NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Corrigan Employment, L.L.C. Profit Sharing and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) profit sharing plan established by Corrigan Employment L.L.C. (the "Company") on January 1, 1988 covering all non-collectively bargained employees who are age 21 or older and have completed ninety days of service as defined by the Plan. For matching and discretionary profit sharing contributions, participants will be eligible once they have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Custodian

ING Life Insurance and Annuity Company is the Plan's custodian. The custodian invests all employee and employer contributions, as well as earnings thereon, pursuant to the terms of the Plan.

Contributions

The Plan allows participants to elect to defer a portion of their compensation up to 80% plus any catch-up contributions, not to exceed the maximum amounts allowed under the Internal Revenue Code, subject to statutory limits. The amount of the participant's deferred compensation is treated as a participant elective contribution, allocated to that participant's elective account, and is 100% vested at the time of contribution. The employer may make a discretionary match or a discretionary profit sharing contribution to the Plan as determined each year by the employer. Contributions are accumulated and invested, as directed by participants, in a trust fund held by the custodian, ING Life Insurance and Annuity Company.

During the year ended December 31, 2011, the Company approved a 1% of compensation profit sharing contribution of \$68,129 which was contributed in 2012. During the year ended December 31, 2011, the Company paid the 2010 profit sharing contribution of \$66,266.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Participant Accounts

Each participant's account is credited with an allocation of (a) the Company's matching and profit sharing contributions; (b) the employee's voluntary contributions, transfer contributions, and rollover contributions; and (c) plan earnings. The accounts are charged for any withdrawals, distributions, and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

The Plan provides that participants have no vested interest in the Company contributions until they have completed two years of service, at which time participants become 20% vested. Vesting increases by 20% each year up to 100% after six years of service. An employee is considered to have completed one (1) year of service for purposes of vesting upon completion of 1,000 hours of service at any time during a plan year. Participants are fully vested immediately with respect to employee contributions, rollovers and earnings thereon.

Investments

Participants direct the investment of their contributions under options offered by the Plan.

Forfeitures

Forfeitures may be first used to pay plan expenses and then used to reduce employer contributions to the Plan and are applied in the year following the year of forfeiture. During the year ended December 31, 2011, no forfeitures were used to pay plan expenses. At December 31, 2011 and 2010, the balance in forfeited non-vested accounts totaled \$4,864 and \$684, respectively.

Payment of Vested Benefits

Participants, or their beneficiaries, are entitled to receive the entire amount of their interests in the Plan upon retirement, death, total or permanent disability, employment termination, or reaching the age of 65, as defined in the Plan. Early retirement provisions exist for participants retiring after age 59 ½ with 7 years of service.

AND 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010**

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Distributions are allowed upon retirement, upon disability, upon death of the employee, and upon termination of service. A participant will be considered to have suffered a disability if he or she is permanently unable to perform his or her customary duties for the employer due to a mental or physical condition which can be expected to result in death, or be of a long continued and indefinite duration as determined by the Plan Administrator. If the participants vested balance is less than \$5,000, the entire sum will be distributed as soon as possible following the participant's separation from service. At December 31, 2011 and 2010, there were no requested distributions that had not been paid as of the Plan year end.

Notes Receivable from Participants

Participant loans are permitted under the Plan. The rules are covered in a separate loan application form and promissory note form, and loans must be applied for through the Plan Administrator. All loans are limited to 50% of the participant's vested account balance, provided such loan does not exceed \$50,000, are repayable over five years or less, unless the note is taken for the purchase of the participant's qualified residence. The \$50,000 maximum amount will be reduced by the participant's highest outstanding loan balance in the previous 12 months, even if amounts have been repaid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of certain accounting policies followed in the preparation of these financial statements.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Payments of Benefits

Benefits are recorded when paid.

AND 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments represent the Plan's interest in the fair value of the net assets of pooled separate accounts and guaranteed investment contracts as determined by the custodian of the Plan at December 31, 2011 and 2010. Investment transactions are reflected on a trade-date basis. Gains and losses on investment transactions are based on average costs. Investment income represents the Plan's pro rata share of the aggregate income of the investments. Also included in the change in net assets is the net appreciation (depreciation) in the fair value of investments, which consists of the realized gains or losses, and the unrealized appreciation (depreciation) of those investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses

The Plan pays administrative expenses to the extent that the Company does not pay them. Personnel and facilities of the Company have been used by the Plan for its accounting and other activities at no charge to the Plan.

Subsequent Events

Plan management has performed a review of events subsequent to the statements of net assets available for benefits date through September 26, 2012, the date the financial statements were available to be issued.

NOTE 4 - FAIR VALUE MEASUREMENTS

Investments are recorded at fair value. Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Pooled separate accounts: Valued at fair value based on the net asset value of similar shares held by the plan at year end. They are similar to mutual funds but are only available to group annuity contract holders.

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

AND 401(k) PLAN**

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

NOTE 5 – FIXED INVESTMENT

Fixed funds earn interest at the higher of the rate guaranteed under the contract or the current rates established and declared in advance by ING Life Insurance and Annuity Company. The funds are backed by ING Life Insurance and Annuity Company's general account. The account is credited with earnings on the underlying investments and is charged for participant withdrawals plus a withdrawal fee. At December 31, 2011 and 2010, the contract is included in the financial statements at contract value, which is equal to fair value, as reported to the Plan by ING Life Insurance and Annuity Company. Fixed investment value represents contributions made under contract, plus earnings, less participant withdrawals or transfer of all or a portion of their investment at contract value. The fixed investment contract is determined to not be fully benefit responsive. There are no reserves against fixed investment contract value for credit risk of the issuer or otherwise. The average rate credited to the participant accounts was approximately 3% for both years ended December 31, 2011 and 2010.

NOTE 6 – TAX STATUS

The Plan uses a prototype plan sponsored by Applied Plan Administrators Inc. The service provider received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2008, which states that the aforementioned prototype plan satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan itself is not required to and has not received a determination letter from the IRS. The Plan has been amended since receiving the determination letter, however, the plan administrator and plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

During the years ended December 31, 2011 and 2010 there were direct fees paid and transactions involving the investment of plan assets in investment funds maintained by ING Life Insurance and Annuity Company, the custodian of the Plan and Applied Plan Administrators, LLC, a third party administrator, parties-in-interest as defined in Section 3(14) of ERISA. Indirect fees paid by the plan for investment management services are included in the net investment depreciation of the fair value of investments.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend, modify, terminate or partially terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested and the net assets would be distributed to the participants according to the participant's account balances.

NOTE 9 - INVESTMENT RISK AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
