010, $6,803 in forfeitures were utilized to offset administrative expenses and employer matching contributions. Forfeitures available to cover administrative expenses or offset employer matching contributions amounted to $23,348 as of December 31, 2010.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants shall become 100% vested in their accounts at the date of such termination.

1. PLAN DESCRIPTION (continued)

Payment of Benefits – Employees are eligible for retirement at age 65. Benefits are determined by the final value of the participant's account at the time of payment. Payments are made in lump-sum cash distributions only. Unless a participant elects otherwise, distributions will be made as soon as practical after a participant's normal retirement date or actual retirement date. Distributions are also permitted in the event of financial hardship, as defined by the Plan, and after the age of 59 1/2.

Participants may receive their accumulated benefits upon termination of employment or elect to keep their account in the Plan until the earlier of normal retirement age, death or disability if their account balance exceeds $5,000. If the participant elects to keep his account in the Plan, the account will continue to receive its respective allocation of plan earnings and expenses.

Administrative Expenses – Administrative expenses are primarily paid by the Plan.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – The Plan determines the fair value of assets and liabilities which are subject to reporting at fair value based on standards established within generally accepted accounting principles. These standards establish a hierarchy for the determination of fair value, as well as disclosure requirements relative to those assets and liabilities. The hierarchy identifies three levels of input. Level 1 inputs are generally quoted market prices for identical assets or liabilities, which are actively traded on an exchange. Level 2 inputs generally consist of market prices for identical assets which are not actively traded or market prices of similar assets or liabilities which are actively traded on an exchange. Level 3 inputs are referred to as unobservable inputs and consist primarily of information derived by management where Level 1 and Level 2 inputs are not available. These may include such things as present value of expected future cash flows or other valuation methodologies. Under the hierarchy, Level 1 inputs are the most preferred, followed by Level 2, and Level 3 are to be used only where neither Level 1 nor Level 2 inputs are available.

An investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value:

Mutual funds: Valued based on the net asset values of the shares held by the Plan at year end.

Common collective trusts: The Merrill Lynch Retirement Preservation Trust and the GM Merrill Lynch Retirement Preservation Trust primarily held guaranteed and other similar investment contracts until October 2010, and were fully benefit-responsive. The fair value of the trusts is based on the net asset values of the shares held by the Plan at year-end, with an adjustment to contract value, which represents contributions made under the contract, adjusted for interest earnings, transfers, loan activity, and distributions. The average yield of all common collective trust fund accounts for the period January 1, 2010 through October 6, 2010 was 1.76%. On October 6, 2010, the trusts eliminated the wrap contracts that were fully benefit responsive. Accordingly at December 31, 2010, the trusts were shown at fair value.

2. SUMMARY OF ACCOUNTING POLICIES (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in value of investments, which includes unrealized and realized gains and losses on investments that were held or sold during the year.

Purchases and sales of securities are recorded on a trade date basis. Dividend income is recognized on the ex-dividend date. Interest income is recorded on the accrual basis.

Payment of Plan Benefits – Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Management has evaluated the effects of all subsequent events through October 12, 2011, the date the financial statements were available to be issued, to determine if events or transactions occurring through that date require potential adjustment or disclosure in the financial statements.

3. INVESTMENTS

Investments that represent 5% or more of the Plan's net assets at December 31, 2010 and 2009 are as follows:

Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications. The Plan was amended subsequent to the IRS determination letter. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax exempt.
