INDEPENDENT AUDITORS' REPORT

To the Plan Committee of the
Innovage 401(k) Plan
Foothill Ranch, California

We were engaged to audit the financial statements of the Innovage 401(k) Plan ("the Plan") as of December 31, 2011 and 2010, and for the year ended December 31, 2011, and the supplemental schedule as of December 31, 2011, as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by State Street Bank And Trust Company ("State Street"), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

INNOVAGE 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE A: **Description Of Plan** - The following description of the Innovage 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(1) General - The Plan is a defined contribution plan which was adopted by Innovage, LLC ("the Company") effective January 1, 2002, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for substantially all employees who have completed at least six months of service and are age 18 or older.

(2) Contributions - Participants may elect to contribute between 1 and 50 percent of their annual wages up to a maximum deferral limitation, as prescribed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Prior to 2010, the Plan allowed for Company Safe Harbor enhanced matching contributions and discretionary non-elective contributions. Effective January 1, 2010, the Plan was amended to eliminate the Safe Harbor matching and discretionary contributions.

(3) Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(4) Vesting - Participants are immediately vested in their contributions plus actual earnings thereon, as well as in the Company's Safe Harbor enhanced matching contributions. Vesting in the Company's discretionary non-elective contributions made prior to 2010, if any, is based on years of continuous service. A participant is vested at the rate of 20 percent each year after one year of service and is considered to be 100 percent vested after five years of credited service.

(5) Notes Receivable From Participants - Participants may borrow against their account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. The loan amount can be a minimum of $500, but cannot exceed the lesser of (a) one-half of the participant's non-forfeitable interest under the Plan, or (b) $50,000.

NOTE A: **Description Of Plan** - (Continued)

(5) Notes Receivable From Participants - (Continued)

The loans are secured by the vested balance in the participant's account. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest is paid ratably through bi-weekly payroll deductions.

(6) Benefit Payments - Upon termination of service due to death, disability, retirement, or for other reasons where vested value is more than $5,000, a participant may elect to receive either a lump-sum distribution equal to the vested portion of his or her account or an annuity over the life of the participant or designated beneficiary, as defined in the Plan document. For termination of service outside of death, disability and retirement where the vested value is no more than $5,000, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59 ½ , the participant is allowed to withdraw funds from the Plan.

(7) Forfeitures - Forfeitures of the Company's non-elective contributions are used to reduce future employer contributions and administrative fees. There were no forfeitures available for utilization for the year ended December 31, 2011.

(8) Administrative Expenses - Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of the administrative expenses are absorbed by the plan sponsor, except for fees related to administration of participant loans, which are deducted from the applicable participants' accounts.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair values of investments.

NOTE B: **Significant Accounting Policies** - The following are the significant accounting policies followed by the Plan:

(1) Basis Of Accounting - The financial statements are prepared on the accrual method of accounting and in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

NOTE B: **Significant Accounting Policies** - (Continued)

(2) Investment Valuation And Income Recognition - The Plan's investments are stated at fair value at December 31, 2011 and 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note M for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a stable asset fund which is a fully benefit-responsive investment contract. The financial statements have not been adjusted to represent the contract value of the stable value fund at December 31, 2011 and 2010, as the contract value of the fully benefit-responsive contract approximated fair value.

Purchases and sales of investments are recorded as of the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits in net realized and unrealized gains (losses) on investments.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

(3) Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

(4) Payment Of Benefits - Benefits are recorded when paid.

(5) Use Of Estimates - The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE B: **Significant Accounting Policies** - (Continued)

(6) New Accounting Pronouncement - In May 2011, the FASB issued ASU 2011-04, "*Fair Value Measurement (Topic 820)*". ASU 2011-04 clarifies the FASB's intent about the application of existing fair value measurement and disclosure requirements and changes some principles or requirements for measuring fair value or disclosing information about fair value measurements to coincide with International Financial Reporting Standards (IFRS). ASU 2011-04 is effective for annual periods beginning after December 15, 2011. The Plan is currently evaluating the impact of the provisions of ASU 2011-04 on the presentation of its financial statements.

NOTE C: **Concentrations, Risks And Uncertainties** - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE D: **Information Prepared And Certified By State Street Bank And Trust** - The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee:

	December 31, 2011	December 31, 2010
Investments At Fair Value:		
Registered Investment Companies	$ 2,731,823	$ 2,826,211
Common/Collective Trust	421,782	317,379
Notes Receivable From Participants	81,433	111,551

The trustee also certified the completeness and accuracy of $4,317 of interest income from the common/collective trust, $87,307 of net depreciation in fair value of investments in registered investment companies, $63,124 of dividend income from registered investment companies, and $5,210 of interest income related to participant notes receivable for the year ended December 31, 2011.

NOTE E: **Investments** - The following table presents investments that represent 5 percent or more of the Plan's net assets:

	2011	2010
Registered Investment Companies:		
Fidelity Advisor Lev Co Stk	$ Under 5%	$ 244,711

Stable Value Fund	-	317,379
Stable Asset Fund	421,782	-
Total Investments	$ 3,153,603	$ 3,143,590

NOTE F: **Stable Value Fund/Stable Asset Fund** - The Stable Value Fund is a group of benefit-responsive investment contracts issued by State Street, held by a common/collective trust. The Stable Value Fund seeks to achieve a stable unit value of $1.00 and a competitive current return with a high quality, diversified, and very liquid portfolio. As such, the Fund invests in a representation of guaranteed investment contracts, bank investment contracts and/or a wrapped portfolio of fixed income instruments ("Synthetic Contracts" or "Synthetic GICs"). Collectively, these contracts are referred to as investment contracts. Effective January 21, 2011, all assets of the Stable Value Fund were transferred to the Stable Asset Fund described below.

The Stable Asset Fund (the "Fund") is a collective trust established by Invesco National Trust Company. The Fund seeks the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. As such, the Fund invests in wrapped portfolios (debt securities or units of collective trusts) of guaranteed investment contracts ("Synthetic GICs"). Collectively, these contracts are referred to as investment contracts.

Investments in investment contracts ("GICs") are stated at contract value which is equal to principal balance plus accrued interest. An investment contract is generally valued at contract value rather than fair value, to the extent it is fully benefit-responsive and held by a trust offered only to qualified employer-sponsored defined contribution-plans. Investment contracts that do not meet the criteria for valuation at contract value are valued at fair value as determined by the trustee, and such value may be more or less than contract value.

NOTE F: **Stable Value Fund/Stable Asset Fund** - (Continued)

Investment transactions are accounted for on the trade date. Interest income is recorded on the accrual basis and reinvested daily. Distributions received from collective investment funds are recorded on the accrual basis and retain the character of income as earned by the underlying fund. Income from investment contracts is recorded at the contract rate, which in the case of synthetic investment contracts is referred to as the crediting rate. Crediting rates on synthetic contracts are net of fees to the issuer of the wrap contract ("wrap fees") and custody fees on underlying assets. For fully benefit-responsive synthetic investment contracts, earnings on the underlying assets are factored into the next computation of the crediting rate reset.

The average yield earned by the Fund for the year ended December 31, 2011 was 1.29 percent, and the crediting interest rate paid to participants was 1.72 percent.

There are certain employer initiated events which could limit that ability of the Plan to transact at contract value with the issuer. These events include plant closings, layoffs, plan termination, bankruptcy or reorganization, merger, early retirement incentive programs, tax disqualification of a trust of other events.

Issuers may terminate the investment contract if the Fund is in default and is not cured. The following (among other events) may cause the Fund to be in default; a breach of material obligation under the contract, a material misrepresentation, a material amendment to the trust agreement, in the administration of the trust or in the investment of Fund assets without consent from the issuer, and an uncured violation of the Fund's investment guidelines.

In addition, at any time after the second anniversary of the contract, the issuer may elect to terminate the contract by giving notice to the trustee. However, if the trustee objects to such election, the trustee shall be deemed to have made an immunization election and the immunization provisions of the contract apply.

NOTE G: **Excess Contributions Payable** - ERISA requires the Plan to satisfy certain nondiscrimination provisions. For the year ended December 31, 2011, the Plan was not required to return some contributions in order to satisfy these provisions. For the year ended December 31, 2010, the Plan was required to return some contributions in order to satisfy these provisions. At December 31, 2010, the contributions payable were $2,509.

NOTE H: **Plan Termination** - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

NOTE I: **Withdrawn Participants** - At December 31, 2011 and 2010, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not been paid.

NOTE J: **Tax Status** - The Plan is based on the Prototype Non-Standardized Profit Sharing Plan with Automatic Data Processing, Inc., the record keeper of the Plan, which received a determination letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the Prototype Plan was designed in accordance with the provisions of the Internal Revenue Code (IRC). The Plan has not filed for its own determination letter from the IRS. In addition, the Plan has been amended since receiving the determination letter for the Prototype Plan. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE K: **Party-In-Interest** - The notes receivable from participants represent loans to employees, and therefore, qualify as party-in-interest transactions**.**

NOTE L: **Differences On Form 5500 -** The financial statements have been prepared on the accrual basis as required by generally accepted accounting principles. However, for the years ended December 31, 2011 and 2010, the Form 5500 filed with the Internal Revenue Service has been prepared on the cash basis.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2011	2010
Net Assets Available For Benefits Per The Financial Statements	$ 3,239,946	$ 3,259,846
Less: Participant Contributions Receivable	(4,910)	(7,214)
Add: Excess Contributions Payable	-	2,509
Net Assets Available For Benefits Per The Form 5500	$ 3,235,036	$ 3,255,141

NOTE L: **Differences On Form 5500** - (Continued)

The following is a reconciliation of contributions received per the financial statements to the Form 5500:

Contributions Received Per The Financial Statements	$ 283,849
Add: Prior Year Participant Contributions Receivable	7,214
Less: Current Year Participant Contributions Receivable	(4,910)
Contributions Received Per The Form 5500	$ 286,153

The following is a reconciliation of expenses per the financial statements to the Form 5500:

Total Expenses Per The Financial Statements	$ 289,093
Add: Prior Year Excess Contributions Payable	2,509
Total Expenses Per The Form 5500	$ 291,602

NOTE M: **Fair Value Measurements** - Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *"Fair Value Measurements and Disclosures,"* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE M: **Fair Value Measurements** - (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered Investment Companies: The registered investment funds invest primarily in mutual funds. The value of mutual funds is determined by fair market value for each fund and is based upon quotations obtained from national securities exchanges and over-the-counter associations for the underlying investments in the funds.

Stable Value Fund/Stable Asset Fund: The stable value fund/stable asset fund is held in a common/collective trust. The fair value of the fund is the amount the Plan sponsors would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE M: **Fair Value Measurements** - (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Registered Investment Companies:

NOTE M: **Fair Value Measurements** - (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2011:

	Stable Value Fund	Stable Asset Fund
Beginning Balance	$ 317,379	$ -
Interest And Dividends	-	4,107
Realized And Unrealized Gains (Losses)	210	-
Purchases	10,405	176,582
