These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Hartford Life Insurance Company (the "Custodian"), the custodian of the Plan's assets, except for comparing the information with related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the Custodian as of and for the years ended December 31, 2011 and 2010, that the information provided to the Plan administrator by the Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting the Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Hyatt Holding Corporation (the "Company" or "Sponsor") 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering eligible employees of Hyatt Holding Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments.

Participation - Employees of the Sponsor over twenty-one years of age are eligible to participate in the Plan. Eligible employees may commence participation on the entry date, which is the first day of the month following the satisfaction of eligibility requirements.

Pension benefits - Employees are entitled to pension benefits, in the form of a lump-sum distribution of the total account balance, beginning at the later of age 55 or on the 5th anniversary of participation, unless an alternate form of payment is selected, as defined in the Plan agreement.

If a participant dies before retirement benefits have begun, the participant's spouse is entitled to 100% of the account balance.

Tax status - The Plan is a prototype plan offered by Hartford Life Insurance Company (the "Custodian"). The Internal Revenue Service has determined and informed the Custodian by letter, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). The Plan has been amended since adoption; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Participant contributions - Participant salary reduction contributions to the Plan may be deferred as a flat amount or as a percentage ranging from 1% to 100% of regular compensation. However, the total of these salary deferral contributions may not, in any calendar year, exceed limitations set by the Code.

Sponsor contributions - The Sponsor, at its discretion, may make additional profit sharing contributions. Contributions are subject to certain limitations defined in the Code. The Sponsor elected not to contribute to the Plan for the years ended December 31, 2011 and 2010.

NOTE 1 - DESCRIPTION OF PLAN, Continued

Participants accounts - Separate accounts are maintained for each participant's deferred compensation, rollover contributions, and allocations of the Sponsor's profit sharing contributions, if any. All gains, income, or losses are allocated separately to each participant's account, based on the performance of the investments within that account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct their contributions into any or all of the investment accounts with the Custodian.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Sponsor's profit sharing contributions, plus actual earnings thereon, is based on years of continuous service, as follows:

Year of Service	Percent Vested
Less than 2	0%
3	20%
4	40%
5	60%
6	80%
7	100%

Payment of benefits - Upon termination of service, a participant may elect to receive either a lump-sum distribution or direct transfer to either an Individual Retirement Account or a qualified retirement plan. Other withdrawals and loans from the Plan can be made under certain circumstances, as defined in the Plan agreement. Participants who are 100% vested and 59 ½ years of age may take an in-service withdrawal of all or a portion of the value of their vested accounts once each plan year.

Hardship withdrawals - In the event a participant experiences a financial hardship as defined in the Plan agreement, the participant may be eligible to request a hardship withdrawal. There were no hardship withdrawals for the years ended December 31, 2011 and 2010.

Notes receivable from participants - Participants may borrow against their accounts in amounts not less than $1,000 and not to exceed limitations defined in the Code. Participants may have only one note outstanding at any given time. Repayment schedules for notes receivable from participants are as agreed upon by the participant and the Plan administrator, but cannot exceed repayment terms defined by the Code. Interest on outstanding note receivable balances is charged at rates determined by the Custodian. Generally, notes mature within five years unless the note is for the purchase of a personal residence. Principal and interest is paid ratably through monthly payroll deductions. Interest on new notes is based on the published prime lending rate plus 1%, determined at the time the note is disbursed.

NOTE 1 - DESCRIPTION OF PLAN, Continued

Forfeitures - Non-vested Sponsor contributions forfeited by participants upon termination are available to reduce future payments of the Sponsor's contributions. During 2011 and 2010, there were no material forfeited, non-vested accounts available to reduce Sponsor contributions.

Plan termination - Although it has not expressed an intent to do so, the Sponsor reserves the right under the Plan, to cease contributions and terminate the Plan, subject to action by the Sponsor's Board of Directors and subject to the provisions of ERISA and the Code. Upon termination of the Plan, all participants become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, consistent with the reporting in the Form 5500.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Valuation of investments - Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 3).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend rate. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan provides for investment in various combinations of mutual funds and a guaranteed investment contract with an insurance company with different investment strategies. These investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participant account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Fair value measurements - The Plan measures fair value under a framework that utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs which prioritize the inputs used in measuring fair value are:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

When the Plan changes its valuation inputs for measuring financial assets and liabilities at fair value, either due to changes in current market conditions or other factors, it may need to transfer those assets or liabilities to another level in the hierarchy based on the new inputs used. The Plan recognizes these transfers at the end of the reporting period that the transfers occur. For the years ended December 31, 2011 and 2010, there were no significant transfers of financial assets or liabilities between the hierarchy levels.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Guaranteed investment contract with an insurance company - The Plan invests in a benefit-responsive guaranteed investment contract with the Custodian. The Custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributed for the portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is normally reported on the face of the Statements of Net Asset Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits However, at December 31, 2011 and 2010, contract value approximates fair value, and thus no such adjustment was considered necessary. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The value of the investment contract, which approximates fair value, at December 31, 2011 and 2010 was $459,679 and $414,169, respectively. The crediting interest rate is agreed upon with the issuer. The guaranteed interest rate on the guaranteed investment contract as of December 31, 2011 and 2010 was 3.00%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes in the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable or occurring.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2011	2010
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

Realized and unrealized appreciation (depreciation) - Realized and unrealized appreciation (depreciation) is based on the contract and market values of the assets at the end of the Plan year compared to the contract and market values of the assets at the beginning of the Plan year, or at the time of purchase for assets purchased/exchanged during the Plan year. In the Statements of Changes in Net Assets Available for Benefits, the Plan presents the net appreciation or depreciation in the fair value of investments, which consists of realized gains or losses and unrealized market value appreciation or depreciation of investments.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the term of the Plan document. Outstanding notes receivable from participants at December 31, 2011 and 2010 bear interest at 4% and mature through September 2016.

Participant distributions - Benefits paid to participants are recorded when paid. As of December 31, 2011 and 2010, there were no amounts payable to withdrawing participants that had been requested but not paid.

Plan expenses - Non-investment costs and certain administrative expenses of the Plan are paid by the Sponsor, which is a party-in-interest. These expenses are not reflected in the accompanying financial statements and constitute exempt transactions under ERISA. Investment service fees are paid by the Plan and are netted against the related investment income. Certain administrative expenses are paid by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Income taxes - Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2008.

Subsequent events - Subsequent events have been evaluated by the Sponsor through October 10, 2012, which is the date these financial statements were issued, and no subsequent events have arisen that would require disclosure in these financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered investment companies - The shares in registered investment companies are valued at quoted market prices in an exchange and active market, which represents the net asset values of shares held by the Plan at year-end, and are classified as Level 1 investments.

Guaranteed investment contract with an insurance company - The guaranteed investment contract with an insurance company is stated at contract value, which approximates fair value. The fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations (Level 3).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting deadline.

NOTE 3 - FAIR VALUE MEASUREMENTS, Continued

The following table set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31:

NOTE 4 - INVESTMENTS

The Custodian holds the Plan's investments and executes investment and other transactions of the Plan. Plan investments that represent 5% or more of the total fair value of the Plan's net assets as of December 31 are as follows:

	2011	2010
Janus Investments Twenty Fund	$ 221,128	$ 246,431
Janus Investments Balanced Fund	$ 458,164	$ 396,620

Franklin Investments Small Mid Cap Growth Fund	$ 122,946	$ 150,414

During 2011 and 2010, the Plan's investments in registered investment company shares (including gains and losses on investments bought and sold, as well as held during the year) (depreciated) appreciated in value by ($41,977) and $138,814, respectively.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2011 and 2010 are reported in net change in fair value of investments in the accompanying Statements of Changes in Net Assets Available for Benefits.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest, by definition, include a plan sponsor or employee, fiduciaries (including those who provide investment advice or who have discretionary control over Plan assets), and those who provide services to the Plan. Notes receivable from participants qualify as exempt party-in-interest transactions. Plan investments include certain investments in registered investment company shares and a guaranteed investment contract managed by the Custodian. The Custodian is also the third-party-administrator of the Plan and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

NOTE 6 - INFORMATION CERTIFIED BY THE CUSTODIAN OF PLAN ASSETS (Unaudited)

The following unaudited information in the financial statements was certified to be complete and accurate by the Custodian of the Plan's assets within the meaning of 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for reporting and disclosure under ERISA:

- Investment income (loss) included in the Statements of Changes in Net Assets Available for Benefits;

General - The Plan is a defined contribution plan covering eligible employees of Hyatt Holding Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments.

Participation - Employees of the Sponsor over twenty-one years of age are eligible to participate in the Plan. Eligible employees may commence participation on the entry date, which is the first day of the month following the satisfaction of eligibility requirements.

Pension benefits - Employees are entitled to pension benefits, in the form of a lump-sum distribution of the total account balance, beginning at the later of age 55 or on the 5th anniversary of participation, unless an alternate form of payment is selected, as defined in the Plan agreement.

Tax status - The Plan is a prototype plan offered by Hartford Life Insurance Company (the "Custodian"). The Internal Revenue Service has determined and informed the Custodian by letter, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). Participant contributions - Participant salary reduction contributions to the Plan may be deferred as a flat amount or as a percentage ranging from 1% to 100% of regular compensation. However, the total of these salary deferral contributions may not, in any calendar year, exceed limitations set by the Code.

Sponsor contributions - The Sponsor, at its discretion, may make additional profit sharing contributions. Contributions are subject to certain limitations defined in the Code. The Sponsor elected not to contribute to the Plan for the years ended December 31, 2011 and 2010.

NOTE 1 - DESCRIPTION OF PLAN, Continued

Participants accounts - Separate accounts are maintained for each participant's deferred compensation, rollover contributions, and allocations of the Sponsor's profit sharing contributions, if any. All gains, income, or losses are allocated separately to each participant's account, based on the performance of the investments within that account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct their contributions into any or all of the investment accounts with the Custodian.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Sponsor's profit sharing contributions, plus actual earnings thereon, is based on years of continuous service, as follows:

Year of Service	Percent Vested
Less than 2	0%
3	20%
4	40%
5	60%
6	80%
7	100%

Payment of benefits - Upon termination of service, a participant may elect to receive either a lump-sum distribution or direct transfer to either an Individual Retirement Account or a qualified retirement plan. Other withdrawals and loans from the Plan can be made under certain circumstances, as defined in the Plan agreement. Participants who are 100% vested and 59 ½ years of age may take an in-service withdrawal of all or a portion of the value of their vested accounts once each plan year.

Hardship withdrawals - In the event a participant experiences a financial hardship as defined in the Plan agreement, the participant may be eligible to request a hardship withdrawal. There were no hardship withdrawals for the years ended December 31, 2011 and 2010.

Notes receivable from participants - Participants may borrow against their accounts in amounts not less than $1,000 and not to exceed limitations defined in the Code. Participants may have only one note outstanding at any given time. Repayment schedules for notes receivable from participants are as agreed upon by the participant and the Plan administrator, but cannot exceed repayment terms defined by the Code. Interest on outstanding note receivable balances is charged at rates determined by the Custodian. Generally, notes mature within five years unless the note is for the purchase of a personal residence. Principal and interest is paid ratably through monthly payroll deductions. Interest on new notes is based on the published prime lending rate plus 1%, determined at the time the note is disbursed.

NOTE 1 - DESCRIPTION OF PLAN, Continued

Forfeitures - Non-vested Sponsor contributions forfeited by participants upon termination are available to reduce future payments of the Sponsor's contributions. During 2011 and 2010, there were no material forfeited, non-vested accounts available to reduce Sponsor contributions.

Plan termination - Although it has not expressed an intent to do so, the Sponsor reserves the right under the Plan, to cease contributions and terminate the Plan, subject to action by the Sponsor's Board of Directors and subject to the provisions of ERISA and the Code. Upon termination of the Plan, all participants become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, consistent with the reporting in the Form 5500.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Valuation of investments - Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 3).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend rate. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan provides for investment in various combinations of mutual funds and a guaranteed investment contract with an insurance company with different investment strategies. These investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participant account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Fair value measurements - The Plan measures fair value under a framework that utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs which prioritize the inputs used in measuring fair value are:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

When the Plan changes its valuation inputs for measuring financial assets and liabilities at fair value, either due to changes in current market conditions or other factors, it may need to transfer those assets or liabilities to another level in the hierarchy based on the new inputs used. The Plan recognizes these transfers at the end of the reporting period that the transfers occur. For the years ended December 31, 2011 and 2010, there were no significant transfers of financial assets or liabilities between the hierarchy levels.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Guaranteed investment contract with an insurance company - The Plan invests in a benefit-responsive guaranteed investment contract with the Custodian. The Custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributed for the portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is normally reported on the face of the Statements of Net Asset Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits However, at December 31, 2011 and 2010, contract value approximates fair value, and thus no such adjustment was considered necessary. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The value of the investment contract, which approximates fair value, at December 31, 2011 and 2010 was $459,679 and $414,169, respectively. The crediting interest rate is agreed upon with the issuer. The guaranteed interest rate on the guaranteed investment contract as of December 31, 2011 and 2010 was 3.00%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes in the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable or occurring.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2011	2010
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

Realized and unrealized appreciation (depreciation) - Realized and unrealized appreciation (depreciation) is based on the contract and market values of the assets at the end of the Plan year compared to the contract and market values of the assets at the beginning of the Plan year, or at the time of purchase for assets purchased/exchanged during the Plan year. In the Statements of Changes in Net Assets Available for Benefits, the Plan presents the net appreciation or depreciation in the fair value of investments, which consists of realized gains or losses and unrealized market value appreciation or depreciation of investments.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the term of the Plan document. Outstanding notes receivable from participants at December 31, 2011 and 2010 bear interest at 4% and mature through September 2016.

Participant distributions - Benefits paid to participants are recorded when paid. As of December 31, 2011 and 2010, there were no amounts payable to withdrawing participants that had been requested but not paid.

Plan expenses - Non-investment costs and certain administrative expenses of the Plan are paid by the Sponsor, which is a party-in-interest. These expenses are not reflected in the accompanying financial statements and constitute exempt transactions under ERISA. Investment service fees are paid by the Plan and are netted against the related investment income. Certain administrative expenses are paid by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Income taxes - Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2008.

Subsequent events - Subsequent events have been evaluated by the Sponsor through October 10, 2012, which is the date these financial statements were issued, and no subsequent events have arisen that would require disclosure in these financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered investment companies - The shares in registered investment companies are valued at quoted market prices in an exchange and active market, which represents the net asset values of shares held by the Plan at year-end, and are classified as Level 1 investments.

Guaranteed investment contract with an insurance company - The guaranteed investment contract with an insurance company is stated at contract value, which approximates fair value. The fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations (Level 3).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting deadline.

NOTE 3 - FAIR VALUE MEASUREMENTS, Continued

The following table set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31:

NOTE 4 - INVESTMENTS

The Custodian holds the Plan's investments and executes investment and other transactions of the Plan. Plan investments that represent 5% or more of the total fair value of the Plan's net assets as of December 31 are as follows:

	2011	2010
Janus Investments Twenty Fund	$ 221,128	$ 246,431

During 2011 and 2010, the Plan's investments in registered investment company shares (including gains and losses on investments bought and sold, as well as held during the year) (depreciated) appreciated in value by ($41,977) and $138,814, respectively.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2011 and 2010 are reported in net change in fair value of investments in the accompanying Statements of Changes in Net Assets Available for Benefits.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest, by definition, include a plan sponsor or employee, fiduciaries (including those who provide investment advice or who have discretionary control over Plan assets), and those who provide services to the Plan. Notes receivable from participants qualify as exempt party-in-interest transactions. Plan investments include certain investments in registered investment company shares and a guaranteed investment contract managed by the Custodian. The Custodian is also the third-party-administrator of the Plan and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

NOTE 6 - INFORMATION CERTIFIED BY THE CUSTODIAN OF PLAN ASSETS (Unaudited)

The following unaudited information in the financial statements was certified to be complete and accurate by the Custodian of the Plan's assets within the meaning of 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for reporting and disclosure under ERISA:

- All amounts included as investments in the Statements of Net Assets Available for Benefits;
- Investment income (loss) included in the Statements of Changes in Net Assets Available for Benefits;
- All investment amounts enumerated in the Supplemental Schedule of Assets (Held at End of Year); and
- Investments that represent 5% or more of the Plan's net assets disclosed in Note 4.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the Hartford product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2011 - 12/31/2011 and indirect compensation is presented on a calendar year basis ending 12/31/2011.

This report includes compensation actually paid to or by the Hartford within the indicated plan year as part of your Hartford product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your Hartford customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than Hartford). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our Hartford product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your Hartford Service Team should you require additional information regarding the compensation paid to or by Hartford with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

Direct Compensation **$350.00**

The total amount identified above reflects fees deducted from plan assets at the plan administrator's direction for the 2011 plan year for the above named recipient. Please review other service providers, below, to determine whether direct fees were also paid to them. Also, please review your records to determine whether other service providers may have received any compensation not reported below (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, or a plan auditor).

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to Hartford Life Insurance Company are the net result of aggregating direct compensation after the effects of adjustments processed in 2011, some of which may have pertained to prior years.

Please review the detailed breakdown at the end of the report for further information.

Indirect Compensation

Float compensation **$0.15**

Bank accounts and investments associated with short-term investment pool, 200 Hopmeadow Road, Simsbury, CT 06089

This is an estimate based on the annual average rate of float (0.01% for 2011) earned on the bank accounts and investments associated with the short-term investment pool for the 2011 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted to The Hartford cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor. The Plan Sponsor should consult with their tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Please note that items of nonmonetary compensation need to be reported for Schedule A or C (Form 5500) purposes if they exceed certain *de minimus* amounts. Transactions generating nonmonetary compensation may include gifts, gratuities, or certain types of in-kind benefits. Hartford's Code of Ethics and Business Conduct generally restricts Hartford employees from giving to or receiving gifts from customers and/or business partners having a value of over $100, in any individual situation, without prior approval. However, it is possible that one or more of your service providers for the calendar year, including Hartford, engaged in transactions generating nonmonetary compensation. Information concerning reportable transactions undertaken between or among non-Hartford parties may not be available to The Hartford.

Please consult with your legal or tax advisors if you have any questions.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Hartford Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The list includes any investment option held by the plan on at least one month end during the 2011 calendar year. To arrive at an estimate of the dollar amount that Hartford received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

[*] This amount is the sum of the fund's distribution, management and other fees, which are also identified in the fund's prospectus. Please note that affiliates of Hartford Life Insurance Company act as advisor to the Hartford funds. Such affiliates are identified in the fund's prospectus' and receive management fees in the following amounts:

Direct Compensation **$-70.00**

The total amount identified above reflects fees deducted from plan assets at the plan administrator's direction for the 2011 plan year for the above named recipient. This amount is negative because there were more direct fees cancelled than were assessed during the plan year reporting period. Such cancellations can occur, for example, as a result of a current year adjustment to a transaction that occurred in an earlier year.

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation are the net result of aggregating direct compensation after the effects of adjustments processed in 2011, some of which may have pertained to prior years.
