CAPSA SOLUTIONS, LLC
401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Capsa Solutions, LLC (the “Company”) 401(k) Savings Plan (the “Plan”), formerly known as the International Retail Service Group 401(k) Profit Sharing Plan, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General: The Plan is a defined contribution plan covering employees of the Company who are at least 21 years of age and have completed 6 months of service with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). As of January 1, 2010, the International Retail Service Group 401(k) Profit Sharing Plan was restated and renamed to the Capsa Solutions, LLC 401(k) Savings Plan. International Retail Service Group 401(k) Profit Sharing Plan participants were permitted to rollover their balances into the Capsa Solutions, LLC 401(k) Savings Plan following the restatement.

Participant Contributions: Each year, participants may contribute a maximum dollar amount as determined by the Federal Government. For 2011 the maximum dollar amount was \$16,500. Eligible participants who have attained age 50 prior to the close of a Plan year are also eligible to make a catch-up contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Currently, the Plan offers a number of investment options in mutual funds and a stable value fund managed by ING Life Insurance and Annuity Company (“ING”). The Company, on a discretionary basis, contributes a matching amount as a percentage of the amount a participant contributes to the Plan. For the year ended December 31, 2011, the discretionary match was 50% of the first 6% deferred by the employee. The matching Company contribution is invested in the investments as directed by the participants for their pre-tax deferrals. Additional amounts may be contributed at the option of the Company’s board of directors. Contributions are subject to certain limitations. During 2011, the Company contributed \$166,331 to the plan.

Participant Accounts: Each participant’s account is credited with the participant’s contribution and allocations of the Company’s contribution and Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon, as well as the employer matching contributions. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested in non-elective profit-sharing contributions after five years of credited service.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 and may only have one loan at a time. Loan terms range from 1 to 5 years or up to a reasonable period of time for the purchase of a primary residence. The loans are secured by the balance in the participant’s account and bear interest at a reasonable rate determined by Plan Administrator by reviewing the interest rates charged for similar types of loans by other lenders. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: If a participant’s employment ceases as a result of normal retirement, death or disability, the participant or the participant’s beneficiaries, are entitled to receive the entire contents of the account. If a participant terminates for any other reason, the participant is entitled to receive only the vested percentage of the account. Participants will receive benefits in a single lump sum.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Administrative Expenses: The costs of administering the Plan are paid for by the Company with the exception of fees charged by ING, which are paid for by the Plan.

Forfeited Accounts: At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$10,759 and \$8,443, respectively. These accounts will be used to reduce future employer contributions. For the year ended December 31, 2011, no forfeitures were used to reduce employer contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Risks and Uncertainties: The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, liquidity, and credit risks. Due to the risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Benefit Payments: Benefit payments are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America required the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

NOTE 3 – FAIR VALUE MEASUREMENTS

FASB ASC 820 defines fair value under U.S. generally accepted accounting principles, establishes a framework for measuring fair value and enhances disclosures about fair value measurements. This guidance defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. ASC 820 establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

Mutual Funds: The fair values of mutual funds are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Stable Value Fund: The fair values of participation units in the stable value fund are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (level 3 inputs). The fund invests in investment grade fixed income securities with the objective of preserving the value of funds invested, outperform other similar funds and earn consistent, reliable returns. The fund provides for daily redemptions by the Plan at reported net asset value per share, with no advance notification requirements.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – TAX STATUS

The Plan is qualified under the provisions of the Internal Revenue Code (“IRC”) and is not subject to federal and state income taxes. Participating employees are not subject to federal and state income taxes on employer contributions, or on income accruing to their accounts, until they receive distributions from the Plan.

The Plan was amended and restated effective January 1, 2010 and is relying on an opinion letter issued on March 31, 2008 in which the Internal Revenue Service stated that the Prototype Non-standardized Savings Plan with CODA, as then designed was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 6 – PARTIES IN INTEREST

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. The Plan invests in certain mutual funds managed by ING Investment Management, an affiliate of the trustee. These investments and related investment income represent party-in-interest transactions to the Plan. The fair value of investments in mutual funds with ING as of December 31, 2011 and 2010 was \$3,037,191 and \$3,139,671, respectively. Notes receivable from participants also qualify as party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 8, 2012, which is the date the financial statements were available to be issued.
