Marmon Consolidated Defined Benefit Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 1 - Plan Description

The following description of Marmon Consolidated Defined Benefit Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a noncontributory defined benefit plan covering certain employees designated by the Participating Employers, as defined in the plan document with Participating Employers' supplements. Participating Employers' supplements of the plan document establish or modify various rights and features attributable to the Participating Employers. Participation into the plan was frozen or effectively frozen due to a plant closure on a date ranging from June 30, 2001 to December 31, 2007 in accordance with the terms of the applicable Participating Employer's supplement and any individual who was not a participant in the Plan on or before such date shall not become a participant in the Plan at any time. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Vesting - Prior to the Plan being frozen, participants became fully vested in accordance with the terms of the applicable Participating Employer's supplement. Each participant has a nonforfeitable right to his or her plan benefit.

Pension Benefits - Plan benefits are provided as follows:

Normal retirement - A participant's normal retirement date shall be in accordance with the applicable Participating Employer's supplement with his or her attainment of age 65. A participant shall be entitled to normal retirement benefits determined in accordance with the terms of the applicable Participating Employer's supplement.

Early retirement - Retirement benefits prior to age 65 are determined based on formulas established in the Plan that vary based on the applicable Participating Employer's supplement.

Certain Participating Employer's supplements also allow for disability and deferred retirement benefits.

Benefits are based on each employee's Participating Employer's supplement and range from being based on years of credited service multiplied by a fixed rate specified by the applicable Participating Employer's supplement to being based on a multiple of the participant's final average compensation.

Funding - All contributions are made by the plan sponsor in actuarially determined amounts, to provide the Plan with assets sufficient to meet the projected benefits to be paid to Plan participants. The plan sponsor's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Notes to Financial Statements December 31, 2011 and 2010

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Wells Fargo Bank, N.A. or its affiliates. Wells Fargo Bank, N.A. is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Administration - Certain employees of an affiliate of the plan sponsor provide administrative and trustee services to the Plan. These employees do not receive any compensation from the Plan for their services.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The fair value of the Plan's interest in the Marmon Retirement Master Trust (the "Master Trust") is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The common collective trust fund is valued at net asset value per share (or its equivalent) of the fund, which is based on the fair value of the fund's underlying assets. The money market funds are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices. See Notes 5 and 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Plan sponsor.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered by participants to the date the Plan was frozen. These include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Beneficiaries of employees who have died
- c. Present employees or their beneficiaries

Marmon Consolidated Defined Benefit Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Assumptions - The actuarial present value of accumulated plan benefits is determined by a professional actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2010, 2009, and 2008 are summarized as follows:

Assumed rate of return	- 2010 - 6.25%
	- 2009 - 6.50%
	- 2008 - 7.50%
Mortality basis	- 2010 - 2011 Combined Static Mortality Table for Small Plans per §1.430(h)(3)-I(e)
	- 2009 - RP-2000 Combined Small Plans Projected to 2010
	- 2008 - RP-2000 Combined Small Plans Projected to 2009
Average retirement age	- Age 65 for 2010, 2009, and 2008

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statement of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 5, 2012, which is the date the financial statements were issued.

New Accounting Pronouncement - In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. The standard clarifies existing fair value measurement and disclosure requirements and changes existing principles and disclosure guidance. Clarifications were made to the relevancy of the highest and best use valuation concept and measurement of an instrument classified in an entity's stockholder's equity. Changes to existing principles and disclosures included measurement of financial instruments managed within a portfolio, the application of premiums and discounts in fair value measurement, and additional disclosures related to fair value measurements. The updated guidance and requirements are effective for financial statements issued for the first annual period beginning after December 15, 2011. The adoption of this standard is not expected to have a material effect on the Plan's financial statements.

Note 3 - Unaudited Information

Wells Fargo Bank, N.A. (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including the Master Trust information included in Note 5, is based solely on information provided by the Trustee.

* The Plan presents its accumulated plan benefit information as of the beginning of the year as permitted under accounting principles generally accepted in the United States of America. In connection with the mergers discussed in Note 8, the Plan's accumulated benefit obligation increased by approximately \$8,800,000 as of January 1, 2010. See Note 8 for additional information.

** Change in actuarial assumptions relates to change in materiality table and rate of return. See Note 2 for additional information.

Note 4 - (Continued)

*** The benefits paid by the plans merged into the Plan as of December 31, 2010 (see Note 8) in the approximate amount of \$600,000 has been included in the benefits paid on the December 31, 2010 actuarial information.

Note 5 - Interest in Master Trust

The Plan's investments are in the Marmon Retirement Master Trust (the "Master Trust"), which was established for the investment of assets of the Plan, the Union Tank Car Company East Chicago, Indiana Hourly Employees' Retirement Plan, and three other related plans that were merged into the Plan as of the end of the day on December 31, 2010. Each participating benefit plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Wells Fargo Bank, N.A. (the "Trustee"). At December 31, 2011 and 2010, the Plan's interest in the net assets of the Master Trust was approximately 76 percent and 73 percent, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan, except for certain administrative expenses that are attributable and charged specifically to the Plan.

The net assets of the Master Trust are as follows at December 31:

	2011	2010
Investments, at fair value:		
Mutual funds	\$ 27,735,222	\$ 25,394,365

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Master Trust's assets measured at fair value on a recurring basis at December 31, 2011 and 2010 and the valuation techniques used by the Master Trust to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 6 - Fair Value Measurements (Continued)

Assets Measured at Fair Value on a Recurring Basis at December 31, 2010

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Observable Inputs (Level 3)	Balance at December 31, 2010

Total	<u>\$ 25,394,365</u>	<u>\$ 2,339,978</u>	<u>\$ -</u>	<u>\$ 27,734,343</u>

- (a) Money market fund is valued at \$1.00/unit, which approximates fair value. Amounts are generally invested in interest-bearing money market accounts.
- (b) The common collective trust fund invests primarily in equity securities which may include common stocks, options, and futures. There were no unfunded commitments or redemption rules on this investment at December 31, 2011.

The Master Trust's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2011 and 2010.

Note 7 - Tax Status

The Plan has received a determination letter dated December 8, 2011 from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2008.

Note 8 - Transfers in from Other Plans

At the end of the day on December 31, 2010, participants of Anderson Cooper and Brass Company Hourly Employees' Retirement Income Plan, Cerro Fabricated Products, Inc. Bristol Hourly Employees' Retirement Income Plan, Cerro Fabricated Products, Inc. NECG Hourly Employees' Retirement Income Plan, and O&M Bargaining Unit Pension Plan began participating in the Plan. This resulted in a transfer of approximately \$2,300,000, \$2,700,000, \$500,000, and \$2,100,000, respectively, into the Plan.

Note 9 - Plan Termination

While it has not expressed an intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in the plan document and ERISA. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

are 3 years older than their spouses.

Valuation of plan assets

Smoothed fair market value of assets over the
current and prior two years, adjusted for
contributions, benefit payments, administrative
expenses, and expected earnings. The average
value of assets calculated in this manner is further
limited to not less than 90% nor more than 110% of
fair market value.

A characteristic of this method is that the expected
distribution of the value of plan assets is skewed
toward understatement relative to the
corresponding market values for expected long-
term rates of return in excess of the third segment
rate under IRC section 430(h)(2)(C)(iii).
