Report of Independent Auditors

The Employee Benefits Committee
SuperMedia Pension Plan for Collectively Bargained Employees

We were engaged to audit the accompanying statements of net assets available for benefits of the SuperMedia Pension Plan for Collectively Bargained Employees as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 6, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee, as of December 31, 2011 and 2010, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Schedule SB, line 22—Description of Weighted Average Retirement Age

The rates of retirement at each age depend on the following factors:

- age
- gender
- service

The detailed description of the exact rates that apply at each age for each of the various categories is contained in the attachment to Part V.

In calculating the weighted average retirement age, the weight applied to each age is (a)/(b), where (a) and (b) are defined as follows:

(a) The number of participants expected to retire at the retirement age to which the weight is being applied. The number of participants expected to retire is estimated by applying the assumed retirement decrement rates to the current active population at that age.

(b) The total number of participants expected to retire. The number of participants expected to retire is estimated by applying the assumed retirement decrement rates to the current active population.

Demographic Assumptions
Retirement

The retirement decrement assumptions for active participants are summarized in Exhibit A1 for Enterprise and South Associates and Exhibit A2 for North Associates. The weighted average retirement age is 62, using the methodology described in Exhibit E.

For participants who terminated during the preceding plan year who are retirement eligible and had not received their benefit prior to the valuation date, it is assumed 100% will commence their benefit as a lump sum as of the valuation date. For other terminations during the preceding plan year who had not received their benefit prior to the valuation date, it is assumed 40% will commence their benefit as a lump sum as of the valuation date. All other deferred vested participants are assumed to commence their benefit at age 65.

Withdrawal

The withdrawal decrement assumptions are summarized in Exhibit B1 for Enterprise and South Associates and Exhibit B2 for North Associates.

Disability

The disability decrement assumptions are summarized in Exhibit C1 for Enterprise, Exhibit C2 for North Associates and Exhibit C3 for South Associates.

Mortality

The mortality table is the prescribed 2011 static mortality table, with separate rates for annuitants and non-annuitants. For Lump Sum conversion, the mortality table used is defined in the plan document.

Timing

Decrements are assumed to apply as of the middle of the year.

Marital Status

Husbands are assumed to be three years older than wives.

Other Assumptions
Form of Payment
For Enterprise

It is assumed that 80% of future retirees and terminations will take a lump sum while the remaining 20% are assumed to take an annuity at age 65.

Schedule SB Attachment (Form 5500)—2011 Plan Year
SuperMedia Pension Plan for Collectively-Bargained Employees
EIN: 20-5095175 PN: 002

For North Associate
and South Associates

Through December 31, 2013, for the North Associates and until the expiration of the South Associates' contract, it is assumed that 80% of future retirees and terminations will take a lump sum while the remaining 20% are assumed to take an annuity at age 65. Afterwards, 100% of future retirees are assumed to take an annuity at age 65.

For male participants, 60% percent of annuities are assumed to be taken as 50% joint and survivor annuities with a pop-up feature, and 40% of annuities are assumed to be taken as single life annuities.

For female participants, 10% percent of annuities are assumed to be taken as 50% joint and survivor annuities with a pop-up feature, and 90% of annuities are assumed to be taken as single life annuities.

For participants who terminated during the preceding plan year who are retirement eligible and had not received their benefit prior to the valuation date, it is assumed 100% will commence their benefit as a lump sum as of the valuation date. For other terminations during the preceding plan year who had not received their benefit prior to the valuation date, it is assumed 40% will commence their benefit as a lump sum as of the valuation date and the remaining 60% are assumed to take an annuity at age 65.

Administrative Expenses

The Funding Target Normal Cost includes a load for estimated administrative expenses equal to 0.30% of assets as of valuation date.

Sickness Death Benefit

The percentage of active and retired participants who have beneficiaries that qualify for this benefit is summarized in Exhibit D.

Supplemental Earnings

North: Assumed to be 4% of base earnings.
South: Assumed to be 3% of base earnings.

Valuation Earnings

The valuation earnings for Enterprise participants and North Associates use annualized base pay as of valuation date plus prior year actual pay for other components of compensation.

Maximum Earnings

The maximum compensation limit under IRC section 401(a)(17) is \$245,000 for 2011.

Schedule SB Attachment (Form 5500)—2011 Plan Year

EIN: 20-5095175 PN: 002

Maximum Benefit	The maximum benefit payable under IRC section 415 at normal retirement age is \$195,000 for 2011.
Social Security Wage Base	The 2011 taxable wage base of \$106,800 is assumed to increase 3.00% per year, compounded annually.
Changes From Prior Year Lump Sum Interest Rate and Cash Balance Interest Credit Rate	The GATT lump sum interest rate decreased by 0.50%, the PBGC lump sum interest rate decreased by 0.50% and the cash balance interest crediting rate decreased by 0.50% to reflect interest rate outlook.
Lump Sum Take Rate	The lump sum take rate assumption for participants who terminated during the preceding year and had not received their benefit prior to the valuation date was set to be 100% as of the valuation date for those retirement eligible and 40% for those not retirement eligible.
Retirement	For North Associates, an additional 4% of participants are assumed to retire in 2011 to reflect anticipated involuntary terminations. Please see Exhibit A2.
Withdrawal	For North Associates, an additional 5% of participants are assumed to terminate in 2011 to reflect anticipated involuntary terminations. Please see Exhibit B2.
Mortality	The mortality table changed in accordance with Treasury regulation 1.430(h)(3) from the prescribed 2010 static mortality table to the 2011 static mortality table. Both 2010 and 2011 funding tables are based on separate rates for annuitants and non-annuitants.
Actuarial Methods Valuation Date	The valuation date is January 1.

Calculation of Normal Costs And Liabilities

The method used to calculate the ERISA target normal cost and funding target is the unit credit cost method.

The funding target under IRC section 430 is calculated as the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year, based on current service and current pay. The target normal cost is the present value of all benefits expected to accrue or be earned under the plan during the plan year, including any increase in benefits earned in prior plan years attributable to compensation increases in the current plan year.

For calculating the actuarial present value of vested benefits, benefits at each decrement age are determined in the same manner, but are then multiplied by each participant's vesting percentage as of the valuation date. The present value of these estimated vested benefits is determined without recognition of any benefit for which a participant will become entitled only through the advancement in service or age while actively employed. In addition, the following ancillary benefits have not been treated as vested: subsidized disability benefits.

Yield Curve Interest Rates

The company has elected to use the three-segment yield curve interest rates using the September preceding the valuation date as the applicable lookback month.

Actuarial Value of Assets

The actuarial value of assets is used to calculate contribution requirements under ERISA. The actuarial value of assets is determined by recognizing asset gains and losses over a period of three years. Asset gains and losses are defined as the difference between the expected return on the market value of assets, using a return assumption not to exceed the third segment rate, and the actual return on the market value of assets. This gain or loss is recognized over a period of three years at 33% per year, beginning in the current year. The actuarial value of assets must be within 10% of the market value of assets.

Changes From Prior Year

There were no changes in actuarial methods from January 1, 2010 to January 1, 2011.

Exhibit E

The retirement decrement rates vary by age as summarized in Exhibit A.

In calculating the weighted average retirement age, the weight applied to each age is (a)/(b), where (a) and (b) are defined as follows:

- a) The number of participants expected to retire at the retirement age to which the weight is being applied. The number of participants expected to retire is estimated by applying the assumed retirement decrement rates to the current active population at that age.
- b) The total number of participants expected to retire. The number of participants expected to retire is estimated by applying the assumed retirement decrement rates to the current active population.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date

November 17, 2006

Plan Year

January 1 to December 31, with the exception of the first plan year which is from November 17, 2006 to December 31, 2006.

Expenses

All reasonable expenses of administering the Plan shall be paid out of the assets of the Pension Fund, except to the extent paid by the Company.

Participation

North Associates and South Associates: Any non-salaried employee of a participating company is eligible to become a participant upon the later of:

- (1) Attainment of age 21,
- (2) Completion of 1,000 hours of service during a 12-month period beginning on the employee's date of hire, the anniversary of the employee's date of hire, or the calendar year.

North Associates may not enter the plan after December 31, 2007.

Enterprise: Eligible employees become participants immediately upon hire.

No additional employees that are part of the Communication Workers of America in New York (covered by six separate collective bargaining agreements) or in Pennsylvania (covered by five separate bargaining agreements) will become participants of the plan if they were not participants as of June 30, 2009.

No additional employees that are part of the New Jersey, Maryland, and Virginia Sales Offices of SuperMedia Sales-East Co. whose terms and conditions of employment are determined by the collective bargaining applicable to Communication Workers of America will become participants of the plan if they were not participants as of December 31, 2009.

Definitions

Transition Employee (Enterprise)

An employee with 10 or more years of service as of January 1, 2002.

Cash balance accounts are credited monthly by an amount equal to a percentage of monthly compensation based on points (age plus service) at the beginning of each year as follows:

Points	Pay Credit Percentage
Less than 35	4%
35-49	5%
50-64	6%
65 or more	7%

Effective July 1, 2009, accruals were frozen for employees with less than five years of service that are part of the Communication Workers of America in New York (covered by six separate collective bargaining agreements) or in Pennsylvania (covered by five separate bargaining agreements).

Effective January 31, 2010, accruals were frozen for employees with less than five years of service as of December 31, 2009, if part of the New Jersey, Maryland, and Virginia Sales Offices of SuperMedia Sales-East Co. whose terms and conditions of employment are determined by the collective bargaining applicable to Communication Workers of America.

Interest Credits (Enterprise)

Up to the benefit commencement date, interest is credited based on the average annual yield on one-year Treasury bills plus one percentage point with the total limited to the yield on 30-year Treasury bonds.

Pension Benefit Formulas (Enterprise)

Post-2001 Modified Former Plan Formula (MFPF) -- Sum of:

- (a) MFPF accrued benefit as of 12/31/2001 (see Special Benefit Provisions).
- (b) 1.35% of Average Compensation times service from 1/1/2002 to 12/31/2007.
- (c) 1.35% of career average pay for service after 12/31/2007.

Highest Average Pay (HAP):

Normal Retirement

Eligibility

North and South: Age 65 and 10 years of Credited Service.

Enterprise: Later of age 65 or fifth anniversary from date of hire.

Benefit

For North and South Participants, the monthly benefit payable is equal to (a) + (b):

(a) The dollar amount corresponding to the appropriate pension band for that participant times Credited Service. Each job title is assigned a specific pension band. Tables A (North) and B (South) list the dollar amount for each pension band.

(b) 0.1% of Annual Average Supplemental Payments times Credited Service.

For North Participants with less than 5 years of service as of January 1, 2009, this benefit is frozen as of December 31, 2007.

Commission Directory Advertising Salespersons are assigned to Pension Band Number 135 (Commission Paid Employees (CWA 1301)) and have a special formula equal to (a) + (b).

(a) The dollar amount corresponding to job title times Credited Service

<u>Job Title</u>	<u>Dollar Multiplier</u>
Premise and Telephone Sales Representatives	\$17
Senior Telephone Sales Representatives	\$22
Key Account Representatives	\$67

(b) 1.3% of highest 3-year Average of Commissions times Credited Service.

For participants with less than 5 years of service as of January 1, 2009, this benefit is frozen as of December 31, 2007.

For participants with 5 or more years of credited service as of January 1, 2009, the benefit equals 1.3% of Average Compensation times Credited Service. The benefit cannot be less than the benefit earned as of December 31, 2007.

North: The minimum pension amount for employees eligible for a service pension who have at least 15 years of service at retirement is \$400 per month. The minimum pension is reduced if paid in a form other than a life annuity. The minimum benefit is not reduced if commencement occurs before the unreduced retirement age.

Enterprise participants hired on or after 1/1/2002: Cash balance benefit.

Disability

Eligibility

Fifteen years of Credited Service and total and permanent disability.

Benefit

Accrued normal retirement benefit with no reduction applied for receipt prior to age 65. The disability benefit is converted to a normal retirement benefit of an equal amount at age 65.

North: The minimum pension amount for employees eligible for disability pension who have at least 15 years of service at retirement is \$400 per month. The minimum pension is reduced if paid in a form other than a life annuity. The minimum benefit is not reduced if commencement occurs before the unreduced retirement age.

Preretirement Death Benefit

Eligible

Death of vested participants who die before payments commence.

Death benefit

North and South participants without Service on and After August 6, 2000

North: Upon the death of a deferred vested participant who did not waive the preretirement survivor's benefit, the participant's spouse will be eligible for a benefit equal to 50% of the participant's accrued benefit deferred to the later of the earliest age when the deferred vested pension would have been payable and the current age. This benefit is reduced for early commencement and the cost of a 50% survivor annuity.

South: Upon the death of an active employee not eligible for immediate retirement and with less than 15 years of service, or a vested former employee who terminated employment after 1975, 44% of the accrued benefit payable at the time the participant would have attained age 65. If earlier commencement is elected, benefit is the amount that would have been payable to the spouse if participant terminated employment, survived to the commencement date, retired with a 50% Joint and Survivor Annuity, and then died.

North and South participants with Service on and After August 6, 2000

North: Active Employees – Upon the death of an active participant, the participant's spouse or named beneficiary will be eligible for a benefit equal to 65% of the participant's accrued benefit payable immediately. This benefit is further reduced for the cost of a 65% survivor annuity. (A 50% survivor annuity is provided for non-spouse beneficiaries more than 25 years younger than the participant.)

North: Deferred Vested Employees – Upon the death of a deferred vested participant who did not waive the preretirement survivor's benefit, the participant's spouse or named beneficiary will be eligible for a benefit equal to 65% of the participant's accrued benefit deferred to the later of the earliest age when the deferred vested pension would have been payable and the current age. This benefit is reduced for early commencement and the cost of a 65% survivor annuity. (As above, a 50% survivor benefit is provided for non-spouse beneficiaries more than 25 years younger than the participant.)

South: Active Employees Eligible for Early or Normal Retirement or with 15 or More Years of Service – the participant's spouse or named beneficiary will be eligible for a benefit equal to 65% of the participant's accrued benefit payable immediately. This benefit is further reduced for the cost of a 65% survivor annuity. (A 50% survivor annuity is provided for non-spouse beneficiaries more than 25 years younger than the participant.)

Active Employees Not Eligible for Early or Normal Retirement or with Fewer than 15 Years of Service – the participant's spouse or named beneficiary will be eligible for a benefit equal to 65% of the participant's accrued benefit deferred to the later of the earliest age when the deferred vested pension would have been payable and the current age. This benefit is reduced for early commencement and the cost of a 65% survivor annuity. (As above, a 50% survivor benefit is provided for non-spouse beneficiaries more than 25 years younger than the participant.)

Enterprise: If the deceased participant was an active employee or a vested former participant who terminated after the plan's effective date, the death benefit is the greater of the full value of the Cash Balance Account or a 50% survivor benefit under alternative formulas.

Sickness Death Benefit

North: Employee's mandatory beneficiary receives a benefit equal to one year's pay based on pay on the earlier of the employee's retirement date and December 31, 1986.

South: One year's pay based on pay on the earlier of the employee's death or retirement, subject to a maximum of \$39,000. Participant must have been eligible as of 8/9/1986.

Enterprise: Mandatory beneficiaries of all active and retired employees hired before April 1, 1991 and retired before January 1, 2002 are eligible if death occurs from an illness or an off-the-job accident. Participants who received a 100% cash-out in 1993, 1994, or 1995 and make an election to receive this benefit from another source are excluded. Benefit equals one year's pay based on pay on the earlier of the employee's retirement date and December 31, 1991.

Forms of Payment

Normal form

Single participants: Life Annuity.

Married participants: 50% Joint-and-Survivor Annuity with the spouse as the survivor.

Optional forms

North: 50%, 75%, and 100% joint and survivor annuities, and 5-year and 10-year certain and life annuities. The cost of the survivor annuity depends on the difference between the employee's and beneficiary's ages. The cost of the survivor annuity is restored to the employee's pension if the beneficiary predeceases the employee. Benefit amounts are reduced 2% for the cost of the 5-year certain and life annuity and 6.5% for the 10-year certain and life annuity.

South: 50% joint and survivor annuity, reduced 10% (reduced 12% for vested former participants and 15% for vested former participants terminated prior to December 27, 1992), 60% joint and survivor annuity, reduced 12%, or 70% joint and survivor annuity, reduced 14%. The reduction is restored to the employee's pension if the beneficiary predeceases the employee.

North and South: Vested participants and retirees terminating employment during the period November 1, 2004 through December 31, 2008 can elect to receive 100% of the benefit in the form of a lump sum. During 2008 this form of benefit was extended until 2009 for South Associates and until 2013 for North Associates.

North and South: For any form of payment with a beneficiary, with a spouse's consent, a parent, grandparent, brother, sister, or an unmarried child may be an eligible beneficiary provided they are dependent upon the employee for support.

Enterprise:

Lump-sum cash out.

Combination annuity and lump-sum cash out. Designated amount in 10% increments (up to 50%) paid as a lump-sum cash out and the remaining portion distributed in any of normal or optional payment forms.

33-1/3%, 50%, 66-2/3% or 100% Joint-and-Survivor with designated beneficiary as the survivor.

50%, 75% or 100% Joint-and-Survivor with designated beneficiary as survivor with monthly payments restored to the life annuity level if the beneficiary predeceases the participant (pop-up).

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

The Employee Benefits Committee
SuperMedia Pension Plan for Collectively Bargained Employees

We were engaged to audit the accompanying statements of net assets available for benefits of the SuperMedia Pension Plan for Collectively Bargained Employees as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 6, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee, as of December 31, 2011 and 2010, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SuperMedia Pension Plan for Collectively Bargained Employees

Notes to Financial Statements

December 31, 2011

1. Description of Plan

The following description of the SuperMedia Pension Plan for Collectively Bargained Employees (the Plan) provides general information about the Plan's provisions. SuperMedia, Inc. and its affiliates (the Company) is the plan sponsor. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a cash balance defined benefit plan established for the purpose of providing retirement benefits for eligible employees and former employees of the Company, as defined by the Plan. Effective January 1, 2006, the Plan was closed to new hires.

The Plan is subject to the provisions of the Employee Retirement Income Security Act, as amended (ERISA). The Employee Benefits Committee (the Committee) is responsible for the general administration of the Plan.

Pension Benefits

Benefits are credited to the benefit of the participant under one or more benefit formulas set forth in the Plan. Benefits available depend on the service and the legacy employer of the participant. Generally, there is a (i) cash balance formula, (ii) highest average pay formula, (iii) grandfathered GTE benefit formula, and (iv) grandfathered Bell Atlantic formula.

Death and Disability Benefits

Death benefits are based on the greater of the combined value of the participant's cash balance account and any unconverted annuity benefit; or, if the participant was a former GTE employee with Change in Control protection, the value of the 50% survivor benefit.

If an employee becomes disabled, he or she may continue to earn benefits under the Plan or receive an unreduced pension.

Vesting

A participant is fully vested upon completion of five years of vesting service or if employed at normal retirement age. Effective January 1, 2008, certain participants as defined by the plan document are vested in their cash balance accounts after three years of service.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

Subsequent Events

Subsequent events have been evaluated through September 19, 2012, the date of the financial statements were available to be issued.

Use of Estimates

The accompanying financial statements have been prepared in conformity with U.S. GAAP, which requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Payments of Benefits

Benefits paid directly to participants are recorded upon distribution.

Investment Valuation and Income Recognition

The Plan participates in the SuperMedia Inc. Master Trust (Master Trust) along with the SuperMedia Pension Plan for Management Employees. Each participating plan has an undivided interest in the Master Trust. The assets of the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion and disclosures related to fair value measurements. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

SuperMedia Pension Plan for Collectively Bargained Employees

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Administrative expenses related to the Master Trust are allocated to the Plan and are reflected in the net investment gain from the Master Trust. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses are paid by the Company on behalf of the Plan.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended Accounting Standards Codification (ASC) 820 International Financial Reporting Standards, *Fair Value Measurements and Disclosures*, to clarify certain existing fair value disclosures and require a number of additional disclosures. The requirement to present changes in Level 3 measurements on a gross basis is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

2. Summary of Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the services employees have rendered.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent third-party actuary. This value is computed by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Significant assumptions underlying the actuarial valuation are as follows:

Interest rate	7.0% at December 31, 2010 and 2009
Average retirement age	62 and 65 at December 31, 2010 and 2009, respectively
Mortality basis	IRS prescribed 2011 Static Mortality Table as of December 31, 2010 and IRS prescribed 2010 Static Mortality Table as of December 31, 2009

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. See Note 5 for additional information related to the actuarial present value of accumulated plan benefits.

SuperMedia Pension Plan for Collectively Bargained Employees

Notes to Financial Statements (continued)

3. Funding Policy

It is the Company's policy to make contributions to the Plan sufficient to comply with the minimum funding standards imposed by the Internal Revenue Code (IRC). The Company's contributions shall be determined annually, or more frequently, by the Board of Directors of the Company. Each contribution made to the Plan shall be made on the condition that it is currently deductible under section 404 of the IRC for the taxable year with respect to which the contribution is made. The Company has met the minimum funding requirements of ERISA for plan years 2011 and 2010.

4. Plan Termination

Although it has not expressed an intention to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations and the plan document, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (vested benefits not insured by the PBGC).
- d. All non-vested benefits.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for, while other benefits may not be provided for at all.

Notes to Financial Statements (continued)

5. Actuarial Present Value of Accumulated Plan Benefits

The actuarially computed present value of accumulated plan benefits calculated by independent third-party actuaries as of December 31, 2010, is as follows:

Vested benefits:	
Participants currently receiving payments	\$ 93,976,371
Other participants	57,535,880
	<u>151,512,251</u>
Non-vested benefits	5,567,923
Total actuarial present value of accumulated plan benefits	<u>\$ 157,080,174</u>

The change in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 169,806,444
Increase (decrease) during the year attributable to:	
Effect of assumption changes	1,079,105
Benefits accumulated	2,675,038
Increase for interest due to the decrease in the discount period	10,927,185
Benefits paid	<u>(27,407,598)</u>
Net decrease	<u>(12,726,270)</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 157,080,174</u>

6. Interest in SuperMedia Inc. Master Trust

All investment information for the Plan and the Master Trust disclosed in the accompanying financial statements, including the Plan interest in SuperMedia Inc. 6. Interest in SuperMedia Inc. Master Trust (continued)

At December 31, 2011 and 2010, the Plan's interest in the net assets of the Master Trust was approximately 31.1% and 30.0%, respectively. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. The Master Trust is authorized to charge and collect from the fund expenses incurred, unless such expenses are paid directly by the Company.

The following schedules reflect the Master Trust's net assets and net investment income (loss):

Fair Value Measurements

In accordance with the authoritative guidance on fair value measurements and disclosures under U.S. GAAP, the Master Trust discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (Level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

Level 1 – Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 – Level 2 inputs utilize inputs other than quoted prices included in Level 1 that are observable for an asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets and inputs other than quoted prices that are observable for an asset or liability.

Level 3 – Level 3 inputs are unobservable inputs for the asset or liability and include situations where there is little, if any, market activity for the asset or liability.

6. Interest in SuperMedia Inc. Master Trust (continued)

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Committee. The Committee considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Transfers between levels are recognized at the end of the reporting period.

Following is a description of the valuation methodologies used for the Master Trust financial assets measured at fair value.

State Street Bank and Trust Company Government Short Term Investment Fund (the STIF): Valued at net asset value based on the fair value of the underlying investments of the trust as determined by the sponsor of such trust.

Fixed income securities: United States Treasury bonds, corporate bonds, and municipal bonds are valued based on closing prices reported on the last business day of the plan year in the active market in which the security is traded.

While these securities are usually traded in active markets, they may not trade with sufficient frequency to rely on a single price of the same security. As such, broker quotes may be used based on similar assets in active markets.

Hedge funds: Valued at net asset value (NAV) as determined and reported by the general partners of the fund and validated by third-party service providers. Additionally, the hedge funds are audited annually.

Interest rate swaps: Unrealized gains or losses on swap contracts are calculated by taking the difference between the present value of the estimated future cash flows to be received and paid pursuant to the terms of the swap contracts as of the valuation date. Interest rate swaps are valued by using quoted inputs on the valuation date, such as specific yield curves and volatility quotes. The Master Trust's investment manager has a counterparty approval process that ensures that all counterparties meet minimum credit ratings. The interest rate swaps are traded under the terms of an International Swaps and Derivatives Association agreement and accompanying Credit Support Annex, which further provides assurance that the counterparties meet the required credit quality. The Plan's investment manager minimizes credit risk by collateralizing the interest rate swaps.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Committee believes the Master Trust's valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Company previously classified U.S. Treasury, corporate, and municipal bonds as Level 1 investments. The Company has determined that these investments are based on observable inputs and, therefore, should be categorized as Level 2 investments. Accordingly, for prior periods, these investments have been properly presented as Level 2. The reclassification of these investments had no impact on their fair values.

Additional information about the STIF and hedge fund investments follows.

STIF

The STIF is an open-ended investment in a fund that invests in a diversified portfolio of U.S. government securities. The investment strategy is to provide safety of principal, daily liquidity, and a competitive yield by industry. There are no redemption restrictions on this investment.

Hedge Fund Investments

The Master Trusts holds hedge fund investments that are made through limited partnership interests in various hedge funds that employ different trading strategies. Below are the categories and strategies followed by the hedge funds. As of December 31, 2011, no hedge fund made up more than 3.0% of total pension assets and there are no unfunded commitments. In addition, the Master Trust has redemption rights with respect to hedge fund investments that range up to three years.

Directional

A directional strategy entails taking a net long or short position in a market, requiring forecasting the movement of the market.

Macro – These funds are leveraged investments on anticipated price movements of stock markets, interest rates, foreign exchange, and physical commodities.

Equity long/short opportunistic – These funds consist of a core holding of long equities hedged at all times with short sales of stocks and/or stock index options.

Other directional – These funds are invested in a broad group of directional strategies, often with little hedging.

Relative value

This strategy is intended to take advantage of mispricing between two related and often correlated securities.

Statistical arbitrage – The funds in this strategy profit from temporary pricing discrepancies between related securities. The discrepancies offer an opportunity to take a long position on the cheaper security and to short the more expensive one in an attempt to profit as the prices of the two revert to their norm, or mean.

Equity long/short high hedge – These funds seek to profit from pricing inefficiencies between related equity securities, neutralizing exposure to market risk by combining long and short positions.

Event driven

This strategy uses different investment approaches to profit from reaction to various events.

Distressed – These funds invest in, and may sell short, the securities of companies where the security's price has been, or is expected to be, affected by a distressed situation such as a bankruptcy or corporate restructuring.

Event driven credit – These funds invest in debt securities created by significant transactional events such as spin-offs, mergers and acquisitions, bankruptcy reorganizations, and recapitalizations.

Restructuring and value – These funds invest in restructuring companies that are undergoing significant corporate events such as spin-offs, recapitalizations, litigation events, strategic realignment, and other major changes. It also includes “value” investments in securities that are believed to be underpriced relative to their intrinsic or fundamental value or which are expected to appreciate in value if circumstances change or an anticipated event occurs.

Derivatives

The Master Trust invests in interest rate swaps, which are considered derivative instruments. Interest rate swaps held by the Master Trust are used to reduce and /or mitigate interest rate risk.

At December 31, 2011 and 2010, the Master Trust held 15 and 35 interest rate swap agreements, respectively, with Goldman Sachs International (the counterparty) with a total notional amount of approximately \$339 million and \$484 million, respectively. According to the terms of the interest rate swap agreements, value is based on the difference between a fixed interest rate and a variable interest rate, reflected in the most current yield curve, over an agreed period of time. The fixed interest rate is established at the beginning of the transaction, while the variable rate used is based primarily on the London Interbank Offered Rate.

The interest rate swaps in an asset position were \$350,930,981 and \$497,345,338 at December 31, 2011 and 2010, respectively, and interest rate swaps in a liability position were \$325,156,651 and \$484,697,477 at December 31, 2011 and 2010, respectively, resulting in a net asset position of \$25,774,330 at December 31, 2011, and a net liability position of \$12,647,861 at December 31, 2010.

The net position is recorded at fair value on the statements of net assets available for benefits in Plan interest in SuperMedia, Inc. Master Trust with changes in fair values reported in the statements of changes in net assets available for benefits in net investment gain from Plan interest in SuperMedia, Inc. Master Trust. Futures Contracts

As of December 31, 2011, the Master Trust utilized fixed income exchange-traded futures contracts to hedge the Plans' fixed income assets from adverse movements of interest rates, and to augment returns by allowing the stressing of certain areas of maturity when those areas are identified as being unusually high yield or low yield. On behalf of the Master Trust, investment managers enter into various futures contracts to economically hedge investments in domestic securities. These contracts, which are considered derivatives under ASC 815, *Derivatives and Hedging*, are agreements between two parties to buy or sell a security or financial interest at a set price on a future date and are standardized and exchange-traded. Upon entering into such a contract on behalf of the Master Trust, the investment manager is required to pledge to the broker an amount of cash or securities equal to the minimum "initial margin" requirements of the exchange on which the contract is traded. Pursuant to the contract, the investment manager agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margins and are recorded on a daily basis by the Trustee as realized gains or losses equal to the difference in the value of the contract between daily closing prices.

The following tables present open futures contracts at December 31, 2011 and 2010. The fair values presented in these tables include cumulative appreciation (depreciation) of futures contracts, but only the current day's variation margin receivable/payable is reported in the statements of net assets available for benefits.

7. Tax Status

The Plan has applied for a determination letter from the Internal Revenue Service (IRS) but has not received a ruling on the Plan's qualified status from the IRS. However, the Plan administrator believes that the Plan has been designed to comply with the requirement of the IRC and has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the IRC.

Accounting principles generally accepted in the United States of America require management of the Plan to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that, more likely than not, would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Related-Party Transactions

Certain of the Plan's assets in the Master Trust are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

11. Commitments and Contingencies

On November 25, 2009, three former Bell retirees filed a putative class action against the Company's and Verizon's pension plans and the Company's and Verizon's Employee Benefits Committees. All three named plaintiffs are receiving the single life monthly annuity. All complain that Verizon transferred them against their will from the Verizon pension plans to the Idearc pension plans at or near the spin. The complaint alleges that both the Verizon and Company defendants failed to provide requested plan documents, which would entitle the plaintiffs to statutory penalties under ERISA; that both the Verizon and Company defendants breached their fiduciary duty for refusal to disclose pension plan information; and other class action counts aimed directly at the Verizon defendants. The plaintiffs seek class action status only against Verizon, statutory penalties, damages and a reversal of the employee transfers. On January 6, 2010, plaintiffs filed an amended complaint without prior court approval adding Idearc Inc. as a party, and subsequently the court dismissed Idearc Inc. On March 10, 2010, the Company defendants filed their motion to dismiss the plaintiffs' complaint. On October 18, 2010, the Court ruled on the motion dismissing all the claims against the Company pension plans and all the claims against the Company Employee Benefits Committee (the EBC) relating to production of documents and statutory penalties for failure to produce same. The only claims remaining are procedural ERISA claims against the EBC. The EBC filed its answer, moved to dismiss one of the two remaining claims against it and filed a motion for summary judgment. Pursuant to an agreement between the Verizon defendants and the plaintiffs, the court entered an agreed order certifying the class against the Verizon defendants. On March 26, 2012, the Court denied the Company defendants' motion to dismiss. The parties' summary judgments remain

pending. The Company plans to honor its indemnification obligations and vigorously defend the lawsuit on the defendants' behalf. The Company has notified the carrier of this action. An estimate of the possible loss cannot be made as of December 31, 2011.

On June 26, 2012, the Company filed a class action in the US District Court, Northern District of Texas, Dallas Division where the Company seeks a declaratory judgment concerning the Company's right to enact several amendments that were recently made to its retiree health and welfare benefit plans, and more generally the Company's right to modify, amend or terminate these plans. The deadline for filing a responsive pleading by the defendants has not yet passed, and no defendant has made an appearance. On July 10, 2012, the Court consolidated this new case with the existing ERISA case described above.

The Company has notified the carrier of this action. An estimate of the possible loss cannot be made as of December 31, 2011.

12. Subsequent Events

During 2012, the Company agreed with the Communications Workers of America representing participants of Part One of the Plan that pension accrual service in the Plan ceases December 31, 2012. Vesting and net credited service will be used for any applicable early retirement milestone/subsidiary as long as the affected participant remains employed by the Company. This action is not reflected in the present value of accumulated plan benefit obligation as of December 31, 2010.

Merger Agreement with Dex One Corporation

On August 20, 2012, the Company, Dex One Corporation, a Delaware corporation (Dex), Newdex, Inc., a Delaware corporation and a direct wholly owned subsidiary of Dex (Newco) and Spruce Acquisition Sub, Inc., a Delaware corporation and a direct wholly owned subsidiary of Newco (Merger Sub), entered into an Agreement and Plan of Merger (the Merger Agreement), providing for a "merger of equals" business combination of SuperMedia and Dex. The Merger Agreement provides that, upon the terms and subject to the conditions set forth in the Merger Agreement, Dex will be merged with and into Newco with Newco continuing as the surviving corporation and Merger Sub will be merged with and into SuperMedia with SuperMedia continuing as the surviving corporation (collectively, the Mergers). As a result of the Mergers, Newco will become a newly listed company and SuperMedia will become a direct wholly owned subsidiary of Newco.

Notes to Financial Statements (continued)

12. Subsequent Events (continued)

Subject to the terms of the Merger Agreement, at the effective time of the Mergers, (i) each outstanding share of Dex common stock (other than shares held by SuperMedia, Dex, Newco or any of their respective subsidiaries) will be converted into the right to receive 0.20 shares of Newco common stock, par value \$0.001 per share (the Newco Common Stock), which reflects a 1-for-5 reverse stock split of Dex common stock and (ii) each outstanding share of SuperMedia common stock (other than shares held by SuperMedia, Dex, Newco or any of their respective subsidiaries) will be converted into the right to receive 0.4386 shares of Newco Common Stock. Outstanding SuperMedia stock options will be cancelled at the effective time of the Mergers and, to the extent that SuperMedia's closing stock price on the date of the Mergers exceeds the option strike price, will be settled in cash. All other outstanding SuperMedia equity awards will generally convert into Newco Common Stock, after giving effect to the exchange ratio. After the consummation of the Mergers, current SuperMedia stockholders will own approximately 40% of the combined company and current Dex stockholders will own approximately 60% of the combined company. The effects of the Mergers on the Plan are not yet known.

Completion of the Mergers is subject to certain conditions and is anticipated to occur in the fourth quarter of 2012, although in light of the necessary lender and stockholder approvals there can be no assurance the Mergers will occur within the expected time frame or at all.
