LAWRENCE EQUIPMENT
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2011 and 2010

NOTE 1 - DESCRIPTION OF PLAN

The following description of Lawrence Equipment, Inc. ("Company") 401(k) Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is referred to as a "Safe Harbor 401(k) Plan" and is a defined contribution plan covering employees of the Company who have completed one year of service and are age 21 or older. Employees employed on the Plan's effective date did not need to satisfy the service requirements or the age requirements as specified above. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year participants may contribute up to the lesser of 100% of compensation or the maximum permitted by law of pretax annual compensation, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollovers from other plans and certain IRA's. The plan sponsor has a Safe-Harbor match provision. The formula includes 100% of employee deferrals up to the first 3% of included compensation that a participant contributes to the Plan, plus 50% of deferrals up to the next 2% of included compensation that a participant contributes to the Plan. The maximum Safe-Harbor contribution by the Plan Sponsor is 4% of included compensation. Participants direct the investment of both their contributions and the Company's Safe Harbor matching contribution into various investment options offered by the Plan. Additional amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

Participants' Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. They are also immediately 100% vested in the Company's Safe-Harbor match. For other Company contributions, a participant is 100% vested after six years of credited service.

Investment Options - Upon enrollment in the Plan, a participant may direct employee contributions in any of 27 investment options, offered through a group annuity contract with Great-West Life & Annuity Insurance Company ("Great-West"). Participants may change their investment options quarterly.

NOTE 1 - DESCRIPTION OF PLAN (continued)

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. A loan application/processing fee will be charged for each loan processed, and will be collected by debiting the participant's 401(k) account. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant's Notes fund. The loans are secured by the balance in the participant's account and bear interest at the prime rate (as listed in the Wall Street Journal), plus one percentage point. Principal and interest repayments will be made by means of payroll withholding according to the terms of the promissory note, with repayments to be made no less frequently than quarterly.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a period not to exceed the life expectancy of the participant or the participant's beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Plan Costs - The employer absorbs significant costs of the Plan. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Most administrative expenses are reimbursed by the Company. Administrative and trust expenses paid by the Company not charged to the Plan amounted to $11,500 for the year ended December 31, 2011.

Forfeitures - The nonvested portion of terminated employees' accounts will be reallocated to remaining participants' accounts. At December 31, 2011 and 2010, there were $197 and $176 in forfeited accounts, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance.

Payment of Benefits - Benefits are recorded when paid.

NOTE 3 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 1995, the Plan entered into a group annuity contract with Great-West, who provides enrollment, record keeping, and investment allocation services. The group annuity contract provides the Plan with a funding vehicle that includes a variety of investment options, which are either guaranteed or variable. Guaranteed investments are backed by the general account of Great-West. Variable investments are made through units of Great-West's separate accounts, which invest in mutual funds. Great-West maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

NOTE 3 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

The contract is included in the financial statements at contract value, as reported to the Plan by Great-West. Contract value represents contributions made under the contract, plus earnings, and adjustments in value of the underlying assets, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Guaranteed Certificate Fund is a Guaranteed Sub-Account, whereby credited interest rates, are credited to deposits held for varying interest guarantee periods. The credited interest rate on an annual effective basis will be compounded daily and will equal the annual effective rate declared by the insurance company. A deposit to the Guaranteed Certificate Fund until the certificate maturity date will earn a credited interest rate for the certificate's interest guarantee period.

As described in Note 2, because the Guaranteed Certificate Fund is fully benefit-responsive, contract value is the relevant measure attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the Guaranteed Certificate Fund account in the Great-West investment contract at December 31, 2011 and 2010 was $463,888 and $404,266, respectively.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Based on interest rate credited to participants	**2.03%**	2.43%

NOTE 4 – UNAUDITED INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

The December 31, 2011 and 2010 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2011, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Plan Custodian in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $2,979,171 and $2,645,989 at December 31, 2011 and 2010, respectively; participant loans of $204,609 and $206,518 at December 31, 2011 and 2010, respectively; and increase in net assets available for benefits of $331,273 before accrual basis increases of $23,555 for the year ended December 31, 2011. The information certified by Great-West is provided on the cash basis. Data provided by Great-West is prepared on the cash basis.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 6 – BENEFITS PAID TO PARTICIPANTS

Benefits paid during the year ended December 31, 2011 include withdrawals of $67,769. As of December 31, 2011, all participants who have elected to withdraw from the plan have been paid.

NOTE 7 – CONCENTRATIONS OF CREDIT RISK

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement to net assets available for benefits.

NOTE 8 – INVESTMENTS

The following presents investments at December 31, 2011 and 2010 that represent 5% or more of the Plan's net assets:

Investment	2011	2010
Guaranteed Portfolio Fund	$ **463,888**	$ 404,266
Maxim Moderate Profile II	**463,372**	409,283
Maxim Aggressive Profile II	**296,457**	278,033
Oppenheimer Capital Appreciation A	**0**	240,938
Lord Abbett Value Opportunities A	**151,477**	154,549
Maxim S & P 500 Index	**163,300**	151,027
Maxim American Century Growth Portfolio	**270,511**	0

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), depreciated in value by $90,580.

NOTE 9 – FAIR VALUE MEASUREMENTS

U.S. generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 9 – FAIR VALUE MEASUREMENTS (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value.

	Assets at Fair Value as of December 31, 2011		
	Level 1	Level 2	Level 3
Pooled Separate Accounts	$ 0	$ 2,515,283	$ 0

Guaranteed Investments	0	404,266	0
Total Assets at Fair Value	$ 0	$ 2,645,989	$ 0

NOTE 10 – RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

Form 5500, Schedule H is prepared on the cash basis, and contributions are recognized on the date of receipt by Great-West, who administers the investment contract. These financial statements are prepared using generally accepted accounting principles (GAAP), and contributions are recognized on the date the contribution was withheld from the participant's pay (for employee contributions); and on the date the contribution was committed to by the employer (for the safe harbor matching contribution). Differences exist in the accounting treatment between the cash basis and GAAP. The following is reconciliation between the financial statements and Schedule H of Form 5500 as of December 31:
