REPORT OF INDEPENDENT AUDITORS

To the Board of Directors
Matanuska Valley Federal Credit Union Capital Accumulation Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of Matanuska Valley Federal Credit Union Capital Accumulation Plan (the Plan) as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplementary Schedule H, line 4(i) – Schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplementary schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2010, were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the other auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the Trustee. Their report, dated October 14, 2011 indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulation for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 7, which was certified by CUNA Mutual Group, and Marshall and Ilsley Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplementary schedules. We have been informed by the plan administrator that CUNA Mutual Group held the Plan's investments assets and executed investment transactions from June 1, 2011, to December 31, 2011, and that Marshall and Ilsley Trust Company held the Plan's investment assets and executed investment transactions for the period from January 1, 2011 to June 1, 2011. The plan administrator has obtained a certification from the trustees as of December 31, 2011, and for the year ended December 31, 2011, as detailed above, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary schedule taken as a whole. The supplementary schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplementary schedule, other than that derived from information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS**

Note 1 – Description of the Plan

The following description of the Matanuska Valley Federal Credit Union Capital Accumulation Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 401(k) salary deferral plan covering all employees of Matanuska Valley Federal Credit Union, and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Matanuska Valley Federal Credit Union (the Company) is the Plan's sponsor and its Board of Directors serves as the plan administrator.

Eligibility – All employees of the Company are eligible to participate in the Plan on the first pay period following 90 days of employment. Employees are eligible to receive employer matching contributions upon meeting the eligibility requirements for entrance into the plan. Employees become eligible for profit sharing contributions after completion of one year of service in which 1,000 hours of service were completed.

Contributions – Each year participants may elect to contribute between 2% and the maximum amount allowed of eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may elect to make discretionary matching and profit sharing contributions to the Plan. The Company matches 25% of employee contributions for employees with less than 5 years of service and 50% for employees with 5 or more years of service, up to 10% of eligible compensation deferred to the Plan. Discretionary profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. Participants must be employed with the Company at the end of the Plan year to share in the allocation of the discretionary profit sharing contribution. There were no profit sharing contributions for the year ended December 31, 2011. Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and forfeitures – Participants are always 100% vested in employee and employer contributions including earnings. There are no forfeitures in the Plan.

CAPITAL ACCUMULATION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of the Plan (continued)

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are secured by the balance of the participant's account and bear fixed, reasonable rates of interest, as determined by the plan administrator. The maximum loan term is five years unless the loan term qualifies as a home loan, in which case the term of the loan is not to exceed ten years. Principal and interest are paid ratably through payroll deductions. As of December 31, 2011, the rate of interest on the outstanding loans ranged from 4.25% to 9.25%, with various maturities through December 2015.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant receives a lump-sum amount equal to the value of the participant's account balance. Benefit distributions can be automatically made for participants with vested account balances of \$1,000 or less. For participants with vested account balances greater than \$1,000, distributions are made after a request is received. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent accounting pronouncements

ASU No. 2010-06 – In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements*. The guidance, which was effective for reporting periods beginning after December 15, 2009, required additional disclosures about transfers between levels within the fair value hierarchy, and clarified existing disclosure requirements regarding classes of assets and liabilities measured at fair value. Additional guidance which is effective for reporting periods beginning after December 15, 2010 requires the Plan to present information about purchases, sales, issuances, and settlements on a gross basis in the reconciliation of the beginning and ending balance of Level 3 fair value measurements. The Plan adopted the Level 3 reconciliation disclosures, if any, effective January 1, 2011. See Note 4.

CAPITAL ACCUMULATION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

ASU No. 2011-04 – In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. ASU No. 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. The new guidance is effective for reporting periods beginning after December 15, 2011. Plan management does not expect the adoption of ASU No. 2011-04 to have a material effect on the statement of net assets available for benefits and statement of changes in net assets available for benefits.

Investment valuation – Investments are stated at fair value as certified by the Plan’s trustees.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the ‘exit price’) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Authoritative guidance requires the statements of net assets available for benefits present the fair value of the investments, as well as the adjustment from fair value to contract value for fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

CAPITAL ACCUMULATION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Payment of benefits – Benefits are recorded when paid.

Expenses – Administrative expenses are paid by the Company. Certain transaction fees are paid by the Plan.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are issued.

The Plan has evaluated subsequent events through October 8, 2012, which is the date the financial statements were issued.

Note 3 – Investments

Investments representing 5% or more of net assets available for benefits consist of the following as of December 31:

	2011	2010
Vanguard Institutional Index Fund	\$ 807,901	\$ 825,531
Vanguard Extended Market Index Fund	617,991	650,029
Vanguard Total Bond Market Index Fund	599,422	534,387

NOTES TO FINANCIAL STATEMENTS

Note 4 – Fair Value Measurements

In accordance with authoritative guidance, the Plan classifies its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

The three levels of the fair value hierarchy are described below:

Basis of fair value measurement

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access;

Level 2 – Inputs to the valuation methodology are quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly;

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (mutual funds) and common collective trusts – Value determined by obtaining quoted market prices on nationally recognized security exchange and is classified within Level 1 of the valuation hierarchy.

Stable value fund – The Deposit Administration Group Annuity Contract with CUNA Mutual Group (CUNA) is a group annuity contract that seeks a high level of current income consistent with preservation of capital by investing in U.S. government securities. The Stable Value Fund is guaranteed by CUNA Mutual Insurance Society. Each contract contains a provision that the issuer will, if required, repay principal at the stated contract value for the purpose of paying benefit payments (fully benefit-responsive). CUNA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value equals fair value reported on the Statement of Net Assets available for benefits because the discount rate equals the current credited rate.

MATANUSKA VALLEY FEDERAL CREDIT UNION
CAPITAL ACCUMULATION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 4 – Fair Value Measurements (continued)

There are no reserves against the contract for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates ranged from 2.75% - 3.00% for 2011. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a periodic basis for resetting. The number of units of the trust that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a group annuity contract is classified within Level 2 of the valuation hierarchy.

The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value as of December 31, 2011 and 2010:

Investment Assets at Fair Value as of December 31, 2011				
	Level 1	Level 2	Level 3	Total

Note 5 – Tax Status

The Plan document is a prototype standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on September 15, 2010, which stated that the Plan, as then designed, was acceptable for use by employers for the benefit of their employees with respect to the applicable sections of the Internal Revenue Code (IRC). Although the Plan was amended since the opinion letter was received, the plan administrator and tax counsel believe the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), the plan administrator evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 7 – Information Certified by the Trustees

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, CUNA Mutual Group and Marshall and Ilsley Trust Company, the trustees of the Plan, has certified to the completeness and accuracy of:

- Mutual funds at fair value, collective trust, group annuity contracts at contract value, and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010.
- Net appreciation and depreciation in fair value of mutual funds, earnings from collective trust, dividends, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2011.
- Investments reflected on the supplementary schedule of assets (held at end of year).

CAPITAL ACCUMULATION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 8 – Party-in-Interest Transactions

Plan investments include shares of registered investment company funds managed by CUNA. CUNA is the custodian as defined by the Plan and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

Note 9 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

Note 10 – Reconciliation to Form 5500

The following are reconciliations of net assets available for benefits and changes in net assets available for benefits between the financial statements and the Form 5500 as of December 31, 2011 and for the year ended December 31, 2011:

Net assets presented on Form 5500	\$ 5,372,791
