BROWNING 401(k) SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE 1 – Description of the Plan

The following description of the Browning (the Company) 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees who have completed three consecutive months of service and are age twenty-one or older. Eligible employees may enroll on the entry date coinciding with or following the date eligibility is met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 90% of their eligible compensation up to the maximum amount allowed by law. Participants may also elect to make Roth 401(k) contributions (after-tax contributions) to the Plan, of up to 90% of eligible compensation, subject to the overall limitation. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers numerous pooled separate accounts and an unallocated contract under a group annuity contract as investment options for participants. In addition, the Plan provides for discretionary employer matching contributions. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's discretionary matching contribution, and allocations of plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – Description of the Plan (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is 20% after two years and 20% per year thereafter. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.75%, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Withdrawals by participants from their accounts are permitted in accordance with the Plan's provisions.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled $7,707 and $21,509, respectively. These accounts will be used to offset employer contributions to the Plan. In 2011, forfeited nonvested accounts were used to reduce employer contributions by $26,714.

NOTE 2 – Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in pooled separate accounts and the unallocated contract are stated at fair value based on quoted market prices of the underlying assets as determined by the Plan's custodian, John Hancock Life Insurance Company (U.S.A.). The life insurance policies are valued at cash surrender value, which approximates fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation/appreciation includes gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 – Significant Accounting Policies (Continued)

Administrative Expenses

All administrative expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2012, the date the financial statements were available to be issued.

*Not applicable; investment amount is below 5%.

During 2011, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $325,960.

NOTE 4 – Information Prepared and Certified by the Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (U.S.A.) (John Hancock), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments and notes receivable from participants:

- Investments at fair value, excluding the life insurance cash value
- Notes receivable from participants
- Net depreciation in fair value of investments
- Interest and other income
- Schedule of assets held at end of year

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5 – Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 5 – Fair Value Measurements (Continued)

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts: Valued at quoted market prices which represent the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund.

Unallocated contracts: Valued at fair value, as determined by John Hancock, with transfers and withdrawals subject to a market value adjustment and redemption fees. Interest rates are established on the first day of the month and apply to all contributions in that month. At the end of the year, a composite interest rate is established which applies for the remainder of the guaranteed term of that account.

NOTE 5 – Fair Value Measurements (Continued)

Life Insurance cash value: Valued at cash surrender value, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011

NOTE 6 – Related-Party Transaction

As of December 31, 2011 and during the year then ended, certain plan investments are shares of pooled separate accounts and an unallocated contract managed by John Hancock. John Hancock is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Company used $14,180 of credits received from the John Hancock Plan expense reduction account which were used to offset administrative expenses. Fees paid by the Plan for the investment management services amounted to $23,879 for the year ended December 31, 2011.

NOTE 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time or to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

NOTE 8 – Tax Status

The Plan has adopted a Volume Submitter Profit Sharing Plan, which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008. The letter stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code and, accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2008.

NOTE 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 - Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2011:
