Independent Auditor's Report

Plan Administrator
AmeriCash Loans, LLC Retirement Plan
Des Plaines, Illinois

We were engaged to audit the financial statements of **AmeriCash Loans, LLC Retirement Plan** as of and for the year ended December 31, 2011, and the supplemental schedule as of December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the plan's management. Blackman Kallick, LLP was engaged to audit the financial statement of the plan as of December 31, 2010, and their report dated October 13, 2011, expressed a disclaimer of opinion on that statement for the same circumstances indicated below. Blackman Kallick, LLP subsequently merged into Plante & Moran, PLLC.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by State Street Bank and Trust Company, the trustee of the plan from January 1, 2011 through August 31, 2011 and Principal Trust Company and Principal Life Insurance Company, the custodians of the plan from September 1, 2011 through December 31, 2011, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee and custodians as of and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee and custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the 2011 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of AmeriCash Loans, LLC Retirement Plan (the plan) provides only general information. Participants should refer to the plan agreement for a more comprehensive description of the plan's provisions.

General

The plan is a defined contribution plan established by AmeriCash Loans, LLC and Subsidiaries (the company) and covers all employees of the company. The company is the plan administrator. State Street Bank and Trust Company was the trustee for the period from January 1, 2011 through August 31, 2011. Jill Gruchot is the plan trustee as of September 1, 2011. Automatic Data Processing (ADP) was the plan's record keeper for the period from January 1, 2011 through August 31, 2011. Principal Financial Group is the plan's record keeper as of September 1, 2011. The plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Eligibility

Any employee of the company who has attained 18 years of age and has completed one year of service is eligible to participate in the plan on the first day of the following month following the date the employee satisfies the eligibility requirements.

Participant Contributions

Participants may elect to make 401(k) deferral contributions up to 15% of their compensation, as defined in the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute, with the consent of the plan trustee amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan. Participants may change their investment options at any time.

Employer Contributions

The plan was amended to discontinue matching contributions subsequent to March 10, 2009. Effective September 1, 2011, the company began making matching contributions equal to 50% of the first 5% of eligible compensation that a participant contributed to the plan. Employer contributions totaled $6,912 for the year ended December 31, 2011. The company may make a discretionary, nonelective, profit sharing contribution. Participants must be employed on the last day of the plan year in order to receive an allocation of the discretionary profit sharing contribution. No such contribution was made in 2011 or 2010.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, the employer's matching contribution and allocations of the employer's discretionary contribution and plan earnings, and charged with an allocation of plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. The matching and discretionary nonelective profit-sharing contributions vest according to the following schedule:

Number of Years	Vested Equity
1	25%
2	50%
3	75%
4 or more	100%

Forfeitures

Forfeitures shall be applied to reduce future employer contributions. As of December 31, 2011 and 2010, forfeited nonvested accounts totaled $7,919 and $4,534, respectively. These accounts will be used to reduce future employer contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years, except if a loan is used for the purchase of a principal residence, in which case the loan is not to exceed 30 years. The loans are secured by the balance in the participant's account and bear interest at the prime rate, as published in The Wall Street Journal, plus two percentage points. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon termination of service due to death, disability or retirement. The total vested portion of a participant's account is typically distributed in the form of a lump-sum amount. In-service withdrawals starting at age 59½ and hardship withdrawals are also permitted by the plan.

Administrative Expenses

Administrative expenses are paid by the plan to the extent not paid by the company. Participants are assessed fees for the administration of their benefit payments and participant loans. These fees are deducted directly from the participant's accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments

Investments are reported at fair value in accordance with accounting principles generally accepted in the United States of America (GAAPUSA). See Note 3 for a discussion of fair value measurements.

Effective January 1, 2010, the plan adopted new guidance that requires it to report significant transfers between Level 1 and Level 2 and the reasons for those transfers, as well as disclosing the reasons for transfers in or out of Level 3. Additionally, the guidance requires the plan to clarify existing disclosure requirements about the level of disaggregation and inputs and valuation techniques. The adoption of this guidance did not have a significant impact on the plan's financial statements, other than expanded disclosures.

The new guidance also requires the reconciliation of changes in Level 3 fair value measurements to present purchases, sales and settlements separately on a gross basis rather than as a net amount, effective for fiscal years beginning after December 15, 2010. The adoption of the guidance for Level 3 activity did not have a significant impact on the plan's financial statements, other than expanded disclosures.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The plan's investments are exposed to various risks, such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and could materially affect the amounts reported in the statements of net assets available for benefits.

Principal Fixed Income Guaranteed Option

Under GAAPUSA, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Principal Fixed Income Guaranteed Option qualifies as a fully benefit-responsive investment contract. GAAPUSA requires investments in fully benefit-responsive investment contracts to be presented at fair value in the statements of net assets available for benefits. The amount representing the difference between fair value and contract value of these investments is also required to be presented as a separate line item in the statements of net assets available for benefits. The fair value of the investment contract approximated contract value as of December 31, 2011. The plan invests in fully benefit-responsive contracts held in the Principal Fixed Income Guaranteed Option and is subject to the previously mentioned reporting requirements. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2 - Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Management Estimates

The preparation of financial statements in conformity with GAAPUSA requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Subsequent Events

The plan administrator has evaluated subsequent events through October 11, 2012, the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

GAAPUSA defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under GAAPUSA, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

GAAPUSA describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. GAAPUSA does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

Note 3 - Fair Value Measurements (Continued)

The plan's investments are classified in one of the following three categories based on the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in inactive markets.

- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

As of December 31, 2011 and 2010, the following valuation methodologies have been used to value the plan's investments:

- Mutual funds - Valued at the reported net asset value (NAV) of the shares held by the plan at year-end.

- Common collective trusts - Valued at the NAV per unit as determined by the manager of the trusts. Such NAV is based on the value of the underlying assets and liabilities of the trusts. The investment objectives of the trusts held by the plan may vary and can be determined based on the nature of the investments held as presented in the table below. Participants may transfer in and out of such trusts on a daily basis without any prohibitive restrictions. There were no unfunded commitments.

- Pooled separate accounts - Valued at the NAV per unit as determined by the insurance company or contract administrator. Such NAV is based on the value of the underlying assets and liabilities of the account. There were no unfunded commitments.

- Group annuity contract - Valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer to arrive at contract value. Fair value is the amount plan participants would receive currently if they were to withdraw or transfer funds within the plan prior to their maturity.

Note 3 - Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following tables summarize by level within the fair value hierarchy the plan's investments accounted for at fair value on a recurring basis as of December 31, 2011 and 2010:

For the year ended December 31, 2011, the plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Mutual Funds	$ (12,775)
Common Collective Trusts	20,596
Pooled Separate Accounts	114
Total	**$ 7,935**

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, Principal Trust Company and Principal Life Insurance Company, the trustee and custodians of the plan, have certified to the completeness and accuracy of the plan's investments reflected in the statements of net assets available for benefits and the schedules of assets held as of December 31, 2011 and 2010, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years then ended, as indicated above and in total.

Note 5 - Investment Contracts with Principal Life Insurance Company

The plan has entered into a benefit-responsive guaranteed investment contract with Principal Life Insurance Company (PLIC). PLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract approximated contract value as of December 31, 2011. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than the Guaranteed Minimum Interest Rate as defined by the contract. In no case will the Guaranteed Minimum Interest Rate be less than 1% or greater than 3%. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the custodial account to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan Administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2011
Based on actual earnings	2.78%
Based on interest rate credited to participants	2.78%

Note 6 - Party-in-Interest Transactions

The plan holds investments managed by Principal Trust Company and Principal Life Insurance Company, the custodians of the plan and, therefore, transactions in such investments qualify as party-in-interest transactions, which are exempt under the prohibited transaction rules.

Note 7 - Plan Termination

Although the company has not expressed any intent to do so, it has the right under the plan to discontinue contributions and to terminate the plan at any time, subject to the provisions of the ERISA. In the event of plan termination, participants will become 100% vested in all of their account balances.

Note 8 - Income Tax Status

The plan has adopted prototype plan documents sponsored by Pension Specialists, Ltd. Pension Specialists, Ltd. has represented to the plan that, as designed, the plan is in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the plan's qualified status.

GAAPUSA requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011and 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9 - Subsequent Event

Effective August 1, 2012, the company began making matching contributions equal to 50% of the first 6% of eligible compensation that a participant contributed to the plan.

Note 10 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2011 and 2010:

	2011	2010
Net assets available for benefits per the financial statements - Accrual basis	$ 630,103	$ 720,970
Participant contributions receivable as of December 31, 2010	-	(4,389)
Excess contributions due to participants	422	-
Net assets available for benefits per Form 5500 - Cash basis	**$ 630,525**	**$ 716,581**

The following is a reconciliation of the change in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2011:

Increase in net assets available for benefits per the financial statements - Accrual basis	$ (90,867)
Participant contributions receivable as of December 31, 2010	4,389
Current year excess contributions due to participants	422
Increase in net assets available for benefits per Form 5500 - Cash basis	**$ (86,056)**
