INDEPENDENT AUDITOR'S REPORT

To the Trustee of
The Advertising Checking Bureau, Inc.
401(k) Plan

We were engaged to audit the statements of net assets available for benefits of The Advertising Checking Bureau, Inc. 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Plan Description

The following is a general description of The Advertising Checking Bureau, Inc. 401(k) Plan (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1955 as a defined contribution plan covering all employees of The Advertising Checking Bureau, Inc. (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), and has been amended as required by law. Effective March 17, 1997, the Employer elected to amend the Plan in order to convert to a 401(k) plan. The Plan is exempt from Federal income tax under the applicable provisions of the Internal Revenue Code.

Eligibility

An employee who has attained the age of 20 years and has completed one year of service by the entry dates of January 1, April 1, July 1 or October 1, will automatically become a participant in the Plan.

Contributions

Employee salary deferral contributions are based on specified percentages or amounts of gross pay, but may not exceed a dollar limit which is set by law. Certain participants (age 50 and older) can make an additional catch-up contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Rollover contributions amounted to $23,531 and $-0- in 2011 and 2010, respectively. Participants direct the investment of their contribution into various investment options offered by the Plan. The Plan currently offers various mutual funds and a fixed income account as investment options for participants.

At its discretion, the Employer may also make a matching contribution. To be eligible to receive the discretionary match, the employee must be an eligible participant in the Plan. The Employer match is a percentage of the defined employee's compensation. Matching contributions amounted to $166,047 and $175,997 for the 2011 and 2010 plan years, respectively.

During 2009, The Advertising Checking Bureau, Inc. Employee Stock Ownership Trust (the "ESOP") was merged into the Plan. During 2011, in connection with this merger, $300,000 was contributed by the Employer to the Plan on behalf of the former ESOP participants.

Note 1 - Plan Description (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and the matching employer contribution, as well as an allocation of plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Each participant's elective account shall be fully vested for participant contributions, and the earnings thereon, at all times and shall not be subject to forfeiture for any reason. Employer contributions are currently vested according to the following schedule:

Completed Years of Service	Vested Percentage
After 2 years	20%
After 3 years	40%
After 4 years	60%
After 5 years	80%
After 6 years	100%

A participant is fully vested at age 65, or upon disability or death.

Notes Receivable from Participants

Participants may obtain loans secured by their account value. Loans made are limited to the lesser of $50,000 or one-half of the vested balance in the account, but not less than $1,000. The interest rate charged is a reasonable rate of interest as determined by the plan administrator. Actual interest rates on loans ranged from 4.25% to 9.25% at December 31, 2011 and from 4.25% to 9.75% at December 31, 2010. Principal and interest is paid ratably through payroll deductions.

Note 1 - Plan Description (Continued)

Payment of Benefits

Upon termination of service, a participant may elect to receive a distribution of his or her vested amount, in a lump sum or, periodic installments with various time limitations, including a joint and survivor annuity. When a participant reaches age 70 1/2, such participant must receive a required minimum distribution no later than April 1 and December 31 of the following year, and then on or before December 31 in each succeeding year.

Forfeitures

As of December 31, 2011 and 2010, forfeited non-vested accounts totaled $39,317 and $4,404, respectively. These amounts will be used to reduce future administrative expenses allocated to plan participants. Also, in 2011 and 2010, administrative expenses allocated to plan participants were reduced by $20,419 and $22,922, respectively.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are held in a trust fund maintained by ING Life Insurance and Annuity Company ("ING"). The investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of "Fair Value Measurements".

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Unless the employer elects to pay such expenses, plan administrative expenses are first paid out of forfeited non-vested accounts before being paid from the participants' accounts.

Subsequent Events

The Plan has evaluated subsequent events and transactions through October 10, 2012, the date that the financial statements were available to be issued.

Note 3 - Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets available for benefits.

	2011	2010
ING Fixed Account	$ 6,323,678	$ 5,825,114
ING T. Rowe Price Growth Equity Portfolio	1,137,290	1,153,969
BlackRock Equity Dividend Fund	701,398	683,483

As stated in Note 10, the ING Fixed Account, which is deemed to be fully benefit-responsive, is stated at fair value in the statements of net assets available for benefits, with a corresponding adjustment to contract value. The contract value of this investment was $5,864,010 and $5,763,035 at December 31, 2011 and 2010, respectively.

During 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) (depreciated) appreciated in value by $(283,631) and $739,644, as follows:

	2011	2010
Mutual funds	$ (283,631)	$ 739,644
Net (depreciation) appreciation in fair value of investments	$ (283,631)	$ 739,644

Note 4 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

Note 4 - Fair Value Measurements (Continued)

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The valuation methods described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for asset measurements at fair value:

- Mutual funds - valued at the net asset value of the shares held by the Plan at year end.
- Fixed account - the fair value of the fixed account is calculated by ING by discounting cash flows based upon the seven-year treasury bond rate and the fixed account interest rate (see Note 10).
- Cash reserves - valued at cost which approximates fair value.

The following tables set forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2011 and 2010:

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)

Balance, December 31, 2010	5,825,114
Purchases and sales:	
Purchases	832,095
Sales	(731,120)
Total gains or losses (realized/unrealized)*	397,589
Balance, December 31, 2011	$ 6,323,678

* The statements of net assets available for benefits present the fair value of the fixed income account (a fully benefit-responsive investment contract) as well as the adjustment from fair value to contract value. The statements of changes in net assets available for benefits do not reflect realized/unrealized gains or losses on the fixed income account as they are prepared on a contract value basis.

Note 4 - Fair Value Measurements (Continued)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2011 and 2010, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5 - Related Party Transactions

Certain Plan investments are managed by ING. ING is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Plan fees for investment management services for the years ended December 31, 2011 and 2010 were $2,775 and $7,325, respectively.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

If this Plan should be terminated, the right of all participants to the amounts credited to their accounts as of the date of such termination shall be non-forfeitable.

Note 7 - Tax Status

The Internal Revenue Service has determined and informed the Plan by a letter dated November 7, 2001, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The trustee does not anticipate that changes in the Plan after the date of the amendments covered by the Internal Revenue Service's determination letter, will affect the qualified and tax-exempt status of the Plan and the Trust, respectively. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 - Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress for the Plan. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 8 - Information Certified by the Plan's Trustee (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the plan administrator has obtained certification from ING, the trustee of the Plan, that the information pertaining to the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2011	2010
Investments at fair value:		
Fixed account	$ 6,323,678	$ 5,825,114
Mutual funds	6,617,838	6,946,168

Adjustment from fair value to contract value	(459,668)	(62,079)
Fixed account, at contract value	$ 5,864,010	$ 5,763,035

Note 8 - Information Certified by the Plan's Trustee (Unaudited) (Continued)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 9 - Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - ING Fixed Account

The Plan entered into a fully benefit-responsive investment contract, the ING Fixed Account, with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 10 - ING Fixed Account (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $6,323,678 and $5,825,114, respectively. The crediting interest rate is based upon a formula agreed upon with the issuer but it may not be less than 3% for the years ended December 31, 2011 and 2010. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) change to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2011	2010
Average yields:		
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

Note 11 - Reconciliation of Financial Statements to Form 5500 Annual Return/Report of Employee Benefit Plan

In accordance with ERISA regulations Section 2520.103-1(b)(3), set forth below is a reconciliation of amounts appearing in the accompanying financial statements to amounts appearing on Form 5500.

Form 5500, for the years ended December 31, 2011 and 2010, has been prepared on the cash basis of accounting and the financial statements have been prepared on the accrual basis of accounting.
