To the Board of Directors
Paragon Medical, Inc. 401(k) Plan
Pierceton, Indiana

We were engaged to audit the accompanying statements of net assets available for benefits of **Paragon Medical, Inc. 401(k) Plan** as of December 31, 2011 and 2010, and the related statement of net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by American United Life Insurance Company, the current trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2011, and as of December 31, 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the current and former trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the Paragon Medical, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all employees of Paragon Medical, Inc. and its wholly owned subsidiary Pendleton Technologies, Inc. (collectively the "Company"). An employee becomes eligible to enter the Plan on the first day of the month following the attainment of age 18 and the completion of one year of service, as defined by the Plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

Each year, participants may elect to contribute a percentage of their pretax annual compensation to the Plan, as defined in the Plan agreement. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Effective January 1, 2011, the Plan was amended to provide safe harbor matching contributions for eligible participants equal to 100% of participant's elective deferrals up to 3% of compensation, plus 50% of elective deferrals between 3% and 5%. Contributions are invested in a manner similar to participant contributions and are subject to certain limitations.

The Company may also make discretionary matching contributions that will be allocated in accordance with the Plan document in proportion to participants' compensation for the applicable plan year; however none were made for the year ended December 31, 2011.

Participant accounts:

Each participant's account is credited with the participant's contribution, an allocation of the Company's safe harbor contribution, the Company's discretionary profit sharing contribution (if any), Plan earnings, and charged with any withdrawals and an allocation of certain administrative expenses. Income and realized and unrealized gains and losses on investments are allocated to the participant accounts on each valuation date based on the earnings of the directed investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their voluntary contributions, employer matching and discretionary contributions, plus actual earnings thereon.

Note receivables from participants:

The Plan allows participants to borrow from their accounts a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are issued for a minimum of \$1,000. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. The term repayment cannot exceed five years, unless the loan is used to acquire the participant's principal residence. Payments are due each pay period, primarily through payroll deduction.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are classified as distributions upon the terms of the plan document.

Benefit payments:

Benefit payments are payable as a single lump-sum payment. The full value of a participant's account is payable upon retirement, death or disability. For termination of service due to other reasons, a participant may elect to receive a lump-sum amount, rollover into another qualified plan or remain in the Plan as an inactive participant. Benefits are recorded when paid.

Administration of Plan assets:

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses for the 2011 Plan year consisting of trustee fees were paid directly by the Plan.

Termination of the Plan:

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions set forth in ERISA. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment contracts:

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in contracts through a guaranteed fixed investment account. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully-benefit responsive investment contracts from fair value to contract value if significant. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. As of and for the year ended December 31, 2011, the adjustment from fair value to contract value was not material.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes To Financial Statements

Investment securities, in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Fair value measurements:

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 Measurements) and the lowest priority to unobservable inputs (Level 3 Measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at the total of the net asset value ("NAV") of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the insurance company.

Guaranteed investment account: Valued at fair value by discounting the related cash flows based on rate guaranteed with the trustee or the current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Subsequent events:

The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 9, 2012, the date the financial statements were available to be issued.

Notes To Financial Statements

New accounting pronouncements:

In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, "Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04)". ASU 2011-04 amended ASC 820, "Fair Value Measurements and Disclosures", to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan's management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Information Certified by American United Life Insurance Company ("AUL")

The Plan administrator has elected the method of compliance as permitted by CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by AUL, except for comparing such information certified by the trustee to information included in the Plan financial statements and supplemental schedules.

The following table presents the values of the Plan's assets as reported by AUL at December 31, 2011 and 2010 respectively. Single assets representing more than 5 percent of the Plan's net assets are separately identified.

AUL also certified as to the completeness and accuracy of \$490,987 and \$462,482 of notes receivable from participants as of December 31, 2011 and 2010 respectively.

AUL certified as to the completeness and accuracy of (\$55,994) of net depreciation in fair value of investments and \$35,462 of interest and dividends related to the aforementioned investments for the year ended December 31, 2011. AUL certified interest earned from notes receivable from participants of \$23,345 during the year ended December 31, 2011.

⁽²⁾ This asset class seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P 500 MidCap 400® (the "Index") over the long term.

⁽³⁾ The asset class seeks capital appreciation by investing in equity securities of small-capitalization companies in the capitalization range of the Russell 2000 Growth Index. Ideal companies have substantial cash flows, reliable revenue streams, superior competitive positions and strong management.

⁽⁴⁾ This asset class seeks to achieve its objective by investing in a set of underlying collective trust funds representing various asset classes. Each fund is managed to a specific retirement year. Over time the allocation of asset classes and funds change according to the retirement date. The stocks eventually transition to a fixed fund and income securities upon retirement. All investment options in this category have the potential to lose value.

⁽⁵⁾ Fund seeks long-term capital appreciation. The fund seeks to maintain a diversified portfolio of equity securities on non-U.S. issuers based on individual stock selection and emphasize a bottom-up approach to investing that seeks to identify securities of undervalued issuers.

⁽⁶⁾ This asset class invests in primarily fixed securities and is designed to provide a return that offers low volatility over a reasonably long period of time.

⁽⁷⁾ This asset class invests in bonds with short maturities having moderate to high volatility. Due to the bonds having lower credit ratings than other types of bonds they generally have greater risk than other types of bonds.

Note 5. Income Tax Status and Uncertain Tax Positions

Effective, May 1, 2010, the Plan adopted a non-standardized form of a prototype plan sponsored by AUL. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since this date; however the Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Notes To Financial Statements

The Plan's administrator has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2008.

Note 6. Related Party Transactions

Certain Plan assets are currently managed by AUL. AUL performs services for the plan and; therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to AUL for the investment management services were not material for the year ended December 31, 2011.

Note 7. Subsequent Event

Effective January 1, 2012 the Plan was amended to discontinue safe harbor matching contributions and utilize discretionary employer matching contribution as determined by the plan's management. Also effective January 1, 2012, the Plan was amended to allow Roth contributions.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
